How to Measure for Men's, Women's and Children's Wearing Apparel

A page of instructions showing how to measure and what measurements to give, tables of sizes and other necessary information for all the various kinds of Wearing Apparel—Clothing, Working Garments, Hats, Gloves, Underwear and Hosiery. This page must not be used as an order blank but as a page for information only.

Measurements for Men's Ready Made Suits or Overcoats and Boys' or Youths' Long Pants Suits or Overcoats.

Height	Weight	Age

COAT or OVERCOAT

Be sure to state suit or overcoat style number.

Stand in your natural way, breathe regularly, and don't expand chest; also take everything bulky out of your pockets.

Breast—Around body at breast, close up under arms at 1, snug but not tight. Tape should be over shoulder blades at the back (measure over vest only) .... Inches

Waist—All around body at waist at 2. Waist line is just above hip bones. Always feel sides for location of hip bones (measure over vest only) .... Inches

Sleeve—Take sleeve measurements with your coat on. From middle of back at 3 to elbow at 4 .... Inches

Sleeve—From middle of back at 3 to wrist joint at 5, giving full length of arm .... Inches

Style No. ____

VEST.

(These measurements must be taken over the vest.)

Breast—Around the body at breast, close up under arms at 1, snug but not tight. Tape should be over the shoulder blades at back (measure over vest only) .... Inches

Waist—All around body at waist at 2. Waist line is just above hip bones. Always feel sides for location of hip bones (measure over vest only) .... Inches

PANTS.

(Now turn up your vest.)

Now stand erect and draw pants well up in the crotch.

Waist—All around body at waist over pants at 6. Waist line is just above hip bones. Always feel sides for location of hip bones .... Inches

Inseam—From close up in crotch at 7 to heel seam of shoe at 8 .... Inches

NECESSARY INFORMATION FOR BOYS' CLOTHING.

TWO-PIECE OR THREE-PIECE KNEE PANTS SUITS, OVERCOATS, LITTLE FELLOWS' SUITS OR OVERCOATS—Simply state age and say whether the boy is large, small or of average size for his age.

MEASUREMENTS FOR MEN'S AND YOUTHS' CLOTHING.

SUITS. State all the measurements for coat, vest and pants as shown on the form to the left.

COATS. State breast, waist and sleeve measurements.

OVERCOATS. State breast, waist and sleeve measurements.

VESTS. State breast and waist measurements.

PANTS. State waist measurement and length of inseam.

OVERALLS AND WORKING PANTS, HUNTING PANTS. State waist measure and length of inseam.

MACKINTOSHES, RUBBER COATS, OILED SLICKER COATS, HUNTING CLOTHING, DUCK, FUR AND LEATHER COATS AND OTHER WORKING COATS. State breast measurement.

In addition to the foregoing measurements always state height, weight and age.

MEASUREMENTS FOR MEN'S UNDERWEAR.

UNDERSHIRTS. State breast measure.

DRAWERS. State waist measure.

UNION SUITS. State breast measure; also measurement from center of right shoulder down the front through crotch and up the back around to starting point (center of right shoulder) thus giving trunk measure.

MEN'S SOCKS—State Size of Socks.

SCALE OF SIZES.

Size of shoe	5½-6	6½-7	7½-8	8½-9	9½-10-10½	11
Size of socks	9½	10	10½	11	11½	12

MEASUREMENTS FOR MEN'S AND BOYS' HATS.

Measure your head as here illustrated and send us either this measurement in inches or compare the number of inches your head measures with this scale of hat sizes and send us the hat size you wear.

Boys' Sizes, 6⅜ to 7⅛.

Hat Sizes	Around Head, Inches	Hat Sizes	Around Head, Inches
6⅜	19¾	6¾	21
6½	20¼	6⅞	21⅜
6⅝	20⅞	7	21¾

Men's Sizes, 6¾ to 7¾.

Hat Sizes	Around Head, Inches	Hat Sizes	Around Head, Inches
7⅛	22⅛	7½	23¼
7¼	22½	7⅝	23¾
7⅜	22⅞	7¾	24¼

MEASUREMENTS FOR MEN'S OR LADIES' GLOVES.

HOLD HAND OUT FLAT WITH FINGERS TOUCHING, THUMB RAISED; draw tape close but not tight, as shown in illustration (do not include thumb). The number of inches that your hand measures around at the knuckles is the correct size of your gloves. ALWAYS STATE SIZE AND COLOR WANTED.

Sizes for gloves are as follows:

Ladies' Sizes in Fabric, Knitted Yarn and Fleece Lined Kid Gloves: 6, 6½, 7, 7½, 8, 8½.

Ladies' Sizes in Unlined Kid Gloves: 6, 6¼, 6½, 6¾, 7, 7¼, 7½, 7¾, 8.

Men's Sizes: 7½, 7¾, 8, 8¼, 8½, 8¾, 9, 9½, 10, 10½.

Measurement Form for Ladies' and Misses' Tailored Suits, Cloaks, Skirts, Dresses, Waists and Capes.

Use a tape or cord around your waist in order that you may properly locate the waist line. This is important.

Be sure that your tape line is accurate. Then measure over a tight fitting waist lining, allowance for seams, according to the following directions:

Height	Weight	Age

Measurements for Jacket, Waist, Dressing Sacque, Etc.

BUST MEASURE—Measure all around body as per line marked **A**, over the fullest part of bust, underneath arms and well up on the shoulder blades at back. Don't take this measure just across the front, but take it all around body .... Inches

SLEEVE LENGTH—Measure from armhole at **B** along inside sleeve seam to wrist at **C** with arm held as shown in illustration .... Inches

LENGTH OF BACK—Measure from back of neck at **F** down back to waist line **D** .... Inches

Measurements for Skirt.

WAIST MEASURE—Remove outside belt and measure all around body at waist as per line marked **D**. Do not allow for lap or dip front .... Inches

HIP MEASURE—Measure all around body at hips as per line marked **E**. This line is about 6 inches below waist line. Be careful that tape does not slip up or down .... Inches

FRONT LENGTH OF SKIRT—Measure from waist line **D** down the front of skirt to **H**. This measurement should be taken from waist to within 2 or 3 inches from the floor for ladies' skirts, and 8 to 10 inches from the floor for misses' skirts. Do not take measure from waist line to the floor, as this makes the skirt entirely too long .... Inches

SIDE LENGTH OF SKIRT—Measure from waist line **D** down side of skirt to **I** .... Inches

BACK LENGTH OF SKIRT—Measure from waist line **D** down back of skirt to **G** .... Inches

IMPORTANT—Always have the sizes we furnish. We can furnish the sizes we specify in the various pages of wearing apparel.

This Page Must Not Be Used as an Order Blank but as a Page for Information Only.

MEASUREMENTS FOR LADIES' AND MISSES' CLOTHING.

SUITS. State all the measurements in the form shown to the left.

COATS OR JACKETS (cloth or fur). State bust and waist measurements, sleeve length and length in back.

CAPES (cloth or fur). State bust measure and number of inches around neck.

SKIRTS. State waist and hip measurements and length of skirt in front and back. Ladies' skirts should be about 2 or 3 inches from ground; misses' skirts usually 8 or 10 inches from ground.

SWEATERS. State bust measure.

WAISTS. State bust measure.

WRAPPERS. State bust measure.

NIGHTGOWNS. State bust measure.

CORSET COVERS. State bust measure.

DRESSING SACQUES, KIMONOS AND ROBES. State bust measure.

MUSLIN DRAWERS. State length and style desired when open and closed styles are quoted.

PETTICOATS AND UNDERSKIRTS. State length.

LADIES' AND MISSES' KNIT UNDERWEAR.

State Size or Bust Measure.

SCALE OF SIZES.

Size 4 for bust 32 inches.
Size 5 for bust 34 and 36 inches.
Size 6 for bust 38 and 40 inches.
Size 7 for bust 42 inches.
Size 8 for bust 44 inches.
Size 9 for bust 46 and 48 inches.

WOMEN'S STOCKINGS—State Size of Stockings.

SCALE OF SIZES.

Size of shoe	1 and 2	3 and 4	5 and 6	7
Size of hose	8½	9	9½	10

NECESSARY MEASUREMENTS OR INFORMATION FOR GIRLS' CLOTHING.

COATS AND REEFERS. State age and whether large or small for age; also state bust measure.

SWEATERS. State age.

FUR SETS. State age.

UNDERSKIRTS. State age.

DRAWERS. State age.

DRESSES. State age of child and back length from neck to hem.

CHILDREN'S AND MISSES' UNDERWEAR.

SCALE OF SIZES.

VESTS.

Size, inches	For Age, Years	Size, inches	For Age, Years
18	1 to 1½	28	8 to 10
20	1½ to 2	30	10 to 12
22	2 to 4	32	12 to 13
24	4 to 6	34	13 to 14
26	6 to 8		

PANTALETS.

Size, inches	For Age, Years	Size, inches	For Age, Years
18	1½ to 2	28	10 to 12
20	2 to 4	30	12
22	4 to 6	32	13
24	6 to 8	34	14
26	8 to 10		

CHILDREN'S STOCKINGS—State Size of Stockings.

SCALE OF SIZES.

Tombstones and Monuments of Granite and Marble

Send for this big Book of Tombstones and Monuments. It contains a wonderful saving in prices and is an encyclopedia of facts, giving you a perfect knowledge of the cost of granite and marble tombstones and monuments, the cost of material and labor necessary to produce from the finest marble and most of hard granites the beautiful memorials illustrated in its pages; also all the reasons why you should not pay the prices ordinarily asked for less artistic designs, less elaborate carving, and lower quality of stone than we use in producing granite and marble memorials at prices within the reach of rich and poor alike. It is a big book, beautifully illustrated with photographic halftones direct from photographs of the monuments, tombstones and tombstones themselves, just as they will appear when erected in cemetery. It illustrates and quotes wonderfully low prices on the most complete assortment of ornamental fencing for cemeteries, cemetery lots and ornamental settees for lawns and cemeteries. This big, attractive book of 665 pages, with its beautiful illustrations of memorial art and its fund of information, stamp it as the buyers' greatest helper, whether you buy from us or someone else. It gives full and accurate measurements and descriptions of the largest, handsomest and most beautiful line of designs in monuments and tombstones ever combined in a single catalog. Whether you order from us or someone else, our book of memorials in granite and marble will give you a fund of information indispensable to making your selection, and the prices we quote will give you an accurate knowledge of the real value of the stone you intend to purchase.

Barre Granite, $3.98

Satisfaction guaranteed or money returned to you. We will make to order any tombstone or monument illustrated on this page or on the pages of our big free Tombstone Catalog, and ship it to you with the distinct understanding and agreement that if it is not all and more than we claim for it, finished exactly as illustrated and described, lettered exactly as you have ordered it, does not reach you free from mar, scratch or injury in transportation, you may hold it subject to our disposal at our own total loss, and we will return you the money you have remitted us, together with any freight charges you may have paid. This places all the risk on us, and should convince you that you cannot afford to order a tombstone or monument elsewhere without first carefully reading through the pages of our big tombstone and monument book of information.

We illustrate here a few of the many splendid values to be found in our special Catalog of Tombstones and Monuments (lettering extra), all boxed and delivered on the cars at the works in Vermont.

VULCAN FIREPROO

SHIPPED DIRECT FROM OUR FACTORY AT NEWARK, OHIO.

OUR LINE OF FIREPROOF SAFES IS COMPLETE. If you do not see the size or style that you want on these pages, write for our special Safe Catalog and it will be sent free. It shows our complete line with medium 4-inch or heavy 5½-inch walls; safes ranging in size from 15½ inches to 7 feet in height, with single and double doors; safes made special for large sets of books; Fireproof Safe with Burglar Proof Chest and Vault Fronts. It tells in detail of our improved method of construction; in fact, it is the most complete safe catalog ever issued. It contains information which every buyer of a safe should know, giving hints on the care of safes and tells all about the combination locks.

WE CAN BUILD SAFES TO ORDER with cabinet work arranged in any desired way, adding or removing drawers or pigeonholes and charging only actual cost of making change. If one of these safes is wanted with different cabinet work send diagram with sizes and we will tell you the additional cost, if any. Send for our special Safe Catalog before ordering if different cabinet is wanted. It shows many different styles.

NAME OF PURCHASER LETTERED IN GOLD OVER DOORS, FREE, when ordered, but not otherwise. If no lettering is desired, be sure to so state.

FREIGHT CHARGES. Safes are shipped from factory at Newark, Ohio, and take third class rate. Freight amounts to almost nothing compared with your saving in price. For example, third class freight for 200 miles will be about 15 to 20 cents per 100 pounds; 400 miles, 30 to 40 cents; 700 miles, 40 to 50 cents; 1,000 miles, 60 to 70 cents; from which you can figure very closely what freight will be.

WEIGHT. We give estimated weight of each safe as an aid in figuring freight charges. Exact weight cannot be given, as safes of same size will vary in weight, owing to the nature of fireproof filling.

SAFES ARE PACKED AND WRAPPED IN BURLAP FOR SHIPMENT, SO CANNOT BECOME MARRED OR DAMAGED. Each safe is wrapped in heavy paraffin paper, then padded with excelsior, finally being wrapped in burlap, so that you may be certain of receiving a safe in absolutely perfect condition. By our method of packing and shipping you are sure of obtaining a bright, new and freshly finished safe which has not been permitted to accumulate dirt or dust of any kind.

THE VULCAN CONSTRUCTION.

INTERLOCKING DOOR FLANGE AND TONGUE AND GROOVE OF DO one of the greatest improvements in safe construction which has ever been ma acknowledged by experts to be perfection in modern high grade safe constructio held on side farthest from hinges by heavy round bolts working forward and door frame. Outer plate of door has a tongue or lip extending around the sides, which fits snugly into a groove in the door frame, thus preventing ente smoke or flames. Hinge side of door frame has a projecting flange under w side of the door is held when closed. This holds the door perfectly rigid from and is far superior to the old style construction whereby only one bolt or lug hel the hinge side. It also serves to prevent the entrance of heat, smoke or flam for a more rigid construction than the old style.

BOLT WORK AND LOCK are fitted to inner edge or flange of door, wh mendous strength and is a much stronger construction than when these parts inside the outer plate of door. Inner steel door plates are removable, making or change combination. Bolt work is our special Vulcan construction, unusu simple and never gets out of order. Bolts are turned, polished and nickel pl connected with lock, operating independently by a cold rolled steel handle on Nos. 22F698 and 22F699 Junior Safes. Triplex Combination Locks are f all safes in this catalog except the Junior Safe, which has a simple high combination lock with three tumblers, and the Triumph Heavy Wall Safe page, which has the well known Yale Combination Lock.

BODY is one piece of tough wrought steel forming sides, top and bottom. with boiler rivets to the wrought steel front and back frames, which are one of bar steel. Bottom is made double for greater strength and rigidity. Back plate of selected wrought steel. Front of door is a solid plate of heavy harv steel. This construction gives enormous strength and avoids breaking open b or being crushed by heavy timbers or falling walls.

CABINET WORK is handsomely finished in imitation cherry and varnish drawers are genuine oak. Cabinets are nicely carpeted, provided with subtre holes, drawers and book spaces as stated in descriptions.

JUNIOR FIREPROOF SAFE.

FOR JEWELRY AND VALUABLE PAPERS.

HAS 2-INCH FIREPROOF WALLS.

PIANOS AND ORGAN

Full Explanation of Our Thirty Days' Free Trial Offer. Complete Illustrations and Descripti the Entire Line of Superior Beckwith Pianos and Organs, Our Twenty-Five Year Full Protection Guarantee, Free Lessons, Etc.

THIRTY DAYS' FREE TRIAL.

We will ship any piano or organ the celebrated Beckwith make fo full thirty days' free trial in your own parlor. You need not send a penny w your order or deposit a penny in advance. If you decide to order a Beckwith trial you must read our liberal thirty days' free trial offer, explained below, fo complete understanding as to how to send your order.

SEND NO MONEY. **Deposit nothing in advance. We will ship any Beckwith Piano or Organ selected from these pages if it is ordered in the following manner:** Make your selection, mail the order to us without sending any money with your order, **but be sure to give us the name of the bank where you will deposit the cost of the instrument.** If you want us to pay the freight we will do so on request, but this must be included in your deposit. When the instrument arrives place the entire cost with your banker, who will give you the bill of lading. He will hold your money for you while you try the instrument for thirty days and, **at every moment of your thirty days' trial your money will be under your complete control.** If it is not satisfactory, send it back and every penny of your money will be returned by your banker under the terms of the Certificate of Deposit shown below. **We guarantee to hold you free of expense, freight, cartage, and all,** if the instrument is not satisfactory. If you decide to buy

CERTIFICATE OF DEPOSIT.

Town ———— State ———— Date ————

Received from Mr. ———— Dollars, in payment of Sears, Roebuck and Co.'s ————

We agree to hold this money until the instrument has been received by Mr. ————, residing in ————, and has had thirty days' trial, when we shall forward the amount to Sears, Roebuck and Co. If Mr. ———— is not perfectly satisfied we will return the money on surrender of the bill of lading, showing the instrument has been reconsigned.

———— Name of bank.

———— Your banker will sign here.

it at the end of thirty days, your bank will send us the money for it. **Remember, your thirty days' free trial begins ONLY from the day you receive the instrument.**

HAVE YOU A LOCAL FREIGHT AGENT? **If not, then give us the name of your nearest shipping point where there is an agent if you wish us to ship under our send no money offer.** The railroad companies will not accept shipments under this plan to points where they have no agent. If the money is sent with the order, with a sufficient amount to prepay the freight, it makes no difference whether you have an agent or not, for then we can ship in your name, charges prepaid.

OUR RESPONSIBILITY. **We refer you to the First National Bank of Chicago or any bank in the country,** and to our years of honest effort to serve our customers faithfully. The recommendation, however, of which we are the proudest is the confidence reposed in us by the millions of customers who patronize us constantly and who buy practically all of their supplies from us. Unquestionably you number among your neighbors many who are favoring us with their orders, and to them we refer you.

TO OUR CUSTOMERS. **While we make this send no money offer in good faith, we wish it understood that you are not compelled to order in this way.** You can send cash with your order just as you do now when ordering groceries, shoes and other necessities. If you are not completely satisfied every penny will be returned, **just as we return all money on any article that does not entirely satisfy you.** Our policy of returning the money if we do not please a customer is so well known that cash is practically always sent with the order for pianos and organs. Our customers know that they take no risk. They rely upon us to return the money, as we always do, if everything is not satisfactory, and upon our reputation of years' standing for honest dealing.

WE CAN'T AFFORD TO MISREPRESENT ANYTHING, **no matter how great or small it might be,** and if we don't completely satisfy you with a piano or an organ we don't want your money.

THE FREIGHT CHARGE IS NOT INCLUDED IN OUR PRICES. **You must add the freight charges to the low price quoted.** No matter what instrument you buy, or where you buy it, you pay the freight charge and all profits and expenses of every man who handles it on its journey to you. If anyone says you will have no freight to pay if you buy some other make he is misleading you, for you pay it just the same. To protect himself the one who sells must swell his profits so as to include the freight which he pays, as well as all his other expenses. The freight is a fixed charge and, under the Interstate Commerce Law, the agent pays the same amount as you do. The freight charge is absolutely nothing, however, when compared with the great saving our prices mean. We positively guarantee that after paying the freight and all expenses you will save at least one-half, if not more.

ONE-YEAR FREE TRIAL OFFER. **If you buy a Beckwith on thirty days' free trial, you have a perfect right to return it at any time within one year and get all your money if you are not entirely satisfied.** To every buyer of a Beckwith we send an **Agreement of Sale,** as shown below, which permits the return of any piano or organ ordered at any time during one year, if it is not satisfactory. We not only promise this to you, but we make it binding on us by voluntarily issuing this agreement. This is such absolute protection that practically all orders have the cash enclosed, for we always return all money on all goods that are not entirely satisfactory. This **Agreement of Sale** is such complete protection that practically everyone remits cash in full with the order, knowing that we are responsible and that we always fulfill our promises.

AGREEMENT OF SALE.

Between Sears, Roebuck and Co., of Chicago, and

It is hereby agreed that this instrument will be shipped to you for a complete thirty days' trial. If after a thirty days' trial you find it is entirely satisfactory in every way and decide to keep it, even then you are to have a perfect right to return it at any time within one year if for any reason it is not entirely satisfactory to you or not as represented by us, in which event we hereby bind ourselves to return all the money you have paid for the instrument and the freight charges. Should it prove unsatisfactory at any time, during the thirty days' trial, return it to us entirely at our expense and we will see that all money which may be advanced by you for the instrument and freight charges is immediately returned in full.

Your order is accepted subject to this binding agreement which is voluntarily made by us. Yours truly,

SEARS, ROEBUCK AND CO.
Piano and Organ Dept.

FACTORY SHIPMENTS. **All pianos organs are ped from the factory direct, under our supervision.** This assures the best attention your order, and does away with a large man's expense for handling, extra charges and other useless and unnecessary expense.

WHAT DOES OUR OFFER M **It surely means that if you intend to buy a piano or an organ, your personal demand that you try a Beckwith before yourself to any other instrument.** It means you can try a Beckwith without any risk ever on your part, and if our claim that save you half and more is true, then questionably would want to save this. It means that you have the opportunity proving the truth of every single statement claim we make, the truth of everything all at our risk. If you intend to buy piano or organ, then, as we guarantee

BOND OF INDEMNITY.

The Beckwith Pianos and Org

This certifies that the Beckwith is guaranteed twenty-five years against defect in material or ship. Should any piece or part prove defective terial or workmanship, or should any defect itself during twenty-five years that does not misuse, accident, moisture or extremes of tem we agree to replace it or repair the instrument at our expense during this entire period.

SEARS, ROEBUCK AN

you half and are willing that you try the instrument in your parlor for days' trial, under our send no money can't afford to pass our offer by.

OUR FULL PROTECTION GUAR **or Bond of Indemnity is your complete ing protection. It runs twenty-five covers every Beckwith Piano or Organ** copy of the liberal, binding, full twenty-five year guarantee or Bond nity is shown in this column, and we read every word of it. You are protected damage arising from imperfect workmanship during twenty-five years entire institution, our capital and back of this guarantee. If other dealers not confidence enough in their goods tee them in this way, or are unwilling tect you as we do, and will not sign ment permitting you to return any that is unsatisfactory during one year should they expect you to have confidence in what they offer to invest earned money in it?

FREE MUSIC LESSONS. **If you buy with Piano Organ after a thorough trial,** we will you to play it in a masterly manner cial arrangement with our factory we each purchaser a **free certificate** in the Correspondence School of Music in which will entitle you to **fifty free** There is not one cent charged for the the only expense of any nature to be a cost of 12½ cents a week, payable weeks or $1.00 in advance, to help cover of postage on music, the examination etc. The lessons themselves are entirely If you show proficiency and advance you have completed the course, you are titled to a Diploma of Merit, a distinction worth striving for.

FREE PIANO OR ORGAN CATALOG. **We will be glad to send you either our piano or organ book, whichever you may wish.** If you desire further information not found in these pages, write to the Manager of our Piano and Organ Department personally. In our special catalogs you will no doubt find finer halftone pictures, but **they are not pictures of any different or better instruments** than are shown here. There are no better inducements offered you, no more liberal terms of shipment or better prices or complete guarantee or promises. While **we will gladly send either one without cost,** yet you can safely order from these pages, telling us what kind of tone you wish, putting us on our honor to give you an instrument that will **fully satisfy you,** and if it does not, return it and get your money back.

WE STRONGLY SOLICIT YOUR O **from these pages.** Save the time it will take to write us for catalog, for all of our pianos and organs, our offers, guarantees, special inducements and best prices are shown here. further information we want you to have it, and in that case invite your correspondence. You who are reading this page already one of our customers. If so, it is unnecessary for that you can order from these pages in perfect safety and knowledge that you will find everything just exactly as described or if not that we will return your money.

$225 Beckwith Empire Concert Grand Piano

MAGNIFICENT INSTRUMENT **of most charming tone quality, with an action of extreme responsiveness,** fitted ...the most perfect example of the Empire style case ever offered, and sold at actual ...cost to make it, with but one narrow margin of profit added. Guaranteed to be ...equal of instruments sold through ordinary channels for as high as $400.00 to $500.00 ...more.

OUR PURPOSE HAS ALWAYS BEEN **to keep abreast of the times, to originate.** We believe that this ...instrument marks an epoch in piano building. It is distinctly a Beckwith idea ...embodies Beckwith quality in the fullest degree. Unless we knew that our claims for ...this were true in every way, could we afford to take the risk and send it to you ...on "any days' trial with the understanding that it could be returned entirely at our ...expense if you were not satisfied? If our claims were not true could we afford to make ...this agreement if you are not satisfied at any time during one year you can return it and ...get back your money? The fact that we make this agreement with you is the best evi-...dence to the world as to the high quality of the instrument and the truth of our claims. ...If our claims were not true, if you couldn't prove them to your entire satisfaction, we ...could not afford to make this sweeping, binding agreement. You take no risk whatever in ...allowing us to ship you a piano on trial.

THE EMPIRE TOP. **This instrument is fitted with an Empire top as are also the Special Concert Grand and Colonial Art Pianos.** This Em-...pire top is made in one solid piece, double veneered on both sides, and is fitted to the ...each large grand piano hinges. It can be held open by ingenious props on each ...side of the case. Underneath this Empire top the guarantee is emblazoned in gold and ...for your protection. On the illustration of the Special Concert Grand Piano on ...page 668 is a picture of the Empire top, supported by the props, to which your attention ...is called.

FINE VENEERS. **Furnished in finely figured mahogany, burled walnut or quarter sawed oak veneer. Be sure to mention veneer wanted.**

EVERYTHING ABOUT THIS PIANO IS HIGH GRADE. **There is not a piece or part inside or outside that won't bear the most careful scrutiny ...and most exhaustive test.** To see it is to admire it; to hear it is to be charmed with ...its tone; to examine it thoroughly is to be convinced of its high quality. The opportunity of seeing, hearing and examining it **is yours** under our liberal send no money offer, as fully explained on page 668.

SIZE. **4 feet 10 inches high, 2 feet 4 inches wide, 5 feet 7 inches long.** Shipping weight, about 1,075 pounds.

FREE. **A handsome four-legged piano stool** with adjustable seat, with brass claws and glass balls for feet, a fine velour scarf with genuine silk fringe, complete instruction book and fifty free lessons on the instrument, as fully described on page 668.

OUR SEND NO MONEY OFFER. **We will ship the piano to you without a penny being sent with the order or deposited in advance.** Practically all who now do business with us prefer to send cash with the order, just as they are sending cash when they order groceries or other common necessities. Our send no money offer is not designed for those who know us, but to anybody who prefers not to send money we will ship the piano, as fully explained in our send no money offer shown on the preceding page.

GUARANTEED FOR TWENTY-FIVE YEARS **by the strongest guarantee or Bond of Indemnity ever offered with an instrument.** This guarantee is shown in detail on page 668 and you should read every word of it so as to see how fully and completely you are protected.

REUBEN E. SANDERS,
Premium Poland China Hogs,
S. C. Barred Plymouth Rocks.
R. F. D. 1, Box 11, Montezuma, Iowa.

Sears, Roebuck and Co., Chicago, Ill.

I received the beautiful Beckwith last Monday. My two daughters who are music teachers were surprised at the beautiful tone, great volume and sweetness. An old time piano dealer helped me unbox it and he said it was the best toned piano he ever heard and that he was now convinced that price did not control quality.

Respectfully, REUBEN E. SANDERS.

46F15 Beckwith Empire Concert Grand Piano, with complete instruction book, stool and scarf, together with fifty free music lessons, as ...on page 668. Price..... **$225.00**

Digitized by Google

$225 DETAILED DESCRIPTION AND FULL ILLUSTRATIONS OF THE BECKWITH EMPIRE CONCERT GRAND PIANO

GUARANTEED TWE YEARS by the gra antee ever written, tects you against ar materials or workman all this time. Read ation of the provi guarantee and how it as explained in deta 668. If the piano is factory at any time year, send it back a your money.

A Standard Instrument of the Highest Grade at a Price Heretofore Unapproa

OUR PIANOS MUST SELL THEMSELVES; **we have no other salesmen than this catalog.** We don't need any. It would not add anything to the quality of the piano were we to have salesmen. It would merely increase the price. By doing away with all salesmen and all useless expenses of every nature we save you so much money that we can easily guarantee a saving of half or more on the purchase of a **high grade instrument.** We send the Beckwith Pianos out to our customers **on trial.** There is no salesman or interested friend on a commission basis to point out its good points. It stands or falls on its own merits alone, and if you are not satisfied that the Beckwith represents the **biggest value that you ever heard of,** if you are not satisfied that it is the logical piano for you to buy, we don't ask you to pay us a cent.

REMEMBER WE TAKE THE RISK. **If you buy a Beckwith Piano after a thirty days' test you cannot be mistaken in your choice,** because at any time during one year from the date of purchase you have a perfect right to send it back and get all of your money. This is no empty promise. This is not just salesmen's talk. It is a fact—an absolute fact. We mean it and if you buy a piano, we will send you an **Agreement of Sale** covering this point. Read the copy of our guarantee on page 668 and you will see that it thoroughly protects you. Everything is in **black and white**, and a copy of this guarantee goes out with every piano shipped. We gladly take the risk and we can offer you no better evidence of the high quality of this beautiful instrument than by pointing to the guarantee and the one-year privilege of return which is extended to every purchaser.

STRAIGHT FROM THE FACTORY **direct to you without a single hand touching the piano from the time it leaves the factory until it gets into your parlor.** There is no state agent, jobber, local agent or anyone else who gets a profit or commission in the deal. You save it all. In ordering a piano by mail from us you are **your own agent** and reap all the agents' profits, commissions and expenses. As we sell our pianos at actual factory cost with the same margin of profit added that is found on every article in this book, the narrowest margin, the smallest margin ever accepted by anyone; as our pianos are sold under our modern methods of merchandising we are in a position to **absolutely guarantee you** a saving of all of half or more. Our prices for high quality pianos mean so much in **real dollars saved** to you that you can't afford to overlook the offers made in this book.

THE COST OF MAKING A FINE PIANO **is not a great amount. All pianos are built with a foundation, a sounding board, a metal plate, strings, tuning pins, action, hammers, keys and case,** and if a manufacturer makes his pianos in large enough quantities and uses the highest grade skilled labor, and materials of first quality, **the original factory** cost is **not** a large amount. Add to this reasonable cost the same profit we accept on groceries or shoes and this explains to you how it is that we can sell a piano for $189.00, $195.00 or $225.00 that is equal to those *sold* by others **for as high is $400.00 to $500.00!** This is only one of the many departments in our *big* institution. Dividing the cost of carrying on this business among the great number of departments reduces the expense as it has never been reduced before. As we are satisfied with our well known one narrow margin of profit, we give this immense saving to you, as is evidenced by the low prices named. **A high price is not a guarantee of excellence.** We proved long ago that this idea is entirely wrong. Any piano made could be sold for very much less than the prevailing price if all middlemen's profits, expenses and commissions were done away with.

WHAT IS A STANDARD PIANO? **In the early infancy of the instrument a standard piano was made by but few factories.** Years ago, however, a **standard** was set for fine pianos, and today any instrument built up to this recognized quality is **standard.** No man or set of men at the present time can claim to have any special aptitude, special knowledge or mysterious process of building pianos which permits them to build better than their competitor, for the **science of acoustics is free to all.** The knowledge gained by the pioneers in the piano industry belongs to every one. It only remains for an honest and competent manufacturer to use high grade materials and high grade workmanship, following well established laws, to produce a **high grade, standard piano.** The truth is that such an instrument **can be made and sold at a low price** if made in quantities sufficient to reduce the initial cost, and then if sold with but one narrow margin of profit added, shipped direct from the factory to the customer, thus cutting out the usual zigzag journey through various hands and all the useless expense ordinarily attending this method of sale. Our methods have proved that a **standard guaranteed, accurate and satisfactory watch can be sold at a price heretofore unheard of.** We have proved the same regarding cream separators, buggies, stoves, sewing machines and numberless other articles of luxury and utility. These modern methods applied to the sale of a high grade, **standard** piano have taken it out of the class of luxury and placed it among the articles of daily necessity within the reach of everyone.

THE MAKING OF A PIANO **is an interesting process. Months are required for the proper completion of an instrument.** Following, we have endeavored to give in the simplest and most understandable form some of the most interesting processes in piano building. Many points are involved in piano making that would require pages to explain. We therefore have attempted to give those which are of most importance and we have also tried to make the explanation in as simple a manner as possible.

THE DRAWING OF A SCALE. **This is the lay out of the strings and bridges.** The scale is the fundamental principle of piano building. It indicates the length of each string, the exact position it shall occupy on the sounding board, the amount of bearing that shall be given it at the lower bridge as well as on the upper bridge, where these bridges are to be placed to secure the best tone results, where the strings must be struck so as to bring out the prime or fundamental tone without permitting the harmonics or upper partials to be heard. In some pianos this point is very carelessly watched and the consequence is the so called "tin pan" or metallic tone. A good scale means evenness of tonal quality, without which a piano is wholly lacking as a musical entity. The evenness of the scale in the Beckwith is **acknowledged** and is wonderfully pronounced. It commands the attention of all who hear its mellow, sweet and liquid tone.

Fig. 1.

A—Foundation wood.

B—Crossbanded veneer, glued across the grain of foundation.

C—Finishing veneer, glued across the grain of the crossbanded veneer.

THE CASE **is acknowledged as the finest des kind ever produced.** No picture c convey the splendid proportions of this piano, th appearance or the general effect it produces. T corners on the sides, which are veneered in genu are in perfect keeping with the entire design an massive veneered columns in the trusses and at of the music desk. Note the Empire top on how it is shaped in conformity with the outline of panels and columns. Everything is in perfe The sunken panels, with the raised center high to match the balance of the case, lend dignity a to the design. The genuine hand carvings on desk are particularly handsome, daintily execut not overbalance the case. The side arms are s in correct proportion to the columns on the Taken altogether, this design is extremely pe commands the admiration of all who see it. desk is full length of the instrument and an opens when the fall board is raised. The fi piano is extremely beautiful, the transparent va permitting the natural grain of the wood to s its beauty. As shown in the illustration of Concert Grand Piano, the Empire top of this in made of one single piece, attached to the back piano hinges, and can be propped open wh Underneath the Empire top our twenty-five-yea is emblazoned in gold and silver. The piano is the Beckwith mouse proof pedal action. The ca veneered, both inside and outside, the veneers banded, which is an absolute guarantee that it warp, crack nor split under any natural con furnish it in finely figured mahogany, burled quarter sawed oak veneers.

THE VENEERS **are all of high grade and carefully selected ful figure.** The case is double veneered ins side. The first veneers are glued across the grain of the found under great pressure. After the glue is thoroughly set the sec veneer of mahogany, oak or walnut is glued across the grain veneer so that the grain of the two inside and the two outs and the foundation wood as well, all run in different direction illustrates the veneers on a piano. This method of veneering guarantee that the piano case cannot warp, crack or split natural conditions. In other words, the case contains five th wood glued together into one solid piece with the strength of

SAMPLES OF VENEERS. **We are prepared to mail showing the oak, mahogany veneers used, if desired by you.** Mail us $1.00 and we will s you postpaid. This is merely to cover the cost of the veneers return of the veneers we will immediately return your mon postage you may pay.

THE BACK. **This is sometimes slighted in the cheap commercial piano,** but in a high grade instrument like the Beckwith it receives the same serious consideration as is given to the drawing of the scale, the casting of the plate or any other important point. In this piano the back is rigidly strong and contains seven massive, heavy upright rock maple posts to which the sounding board and metal plate are bolted. Figure 2 shows this back and the sounding board together with the strong ribs on the sounding board. A glance at the illustration will give you some idea of its unrivaled strength. This strong back, the scientifically built pin block and the perfectly cast metal plate give a guarantee that there will be no "settling" in the piano, and the need of tuning has been reduced to the minimum. The tom pieces of the back are veneered in birdseye maple and finished in a highly varnished, workmanlike manner.

BECKWITH EMPIRE CONCERT GRAND PIANO IN DETAIL

Fig. 3. [illegible] pin block. [illegible] metal plate. [illegible] wood bushing in metal plate.

THE PIN BLOCK **is built into the upper part of the foundation or back frame, and holds the tuning pins.** Figure 3 shows a cross section of the pin block with the different layers of wood forming it. The grain of each layer running in a different direction binds the pin and holds it firmly. In this piano where a pin penetrates the plate it is bushed with the wood bushing to prevent contact between the metal plate and the pin block. If these two parts touched there would be an overbrilliancy in the tone. This is what is called a "bushed" tuning pin. The wood bushing is made of hard maple, the only wood suitable for this purpose. This pin block is of extra strong construction, as the illustration must convince you. We use an extra long tuning pin on account of the great strain when it is tuned to pitch, which in this instrument is about 19 tons.

MATERIALS **used in the Beckwith Pianos are the finest that can be secured.** Every piece and part is of the high-grade, all selected. In the higher priced pianos we use none but the best 100 per cent pure all wool imported German felt. All wood of [illegible] nature is first thoroughly air seasoned and then kiln dried. It is [illegible] for any lumber to enter the factory without first coming [illegible] the dry kiln. This is a guarantee that it is impossible for any [illegible] or green lumber to enter into the construction of the peerless [illegible]. Special care is given to the treatment of the materials used, [illegible] but skilled hands touch the instrument from the time it is [illegible] in the mill room until it stands complete, an artistic piano of [illegible] type, on the floor awaiting shipment. The workmanship is [illegible] highest grade. Each man interested in building the Beckwith is [illegible] in his line, and the combination of this perfect high grade se[illegible] material and the skilled workmanship of the best class result in [illegible] artistic in every way, and of sterling quality.

METAL PLATE **is cast in one solid piece from top to bottom.** Together with the extra strong back, shown in Figure 2, it makes a piano of unrivaled strength, powerful enough to stand twice the strain put upon it. The Beckwith plate receives more than ordinary care in its casting. A fault with many cheap pianos is that neither the quality of the workmanship nor of the casting receives any consideration. In the Beckwith the quality and thickness of the plate must not only represent the highest quality of material and construction, but it must be free from blow holes or [illegible] defect. In casting, allowance must be made for the tendency of [illegible] to warp in cooling. If this is not strictly guarded against, the [illegible] contract along the line of least resistance, and would naturally [illegible] be guarded against in the casting of the Beckwith plate. The [illegible] of high grade, containing the very best quality of iron ore [illegible] in proper ratio, together with the proper proportion of [illegible] silicon. Sulphur and phosphorus are inherent qualities of iron [illegible] a low percentage is always apparent, but this percentage must be [illegible] to a low average, because if there is an over amount of sulphur [illegible] will be porous and spongy. Too much phosphorus would mean [illegible]. Too much silicon would make a soft plate without tensile [illegible]. These points are well understood and positive safeguards make [illegible] for any except the highest grade of metal to be used in the [illegible] plate.

Fig. 4.

HAMMER. **In this, the Empire Concert Grand and in the Colonial [illegible] we use a genuine 14-pound hammer.** This is [illegible] hammer practical to use. Its extra size, as [illegible] Figure 6, is permitted on account of the larger [illegible] board and other parts in proportion. All these [illegible] combined give greater volume and purity of tone [illegible] increased striking surface of this hammer permits [illegible] dampering of the harmonics or partial tones. [illegible] genuine German imported felt, 100 per cent wool, [illegible] quality and, being of a fine texture, produces [illegible] quality of tone. A cheap, hard hammer means [illegible] unsympathetic tone. As the hammer is what [illegible] the tone, too much care cannot be given to it. No [illegible] since a string is used, it vibrates only when [illegible] the hammer. The better the hammer, the better [illegible] of felt, naturally the better the tone. These [illegible] points are all combined in the Beckwith hammer, [illegible] in Figure 5. The hammer is not unwieldly [illegible] nicely poised that it requires no extra effort to [illegible] piano. Each hammer is voiced by an expert, [illegible] being used to soften the striking surface in a [illegible] manner so as to bring out in the fullest degree a fine sing[illegible] in the string. This is what is termed "voicing the hammer."

Fig. 5.

THE ACTION AND KEYS. **These are the parts of the piano through the medium of which the tone is produced** and include all the mechanism which transmits the stroke to the hammer, thus producing the tone. The Beckwith is famous for its even tone and the **remarkable quickness** with which it responds to every touch of the performer. It is fitted with a repeating action and the hammers come back instantly into position ready for repetition. On a great many pianos, if you attempt to strike a succession of notes on one key, the hammer refuses to register any except the first stroke, but when the same experiment is tried upon the key of a Beckwith, with its finely adjusted and faultless action, each tone is distinctly marked. Each piece of the action is selected with extreme care and is assembled only by experts. Every bearing is bushed with 100 per cent wool bushing felt of the highest quality. All felt in the action and hammers themselves is of the highest quality, guaranteed pure and **all wool.** The action is equipped with a very strong brass flange, the latest improvement in action construction. (See paragraph on the Piano Hammer.) In Figure 5 is shown a section of the action taken from the Beckwith Piano. The keys are made of thoroughly seasoned and kiln dried straight grain wood of the finest quality, free from any imperfection. The ivory used is high grade genuine elephant tusk ivory, and with the ebony is cemented to the wood under enormous pressure. The keys are so well balanced that they fall back into position instantly ready for the repeat. It is through the keys that the performer plays the piano, and this point is one in the Beckwith that receives the utmost care, the most searching scrutiny and inspection when a piano is completed.

Fig. 6.

THE SOUNDING BOARD **occupies the entire back of the instrument.** Over the sounding board the strings are stretched and the vibration of the strings is reinforced. It improves the quality of the tone and starts the vibration of the string running through all parts of the instrument when the string is struck by the hammer. In the Beckwith sounding board only the finest selected spruce is used. Every piece of wood is carefully examined and tested. The making of a good sounding board is a delicate operation; specially constructed rooms and appliances must be used to bring out the most perfect results. Temperature is a large factor in its construction, as well as the proper consistency and color of the glue used. In gluing the sounding boards the parts must be heated so as to take the glue properly. In the Beckwith the sounding board is of the highest type; it is thoroughly air and kiln dried until the wood from which it is made becomes as resonant as the top of an old violin. Each one is properly "bellied" or crowned. We guarantee that the sounding board of this piano will not become weak or cracked under any natural conditions, and if this instrument is compared with other pianos costing $400.00 to $500.00 and over, we know you will find that in volume and sweetness of tone it is the equal in every way.

THIS PIANO IS MOUSE PROOF. **No mice can enter the piano around the pedals.** This is a very important point that you should remember when you come to place your order. No mice can enter the Empire Concert Grand unless the instrument is left open at night, in which case they can get on the keyboard and from there on the music shelf, when it is an easy matter for them to enter the piano by getting in behind the music desk.

BECKWITH POPULARITY. **This can all be summed up in two very small words, namely,** "quality and price." In the construction of the Beckwith, **quality is of the first consideration.** The result is a piano of sterling **quality** which we are perfectly willing to have you compare with other pianos sold in the usual way for double our price and more. **The question of price** is governed entirely by actual factory cost to make this beautiful piano, the actual cost of the materials entering into its construction, the skilled labor combining all this beautiful material into the finished product, and to this we add the same narrow margin of profit that we gladly accept on **groceries or any other everyday necessity.** Because we contract for from 2,000 to 3,000 pianos at one time on a spot cash basis, the factory is enabled to go into the market and buy their materials in great quantities, and as we pay cash the factory pays cash for the materials; therefore, buys them at the lowest possible price. **This all means money to you.** As the factory runs at full capacity every working day of the year, continually making pianos, always of the same high degree of excellence and quality, this in turn permits them to make splendid pianos at the lowest possible cost. It is our continual aim not only to keep the quality of the Beckwith up to the high mark set for this piano years ago, but whenever it is possible to raise the standard it is done. Anyone ordering a Beckwith Piano may feel assured that he is securing a piano of recognized quality. The price needs no comment from us; it has never been approached by any other dealer **on pianos of the same quality.** It is useless for us to dwell on the saving that our prices mean. These prices tell their own story even better than do the recommendations shown in the pages of this book.

J. EVERETT BURGY
PIANO TUNING AND REFINISHING
TELEPHONE 131

MARENGO, IOWA

Sears, Roebuck and Co., Chicago, Ill.
Manager of the Piano Department.

Dear Sir:—I can honestly say that the Beckwith Pianos are beauties in every way and your inlaid Colonial Art Piano and the Special Concert Grand are far above the average. These two pianos are equal to any $500.00 piano grade that I have tuned. Taking the piano as a whole, the Beckwith seems to fill the requisite, "A man's money's worth," better than any like piano of the $350.00 to $500.00 grade, and I am safe in saying the Beckwith is a safe piano to buy. Wishing you success for the Beckwith, I am,

Very truly yours,
J. E. BURGY.

Beckwith Special Concert Grand Piano $195

WE CHALLENGE THE WORLD **to meet our prices on high grade pianos.** We do not depend entirely on the sale of pianos. That's only one of the many departments here. Dividing all the expenses of running our business among our various departments, the cost of doing business is scientifically reduced to the lowest possible point. Add to this the fact that we buy under contract from two thousand to three thousand pianos at one time, all on a spot cash basis, therefore at the lowest possible cost, and that we sell these pianos for the same margin of profit added to this cost that we accept on groceries, shoes, hardware or any other common commodities, and you can easily understand why our prices are **less than half** in many instances the amount others ask for **pianos of the same grade.**

WE POSITIVELY GUARANTEE **that either the beautiful Empire Concert Grand Piano, this Special Concert Grand or the dainty Colonial Art style is equal to pianos sold by others for as high as $400.00 to $500.00.** We ask permission to prove the truth of this claim. Let us do it. We can prove it if you will let us ship an instrument on trial under our send no money offer, fully explained on page 668.

THIS IS A HIGH CLASS PIANO **and all material used is of the best quality.** It will stand the most critical inspection, and the more you examine it the more thoroughly you will be convinced as to the truth of this claim. It must be seen and heard to be fully appreciated, and the opportunity is yours under our liberal trial offer.

THE EMPIRE TOP. **This instrument is fitted with an Empire top,** as are also the Empire Concert Grand and Colonial Art Pianos. This Empire top, as shown in the above illustration, is made in one solid piece, double veneered on both sides and fitted to the piano with large grand piano hinges. It can be held up by use of the props on each side of the case. Underneath the top the guarantee is emblazoned in gold and silver for your protection.

SIZE. **4 feet 10 inches high, 5 feet 6 inches long, 2 feet 4 inches wide.** Weight, boxed for shipment, about 1,000 pounds.

No. 46F13 Beckwith Special Concert Grand Piano, with complete instruction book, stool and scarf, together with fifty free music lessons, as explained on page 668. Price..... $195.00

FREE. **A handsome four-legged piano stool** with adjustable seat, with brass claws and glass balls for feet, a fine velour scarf with genuine silk fringe, complete instruction book and fifty free music lessons on the instrument, as fully explained on page 668.

OUR SEND NO MONEY OFFER. **We will ship the piano to you without a penny being sent with the order or deposited in advance.** Practically all who now do business with us prefer to send cash with the order, just as they are sending cash when they order groceries or other common necessities. Our send no money offer is not designed for those who know us, but to anybody who prefers not to send money we will ship the piano, as fully explained in our send no money offer shown on page 668, which you must read for a complete understanding.

GUARANTEED FOR WENTY-FIVE YEARS **by the strongest guarantee or Bond of Indemnity ever offered with an instrument.** This guarantee is shown in detail on page 668, and you should read every word of it so as to see how fully and completely you are protected.

PARAMOUNT STOCK FARM
Breeders and Importers of Percheron and Shire Horses.
Hudson, Io

Sears, Roebuck and Co., Chicago, Ill.

Dear Sirs:—The piano you sent me is entirely satisfactory. The desig mellow tone is just what I was looking for. I had examined a great many best makes before placing my order and I feel that my Beckwith is the equal the superior of any of them.

Respectfully,
WM. CROWNOV

195 DETAILED DESCRIPTION AND FULL ILLUSTRATIONS OF THE BECKWITH SPECIAL CONCERT GRAND PIANO

EXQUISITE IN WORKMANSHIP — SUPERLATIVE IN QUALITY

A STANDARD INSTRUMENT OF HIGH GRADE.

GUARANTEED TWENTY-FIVE YEARS by the strongest guarantee ever written, which protects you against any defect in material or workmanship during all this time. If the piano is not satisfactory at any time within a year, send it back and get all your money. Read full explanation of the provisions of our guarantee and how it protects you, as explained in detail on page 668.

THE PURCHASE OF A PIANO is an important event. Our guarantee is such complete protection that it is impossible for you to make a mistake in your selection. Our present line of Beckwith Pianos is more complete and better than ever, containing, as it does, a greater range of choice in case design than ever before. From the beautiful Empire Concert Grand down to our more inexpensive pianos, each one will be found exactly as illustrated, represented and described. Our prices have never before been approached, and on these pages will be found high grade pianos at prices to fit every purse. It is never our purpose to point out to our customers what particular article to buy, but the purchase of a piano is of so much importance that we feel justified in calling attention to the fact that when we ask you to pay us more for one piano than for another we are asking you to pay us only the extra amount that we ourselves are compelled to pay to the factory for the larger parts, the greater size of sounding board, the heavier plate, the longer strings and all that goes to make up the more expensive pianos, for our margin of profit is practically the same on every instrument, and every penny of saving that could be effected has been given you in the lower prices quoted, which defy competition.

WE OFFER THIS PIANO as being the equal of instruments sold through ordinary channels for as high as $400.00 to $500.00. Therefore, our price easily represents a saving of one-half or **more,** even after the freight charge is added. This instrument and the beautiful Empire Concert Grand are practically the same in interior construction. In grade and quality, in exquisite tone value, this and the beautiful Empire Concert Grand piano will be found equal in every possible way and we guarantee that either one is equal of those sold through ordinary channels for as high as $400.00 to $500.00 and **even more.**

THE BACK.

This is sometimes called the frame or foundation and is a very important part of the piano. A reference to the illustration shows a very strong and substantial back with seven upright posts to support the strain on the pin block which is built into the top of the case. This back, together with the strong metal plate, makes a foundation for the instrument of great strength. The upper and lower portions are veneered, and the entire back is finished in the most workmanlike and satisfactory manner.

SCALE in the Special Concert Grand is perfect, producing a tone of liquid sweetness from one end of the keyboard to the other. The piano will be found the Beckwith scale in its perfection. The result is a freedom from metallic, wiry, tinny sound so often found in instruments of inferior grade.

CASE is very artistic, well balanced and is extremely popular with piano users throughout the country over. In design it is handsome and rich, without any appearance whatever of harshness. The case designs of this, of our Empire Concert Grand and our Colonial Art Grand are extremely handsome and give a wide range of selection. Double veneered inside and outside, the veneers being crossbanded, is a positive guarantee that it will never warp, crack or split under any natural conditions. The fall board is of the popular rolling style, fitted with noiseless hinges, which give it a very handsome appearance. The music desk is full two-octave and automatically swings outward when the fall board is raised. This piano is fitted with a top, as shown in the illustration, made of one solid piece, double veneered on top and bottom, fitted to the piano with grand piano hinges and can be held up by rubber tipped props attached to the side of the case. On the under side of the Empire top our guarantee is embossed in gold and silver and is made a part of the instrument. The case is given an extremely fine finish and shines like glass. The varnish used is transparent, which permits the delicate grain of the wood to show through in all its natural beauty. It is hand rubbed and hand polished and is furnished in highly figured quarter sawed oak, burled walnut or highly figured genuine mahogany veneers.

ACTION. Fitted with a responsive action, delicately adjusted, that will meet every demand made upon it. On a few pianos it is difficult to strike a succession of tones on one key. Upon attempting to repeat the same note a number of times the action only registers the first stroke and the sound on the subsequent strokes. This is easily avoided in the Special Concert Grand. The action is selected with extreme care, every bearing is bushed with specially prepared felt. There is none other than the best grade of imported felt in the hammers, which are of the very best quality. The power on an action is in what is known as the jack or hinge in the hammer. We have overcome all possible trouble by using a brass or metal bearing at this point which prevents a loose and wabbling hammer, a fruitful cause in ordinary pianos for complaint.

PIN BLOCK.

Built up of six consecutive layers of rock maple, the grain of each layer running in a different direction, thus presenting a different face or grain to the pin as it goes through. This prevents the pin from turning, and is the most perfect pin block made. In this instrument the pin block is covered with the metal plate through which holes are bored. The tuning pin enters the pin block through these holes and a maple bushing is used between the pin and the metal plate to prevent contact and to preserve rigidity. As illustrated, the metal plate is cast in one solid piece from top to bottom. The composition metal is the best obtainable and the plate is braced in such a way that it is as solid as a rock.

THE SOUNDING BOARD

is extremely large, made of the choicest selected mountain grown spruce. The sounding board is really the soul of the piano, for without it the tone in any piano would be so weak as to be almost inaudible. The Beckwith sounding board is braced in a scientific manner by the proper number of ribs, all dovetailed into the solid back, and is crowned in such a perfect manner that we absolutely guarantee that it will never flatten down or lose its resonance or power.

THE KEYS.

The key shanks are all made of thoroughly kiln dried straight grained wood, of fine quality, free from any imperfection. The ivory used is all high grade genuine elephant tusk ivory cemented to the key shank under enormous pressure. The ebony sharps are cemented the same way and all keys are highly polished.

THIS PIANO IS MOUSE PROOF

around the pedals. We guarantee that no mice can enter the instrument at this point. This is a guarantee that if ordinary care is used in closing the fall board at night the instrument will never be damaged by the ravages of mice or rats.

THE HAMMERS

are made of genuine German felt of high quality, constructed of two layers of felt, the inner and the outer felt. We use a 14-pound hammer in this piano and no heavier hammer is used on any upright instrument. This large hammer is permitted owing to the long strings, large sounding board, as well as other parts in proportion. A reference to the illustration of the Beckwith hammer shows the brass flange or hinge in the lower part referred to in a previous paragraph. A cheap hammer means a hard and unsympathetic tone. A piano string does not produce a tone until it is struck by the hammer and as the hammer is the agent which causes the string to vibrate, too much care cannot be given to its construction. No part in the making of the Beckwith hammer used in this piano has been slighted and the consequence is a pure and refined tone of matchless quality.

THE METAL PLATE

is very strong and scientifically cast. It extends in one solid piece from the top of the piano to the bottom and is of the strongest possible construction. Together with the substantial back, illustrated elsewhere, to which this plate is firmly bolted, it makes a foundation of extreme strength, powerful enough to stand double the pressure put upon it when the piano is tuned to pitch. Attention is called to the particularly choice sounding board shown in this illustration, which is made of the finest selected straight grained spruce, absolutely without a flaw. The plate shown is very substantial and is scientifically cast, raised flanges being cast into the plate to give it added strength. The composition metal of which it is made is that which years of experience has shown is the best suited for this purpose. It is correct in thickness, weight and design and is but another evidence as to the high grade of this piano throughout.

THE VENEERS

are all selected and are of high grade, showing a beautiful figure in the wood. None but genuine quarter sawed oak, burled walnut and richly figured mahogany veneers are used; and as stated elsewhere, the varnish used is transparent, the grain of the wood showing in all its original beauty. Extreme care is used in selecting and matching up the veneers for each piano case so as to insure uniformity in the figure, a perfect balance of the case. The veneers are crossbanded, which is an absolute guarantee that the case cannot warp, crack or split under any natural conditions. Crossbanding means that the inner veneer is glued across the grain of the core or foundation under great pressure, which forces out all superfluous glue. The final figured veneer is glued across the grain of the first veneer in like manner. This crossbanded veneering is repeated on the inside of the case as well, thus making it exceedingly strong and as nearly impervious to the operation of moisture as man's ingenuity can make it.

SAMPLES OF VENEERS.

We are prepared to send you samples showing the oak, mahogany and walnut veneers used, if desired by you. Mail us $1.00 and we will send them to you postpaid. This is merely to cover the cost of the veneers. Upon the return of the veneers we will immediately return your money and postage.

WE POSITIVELY GUARANTEE

that if you will compare this magnificent Special Concert Grand with instruments sold in your state for as high as $400.00 to $500.00, you will find it just as good, just as fine, just as well built, with just as beautiful a tone as any. We make this a positive guarantee and will gladly return your money if a careful test does not prove that this claim is entirely true.

The Western Union Telegraph Company, Manager's Office, Greensboro, Ala.

Messrs. Sears, Roebuck and Co., Chicago, Ill.

Gentlemen:—The Beckwith arrived and was sent up to my house yesterday. When I went home last night I was really amazed to find such a handsome, fine toned instrument. My son was playing when I arrived and I must admit the tone is simply perfect. It far exceeded my expectations. I expected to get full value for my money, but did not expect so fine an instrument. Some of my friends say it is a better piano than has been sold here for $400.00 and $500.00.

I wish to extend to the manager of your Piano Department my sincere thanks for selecting me such a nice piano. I put it up to him as he asked me to and he most certainly fixed me right.

With best wishes, I am.

Truly,
A. C. EVANS.

$189 Beckwith Colonial Art Piano

Sold with the understanding that it may be returned at any time during one year if it is not entirely satisfa as explained on page 668.

A PERFECT COLONIAL DESIGN. **We candidly believe that this instrument represents the Colonial idea more nearly than any other Colonial piano in the market.** It is essentially an Art Piano. This is one of the most chaste and elegant designs that has ever been offered. We regret that we cannot show you in this catalog the beauty of the richly figured mahogany with which the piano is veneered or the actual color of the handsome inlaid design. While the picture will give you a very clear idea of the general lines of the case, after all it must be seen and heard to be fully appreciated. The opportunity of trying it, hearing it and seeing it is yours entirely at our risk, as fully explained on page 668.

MAHOGANY AND GOLD. **That's the effect that this piano produces.** All the metal that can be seen is of solid brass which produces a very rich effect against the beautiful mahogany case. Please understand that there is no gold on the piano, but the gold colored brass lends a gold effect and with the mahogany gives a combination that is always attractive.

THIS IS A HIGH GRADE PIANO **and we are perfectly willing to have you compare this Colonial Art Piano, the Special Concert Grand or the Empire Concert Grand** with pianos sold through other channels for as high as $400.00 to $500.00, and if you are not **thoroughly convinced** of the truth of our claims, send the piano back and your experiment **won't cost you a cent.** It is furnished in either highly polished or dull art finish. Be sure to state which is wanted.

No. 46F12 **Beckwith Colonial Art Piano,** fitted with the Beckwith mouse proof pedals, with stool, velour scarf, instruction book and fifty free lessons, as explained on page 668.
Price **$189.00**

No. 46F12½ **Beckwith Colonial Art Piano,** fitted with the Beckwith mouse proof pedals, with a Colonial **piano bench** (omitting the stool), velour scarf, instruction book and fifty free lessons, as explained on page 668. Price **$195.00**

FREE. **A handsome solid wood, four-legged piano stool with adjustable seat,** with brass claws and glass balls for feet, a fine velour scarf with genuine silk fringe, complete instruction book and fifty free lessons on the instrument, as fully described on page 668.

OUR SEND NO MONEY OFFER. **We will ship the piano to you without a penny being sent with the order or deposited in advance.** Practically all who now do business with us prefer to send cash with the order, just as they are sending cash when they order groceries or other common necessities. Our send no money offer is not designed for those who know us, but to anybody who prefers not to send money with the order we will ship the piano as fully explained in our send no money offer shown on page 668, which you must read for a complete understanding.

SIZE. **4 feet 10 inches high, 2 feet 3½ inches wide, 5 feet 4 inches long.** Weight, boxed for shipment, about 900 pounds.

GUARANTEED FOR TWENTY-FIVE YEARS **by the strongest guarantee or Bond of any ever offered with an instrument.** This guarantee is shown in detail on page you should read every word of it so as to see how fully and completely you are

ONE WASN'T ENOUGH. THIS PIPE ORGAN BUILDER BOUGHT TW

Sears, Roebuck and Co., Chicago, Ill. New York, N

Gentlemen:—I enclose you herewith a draft to cover the cost of another with Piano, which I wish you to ship to me at once.

Being a practical pipe organ builder of fifty years' experience, I wish to to you the excellent character of the Beckwith Piano, both in workmanship material, at such an extremely low price. The tone is much better than I for. It has a very decided singing quality, which is a desirable feature in and which is seldom found in any except the highest priced pianos in the

$189 DETAILED DESCRIPTION AND FULL ILLUSTRATIONS OF THE BECKWITH COLONIAL ART PIANO

DAINTY IN DESIGN. BEAUTIFUL IN TONE.

GUARANTEED TWENTY-FIVE YEARS by the strongest guarantee ever written, which protects you against any defect in material or workmanship during all this time. Read full explanation of the provisions of our guarantee and how it protects you, as explained in detail on page 668. If the piano is not satisfactory at any time within a year, send it back and get all your money.

OFFER THIS INSTRUMENT AS A MOST BEAUTIFUL ART PIANO IN AN ARTISTIC AND ATTRACTIVE ART CASE IN THE COLONIAL STYLE, SOLD UNDER OUR MODERN PRICE REDUCING METHODS OF MERCHANDISING DIRECT FROM FACTORY TO CUSTOMER AT ACTUAL FACTORY COST, WITH BUT OUR ONE SMALL MARGIN OF PROFIT ADDED.

THE COLONIAL ART PIANO is a beautiful instrument in every way. It represents a saving of one-half, if more, on the purchase of a high grade piano. We unqualifiedly guarantee that if you examine it carefully you will freely admit it is the equal of pianos sold daily for as high as from $400.00 to $500.00. It is offered with full confidence that you will find it exactly as represented. It is equal in all essential points and features to pianos selling for as high as $400 to $500.00 through ordinary channels. We don't ask you to believe what we tell you about this piano. We would very much prefer to have you see it yourself. We don't even ask you to be guided by what others say about it, but we would consider it a privilege to place one in your home on trial, you to find out whether or not it is all we claim it to be. We take the risk, as fully explained in detail on page 668.

THE INLAID DESIGN IS VERY BEAUTIFUL. Words fail to convey to you its rich appearance. The accompanying illustration is two-thirds the size of the original and will give you a very clear idea of its beauty. This inlaid work is made up of alternate strips as follows: First comes a line of white maple, then a strip of light mahogany, and then numerous diamond shaped pieces of wood made up of white maple, black walnut and mahogany; then a strip of light mahogany and lastly another strip of white maple. Inside of this entire design there is inlaid a narrow strip of rich ebony. All of these varied colored pieces, finished in the natural wood against the rich mahogany case itself, make a combination that instantly appeals to the artistic. All joints are fitted perfectly. There are no openings or crevices whatever. It must really be seen to be appreciated. If you desire an instrument with an art case with a beautiful inlaid effect, then you should see this instrument before binding yourself to buy any other. Please remember that, unlike many so called art pianos, this design is **actually** inlaid. It is not transferred or painted on, as will be found in some cheaper pianos. **We guarantee this point absolutely.** All pedals and continuous hinges are of solid brass highly burnished.

LUMBER. It is furnished in beautiful figured San Domingo mahogany only. Art pianos with inlaid designs are only furnished in San Domingo and in no other wood. We are prepared to send you a sample of the lumber in this piano with the inlaid design, so that you can actually see how rich and beautiful it is. If you desire to see a sample, please write us merely as a matter of record, and when you return it to us we will refund this amount and postage.

THE ART FINISH. We will furnish this piano in the regular hand rubbed, highly polished piano finish, a finish that shows like a mirror, or in a dull art finish, also hand rubbed, but with the gloss removed, either at the same price. **Be sure to state which finish** you desire, whether the highly polished piano finish or the dull art finish. Most all art pianos are finished in the dull hand rubbed art finish, because the effect of inlaid work with such a finish is particularly attractive. We are, however, prepared to furnish it either way, and the price is the same.

THE PIN BLOCK is built up of six layers of hard maple **in the most approved and scientific manner,** the grain of each layer running in a different direction, which presents the face or grain of the pin block to the tuning pin, holding it firmly and reducing the need of tuning to the minimum. The pin block is covered with the full metal plate, through the tuning pins, where it is held through the metal plate, and finished with a rock maple veneer. For further description of the pin block in this piano see what we say about the pin block on page 673.

THE MATERIALS and workmanship are the best. This is the most dainty piano ever offered, and as shown in the part of this page, we are able to furnish it with a design or perfectly plain or ornamentation whatever upper or lower panel.

THE SCALE is as clear as running water, from the top of the keyboard to the bass. The piano is full 7⅓ octave scale, three-string in the treble, two-string in the bass, except the lower twelve. All strings are of the finest quality that money can secure, and the bass strings are of the finest copper wound.

THE TONE is one of marvelous beauty, the same beautiful quality as that which has made the Beckwith Pianos justly famous. No matter whether the performer produces the faintest whisper of a tone or the power of this magnificent instrument, the **quality** of tone always remains the same. From the highest to the lowest note it is peculiarly sweet. It has marvelous sweetness, a balance and beauty that never fails to please the most critical musician. To play on this piano is not only a decided pleasure, but an inspiration. The tone appeals to the cultured musician as well as to all others who hear it.

THE SOUNDING BOARD is made of thoroughly seasoned selected mountain grown spruce of highest quality and is as resonant as the top of an old violin. It is properly crowned and the ribs being solidly dovetailed into the back of the instrument.

THE METAL PLATE is very strong and perfectly cast and is what is known as the full metal plate, being cast in one solid piece from the extreme top of the piano to the bottom. It is the same identical style of plate as is used in the Special Concert Grand and the Empire Concert Grand Pianos, the only actual difference being in its size, as this piano will not accommodate quite so large a plate as is found in the two more expensive instruments.

THE KEYS are all made of perfectly clear straight grained wood, most thoroughly seasoned and kiln dried, which is a guarantee that they will not warp under any natural conditions. They are balanced in the same perfect way as are the keys in our Special Concert Grand and Empire Concert Grand Pianos. The keys are all covered with genuine elephant tusk ivory of extra fine grade and ebony, all highly polished.

THE HAMMERS are known as 14-pound hammers, two layers of felt to each hammer. The felt used is of the highest grade of imported German felt of extra quality, producing a sweet and mellow tone. The pedals and continuous hinges are made of solid brass, giving a gold effect against the rich mahogany case. These pedals are absolutely mouse proof. We guarantee this point.

BY SPECIAL ARRANGEMENT with the factory we are now prepared to offer you this instrument either with a beautiful inlaid design or absolutely plain, as shown in the accompanying illustration, without any inlay or carving of any nature on the upper and lower panels. There will be no extra cost for the instrument in plain panels, as we offer it with or without any inlay at the same price, namely $189.00, this price including a handsome stool, fine velour scarf, complete instruction book, and fifty free lessons on the instrument.

The Colonial Art Piano fitted with a perfectly plain case. No extra charge.

THE ACTION is of the best grade. It responds instantly to every demand made upon it, no matter whether the performer is seeking the peculiar effect of the light staccato touch or the most pronounced dynamic effects. The action is always to be relied upon and transmits the mood, the wishes and intent of the performer instantly to the strings. The action is constructed only of the finest materials, perfectly seasoned wood, extra quality all wool piano felt, oil tempered springs, etc. It is the same action that we use in the Special Concert and Empire Grand Pianos. All bearings are carefully bushed with bushing felt of high quality.

SPECIAL OFFER. For $6.00 extra, a total of $195.00, we will omit the stool and furnish a Colonial piano bench with this piano, finished exactly as the piano is finished, either highly polished or with the art or dull finish. This bench is of the most approved pattern. It is of the standard height of piano benches. The ordinary piano stool is out of place in connection with the general design of an art piano. This bench is exceedingly well made and very strong. The top is veneered in genuine mahogany and it is all finished in the same color as the piano. It is a perfect match.

The seat lifts up and discloses a large receptacle for holding sheet music. By using this bench the ordinary music cabinet is not necessary. Unless you have an exceptionally large library this piano bench will hold all of your music. It is a very handsome addition to any parlor and this art piano, together with the bench, makes one of the most attractive combinations ever offered.

THIS HANDSOME COLONIAL BENCH, with box under the seat for holding the music, is furnished for $6.00 extra, omitting the stool, thus making a total for the piano, the bench, scarf and instruction book of only $195.00.

Size: 21 inches high.
Seat, 14x37 inches.

THE MUFFLER ATTACHMENT. In this Beckwith Colonial Art Piano we furnish the muffler attachment only. We do not furnish it with the mandolin attachment. It is furnished with a muffler attachment or practice pedal only.

THE SIZE. 4 feet 10 inches high, 2 feet 3½ inches wide, 5 feet 4 inches long, the approved size of a piano of this character. It weighs, boxed for shipment, about 900 pounds. The price, $189.00, represents only the bare cost to manufacture the instrument, with our usual one small margin of profit added. This price includes a handsome piano stool, a fine velour scarf, an instruction book and fifty free lessons, as explained on page 668.

Read What a Practical Piano Tuner Says.

Hickory, N. C.

Sears, Roebuck and Co., Chicago, Ill.

Gentlemen:—In my travels I have tuned a number of Beckwith Pianos and find that they are easily tuned and stay in tune well. I am surprised that you can furnish such an excellent piano at such a remarkably low price. I feel competent to judge a piano from my past experience as a practical piano tuner of fifty-three years. I shall take pleasure in advising people on my travels who want a good fine piano, as good as they can possibly desire, and at greater saving than anyone else can offer, to order a Beckwith. This testimonial is entirely unsolicited on your part, but is a sincere expression of my honest opinion as to the Beckwith.

Very truly yours, THEO. A. SALVO,
Practical Piano and Organ Tuner and Repairer, formerly of Chickerings.

In case you should write to Mr. Salvo, please enclose a 2-cent stamp for reply.

$165 Beckwith Palace Grand Piano

Fitted With Either the Mandolin Attachment or Practice Pedal

THIS PIANO IS THE EQUAL **of those sold by others for as high as $325.00 to $350.00,** and we can prove it to your satisfaction under our liberal trial offer.

THE PIN BLOCK **is built up of five layers of rock maple,** making it exceedingly substantial, and guaranteeing that it will hold its tone and reduce the need of tuning to the minimum.

THE ACTION **is very sensitively adjusted, repeats beautifully, and responds to every demand made upon it.** It is made of the finest materials, perfectly seasoned wood, oil tempered springs, guaranteed extra quality felt; all bearings bushed to prevent rattling, and the keys are covered with high grade genuine elephant tusk ivory and ebony.

THE SCALE **is full 7⅓ octaves, overstrung, three-string unison in** treble, and two-string **unison** in the bass. **All strings** are of the finest quality imported Poehlmann wire. The bass strings are overwound on a steel core and are made to order for the Beckwith Pianos.

THE TONE **is full, rich and sweet.** Tone is a matter of personal taste and you must hear this instrument to judge it correctly. It is full and sweet, equal in character and quality to the tone found in instruments sold at double our price.

THE CASE **is unusually attractive,** as a glance at the illustration will show. It is strictly in accord with modern ideas and is particularly well balanced in all its proportions. The carvings on the full duet music desk are hand executed. The music desk automatically swings forward when the fall board is opened. The fall board is of the rolling pattern, so extremely popular. The case is double veneered inside and outside, which is a positive guarantee that it cannot possibly warp, crack or split under any natural conditions.

THE VENEERS. **Furnished in beautifully figured mahogany,** burled walnut or quarter sawed oak veneer. **Be sure to mention veneer desired.**

SIZE. **4 feet 9 inches high, 2 feet 3 inches wide, 5 feet 3½ inches long.** Weight, boxed for shipment, about 825 pounds.

FREE. **This handsome stool, a velour scarf, instruction book and fifty free lessons as explained on page 668.**

UNDER OUR SEND NO MONEY OFFER we take all the risk and place this piano in your hands for a complete thirty days' trial. **Read our offer explained in full on page 668.**

GUARANTEED FOR TWENTY-FIVE YEARS **by the strongest Bond of Indemnity ever given on any piano.** This guarantee is shown on page 668. Read it and you will see that your interests are thoroughly protected. You can't make a mistake.

WE WILL SEND THIS PIANO **to you with the understanding that it is the equal of those sold by others for as high as $325.00 to $350.00;** but before deciding to buy piano to buy read all about our Empire Concert Grand, Special Grand and Colonial Art Pianos on the preceding pages.

SOLD WITH THE UNDERSTANDING **that it may be returned at any time during year if not satisfactory, when all of your money will be returned.**

THE WESTERN UNION TELEGRAPH COMPANY, MANAGER'S OFFICE

Greensboro, Ala.

Messrs. Sears, Roebuck and Co., Chicago, Ill.

Gentlemen:—The Beckwith Colonial Art Piano arrived and was sent to house yesterday. I expected to get full value for my money, but did not fine an instrument. Some of my friends say it is a better piano than has here for $400.00 and $500.00. With best wishes, I am,

Truly,
A. C. EVA

No. 46F9 Beckwith Palace Upright Grand Piano, with complete instruction book, stool and scarf, together with fifty free music lessons, as explained on page 668.
Price..... **$165.**

A SATISFYING

Parlor Grand

OF GOOD QUALITY.

ALL IN SIZE AND GUARANTEED THE EQUAL OF THOSE SOLD BY OTHERS FOR AS HIGH AS $275.00.

$128 Beckwith Conservatory Parlor Grand Piano

OFFER THIS PIANO as the most satisfactory and serviceable low priced piano ever offered at a nominal cost. Our price is very much less than the price accepted by others for a piano of equal grade. It represents greater value than you can possibly secure elsewhere at anywhere near our price. Please remember the difference in the Beckwith Pianos is not a difference in quality only. In all pianos of all makes it is true that a piano has a larger sounding board, a heavier plate, a heavier string, a larger action and all other parts in proportion, which means a larger, fuller, richer tone. This is true, because the large case of a large size piano will accommodate these parts, where a smaller case will not. A gallon measure will hold more than a half gallon measure. This piano, cannot be equipped with as large a sounding board, as heavy a string, as heavy a plate, or other parts in proportion as you will find in our Colonial Art, Special Concert Grand, Empire Concert Grand Pianos, which are the equal of any of those sold by others for as high as $400.00 to $500.00 and over.

YOU HAVE THOUGHT of paying an agent about $275.00 for a piano, you can save money by paying only $128.00 for one and secure identically the same grade, quality and tone. IF YOU THOUGHT of paying $275.00 for any piano whatever, then save all the money represented by our low price and order either a Colonial Art, Special Concert Grand or Empire Concert Grand on trial at $189.00, $195.00 or $200.00 and secure one in every way the equal of pianos sold in your vicinity for as high as $400.00 to $500.00

CASE is double veneered inside and outside in the most approved manner. The veneers are laid which is a guarantee that it is impossible for the case to crack, warp or split under any natural conditions. It is with a very handsome and substantial one and one-half inch, continuous duet music desk with hand carved legs, is hand rubbed so that it shines like glass. All the metals, pedal guards and metal parts are silver nickel, highly burnished. This piano is guaranteed to be proof against the pedals.

PIN BLOCK. Built up of rock maple in the correct manner, thus it holds the pins firmly and prevents them from turning, which reduces the tuning to the minimum.

METAL PLATE. Strong, substantial and scientifically cast. It is free from imperfections and strong enough to more than withstand the strain when tuned to the pitch.

SOUNDING BOARD is a genuine Beckwith sounding board, made of mountain grown spruce, the best wood known for this purpose. It is ribbed according to Beckwith methods, which assures that it will never crack, warp nor split under any conditions.

SCALE is full 7½ octaves overstrung. Three-string unison in the treble and two-string unison in the bass register. Best quality of imported German felt is used. The piano is fitted with genuine elephant bone keys and ebony sharps.

ACTION is very responsive and adjusted in the most thorough manner so that it responds instantly to every demand made upon it. The hammers are high grade German felt hammers, producing a good quality of tone.

TONE must be heard to be appreciated. It is of ample power for ordinary purposes, but the size prohibits the use of as long a string, as large a sounding board, or as large an action as in our Colonial Art, Special Concert Grand or Empire Concert Grand Pianos, but we guarantee the tone to be satisfactory and of the kind and quality you would expect in any instrument that you might buy for $275.00 through catalogues.

VENEERS. Veneered in either quarter sawed oak, burled walnut or mahogany. Very highly polished and hand rubbed so that it shines like glass. Be sure to state what veneer you desire.

MANDOLIN ATTACHMENT AND PRACTICE PEDAL. We furnish in this and our Palace Parlor Grand, without any extra charge, a mandolin attachment which is the best and most perfect device yet invented for imitating the tones of the harp or mandolin. We do not, however, advise our customers to order the mandolin or instrumental attachment in their instrument. We find it necessary to furnish this mandolin attachment, as we frequently have calls for it, but in every case we advise the purchaser to substitute the practice pedal, as it is of much more practical value than the mandolin attachment. While the practice pedal muffles the tone of the instrument during practice, its use also preserves the hammers from wear and injury, while the constant use of the mandolin attachment is certain to injure the hammers and impair the tone of the instrument. While we will gladly furnish the mandolin attachment to anyone desiring it in either this or our Palace Grand, still we expressly recommend that the practice pedal be substituted for it. Teachers, pupils, and the inmates of the home where music lessons are practiced will all testify to the practical value of the muffler or practice pedal.

SIZE. 4 feet 8½ inches high, 2 feet 3 inches wide and 5 feet 2 inches long. Weight, packed for shipment, 780 pounds.

The price includes a full and complete course of fifty lessons in the greatest Correspondence School of Music in America as explained on page 668.

4978 Beckwith Conservatory Parlor Grand Piano, fitted with Beckwith mouse proof pedals, complete with handsome modern wood stool and complete instruction book. **$128.00**

A PIANO FOR $87.00

EXPLANATION OF HOW A PIANO CAN BE OFFERED AT THIS LOW PRICE

WE CAN OFFER a piano for as low as $87.00 and guarantee that such an instrument is the equal of those sold by dealers for as high as $200.00 and over. We have succeeded in securing a piano we can sell at this price, which is less than has been attempted on a piano by anyone else, and thus again we have outdistanced competition. This piano is offered as a matter of competition to meet low prices charged by others. We do not guarantee it as we do our Beckwith line. **It is not a Beckwith,** but we succeeded in securing a piano that we can offer at $87.00 and guarantee for five years.

WHEN YOU BUY A PIANO, or when you agree to buy a piano, you are selecting something which, what must, by the very nature of the purchase, be a lifelong friend. When you select your friends you use great care and discrimination. When you are selecting a lifelong friend, and, therefore, why should it not be just as essential to use care and discrimination in selecting it? We outbid everybody on low prices. We challenge any music dealer or agent, or anyone else to give you as much for your money as we can. $87.00 is but a small price, and that is all you care to pay, we can supply you with a piano at $87.00. But bear in mind that it positively is not a Beckwith. **It is an $87.00 piano.** We are guaranteeing it for five years, but it is not made according to the Beckwith plans, specifications or methods, and it does not bear the Beckwith name. It is a competition piano, and simply for the purpose of meeting competition, but it is wonderful value at this price. Why should you consider the purchase of a piano for $87.00, the kind others sell for as high as $200.00 to $225.00, when **we can offer you in our Colonial Art, Special Concert Grand an instrument that we guarantee you will find is every essential point and feature of pianos sold in your vicinity for as high as $200.00 and over?** We are prepared to give you a piano of sterling quality and value that will be a pleasure, a source of joy and pride to you; one that we can guarantee for twenty-five years by the strongest, most binding guarantee we have shown on page 668, which we are willing to send to you with the distinct understanding that if it is not all we claim it to be, if not equal to pianos sold for as high as $400.00 to $500.00 and over, you can send it back and **get your money at any time within one year after purchase.** Here is an offer you cannot afford to overlook.

WE OFFER YOU BETTER VALUES than you can possibly secure through any other source. We offer you for about what others would charge for a piano like this $87.00 instrument one of the highest quality, and in justice to yourself, if you are thinking of buying a musical instrument, you ought to read all about the beautiful Colonial Art, the Special Concert Grand and the Empire Concert Grand Pianos which we are perfectly willing to send out with the full understanding that if you don't find any one of them the equal of other pianos selling for as high as $400.00 to $500.00 and even over, you are to send it back and your experiment won't cost you a cent.

PLEASE BEAR IN MIND that every price on every piano on every page in this department represents better value than you can possibly secure from any other source at anywhere near our price. Remember, if you will, that when we ask you to consider the purchase of either one of our best pianos, we are positively not asking for more profit. It is true we are asking you to invest more money, but our margin of profit is the same. We are asking you to secure for yourself all the benefits to the customer from our immense purchasing power, all the benefits from our knowledge of the business, to secure to yourself the greater value, the greater satisfaction in the years to come, the greater pride you will be sure to feel in our better pianos. We can offer you a piano with a Dowel Action, 7½ octaves, with a stained case that is a very acceptable appearing instrument, one that we are willing to guarantee for five years, but which under no circumstances could we guarantee for twenty-five years, and we will give you this instrument for the remarkably low price of $87.00. But please bear in mind that it is not a Beckwith Piano. But we can, nevertheless, offer you a piano at $87.00, a price heretofore unapproached by any other dealer, for the same kind of piano ordinarily sold for $200.00 to $225.00. This is proof that we undersell the world. Weight, packed for shipment, about 750 pounds.

4971 Home Favorite Parlor Piano, guaranteed for five years, with stool and book, but without a scarf or mouse proof pedals. Price..... **$87.00**

THE WORLD FAMOUS LINE OF

GOLD MEDAL ORGANS

Unsurpassed in Beauty, Workmanship, Finish and Tone Quality

The Standard of Quality for High Grade Organs, Manufactured by the Largest Exclusive Organ Organization in the W Equipped with Modern, Up to Date, Labor Saving, Cost Reducing Machinery, and in Durability of Construction. Refinement, Dignity and Elegance of Appearance, Great Beauty of Finish and Marvelous Musical Capacity, Represent all That the Most Critical Could Wish.

WE CHALLENGE THE WORLD to meet our prices on high grade standard organs of perfect quality. Never before has it been possible to secure so much organ value for such a small investment. The Beckwith represents more dollars saved to you than you can save through any other source. We cannot be too strong in our claims that we guarantee you a saving of half or more. We guarantee that the Beckwith is a high class instrument, and we are not only perfectly willing to have you do it, but we ask you to compare it with organs sold at double our prices and over. We positively and absolutely can save you half on the purchase of an organ, and we back this statement with our reputation of years' standing for honest methods and square dealing.

WE DON'T WANT YOUR MONEY unless you are absolutely certain after trying an organ under our liberal trial terms that every statement we make in this catalog is true. We don't want your money unless you are satisfied that we have saved you half—unless you are satisfied in every way with your purchase.

ORGAN BUYING MADE EASY AND SAFE. Our plan is the safest that could be suggested. We guarantee that we can sell you an organ and save you half or more. By perfect pictures and clear descriptions we show you in these pages every organ we offer. You can depend upon every statement being true. Read the descriptions and see the illustrations. Look at our prices and you will recognize the wonderful saving that the Beckwith means to you. Pick out the organ that suits your needs and we will send it to you with the understanding that if it isn't satisfactory you need not keep it, for we repeat that we don't want your money if we don't satisfy you. Tell us what organ to send and we will send it to you under our great Send, No Money Offer described on page 668. All you need to do is to mail the order and we will do the rest. We will assume all the risk in the selection—the risk of pleasing you—and will give you an organ that you will be proud to show your friends and neighbors. We positively can and will please you or hold you free of expense. Be your own agent and save every bit of useless expense, all middlemen's handling and the other items of cost which attend the sale of organs through ordinary channels. Buy at wholesale factory prices. Buy at the actual cost of making an organ, with the same margin of profit added that we accept on groceries, shoes, etc.

ALL WE ASK YOU TO PAY is just the cost of the organ made in enormous quantities in the biggest exclusive organ factory in the world, to which we add our one narrow margin of profit. That is all we ask you to pay. We don't ask you anything extra because this organ has won the Gold Medal and other Highest Awards. We don't ask anything extra because it enjoys a reputation of which any manufacturer would be proud. Not at all. We simply ask you to pay the actual cost to make the organ in big quantities, with our one small margin of profit added. This is all you pay.

THE BECKWITH ORGAN COMPANY of Louisville, Ky., operates the largest organ factory in the world which is devoted entirely to the building of organs sold by mail. The factory is built in such a way that it is impossible for any lumber to enter the mill room, where all organs are started, without passing through the dry kiln. This is a guarantee that it is absolutely impossible at any time for any imperfectly seasoned or poorly kiln dried lumber to enter into the construction of this instrument. For the convenience of our patrons the Beckwith organization has an immense stock at the Louisville factory, as well as at the St. Paul factory, so that we are in a position to ship organs to our customers from either factory, thus effecting a very large saving in freight. The factories of this organization are the most complete and modern of their kind. Every man in the organization has a personal pride in the product of his own labor, which will explain better than anything else the immense popularity of this beautiful instrument, the high standard of quality always maintained and found in them, and the reputation for this high quality which the organ enjoys.

LOUISVILLE, KY., FACTORY.

What Does the Gold Medal Mean?

AWARD and GOLD MEDAL Jamestown Exposition.

AWARD and HIGHEST MEDAL St. Louis World's Fair.

THERE is only one meaning to this. It means that the Beckwith Organ represents the ideal instrument. It means that it represents the acme of organ quality, the acme in purity of organ tone, the acme of organ building, and that the Beckwith is a representative organ, the standard of organ quality for the world today. The Gold Medal is a distinction of which the manufacturer may well be proud, and every organ shipped out to our customers has within it the same power of giving satisfaction, the same perfect workmanship and exquisite tone that has made the name "BECKWITH" a household word from ocean to ocean, and which gained for it the great honor as represented by this Gold Medal. Wherever read organs of the best quality are appreciated, the name Beckwith exerts a magic influence, for it is recognized at once as an organ of sterling quality, the PEER of them all.

WHY WE UNDERSELL THE WORLD on organs of the highest grade. Unlike other dealers, we do not depend upon the sale of organs for a livelihood. We are not compelled to make our profits on organs alone. If we sell you an organ we have not supplied all your wants in our line, for we are dealers in general merchandise and sell practically everything that is necessary and useful at prices unapproached by any other dealer. When we sell you an organ we are confident that it will not terminate our business relations, but that it will serve as a better introduction, for we are positive we can please you so well that it will make a firmer friend and more liberal patron of you than ever. We sell more organs in one day than the majority of agents sell in months. We have sold as high as 125 organs in one day, and the immense sale that we have for the Beckwith Organ means an immense number manufactured, all of which in turn means low manufacturing cost, and this all goes to you in the low prices quoted. Do not gauge the quality in the Beckwith by the price we ask for it, but remember our well known policy of accepting on organs of the highest grade the same narrow margin of profit that we accept on groceries or any other common necessity. Take advantage of our price reducing methods and save one-half or more.

OUR SEND NO MONEY OFFER. We bel this is liberal offer ever made. It is impossible to see how make a fairer proposition or one that protects you. Under this plan we take all of the risk. We don't to sign anything, agree to anything or bind yourself way. All we ask is that you let us ship you an organ in accordance with this offer, as fully explained on Read our Send No Money Offer explained there and see how easy it is to send the order; how we take how we don't ask you to send a penny with the order how we will send an organ to you for a complete thirty trial by yourself and your musical friends.

GUARANTEED FOR TWENTY-FIVE YE with the strongest binding guarantee ever given with This guarantee absolutely protects you against any loss the entire period, which might arise from defective or workmanship in the construction of the organ. This antee is given word for word on page 668, a copy of sent out with every organ.

OUR ONE-YEAR FREE TRIAL OF So as to remove all risk from the buyer and to prove unlimited confidence we have in the Beckwith, it is that if any organ ordered from us on trial and purchased the end of thirty days proves unsatisfactory, then the has a perfect right to return it at any time during and all money paid for the organ and the freight charges be immediately returned in full. We extend this privilege every buyer of a Beckwith. If anyone else offering organs not enough confidence in what they offer to allow return it at any time within one year and get your back, then they ought not to ask you to have enough in their organ to purchase one. This is a point ought to consider.

ARE YOU IN THE MARKET FOR ORGAN? If you are, you cannot afford to lay down until you have read every page of our organ section. You cannot afford to lay it down until thoroughly read and understood the meaning of our thirty days' and one-year free trial offers. After you all of this, then you cannot afford to buy any other before trying a Beckwith. We positively guarantee to one-half. For instance, and to make it plain, we that if you have been considering the purchase of for $80.00, we can sell you an organ of the same grade for half of this amount, or to put it still and even plainer, if you contemplate buying an about $80.00 through other channels, you can buy the same quality from us for the same amount. If been thinking of buying an organ for $100.00 or can buy that kind from us for just half of that have half of it left. You cannot afford to entirely this offer, and if there is any information desired here given, you ought to write the Manager of our Organ Department, and take it up with him. Our represent a greater saving than you can secure through source, and you cannot, in justice to your own pocketbook, afford to buy any other organ or agree to buy trying a Beckwith.

HERE'S WHAT YOU WANT—PR If you will let us send an organ to you under our liberal terms, we will prove every claim we have made in this We will prove to your complete satisfaction that with Organ is a high quality organ and is rightly Gold Medal Organ. Seeing is believing and we give opportunity of seeing it, hearing it, testing it and at our risk, for if you are not satisfied that any may select is the biggest bargain you ever saw, toned instrument you ever heard, the best looking made, send it back and we will stand all expense

BECKWITH

Gold Medal Jamestown Exposition; Highest Medal St. Louis World's Fair; Special Awards Wherever Shown.

This is the FAMOUS PIANO-ORGAN

that is so well known over this broad land. The price represents only the actual factory cost with our usual small margin of profit added.

IT LOOKS EXACTLY LIKE A PIANO. It has the same beautiful glossy finish which shines like glass. It is a beautiful reed organ in a magnificent piano case. The pedals further lend to the piano appearance. The case is veneered in either highly figured mahogany or beautiful walnut. It is double veneered inside and outside. It is fitted with a duet music desk with a handsome inlaid effect design, regular piano fall board, piano shaped pedals and pedal guards, silver nickeled and highly burnished.

AUTOMATIC OCTAVE COUPLER. By a gentle pressure of the middle pedal the couplers are instantly thrown into position; another slight pressure instantly releases them. This is a feature that will appeal to the organist.

THE ACTION. It is fitted with Grand Orchestral reeds, full 7½ octaves, all controlled by ingeniously arranged stops. These stops are easily controlled. The action is one that years of experience has proved the most acceptable for an instrument of this character.

GRAND PNEUMATIC SWELL. There are no knee swells on this organ. To swell out the tone, merely pump a little faster. To decrease the tone, pedal slowly for a moment. The pneumatic swell automatically opens and closes the swell boxes. This is a wonderful improvement.

THE CASE is beautifully designed and is furnished in San Domingo mahogany or French burled walnut. It is veneered inside and outside with cross-banded veneers, which is a guarantee that it cannot warp, crack or split under any natural conditions. Finished with the finest grade of transparent piano varnish and hand rubbed until it shines like a mirror, the beautiful grain of the wood showing in all its beauty.

$68.00 Home Queen Piano-Organ

THIS IS AN EXACT REPRODUCTION OF STYLE No. 46F218, HOME QUEEN PIANO-ORGAN WITH THREE STOPS.

Your money refunded at any time during one year if it proves unsatisfactory.

THE PIPE SWELL ATTACHMENT modifies the tone and produces a close imitation of the tone of a pipe organ. This is a very important feature of the organ and one that commends itself to the musician.

THE BELLOWS is extremely large, therefore has wonderful power. It occupies the entire width of the organ. It is constructed of three-ply built-up stock and therefore cannot warp, crack or split under any natural conditions. It is covered with the finest quality of special rubber cloth.

THE STOPS are not noticeable. They are all within easy reach of the performer and by judicious use a number of very harmonious combinations are possible.

THE MATERIAL is of the highest grade. The workmanship is the most skilled and we are so confident of the excellence of the instrument that we gladly send it out on trial, as we do all Beckwith Pianos and Organs, under our liberal send no money offer, as fully described on page 668.

THE VENEER is all selected and shows a fine figure. We furnish it in either San Domingo mahogany, or French burled walnut to finished in a hand rubbed polish. **Be sure to state veneer wanted.**

GUARANTEED BY OUR BINDING QUALITY GUARANTEE for twenty-five years, protecting you against any defect of any nature or workmanship during this time which may arise from imperfect material or bad workmanship. This guarantee which completely protects you is shown in detail on page 668.

SIZE. 4 feet 8½ inches high, 5 feet long, 2 feet 2½ inches wide. Weight, boxed for shipment, 500 pounds.

SEND NO MONEY WITH YOUR ORDER unless, as most of our customers do, you prefer it. If you are already one of our customers this offer is not made for you. It is made for those who do not know us and our well earned reputation for square dealing. Whether you are our customer or not, if you don't care to send money with your order, send the order and give us the name of your bank and we will send the organ, **but you must read the full description of our send no money offer on page 668 for a full understanding.**

FREE. The price includes a handsome stool, as illustrated, with adjustable seat, brass claws with glass balls for feet, a complete instruction book, a full size velour scarf with genuine silk fringe, and fifty free lessons in the greatest Correspondence School of Music in America, as fully described on page 668.

AN EXPERT ORGANIST SAYS THAT THIS IS A BETTER ORGAN THAN SHE GOT FOR TWICE THE MONEY.

Owensville, Ind.

Sears, Roebuck and Co., Chicago, Ill.

I must say that the organ is all right in every respect, and in perfect order. We had an expert organist to try it and she said that it was a better organ than she got for twice what I paid. I must say that I was surprised to see such a nice organ for so little money. J. FRANK WILLIAMS.

A NOBLE ORGAN

Of Imposing Size and Magnificent Design with a mellow tone of startling quality and wonderful sweetness. A satisfying instrument.

THE GOLD MEDAL AWARD. By unanimous vote the great Jury of Awards at the late Jamestown Exposition conferred upon the Beckwith the Gold Medal and Highest Award in competition with other instruments of well known makes. Wherever the Beckwith has been shown it has invariably carried off the highest honors. While we are proud of the honors that have been heaped upon this instrument, we take more pride in the unqualified endorsements, the splendid recommendations we receive from every corner of this country from enthusiastic owners and users.

THIS ORGAN is all that the most captious could ask for, and appeals instantly to the artistic sense. The design is very rich and well balanced, and it will prove an ornament to any mansion in the land.

IN TONE QUALITY it stands today in an unrivaled position of preeminence. The tone is of a beautifully sweet and sympathetic quality, of the most satisfying and sublime character.

READ ALL ABOUT THIS ORGAN on the following page. If you are in the market for an organ of the finest quality you will appreciate what we say on the next page about this Majestic Organ. It is well named, for not only is it Majestic in name, but majestic in character and majestic in tone.

FREE. Our price includes this beautiful organ, a fine stool and complete instruction book, together with fifty free lessons in the greatest Correspondence School of Music in America, as fully explained on page 668.

SEE WHAT OTHERS SAY

of the beautiful Beckwith Organs, as shown in the unsolicited testimonials printed below.

EVERYONE THINKS IT COST TWICE AS MUCH AS THIS CUSTOMER PAID.

Sodaville, Ore.

Sears, Roebuck and Co., Chicago, Ill.

Dear Sirs:—I received the Beckwith Organ in fine shape and we are delighted with it. We think it is a perfect gem in looks and tone, and everyone thinks the same. We sometimes hesitate to tell our friends the small sum that we paid for this organ, for they think we paid twice as much as it really cost us. The organ is perfect in every way and we thank you very much, not only for your promptness in filling the order, but for selecting such a beautiful instrument, true to your catalog description, if not better.

Yours truly,
MRS. A. D. PRICE.

BETTER THAN WE CLAIMED IT TO BE AND EXACTLY AS REPRESENTED.

R. F. D. No. 1, Wartrace, Tenn.

Sears, Roebuck and Co., Chicago, Ill.

Dear Sirs:—I received my Beckwith Organ and would have written you long since, but I really wanted to give it a fair and severe test. I must now say that it is just as you recommended it to be, if not better. All my friends who have tried it say that I have a fine sweet toned organ of the highest grade. I am highly pleased with it in every way. Thanking you for your kindness, I remain,

Yours very truly,
J. N. BLACK.

BETTER THAN THE AGENT'S ORGAN WHICH COST TWICE AS MUCH.

R. F. D. No. 1, Franklin, Va.

Sears, Roebuck and Co., Chicago, Ill.

Dear Sirs:—We have had our Beckwith Organ for over ten months and are more than pleased with it in every way. My sister bought an organ about a month ago from an agent and paid twice what mine cost, and I really would not give mine for two like hers. When she told the agent about mine and what I had paid for it, and that I bought it from you, the agent told her that the Beckwith Organ was made out of the scraps of material that his organ was made of. Any sensible person knows better than this. Your guarantee is all the protection that I want. I can return my organ at any time within a year and get my money back. My sister can't. The agent told her that the Beckwith Organ was not a standard organ and wouldn't last six months. I have had mine almost a year and it is better today than when I got it. I am satisfied. The organ is a beauty compared to my sister's and I wouldn't trade twice over. Your friend and customer.

JEFF D. BURGESS.

A FINE INSTRUMENT IN EVERY RESPECT. ALL THAT WE CLAIMED IT TO BE.

Sears, Roebuck and Co., Chicago, Ill.

Lemont Furnace, Penn.

Dear Sirs:—The Beckwith Organ ordered by me arrived a few days ago and I can't tell you how much we are pleased with it. It is a fine instrument in every respect. It arrived in splendid condition; not a scratch on it. The case is fine in workmanship and finish and could not be nicer. The musical part is grand, and everyone that sees it thinks it is a beauty. I am much obliged to you for this beautiful instrument.

Yours truly,
SAMUEL S. LEWIS.

THE GOLD MEDAL AWARD. By unanimous vote the great Jury of Awards at the late Jamestown Exposition conferred upon this organ the Gold Medal and Highest Award in competition with other instruments of well known makes. Wherever the Beckwith has been shown it has invariably carried off the highest honors.

THE FINEST ORGAN MADE by the Beckwith Organ Company. A marvel of tone, power and sweetness; an instrument that [illegible] any home in the land; an organ of unusual beauty, both in case work and tone [illegible] direct from factory to customer plan, at prices never before [illegible]

HERE'S YOUR OPPORTUNITY to come into possession of this beautiful Majestic Grand Organ for less than many others [illegible] of inferior quality. It represents the very highest type of the organ maker's [illegible] to you at the actual cost of the high grade selected materials and the high class [illegible] entering into its construction with the same margin of profit added that we [illegible] on the sale of boots, shoes, groceries, hardware, shoestrings or any other common [illegible]

WHAT IS THE RESULT? Simply that we can place in your hands, at a price that has never been approached, an instrument of the highest [illegible] Gold Medal, Highest Award Organ, at a price that is less than others [illegible] instruments of inferior grade and of small capacity and power.

THE GRAND ORCHESTRAL BELLOWS with which this organ is fitted is as nearly automatic as it is possible to make. A child can pump it with perfect ease. The consequence is a steady and dependable current of air directed at all times through the Grand Orchestral reeds, thus avoiding the spasmodic, jerky tone so often found in some organs. The wood is three-ply built-up, which is a guarantee that it cannot crack, warp or split under any natural conditions. In Figure 1 the bellows is shown, and attention is directed to the size. There is no attempt at economy by making short bellows, but the bellows runs from side to side of the case, and is covered with extra quality of rubber coated bellows cloth.

THE GRAND ORCHESTRAL REEDS are the largest that can consistently be used in an organ. The vibrating tongues are made of bell metal, double riveted to the strong and solid brass reed block. The reeds are all bent, voiced and tuned by hand. Figures 2, 3 and 4 show the reeds one-fourth size, and attention is called to the way the tongues of these reeds are bent. The bending of a reed is necessary to produce the desired quality of tone, and the reed bender, by manipulating and bending the tongue of the reed, can produce any tone desired. The wonderful singing quality and the beautiful tone of these reeds have made the Grand Orchestral Action, with which this organ is fitted, famous the world over. Figures 2, 3 and 4 represent some of the reeds used in this action, the illustration being exactly one-fourth the size of the actual reed.

Figs. 2 3 4

2—A Diapason reed.
3—A Flute reed.
4—A Piccolo reed.

CASE is magnificent, well balanced, and as attractive and handsome as it is well built. [illegible] in the beautiful genuine bevel edge [illegible] the center of the canopy top, and to [illegible] with its frame, is also a door to a [illegible] substantial bric-a-brac closet. The [illegible] perfect keeping with the balance of [illegible] and harmony to the design. Note [illegible] beads on the trusses supporting the [illegible] ornate, and the truss itself. [illegible] the top, the beautiful curve in the [illegible] on it and the hand carved griffin foot [illegible] finishing. It is satin finished with all [illegible] work is all backed by heavy dust-[illegible] on each side of the mirror door [illegible] very fine hand carved scroll. The [illegible] is easily removed if it is necessary [illegible] the bellows, and the ribbon effect [illegible] under the bric-a-brac shelves in the top, are extremely dainty. [illegible] of the case is one to immediately appeal to the most artistic. It is fitted with a paneled fall board in keeping with the majesty of the design, large casters and ornamental side handles. The pedals are covered with beautiful carpet, with heavily silver nickeled and highly burnished pedal guards.

JUST REMEMBER that we can sell you an organ for $68.85 that equals in every way those sold through ordinary channels for double our price. We challenge competition. We guarantee so large a saving that you can't afford to buy any other organ made before trying a Beckwith under our liberal terms.

THE GRAND ORCHESTRAL VALVE. This is one of the most important parts of an organ. Upon its construction depends the rapidity with which the organ responds to the slightest pressure on the key. The Grand Orchestral Valve shown in Figure 5 has extra width and strength, but the great difference between it and the valves used on some organs of other makes is found in the construction of the cushion. Please note the illustration, which will help you to understand this special valve. Upon the top of the foundation, marked A, is placed a very thick pad of all wool felt of great resiliency, B, and this in turn is faced on the top, not with the ordinary oilcloth or rubber cloth facing used by many other makers, but with the highest grade of genuine selected sheepskin leather. The consequence is that the valve perfectly closes the opening leading to the reed cells at all times. This guarantees that it will never give cause for complaint owing to leaking valves. The material on the valve is glued down the center only, leaving the edges free. Owing to the loose edges of the cushion the valve will always seat properly.

Fig. 5

A—Straight grained, cork pine foundation.
B—All wool pad.
C—Genuine sheepskin facing.

Fig. 1

THE INTERIOR MECHANISM. The mechanical part of the Majestic Organ is most perfectly constructed, durably built and skillfully adjusted. Figure 1 shows a full view of the Grand Orchestral Action, complete. AA shows the feeder valves, BB the pedal straps, C the stop connections, DD the swell rod, E the coupler rods. The illustration shows the right hand coupler board raised, coupling the treble side of the instrument. G shows the guide pins which hold the keys in place, F illustrates the tracker pins, [illegible] the keys with the valves of the organ. HH is the foundation board. I shows [illegible] valve. J shows the solid brace firmly holding the foundation board to the [illegible]

SIZE. The Beckwith Majestic Grand Organ is one of the most imposing reed organs ever built, being 87½ inches high, 48 inches long, and 24½ inches deep, in five octaves; and 87½ inches high, 53 inches long and 24 inches deep, in six octaves. It weighs, boxed and packed for shipment, in five octaves, about 495 pounds, and in six octaves, about 575 pounds.

OUR SEND NO MONEY OFFER is complete protection to you. Our friends and customers who do business with us prefer to send cash with the order, but if you are not our customer, or if you prefer not to send the money, just order an organ and we will send it prepaid to you without any money being sent with the order or deposited in advance. Just give us the name of the bank where you will leave the cost of the organ and the freight charge, as explained on page 668, and we will make immediate shipment. Read the full explanation of our liberal send no money offer for a complete understanding as to how to send the order.

GUARANTEED by our binding quality guarantee for twenty-five years, protecting you against any defect of any nature during this time which may arise from imperfect material or bad workmanship. This guarantee which completely protects you is shown in detail on page 668.

FURNISHED IN OAK OR WALNUT. We give you two choices of wood in this organ. It is furnished either in beautifully figured oak with full quarter sawed front, or genuine American black walnut. While the case receives the requisite number of coats of varnish, yet each coat is carefully rubbed down with rotten stone by hand, and is finally finished in a very handsome oil rubbed finish, giving it that dainty, beautiful satin effect. Thus all the distasteful gloss is removed.

FREE. With this organ we give, without extra cost, a beautiful stool, as illustrated, with adjustable seat, handsomely turned legs, brass claws with glass balls for feet, substantially built in every way; a complete instruction book and fifty free lessons in the greatest Correspondence School of Music in the country, as explained on page 668.

THE GRAND ORCHESTRAL ACTION is admittedly one of the finest combinations of stops and reeds ever [illegible] All Beckwith Organs are fitted with a superior action, but the [illegible] Grand Orchestral Action is only used in this, the Imperial Grand and the Cathedral Pipe [illegible] In this instrument all parts are of extra size and strength. The reeds are the largest [illegible] the bellows being double riveted to the solid brass reed block. The valves [illegible] with genuine sheepskin of the highest quality. All felt of every nature [illegible] is all wool felt specially selected, and we guarantee that there is not [illegible] in the entire action. Pages could be written on the beauties of this [illegible] but, after all, you must hear it to thoroughly appreciate its beauty, [illegible] it entirely at our risk for a period of thirty days, as explained in our send [illegible] days' free trial offer on page 668.

NUMBERS, PRICES AND ACTIONS

MAJESTIC GRAND ORGAN is furnished in five different styles, each style fitted with the GRAND ORCHESTRAL ACTION, as follows:

BECKWITH

Gold Medal Jamestown Exposition; Highest Medal St. Louis World's Fair.

THE BECKWITH EMPIRE GRAND ORGAN **is a beautiful instrument, and next to the superb Majestic Grand Organ is the very best parlor organ made** by the Beckwith Organ Co. Handsome in appearance, in a beautifully chaste and ornate case, splendid in tone quality, it instantly charms all who see and hear it. We offer this organ to you at a great saving in price over the price ordinarily asked by others for the same grade of an organ. Our price is about half what the same kind of an organ would cost you through ordinary channels.

THE CASE **is artistic and beautifully executed. It is exceptionally well designed.** The ornamentations are genuine hand carving, and it is in every way a fine organ. We furnish it in either genuine American black walnut or solid figured oak of fine quality, all hand rubbed with the high gloss removed, leaving a fine velvet or dull rubbed satin finish. The top is fitted with a large genuine French plate glass bevel edge mirror and bric-a-brac shelves of dainty design. The lamp stands on each side of the music desk are of generous proportions. The music desk is hinged and forms a lid or door to a very large and commodious sheet music pocket. The panel below the key bed can be instantly removed, if for any reason whatever you should desire to see the bellows, the pumps, feeder springs, etc. This organ is finished with a paneled fall board with lock and key, ornamental handles and casters. The pedals are covered with finely figured high grade carpet, protected by continuous metal pedal guards, heavily silver nickeled and highly burnished.

THE TONE **is wonderfully full, round and sweet. It is a Beckwith Grand Orchestral tone in all its purity.** There is a grandeur, power and sweetness in the tone of the Beckwith Grand Orchestral Action, with which this organ is fitted, that instantly appeals to the musician, but must be heard to be fully appreciated, and the opportunity of hearing it is yours at our risk under our send no money thirty days' free trial offer, as explained on page 668.

THE GRAND ORCHESTRAL ACTION **is the finest reed and stop combination offered** by us, and this organ is fitted with this beautiful action. All reeds are specially selected and are made of the very finest material, which explains the magnificent tone found in this and the Majestic Grand Organ. All parts of the action are felted with genuine all wool felt. There is not a particle of shoddy felt in the action.

GUARANTEED FOR TWENTY-FIVE YEARS **by the strongest, most binding bond ever issued on an organ.** This Bond of Indemnity or guarantee is your complete protection and removes all risk of every nature from you. Read all about this liberal guarantee on page 668.

NO MONEY REQUIRED **with your order for thirty days' trial.** You really must read every word of our free trial offer on page 668 for a complete and full understanding as to how you are to order this instrument under our send no money offer.

SIZE. Height, 81 inches; depth, 24 inches; width, 46 inches in 5 octaves, and 53 inches in 6 octaves.

Weight, boxed for shipment, about 475 pounds in 5 octaves, and about 575 pounds in 6 octaves.

FREE. **The price includes a beautiful stool, as illustrated,** to match the organ, with glass balls and brass claw feet, fine instruction book and fifty free lessons in the greatest Correspondence School of Music in America, as fully explained on page 668.

THE EMPIRE GRAND ORGAN **is furnished in five different styles,** each style being fitted with a Grand Orchestral Action containing stops, reeds and octaves as given below. For the names of the stops, the names of the sets of reeds, etc., contained in the Grand Orchestral Action, you are referred to the description of the Majestic Grand Organ on the two preceding pages, where all this is thoroughly explained.

No. 46F141 Grand Orchestral Action A, 5 octaves, 11 stops and 122 Grand Orchestral reeds.
Price, oak case.....$42.45

No. 46F143 Grand Orchestral Action B, 5 octaves, 15 stops and 183 Grand Orchestral reeds.
Price, oak case.....$48.45

No. 46F145 Grand Orchestral Action C, 5 octaves, 17 stops and 244 Grand Orchestral reeds.
Price, oak case.....$52.45

No. 46F147 Grand Orchestral Action D, 6 octaves, 11 stops and 146 Grand Orchestral reeds.
Price, oak case.....$51.45

No. 46F149 Grand Orchestral Action E, 6 octaves, 17 stops and 292 Grand Orchestral reeds.
Price, oak case.....$59.45

The above prices are for oak only. If you desire a solid black walnut case, add $2.00 to the above prices.

$42.45 Empire Grand Org

The Illustration Shows the Organ Fitted With Orchestral Action E, 6 Octaves, 292 Reeds, 17 S Price, $59.45.

THE ACTION OF THE BECKWITH IS PERFECTION.

Bar Harbor, Me.

Sears, Roebuck and Co., Chicago, Ill.

I take this opportunity of expressing some of the pleasure that your organ gives. The material and workmanship are the best, and your skilled arrangement of the action seems to be the perfection of musical art. A pipe organ is expected to be capable of expressing music of an almost unlimited range, and the Beckwith possesses this feature in a wonderful degree, and calls for a more than common expression of satisfaction.

BYRON CARTER.

Digitized by Google

E RECOMMEND THIS ORGAN to all who are looking for a six-octave organ at a low price. If it is your purpose to buy the finest six-octave organ ever built, then we urge you to see either the superb Majestic Grand or Imperial Grand Organs with 17 stops, 292 beautiful Grand Orchestral Reeds, which we offer at wonderfully low prices. If, however, you will be satisfied with a six-octave organ of the quality and grade sold by dealers for as much as $75.00 to $80.00, then by all means send us $37.35 and order this beautiful Parlor Gem Organ.

O MONEY REQUIRED with your order for thirty days' trial. It is not necessary to send any money with your order unless you care to do so, but for a full understanding of our terms you must read every word of our free trial offer shown on page 668.

ONE YEAR TRIAL. At any time during one year if it is not satisfactory it may be returned at our expense and we will return all your money.

THE CASE. The design shown on this page is a faithful reproduction of the organ and will convey to you some idea of its richness and beauty. The top is trimmed with pretty hand carvings and is fitted with lamp stands and a fine bevel plate glass mirror. On the side of the music desk there is a very convenient and roomy cabinet for holding music or bric-a-brac. These cabinets are provided with solid doors upon which there is a very handsome marquetry inlaid effect design. The music desk covers a cabinet for sheet music. The paneled front over the keyboard can be immediately removed. The case is provided with substantial handles, casters and paneled fall with lock and key. The pedals are covered with high grade Brussels carpet and are protected with metallic pedal plates. We furnish this organ only in black, handsomely finished and substantially built. It is offered in full confidence that a careful test will prove that it is the equal of organs sold for as high as $75.00 and $80.00 through other sources.

THE ACTION. Contains the following reeds: One set of Principal Reeds, 24 notes; one set of Melodia Reeds, 49 notes; one set of Diapason Reeds, 49 notes; one set of Celeste Reeds, 49 notes; 146 reeds in all, which are controlled by stops as follows: Diapason, Celeste, Vox Humana, Forte, Principal Forte, Bass Coupler, Treble Coupler, Melodia, Principal and Cremona. It is provided with two knee swells, the Grand and the Swell Organ. There are no other stops in this instrument. The reeds are of very fine quality, the vibrating parts being solidly riveted to the large wood block. These reeds are all bent, and tuned by hand by experts in tuning. All parts of the action are made in a workmanlike manner and each adjusted so as to overcome the possibility of a rattle.

THE BELLOWS are amply large and supply a steady flow of wind. Every part of this organ is handsomely finished.

FREE. With this organ we furnish a handsome stool, as illustrated, highly finished, made in wood to match the case of the organ, a complete instruction book and fifty free lessons in the greatest Correspondence School of Music in America, as explained on page 668.

BECKWITH

Gold Medal Jamestown Exposition; Highest Medal St. Louis World's Fair.

$33.35 COTTAGE FAVORITE ORGAN

THE COTTAGE FAVORITE ORGAN **is designed to meet the demands for an inexpensive instrument of good quality that can be sold at a reasonable cost.** Our price of $33.35 is unheard of for an organ of this character and represents only the actual cost to make the instrument in large quantities in the largest exclusive organ factory in the world, and to this cost we have added our one narrow margin of profit, giving you the benefit of every saving. Every price in this book defies competition.

ONE YEAR TRIAL. **If at any time during one year** it should prove unsatisfactory it may be returned at our expense and all money will be returned as shown on page 668.

WE WILL SAVE YOU MONEY **on any Beckwith Organ we offer.** We guarantee that in this organ we offer an instrument of identically the same grade, power, capacity and quality for which others readily secure as high as $65.00 to $75.00. Our price is only $33.35. Each organ listed in this book is a bargain, whether it be this one or the beautiful Imperial Grand or Majestic Grand. We always urge our customers to buy the best that their means will allow, and it is just as true of organs as it is true of any other line, that you are bound to secure better satisfaction in the purchase of the better grade as compared with the cheaper grade. Our margin of profit, though small, is practically the same on every one and is entirely satisfactory to us, and while we would be just as glad to have your order for this organ as for any of our higher priced instruments, at the same time if you buy a Beckwith you are taking advantage of our wonderful price reducing methods. We would be glad to know that you had read the descriptions of every one of our better instruments. If $33.35 is all you care to pay for an organ, send your order for this beautiful Improved Cottage Favorite Organ and you will find it exactly as we represent it.

THE CASE **is beautifully designed and finished.** It has a full size top fitted with an oval French plate glass mirror, which, frame and all, can be tipped forward. Back of this mirror is a fine music pocket which will hold a quantity of music. The music desk is a lid for another pocket of generous dimensions. The panels in the top are nicely ornamented with hand carving. In fact, all the carvings on the organ are hand executed and are tastefully designed. The case is provided with generous lamp stands and bric-a-brac shelves and has ornamental handles, casters and fall board with lock and key. The large panel underneath the key bed can be easily removed. The pedals are covered with a fine grade of carpet, protected with nickel plated highly burnished pedal guards. We furnish this organ in solid oak only. The case is handsomely finished, substantially built of selected oak of fine grain and a careful test at your hands will prove that it is the equal of organs sold through other channels for as high as $65.00 to $75.00.

THE ACTION **contains 122 very beautiful reeds,** all bent, voiced and tuned by hand by experts. These reeds have vibrating brass tongues which are double riveted to the heavy brass reed blocks. The reeds are divided as follows: 37 Melodia reeds, 37 Celeste reeds, 24 Principal reeds, 24 Diapason reeds, all easily controlled by the following 11 stops: Diapason, Principal, Celeste, Cremona, Dulciana, Melodia, Diapason Forte, Principal Forte, Treble Coupler, Bass Coupler and Vox Humana. The tone is also further controlled by the two knee swells with which the organ is fitted, the Grand Organ and the Swell Organ.

THE TONE **is full, round and sweet, and invariably charms all who hear it.** It must be heard to be fully appreciated, and our thirty days' free trial offer gives you the opportunity of trying it at our risk as fully explained on page 668.

GUARANTEED FOR TWENTY-FIVE YEARS. **See a copy of this guarantee** and read all that we say about it on page 668. It is your complete protection.

FREE. **A fine solid wood stool with an adjustable seat,** complete instruction book and fifty free lessons in the greatest Correspondence School of Music in America, as explained on page 668.

SIZE. **It is 78 inches high, 44½ inches wide and 24 inches deep.** It weighs, securely boxed for shipment, 450 pounds.

THERE IS NO ORGAN IN THE WORLD THAT CAN COMPARE WITH THE BECKWITH.

Raccoon Ford, Va.

Sears, Roebuck and Co., Chicago, Ill.

Gentlemen:—I have had the organ for months and it gives perfect satisfaction in every way. I never can praise the Beckwith Organ too highly, nor can I ever commend the promptness of your firm too much. There is no organ in the wide world that can compare with the Beckwith for quality and tone. Your faithful customer,

P. A. HENSLEY.

No. 46F127 The Beckwith Improved Cottage Favorite Organ, with 122 reeds, 11 stops, 2 knee swells, with stool and instruction book and fifty free lessons. Price, in oak only..... **$33.35**

In urging you to ...the Beckwith Organs, each one of which represents Gold Medal ...we are urging you to take advantage of our ability to save you a larger amount of money on this important purchase, and that is all we have in view. Please remember that only $5.00 more will secure the better value organ illustrated on this page, the beautiful Golden Chimes, guaranteed for twenty-five years, a lovely instrument with 11 stops, 122 fine reeds, beautifully finished. Remember, also, if you will, that the freight on this cheap organ will be just about the same as it would be on the Golden Chimes, and as the freight charge must be paid by the customer in every case, it is to your interest to consider the better instrument, as it will cost you no more freight, and the slight additional expense on your part will all go into quality and better satisfaction in the years to come.

EVERY ONE OF OUR CUSTOMERS who sends us an order is taking advantage of our low prices, and as we can sell an organ of high quality for less than what others charge for organs of inferior quality, you will no doubt agree that it is to your interest to consider the purchase of a Beckwith, and we hope in the end that you will decide upon one of our better grades of organs, the organs that received the Gold Medal at the Jamestown Exposition.

THIS IS NOT A BECKWITH; therefore it is not a Gold Medal organ, but it is a serviceable organ, exactly as we represent it to be, one that we guarantee you will find is the equal of those selling for double our price. Before writing your order read all about the other organs in this catalog, and you undoubtedly will be impressed with the higher quality, the better satisfaction that you are bound to receive through the purchase of one, the protection that our twenty-five year guarantee gives you and the greater satisfaction that must be yours in the years to come.

No. 46F20 Princess Parlor Organ, guaranteed for five years, in oak case, 5 octaves, 8 stops, with stool and instruction book. Weight, packed for shipment, about 380 pounds. Price..... **$23.95**

CHURCH AND CHAPEL ORGANS

The Finest Line of Reed Organs Ever Offered for Use in Churches, Chapels, Sunday Schools, Lodge Rooms and Other Public Places

at competition defying prices. Every price means a saving to you, a greater saving than can be secured by the purchase of any other organ through any other source.

A GREAT RANGE OF CHOICE **We have instruments from the beautiful Cathedral Pipe-Tone Organ down to the less expensive Queen Chapel.** So in range of prices and selection this line of organs offers all that could be desired. We are in a position to supply an organ for a small church or a church with a very large auditorium, and you can have full assurance that if you order one on trial you will find it exactly as represented.

THIS CATHEDRAL PIPE-TONE ORGAN **is a beautiful instrument of matchless quality, faultless in every detail of construction.** We offer this instrument as being superior to any reed organ ever offered for church use at anywhere near our remarkably low prices.

THE CASE **is in strict keeping with the general cathedral or church effect.** The back is as carefully finished as the front. No matter where it stands it will prove an ornament and attractive from all sides. It has lamp stands of good proportions, and a special feature is the large music rack which extends practically from side to side of the organ just above the stop board. We furnish this organ either in genuine American black walnut or quarter sawed oak throughout, and in both the glossy finish has been removed. It is furnished in a beautiful hand rubbed dull satin finish. The organ is fitted with a fall board and casters. The pedals are covered with beautiful selected carpet, protected by metal pedal guards, silver nickeled and highly burnished.

THE GRAND ORCHESTRAL EOLIAN ACTION. **In five octaves it is furnished with 244 reeds as follows:** 24 Diapason reeds, 24 Principal reeds, 24 Bourdon reeds, 48 Eolian Harp reeds, 13 Sub-Bass reeds, 37 Melodia reeds, 37 Celeste reeds and 37 Flute reeds. **In six octaves** it is furnished with one additional octave of Melodia, Celeste and Flute reeds, making a total of 280 reeds in all. Both five and six-octave actions are controlled by the same number of stops, namely, Diapason, Dulciana, Principal, Bourdon, Eolian Harp, Sub-Bass, Melodia, Cremona, Celeste, Flute, Principal Forte, Diapason Forte, Bass Coupler, Treble Coupler and Vox Humana, 15 stops in all. It is also fitted with Swell Organ and Grand Organ Knee Swells. **The Eolian Harp reeds** are specially suited for church work and produce a quality in this organ unsurpassed by any other make.

BECKWITH

Gold Medal Jamestown Exposition; Highest Medal St. Louis World's Fair; Special Awards Wherever Shown.

$59.85 Cathedral Pipe-Tone Orga

THE TONE **is faultless and of matchless purity.** Whether the organ is being used in work or whether used as a full accompaniment to the entire congregation, find that it is entirely satisfactory in every way. The instrument can be played by the m soft stops in the most delicate manner, or when desired the tone can be made to peal the strength of a pipe organ.

NO MONEY REQUIRED **with your order for thirty days' trial.** While practical our customers and all who know us and our reputatio dealing prefer to send the money in full with the order under our agreement to retu penny if the instrument is not satisfactory, yet if you prefer not to send any money order, then send the order in accordance with our liberal free trial offer and we immediate shipment. Read every word of our free trial offer on page 668 for a com full understanding.

No. 46F190 **Cathedral Pipe-Tone Organ,** Grand Orchestral Eolian action F, 5 octaves, 15 stops, 244 reeds. Price, quarter sawed oak case.....

SELECTION OF AN ORGAN for church work is a simple matter if certain points are kept in mind. First, remember the size of the church and remember that 280, 244 or 183 reeds will produce greater volume of sound and more power than an action containing 122 reeds. If you have a medium size church this organ will meet your requirements either in the 122-reed action or the 183-reed action, but if you have a large auditorium then you should consider ordering the Cathedral Pipe-Tone Organ under our liberal trial offer. Every Beckwith Organ offered for church use will be found exactly as we represent it, and we solicit your order for any one of them, with the understanding that if it is not satisfactory it is to be returned at our expense.

GUARANTEED FOR TWENTY-FIVE YEARS by the strongest guarantee ever given. Please read this guarantee shown in full on page 668.

THE CASE is architecturally perfect. The designer has not forgotten that this organ is to be used in a church and he has steadily kept in mind the peculiar character of church ornamentation. The result is very satisfactory indeed. There is a quiet dignity about the case that instantly appeals to the finer sense. The back is just as handsomely ornamented as the front. The music rack is skillfully designed and does not interfere with the organist's view. The handsome scroll work on the front and back, the panels and lamp stands balance and unite in a very satisfactory manner and the result is strikingly pleasing to the eye.

THE TONE is the first consideration, and next to the Beckwith Cathedral Pipe-Tone Organ, this instrument represents the best value in the market today. It is fitted with Beckwith bellows, which is a guarantee that there will always be a steady flow of air and never a jerky and spasmodic action often found in some other organs. The tone is ample and sufficient to fulfill the requirements of an ordinary size church.

THE ACTION. Furnished in two actions, our Choir Gem 122 reeds, 11 stops, 5-octave action, containing the following reeds: One set of 24 Principal reeds, one set of 24 Diapason reeds, one set of 37 Melodia reeds, one set of 37 Celeste reeds, 122 reeds in all, controlled by 11 stops as follows: Diapason, Dulciana, Principal, Bass Coupler, Diapason Forte, Vox Humana, Melodia, Cremona, Celeste, Treble Coupler, Principal Forte and two knee swells, the Grand Organ and the Swell Organ. It is also furnished with our Choir Gem 183 reeds, 15 stops, 5-octave action, as follows: One set of 24 Principal reeds, one set of 24 Diapason reeds, one set of 37 Melodia reeds, one set of 37 Celeste reeds, one set of 37 Flute reeds, one set of 24 Bourdon reeds, 183 reeds in all, controlled by the following stops: Bourdon, Diapason, Dulciana, Viola, Principal, Principal Forte, Vox Humana, Celeste, Dulcet, Melodia, Cremona, Flute, Bass Coupler, Treble Coupler and Diapason Forte and two knee swells, the Grand Organ and the Swell Organ.

WE OFFER IN THE UNIVERSAL FOLDING ORGAN AT $27.40, THE FINEST FOUR-OCTAVE FOLDING ORGAN EVER OFFERED. IF YOU ARE INTERESTED, WRITE FOR PARTICULARS.

$28.45 Queen Chapel Organ

THE QUEEN CHAPEL ORGAN

is offered to those churches desiring a serviceable organ of good quality at a low price. While we are always glad to know that our better organs are used in any place of public worship owing to the larger actions, yet we fully and gladly recommend this organ as a satisfactory instrument for use in a church of moderate size. No one has ever before been able to offer an organ of this quality and character for as low a price as $28.45. It is cheap only in price and the quality is of the Beckwith standard. It has a very sweet tone of ample volume for a small church and we will gladly ship you the organ under our liberal terms, as fully explained on page 668.

THE CASE is very pretty and gracefully designed and is furnished in solid oak only. It is very tastefully hand carved, decorated and ornamented. It is substantially and durably constructed and well finished. The back is paneled and finished like the front, so that it can be placed in any position. It is fitted with ornamental handles, casters and the latest design of fall board. The pedals are covered with Brussels carpet, protected by nickel plated metallic heel guards.

THE TONE. It would be impossible in an organ of this size to procure greater purity or quality of tone. The reeds are excellent and all bent, voiced and tuned by hand. The tongues of the reeds are solidly riveted to the reed block. The tone is equal to the tone of any organ sold through other channels for as high as $45.00. A careful trial of the organ under our liberal send no money free trial offer, as fully explained on page 668, will convince you of the truth of our claim.

THE ACTION. This organ is fitted with the Queen Chapel Organ Action in five octaves, containing one set of Melodia reeds, 37 notes; one set of Celeste reeds, 37 notes; one set of Diapason reeds, 24 notes; one set of Principal reeds, 24 notes; 122 reeds in all. The reeds are controlled by 11 stops, as follows: Diapason, Dulciana, Principal, Bass Coupler, Diapason Forte, Vox Humana, Melodia, Cremona, Celeste, Treble Coupler and Principal. It is fitted with two knee swells, the Grand Organ and the Swell Organ.

GUARANTEED FOR TWENTY-FIVE YEARS against any defect in material or workmanship. This guarantee is shown in full on page 668.

PRONOUNCED FIRST CLASS BY GOOD PLAYERS.

Moore, Okla.

Sears, Roebuck and Co., Chicago, Ill.

Dear Sirs:—The Church and Chapel Organ received, was put in the church and tested by three good players and a number of hearers and pronounced by all to be a fine instrument. We thank you for such a good organ. Will do all I can in the future for you.

Ever yours,
MRS. MARY J. APPLEGATE.

MUSICAL INSTRUMENTS OF ALL KIN

WE FEEL PROUD OF THE FACT that we are the largest dealers in musical merchandise in the world. The superior qualities and splendid values we have given our customers are the only factors of our success.

OUR LOW PRICES consistent with high grade musical instruments are rendered possible by our economical method of sale, actual cost prices with our small profit added to it. Our cost is the lowest possible on account of our enormous sales which enable us to make the most favorable contracts and obtain our goods at the very lowest cost of production. We take the entire output of several American and European factories. We represent some of the best makers of Germany, France and Italy, and their instruments, which already enjoy an enviable reputation abroad, can only be secured from us.

OUR CUSTOMERS number hundreds of thousands and include professionals as well as amateurs and beginners. Colleges, normal schools and other institutions where music is taught have become our steadiest customers chiefly through one trial order placed with us. In fact one of the largest universities in the West buys its musical instruments exclusively from this department. Doesn't this demonstrate the popularity our Music Department has attained and show the confidence with which our many thousands of customers have favored us?

WE GIVE OF CHARGE FREE

with every Violin, Guitar, Mandolin, Banjo and with valve band instruments, a course of fifty lessons with the best Correspondence School of Music in America, the only charge made by the school being for postage, which does not exceed 12½ cents per week. Customers ordering any of the above instruments from us will receive lessons from well known masters, among them the Director of the Chicago Symphony Orchestra, America's foremost guitarist, the world's greatest mandolinist, and a well known banjo virtuoso.

OUR LIBERAL TEN DAYS' TRIAL OFFER.

Musical Instrument that you may select to an in the United States under the distinct agreem after a full and complete ten days' trial you are not that the instrument represents better value than get elsewhere, if you do not find that the tone, the and all that goes to make the instrument is of identical grade as found in instruments sold for the price we ask, if you are not willing to free that we have saved you at least one-half if not the transaction, if you are not fully satisfied in ev to keep the instrument, then return it to us at our and we will return all of your money, including portation charges. Under these terms it will be interest to favor us with your order if in the ma any musical instrument.

VIOLINS

THE VALUE OF A VIOLIN. There is no article in the world the value of which is so little known as the violin, and it has therefore been the custom of dealers to charge as much as the customer was willing to pay, basing their prices on fictitious or imaginary qualities the instruments were supposed to possess. There are only two fundamental things which determine the actual value of a violin: materials and workmanship. Upon the grades of material (wood, varnish, etc.) and the workmanship (model, proportion, construction, etc.) depend the ultimate results of whether the instrument will have a good tone or not. Nobody but an expert is truly able to judge as to these two qualities. The manager of our Music Department has made a life study of violins and relative values and is therefore competent to judge them down to the smallest detail. Our prices, consistent with quality, are positively lower than quoted by other dealers. Some dealers are offering violins as low in price as 75 cents, but these cannot be considered musical instruments, and represent a very poor investment for the p and a bad advertisement for the dealer. We know that in offering a vi outfit at $2.95, we are striking the very lowest limit at which an instrum be offered containing any merit whatsoever.

OUR LINE OF VIOLINS was never so complete and of such high grade present time. Our instruments are all constru cordance with the best known principles and of the best possible materials. Quali sacrificed to price. We earnestly solicit a comparison of our violins with those other dealers, and we absolutely guarantee to give a better looking, better constru better toned instrument at about one-half of their price. Our instruments are carefu and examined before shipping. Our violins are full size except Nos. 12F302¾, 12F312¾, which are furnished in three-quarter and seven-eighth size.

THE BOWS included are of much better quality than what other dealers are We do not handle red wood or maple bows as the woods are too will not retain their shape. With our bows the best results can be obtained.

THE CASES AND FITTINGS which we give with our violins are of good well made, useful and lasting.

A complete line of 'Cellos and Basses is quoted on page 697.

COMPETITION VIOLIN OUTFI

$2.95

CONSERVATORY VIOLIN OUTFIT

THIS VIOLIN is made after the celebrated Stradivarius model. The wood of which it is constructed is well seasoned and the entire instrument is put together with care. It has the characteristic Stradivarius neck and scroll and the tailpiece and fingerboard are made of solid ebony. The body of the instrument is finished in a reddish color, shaded into amber, and covered with a beautiful transparent varnish. It is double lined and carefully built, which insures for it a very pleasing tone of good volume and smoothness. Do not class this instrument with violins which are usually sold by dealers at this price, because it will compare favorably with the violins offered for sale by them at from $8.00 to $10.00. If you order this violin you will be greatly surprised at the exceptionally good quality of materials and pleasing tone. The bow given with it is also unusual value. It will give good service. Shipping weight, 7 pounds.

GUARNERIUS MODEL AND OUTFIT

$9.75

THIS OUTFIT is fully as great a bargain as any in our line. Each article which goes to make it up is carefully selected, and is of the best considering the price of the outfit. Our buying advantage is so great that we are in a position to get the very lowest possible prices upon all classes of goods, and as we import all of these goods from Europe we are able to quote the actual importing price with but our one small percentage of profit added. Every bit of advantage we can gain, either in buying or selling, we give our customers in low prices.

DESCRIPTION—Guarnerius model violin, of perfect measurements and construction. Needless to say that it is blocked and fully lined. It has a beautifully flamed two-piece back made of selected and well seasoned maple. The sides are made of maple and the top of especially selected Cremona spruce. The soundholes are of the characteristic Guarnerius pattern and the purfling is perfectly and tastefully inlaid. The instrument is a deep rich brown throughout, covered with a splendid transparent varnish and highly polished. The tailpiece, fingerboard and pegs are of solid ebony, and the scroll is accurately and gracefully cut. We know you will be pleased with the tone which is mellow and of great carrying power.

THE BOW we give is right in length, weight, and balance. We guarantee it will give service and satisfaction.

No. 12F314 OUTFIT CONSISTS OF:

- One violin as described.
- One imitation snakewood bow, carved frog.

No. 12F315 Complete outfit. Price..(Shipping weight, 12 lbs.)

OUR GENUINE KOSCHAT VIOLIN AND OUTFIT

THE QUALITY HAS BEEN IMPROVED BUT THE PRICE REMAINS THE SAME.

IF DEALERS THROUGHOUT THE COUNTRY were handling violins and other musical merchandise of the same high grade as we include in this outfit, they would be compelled to charge you from $25.00 to $30.00 for it; but this class of outfits is not to be had from them. They do not use enough to import direct or to make a contract with the makers to take over their entire output. Their supply must come from the jobber or wholesaler, who in turn pays the manufacturer's agent a commission for importing the merchandise. Add to this the maker's profit and you'll have four distinct profits which you finally must pay, the maker's, the import agent's or representative's, the wholesaler's and finally the dealer's, besides the accumulation of expenses as freight and cartage from one place to another. We buy from the maker and sell direct to you, thus you pay only two profits instead of four, and two ways of transportation instead of four.

HERR KOSCHAT, the maker, is so well known that we need to give no lengthy introduction. All we ask is that you read carefully every word of the following description, place your order with us, and then if you do not find the outfit satisfactory and up to your expectations in every particular, and that we have saved you half in the price, you will do us a favor by returning it and we will return your money and all transportation charges.

PREVIOUSLY AS GOOD AS OTHER DEALERS' $30.00 OUTFITS, YET WE IMPROVED IT.

No. 12F318 OUTFIT CONSISTS OF:

- One genuine Koschat violin as described.
- One violin form case, made of pulp, full flannel lined, nickel plated lock and clasps.
- One Tourte model Brazil wood violin bow, ebony frog, full German silver lined, double eye.
- One Becker's chin rest.
- One auto rosin in new style patent box.
- One set waterproof strings.
- One German silver mute.
- One tuner with pipe for each string.
- One fingerboard chart.
- One Guckert's $2.00 instruction book.
- One Witmark's Violin and Piano Folio.

One course of fifty lessons with the best correspondence school of music in America.

No. 12F318 Complete outfit. Price..... **$14.85**

DESCRIPTION. The violin is copied from th Stradivarius of 1714. The back a made of selected narrow flamed curly maple, the top i well seasoned evenly grained spruce, with "ff" holes gracefully cut. The neck and scroll are made maple and are elegantly carved. The fingerboard and made of genuine ebony and the pegs of rosewood. T deep, rich amber in color and is transparent, bringing the beautiful flaming. The edges and the neck are natural color. The tone is sweet though powerful and adapting this instrument for solo as well as for orchest

OUR GENUINE CHADWICK (LONDON) OUTFIT

THIS IS AN EXTREMELY HIGH GRADE VIOLIN OUTFIT we have made up for the use of professionals and high class amateurs, and which we are prepared to furnish at the present time at a price never before heard of. This is one of the very best outfits we have ever offered to our customers, and its sale up to the present time proves that it is destined to become the largest seller we ever had. If you are looking for a violin outfit which will be strictly high class in every respect and in which every article will be of the very best, you will make no mistake in purchasing this. You will not find an outfit of this grade offered for sale by any of your local dealers. The violin which we furnish with this outfit is made under the direct supervision of Chadwick, the famous London violin maker, and we guarantee its beauty of appearance, the durability of its workmanship and the quality of its tone. As we are the sole agents for Chadwick violins, and as very few dealers carry an outfit of this grade (for which they are obliged to ask $45.00 to $50.00) we cannot ask you to compare it with other makes, but we ask you to do this: Purchase one of these outfits, give it a ten days' trial, and if you find that the workmanship, quality and tone are not worth $50.00 to you return it to us, and we will return your money together with all charges you may have paid. **Consider the fact** that all the articles included in the outfit are equal to the violin. You can't play with a poor bow or carry your instrument safely in a poorly constructed case. We **guarantee** everything to be of fine quality, well made and serviceable.

WE KNOW you will admire the pure, even tone of this violin. Loud enough for orchestra work and yet sweet and delicate for solo work.

No. 12F331 OUTFIT CONSISTS OF:

- One Chadwick violin as described.
- One Tourte model bow, full German silver trimmed, and of the very best quality Pernambuco wood.
- One pulp case, covered throughout with a fine grade of leather, velvet lined and nickel trimmed. See illustration.
- One genuine automatic telescope music stand.
- One piece genuine Bernadel rosin.
- One Mazas' Complete Violin Instructor.
- Two volumes of Schradieck's Violin Studies.
- One extra set of Verona Italian strings.
- One latest pattern chin rest.
- One set of tuning pipes, E. A. D. G.
- One violin mute.
- One fingerboard chart.
- One book Most Popular Violin Pieces.

One course of fifty lessons with the most prominent correspondence school of music in America.

No. 12F331 Outfit complete. Price.....(Shipping weight, 18 pounds).....

WE CANNOT BEGIN TO DESCRIBE the elegant and graceful of this instrument, as it to be appreciated. The violin is of the well known Stradivarius model, po and measurements. The back and sides are made of two pieces of very clos flamed maple, and the top is made of old Cremona silver spruce, thorou The neck and scroll are made of curly maple, the scroll being very a neatly cut, and is branded with the words "Chadwick's London Violin" This violin is golden yellow in color, and is covered with a transparent Cre giving it a beautiful and brilliant luster. The fingerboard, tailpi are made of ebony, nicely finished. This is undoubtedly the most we furnish with any outfit in our catalog.

FANCY PEARL INLAID VIOLIN

Most violins highly ornamented by fancy inlay are of the cheap variety and undesirable in every respect. The violin we illustrate at left has been designed and made with a view of giving our customers not alone an instrument handsome in appearance, but of exceptionally good tonal qualities. We have not sacrificed the points which are usually looked for in a good violin to the ornamentation. The back of this instrument is made of curly maple, inlaid at the top with a large star, the center with an allegorical design and the lower part with a combination of designs of different shapes and sizes, all made of different shades of pearl most carefully inlaid. The top of the violin is made of selected, evenly grained spruce, generally used on all better grade violins. As shown in the illustration, the top is ornamented with four beautifully made large stars, all of pearl. All of these ornaments are carefully inlaid in a background of black, surrounded by a framework of black and white inlay. The purfling, carefully made and inlaid about ¼ inch from the edge, forms a beautiful framework for the entire design of the pearl work. To give an idea of how elaborate and complicated the inlaying is, will state that it consists of over 300 pieces of pearl. The tailpiece, fingerboard and pegs are inlaid with pearl figures to harmonize with the pearl work in the body of the violin. The entire instrument is finished in a dark color, blending to natural toward the center and lower part of the back. As explained above, nothing but the violin is included at our price. If you want a bow, case and other trimmings make your selection from the next pages.

FERRARI STRADIVARIUS VIOLIN

This violin is made by Angelo Ferrari, a well known maker of uncommon skill and enviable reputation. It will be necessary for you to see and try this violin before its actual beauty of outline, perfection of workmanship, careful details of construction, superb finish and above all its splendid rich and even tone will become apparent. We have made the technical description of this violin as clear as possible in the hope it will appeal to you without seeing it as it does to us who are familiar with its merits. **THE MODEL** is copied from the best of the few instruments made by Stradivarius with one-piece back, which is made of an especially fine quality of highly flamed maple. **SIDES** of the same material. **THE TOP** is of Alpine spruce very uniform in grain. **THE PURFLING** or inlaying both at the top and back is set with great regularity and care. **THE NECK** is made of finely figured maple with the scroll most artistically hand carved on the back and sides in a beautiful Venetian style. **THE COLOR** of this instrument is a superb and striking reddish amber shaded at the center of the body to a golden yellow. **THE VARNISH** is transparent, thus bringing out the colors as well as the flaming of the wood. **THE FLUTED TAILPIECE** and pegs and dull finished fingerboard are of jet black ebony. **THE MATERIALS** are all thoroughly seasoned and specially selected. **THE WORKMANSHIP** is positively the best that can be put in a violin at the price we ask. Every detail artistically carried out. We cannot ask you to compare this violin, as it is beyond all comparison. The Ferrari violins at their price stand in a class by themselves. Order and try one of them and be convinced. Good bows, strong cases and necessary accessories quoted on page 692. Purchase what you need with the instrument and save transportation charges. Shipping weight, 9 pounds.

PERFECT IMITATION OF OLD AMATI.

OUR BAUER OLD AMATI C

This violin is one of Richard Bauer's best makes. He has copied model of one of the greatest masterpieces of Amati, the celebrated old maker, but has imitated it perfectly in every detail. The back, sides a very plainly the marks of age, the violin being so finished that it show continuous contact, the varnish has worn off. It is so beautifully perfectly copied that none but an expert can tell the difference violin and a real old one. It is not alone a beautiful copy of a but as an instrument in itself, the work of one of Germany's best v and is sure to please in tone quality as well as every other fea looked for in a violin of this grade. In order to produce a fine vio must be of a certain quality and age, and Richard Bauer selected the w violins with special care to produce the desired results. The back and si of maple and the top of especially selected spruce, the most destrable com wood for tone. The neck is made of figured curly maple and the scroll carved. The purfling is carefully inlaid and the edges of the violin finished in the manner especially 'chas Amati's instruments. The fingerboard, pegs, tailpiece and end pin are all of the best quality ebony wood. V grade are not handled by dealers generally and it will therefore be impossible for you to compare this instrum thing that will be offered you. If you are desirous of possessing a violin that has the appearance of an instrum of years old and possessing a mellow tone, you cannot make a better investment than by ordering this violin. **to order a case, bow, rosin and other accessories, as the price charged does not include anything but the vi** and other goods ordered with the violin will cost nothing extra for freight or express charges. VIOLIN CASES.

We know our cases will give satisfaction as we know by whom and how they are made. You cannot judge a case by the outside appearance alone, as when the frame is covered with leather or other such material it does not show. The bodies of our cases are made of selected materials, strong in construction and will not get out of shape. "Beauty is only skin deep," and this, indeed, is true of most cases. Should anybody offer cases of similar appearance to ours at lower, or even equal price, we must warn you to be careful. The foundation or life of the case may be poor. **No one can sell our quality at anywhere near our price.**

MEASUREMENTS, VIOLIN	Total Length	Length of Body

VIOLIN BOWS.

In purchasing a violin bow the quality of the wood of which the stick is made must be the first consideration. It must combine stiffness with elastici balanced weight. The very best bows are made of Pernambuco wood, which grows in South America and which Francis Tourte, the most celebrated of ers and properly called the "Stradivarius of the bow" discovered in 1780, as the best for the purpose. Brazil wood also makes a very good stick whic weight, spring and resistance and gives satisfaction. A good many bows are made of maple, beechwood and redwood, but as they are too light and nonelastic and therefore u unsatisfactory, **we do not handle them. Our bows** have fine sticks, well curved and balanced, and we know they will give satisfaction.

EXTRA WIDE FROG. BRAZIL WOOD. FLAT BUTTON. | TOURTE MODEL. GENUINE PERNAMBUCO WOOD.

FREE WITH EACH GUITAR A COURSE OF FIFTY LESSONS WITH THE BEST CORRESPONDENCE SCHOOL OF MUSIC IN AMERICA.

—GUITARS—

50 LESSONS UNDER THE DIRECTION OF GREATEST GUITARIST IN THE WORLD GIVEN FREE WITH EACH INSTRUMENT

OUR LINE OF GUITARS is more than usually complete this year, and we are glad to be able to offer to our customers some especially wonderful values in this line. We wish to say that we could offer for sale guitars as low in price as $1.25, but the reputation which we have been so many years in building up is much too valuable for us to sacrifice for the sake of a few cents profit on the sale of such an instrument which **we know** could not give satisfaction. Don't be misled if lower prices should be offered by others upon these instruments, because a careful examination and comparison will at once convince you that such instruments are not by any means what they appear to be. The guitar which we offer at $1.89 is superior in every way to those offered by others at a much higher price.

WE CONTROL the entire output of the largest and most modern factory in the United States and are, therefore, able to offer the instruments at the actual cost of production with only our small margin of profit added.

ALL OUR INSTRUMENTS are made by the most expert mechanics, according to the best principles of construction, are perfect in model and measurements, thoroughly braced and lined. The materials used are well seasoned and the best that money and experience can buy. We guarantee our instruments for one year against splitting or warping and will make good by repair, exchange or refund any instrument that may show either of these defects. The finish of all our guitars, from the cheapest to the highest, is the very best consistent with the price charged.

AS A MATTER OF JUSTICE to yourself and to us, we ask you to carefully compare our instruments with those offered by other dealers. We fear no competition. We know we can give you a better made, better finished, and better looking and sounding guitar at a lower price than any other dealer.

LET US CONVINCE YOU of the truthfulness of the above statements. Take one of our guitars, compare it with what other people are offering, try it for ten days, and if for any reason whatsoever you are not pleased with it or satisfied that we gave you a splendid bargain, return it to us and we will return your money, all transportation charges so that the trial will cost you absolutely nothing. Will other dealers **do as much?** If they don't, it is because they know their instruments cannot stand comparison with ours; and if they do, **we know** it is **their** instrument that will be returned.

THE DIMENSIONS OF THE DIFFERENT SIZES of guitars are as follows: STANDARD SIZE—Length of body, 18⅛ inches; total length, 36¾ inches; width, small end, 9 inches; width, large end, 12½ inches; depth, small end, 3¼ inches; depth, large end, 3¾ inches.

CONCERT SIZE—Length of body, 18¾ inches; total length, 37 inches; width, small end, 9⅛ inches; width, large end, 13 inches; depth, small end, 3⅛ inches; depth, large end, 3¾ inches.

GRAND CONCERT SIZE—Length of body, 19 inches; total length, 38 inches; width, small end, 10 inches; width, large end, 14 inches; depth, small end, 3⅜ inches; depth, large end, 4 inches.

AUDITORIUM SIZE—Length of body, 19½ inches; total length, 38½ inches; width, small end, 10¼ inches; width, large end, 14½ inches; depth, small end, 3⅝ inches; depth, large end, 4 inches. **The auditorium size guitars are made to order only, and require two to three weeks' time to make and ship.**

Total length of instruments may vary up to ¼ inch on account of neck.

WITH EACH GUITAR we send an extra set of strings, one Magic Capo d'Astro, book of Guckert's chords and one lettered fingerboard. Shipping weight, 12 pounds.

THE MOZART

At $3.95 we are offering a guitar made by skillful mechanics, of perfect proportions, of good well seasoned materials, with ornaments, a splendid finish, and above all a good clear and brilliant tone. Such a guitar would ordinarily be sold for $6.00. Our low price is only possible on account of our immense buying. We control the entire output of the factory and sell you the instrument at the actual cost of production with only our small margin of profit. The following description will convey to you but partially the real merits of this guitar: Back and sides are finished by patent process in a perfect imitation of rosewood. The back is bound with white celluloid and inlaid down the middle with a strip of variegated woods. The top is of a good quality Vermont spruce finished in the natural color. It is bound with white celluloid and inlaid around the edge with a combination of woods of various colors arranged in the shape of a cord and lined with narrow strips. The soundhole is inlaid with wooden ornaments to match the side. The small illustration at the right gives an exact reproduction of the inlay. The colors of the wood employed are selected to harmonize with the color of the body. The neck is well cut, easy to the touch and finished in dark mahogany. The fingerboard is made of walnut, ebony stained, carefully fitted with German silver frets and pearl position indicators. The patent heads are made of brass, with black buttons. The tailpiece is made of steel, nickel plated, polished. The bridge is made of boxwood, ebony stained, with German silver fret. The strings are the genuine Glendon silvered steel. In other words, the best possible materials consistent with the small price are used in its construction. It is an instrument made not only to sell and look upon, but to play and be enjoyed.

No. 12F607 Made in standard size only. (Shipping weight, 12 pounds) Price.....

A NEAT DECORATI

It consists of small blocks of w black wood arranged to represe which is surrounded by three strips of alternate green, white woods, producing a very pret

THE SERENATA

Standard Size Only.

This is the greatest value ever offered in a guitar at this price, as the best material and workmanship which can be furnished at this figure have entered into its construction. The back and sides are made of poplar and by a special patent process are finished in a splendid imitation of genuine quarter sawed oak. The top is made of very good quality spruce, bound with white celluloid and inlaid with one strip of black purfling. The soundhole is also inlaid with two rings, one of three strips, and the other of five strips of black, white and red wood in alternate order. It has a good neck, stained in imitation mahogany, with heelpiece veneered with rosewood. Good quality brass patent heads with celluloid buttons. Hardwood fingerboard in imitation ebony, with raised frets and three pearl position dots. Nickel plated tailpiece. Ebonized bridge and steel strings. Shipping weight, 12 pounds. **$2.45**

No. 12F602 Standard size only. Price.....

Imitation mahogany body; otherwise same description as No. 12F602, except that it has no celluloid binding on the edges and is not so highly finished. OUR ADVICE IS THAT YOU PURCHASE ONE OF THE BETTER GRADES, but if $1.89 is all you care to invest, we guarantee this guitar to be equal to instruments sold by others at $3.00 to $4.00. Shipping weight, 12 pounds. **$1.89**

No. 12F590 Standard size only. Price.....

THE TOREADOR

This is one of the prettiest guitars offer in a low priced instrument. The sides are finished in a perfect imitation of finely grained mahogany. We also furnish such a good imitation on a special process employed by which is not known to other makers. The back is made of spruce, the edges bound with celluloid and inlaid with variegated woods in an assortment of colors. Same ornament around soundhole. The back of the instrument is bound with white celluloid and has a very pretty design of decalcomania in imitation of wood purfling in the middle of the back. The neck is made of selected material. The fingerboard is made of hardwood in an imitation of ebony and fitted with raised frets. Has three genuine mother of pearl position dots. A good quality of brass patent heads with black celluloid buttons. Nickel plated tailpiece, and steel strings. Shipping weight, 12 pounds.

No. 12F604 Standard size only. Price.....

THE JUANITA

Standard Size Only.

This guitar is certainly a beauty. We are sure that if you could compare this instrument with anything that may be offered you at even 30 to 50 per cent higher in price it would represent the best value from every possible standpoint. The back and sides of this guitar are made of fine **quarter sawed Northern oak.** Both the top and back edges are bound with white celluloid and inlaid with fine designs of wood purfling. The back is inlaid down the middle with strips of colored woods and the soundhole is bound with white celluloid, and also decorated with the same ornaments as the edge of the top. It has a very good quality neck finished in imitation mahogany, fretted fingerboard with pearl position dots, fine quality brass patent heads, nickel plated tailpiece and steel strings. It has a good full, round and sympathetic tone and is suitable for club as well as solo playing. Shipping weight, 12 pounds. **$4.55**

No. 12F609 Standard size only. Price.....

THE VERDI

Sides and back are hardwood, finished in imitation rosewood. Don't make the mistake of buying this one of the imitations so common on the market. Our factory employs a special process and the imitation is so perfect that nobody but an expert can tell the difference between this guitar and a genuine rosewood one. The back has a strip of inlaid wood down the middle and around the outside edges, the edges being bound with white celluloid. The soundhole is made of Eastern spruce inlaid around the soundhole with a strip of different colored woods and bound with white celluloid. The outside edge is also inlaid with colored wood and bound with white celluloid. The inlaying on this guitar is of a very neat design, and the color effect of the different woods is very pretty yet fully harmonizing with the whole of the instrument. The neck is finished in imitation mahogany, with the head veneered with genuine rosewood and ornamented with mother of pearl figure. It is fitted with first quality screw pattern brass patent heads. The fingerboard is made of boxwood in perfect imitation of ebony and accurately fretted with German silver frets, bound with white celluloid and inlaid with mother of pearl position dots. The nickel plated tailpiece. Body of the guitar is varnished with transparent varnish and highly polished. Shipping weight, 12 pounds.

No. 12F610 Standard size only. Price.....

THE SCHUBERT

In this instrument we are offering a genuine Flemish oak inlaid ornamented guitar, with a wonderful tone and superb finish, at minimum actual cost to manufacture with but our one small margin of profit. The description which follows can give you an idea of its beauty of ornamentation and finish, but it cannot possibly carry the impression of its round, powerful tone. It must be heard to be appreciated. **The back and sides** are made of an especially selected piece of beautifully grained Flemish oak. The back is inlaid down the middle and around the outside edge with a strip of ornament consisting of small pieces of various colored woods, carefully arranged in effective design, and then bound with white celluloid. **The top** is made of an especially fine piece of very well seasoned Eastern spruce. The outside edges and around the soundhole are inlaid with the same rich combinations of woods and colors as are used on the back and also bound with white celluloid. The small illustration at the right shows the actual size and design of the ornaments. **The neck** is made of genuine mahogany of slender and graceful proportions, yet strong enough to stand the strain of the strings. **Head** veneered with rosewood and inlaid with a fine star in mother of pearl. It is fitted with brass patent heads. **The fingerboard** is of jet black ebony, of absolutely perfect scale, fitted with nice, smooth German silver frets, seven position marks of mother of pearl, and bound all around with white celluloid. This binding prevents the rough edges of the frets from coming in contact with the hands of the performer, thus facilitating the playing and adding besides to the beauty of the instrument. **The bridge** is made of ebony, with bone saddle and ebony bridge pins inlaid with mother of pearl. The entire guitar is **beautifully finished** and polished and is covered with elegant transparent varnish. This instrument cannot be duplicated anywhere on the market for less than twice the price we ask, quality and tone considered. Shipping weight, about 12 pounds. **No. 12F611** Standard size. Price..... $

THE NORTHWESTERN, $7.95

Never before has such a high grade, genuine rosewood guitar been offered at such a low price. Its beauty of ornament and tone can only be appreciated after an examination and trial. The back and sides are made of genuine rosewood. The top is of fine Eastern spruce, especially selected for its sonority, and finished in the natural color. The top and back edges are bound with white celluloid. The top edge is inlaid with various colored woods, set in a very attractive design. The soundhole is bound and inlaid to match the edge of the top. A strip of the same kind of purfling, or wood inlay, is set in the back of the instrument. (See illustration at right.) The neck of this guitar is made of genuine mahogany, the heelpiece of which is veneered with rosewood. The head of the neck is veneered on the top with genuine rosewood, and inlaid with a mother of pearl star. The fingerboard is of genuine ebony, with German silver frets, and inlaid with mother of pearl position dots. The patent heads are nickel plated, with white celluloid buttons in a perfect imitation of ivory. The bridge is made of ebony, with German silver fret. Bridge pins and end pin also made of ebony and inlaid with mother of pearl. Fitted with best quality of steel strings. For tone quality, accuracy of intonation and ease of playing, this guitar cannot be surpassed by instruments which usually retail at from $15.00 to $18.00. Shipping weight, 17 pounds.

No. 12F638 Grand Concert size. Price 9.65

THE NEW ILLINOIS, $9.85

Compare this guitar with any your dealer has to offer at $18.00 to $20.00, give it a ten days' trial, and if you don't find it is at least equal, if not superior, return it at our expense, and we will return your money.

DESCRIPTION—Back and sides made of genuine mahogany, finely figured. The back is inlaid in the middle and around the edges with a very fine strip of multicolored woods (see small illustration at right) and bound with white celluloid in imitation of ivory. The top is selected with great care from the best Eastern spruce it is possible to obtain and is finished in the natural color. The edge is ornamented with the same high class purfling as at the back and bound with celluloid. Around the soundhole it has three circles of wood inlaying, and the edge is also bound with celluloid. Neck is made of solid mahogany and is of graceful model. Its heel and head are veneered with rosewood and inlaid with a star and a diamond in mother of pearl. Patent heads, or machines, are of the best screw pattern, nickel plated and polished, and fitted with celluloid buttons in imitation of ebony. The fingerboard is made of Madagascar ebony bound with celluloid, fretted with great accuracy with genuine German silver frets, round, smooth and agreeable to the touch. All position marks are in the shape of fine mother of pearl ornaments of different sizes and designs. Ebony bridge, with bone saddle. Bridge and end pins inlaid with mother of pearl. The finish—This guitar is covered with three coats of fine varnish, carefully rubbed by hand and brought to a fine luster as on all high grade pianos. The transparency of our varnish permits the colors of the woods to show in their full brilliancy. Shipping weight, about 17 pounds.

No. 12F632 Grand Concert size. Price 11.50

THE CORNELL, $10.95

Sides and back are made of handsomely figured genuine rosewood. The back is inlaid down the center and around the edge with a neat strip of different colored woods set in very artistic designs and bound with white celluloid. The illustrations give but an idea of the general outline. The beautiful effects of the combination of colors cannot be appreciated unless seen. The top is made of even grained spruce finished in natural color, bound with white celluloid and inlaid around the edge with the same ornamentation of colored woods. Our inlays are all very elaborate, representing the setting of wood in many different patterns, which makes it very expensive on account of the labor required, and must not be confused with the plain strips of colored wood used by other manufacturers. The neck is made of solid mahogany. The head of the neck is veneered on the front and back with genuine rosewood, and ornamented on the front with inlaid designs of mother of pearl. The fingerboard is convex in shape, and is made of solid ebony, full bound with white celluloid accurately fitted with German silver frets and ornamented with fifteen figures in fancy designs of mother of pearl. The nut is made of bone to correspond with the binding of the fingerboard. Ebony bridge with bone saddle. Ebony pearl inlaid bridge pins. Patent heads are engraved and highly nickel plated and burnished and are fitted with white celluloid buttons. The tone of this instrument is all that could be desired. The guitar is given a very fine finish by using the same process that is used on pianos. Shipping weight, 18 pounds.

THE YALE, $12.75

In this guitar we are offering to our customers an instrument which is elegant in finish, correct in model, durably built and mellow and powerful in tone. This guitar is made of the finest quality birdseye maple, finished in the natural color. The small illustration at the right will give only a faint idea of the elaborate and expensive inlay used on the back of this guitar. The back edge is bound with black celluloid, and in the center of back is set a strip of block work in black and white, bound by two narrow strips of green and black purfling. On each side of this strip on both the lower and upper part of the instrument it is exquisitely ornamented with a splendid design of inlaid woods, representing leaves, flowers, buds and vines. The top is made of thoroughly seasoned Eastern spruce of very fine grain, bound with black celluloid and inlaid around the edge with a wide strip of black, white and green purfling of very small figures, artistically set. The soundhole is bound with white celluloid and surrounded by three circles of inlay to match the edge. The neck is finished in imitation of ebony and very highly polished. Patent heads are made of best quality brass. The fingerboard is made of solid ebony and very highly polished. Patent heads are made of best quality brass. The fingerboard is made of solid ebony and bound with white celluloid, fitted with German silver frets and ornamented with genuine mother of pearl position dots. By purchasing this guitar from us you can save fully 50 per cent, and you will be sure of obtaining an article which is first class in every respect. Shipping weight, 18 pounds.

THE VASSAR, $19.45

You may pay a higher price for a guitar, but you cannot get an instrument higher in quality from a construction, finish or tonal standpoint, and this we would like to prove to you at our risk. Read this description very carefully. The back and sides are made of genuine rosewood. The back is bound with white celluloid and inlaid down the middle with a broad strip of mother of pearl between two narrow strips of colored woods. The sides are inlaid with two bands of colored variegated woods, which harmonize nicely with the beautiful rosewood. The top is made of Eastern spruce, especially selected for its resonant qualities. The edges of the top and soundhole are bound with white celluloid and inlaid with mother of pearl between strips of colored woods. The neck and head are made of genuine mahogany. The head is veneered both front and back with rosewood; front inlaid with three designs in mother of pearl and fitted with the best American patent heads, nickeled and engraved, having celluloid buttons in imitation of ivory. The fingerboard is made of solid ebony bound with white celluloid and inlaid with seven beautiful mother of pearl designs for the positions. The bridge is of solid ebony with bone fret and pearl inlaid ivory bridge pins. The tone of this guitar is sweet and powerful and harplike in quality. We advise the purchase of a case now, thus saving transportation charges. Shipping weight, 18 pounds.

FREE WITH EACH MANDOLIN, A COURSE OF FIFTY LESSONS WITH THE BEST CORRESPONDENCE SCHOOL OF MUSIC IN THE WORLD

MANDOLINS

AMERICA'S GREATEST MANDOLINIST THE INSTRUCTOR OF THE CORRESPONDENCE SCHOOL OF MUSIC IN WHICH WE GIVE YOU A COURSE OF FIFTY LESSONS FREE

THE MANDOLINS we are offering, from the lowest priced one to the best one, are musical instruments in every sense of the word. Musical instruments in model, workmanship, material and tone. They are all made by expert mandolin makers, the highest paid mechanics in the country, are put up with the greatest of care and on the most scientific principles, and should not be compared with the cheap, flimsy noise boxes shaped like a mandolin which are generally offered as musical instruments. We could offer mandolins as low as 95 cents each, but they would not give service or satisfaction and therefore we do not handle them.

DON'T BE INFLUENCED by price alone; consider the quality, and only then will you appreciate how far superior our mandolins are, and how much actual value they represent.

OUR TERMS OF SHIPMENT are as liberal upon our mandolins as upon all of our instruments. We allow any mandolin purchaser to be tried and tested for ten days, and will receive it back and cheerfully return the price together with transportation charges, if it does not prove satisfactory.

ALL OUR MANDOLINS are regular standard 8-string instruments. We can supply any of the styles from No. 12F706 up to No. 12F723 with 12 strings for $1.50 extra, and from No. 12F726 to No. 12F766 for $2.00 extra. These instruments are, however, made to order and we require from 2 to 3 weeks' time before we can ship them.

WITH EACH ONE OF THESE MANDOLINS we give an extra set of pick, complete instruction book and a fingerboard chart. Shipping weight of mandolins, 7 to 11 pounds.

THE CONQUEROR

$3.95

Eleven Mahogany and Rosewood Ribs.

This is the greatest mandolin bargain ever offered by any concern in the world, and we would like to have you compare this instrument in every way with what is offered by other dealers, as we know it cannot be duplicated for any less than $8.00 to $10.00. Compare the number of ribs, the materials they are made of, the grain of the wood of the top, the beautiful and elaborate inlay we have around the edge of the top and around the soundhole, the rich and artistic guard plate we use, the neck, fingerboard, patent heads, in fact every part entering into its construction, the careful way it is built and braced, the splendid finish, and above all its powerful, sweet tone, due to thoroughly seasoned, carefully selected materials, perfect model, measurements and expert workmanship, and you will find it so far superior to anything you ever saw before that there will be no comparison whatever. **Read the description.** It has eleven ribs of alternate rosewood and mahogany, with a strip of white holly between. It has solid rosewood cap and apron; top of resonant spruce, inlaid around the edge with a broad strip of different colored woods set in a very ornamental and elaborate design, and bound with white celluloid. The soundhole has a ring around it of the same ornamentation as the edge. The guard plate is very handsome and unique in design. Its body is black, surrounded by a Florentine ornament of a rich brick red and at the extreme left is inlaid a fine bouquet of flowers in woods of different colors. The neck is well cut and graceful, with the front of the head ebonized and polished. It is fitted with best quality brass American screw patent heads. The fingerboard is rosewood with raised genuine German silver frets and mother of pearl position dots. It has a nickel plated tailpiece and sleeve protector. It is coated with fine transparent varnish, which brings out the splendid and effective grain of the wood; very highly hand rubbed and polished. Solid rosewood bridge. **$3.95**

No. 12F706 Price.....(Shipping weight, 7 pounds.).....

THE DEFIANCE.

This mandolin is not to be compared with the poorly constructed instruments usually sold at from $3.00 to $4.00, as it is superior in every respect. It has 9 ribs of alternate maple and walnut, with strips of red inlaying between. The apron is made of imitation rosewood, the top of spruce, and has black fiber guard plate. Around the soundhole it is inlaid with four strips of different colored woods. The neck and head are made of imitation mahogany, fitted with solid brass patent heads. It has an ebony finished fingerboard, inlaid with four mother of pearl position dots and accurately fretted. The sleeve protector is of the nickel plated shell pattern with separate hooks for each string. **$1.95**

No. 12F701 Price.....(Shipping weight, 7 pounds).....

THE COMPETITION.

Has 9 ribs of alternate maple and mahogany, with thin strips of black wood between; imitation rosewood cap and top of silver spruce inlaid around the edge with a strip of colored wood and bound with white celluloid. Inlaid colored wood around the soundhole and a guard plate inlaid with a very pretty floral design in colored woods. The neck is imitation mahogany; the patent heads of good quality brass, the fingerboard is rosewood with raised metallic frets and inlaid mother of pearl position dots, nickel plated sleeve protector and is very highly finished. Shipping weight, 7 pounds. **$2.85**

No. 12F703 Price.....

THE SOVEREIGN.

Has 13 ribs of solid rosewood with fine strips of white holly between. It has solid rosewood cap and apron top of fine silver spruce, inlaid around the edge with a strip of different colored wood and bound with white celluloid. The soundhole is inlaid around with a ring of different colored wood to match the edges and bound with white celluloid. The guard plate is beautifully inlaid with a striking and classic design of various colored woods. The neck is of solid mahogany. The head is veneered on the front with rosewood; the patent heads are made of brass, screw pattern; the fingerboard is solid ebony; has raised metallic frets and inlaid mother of pearl position dots. The sleeve protector is highly nickel plated and the bridge is solid ebony. **$4.95**

No. 12F716 Price.....(Shipping weight, 7 pounds).....

THE 20th CENTURY.

This instrument has 21 ribs of alternate birdseye maple and rosewood, with strips of red colored wood between, making a very beautiful effect. The cap and apron are of solid rosewood. The top is made of silver spruce, inlaid around the edge with ebony and mother of pearl in alternate blocks in a beautiful cord effect and with strips of multicolored woods. The soundhole is bound with white celluloid and inlaid with mother of pearl ornaments of different shapes. The guard plate is in imitation tortoise shell inlaid with a splendid butterfly design in mother of pearl, in bright shades. The head is veneered on the front with rosewood, the neck is solid mahogany, and has the best screw pattern brass patent heads. The fingerboard is rosewood, with raised German silver frets and pearl position dots. The sleeve protector is nickel plated.

No. 12F718 Price.....(Shipping weight, 7 pounds).....

THE PRESIDENT.

A very charming instrument from the standpoint of materials, workmanship, ornamentation and the purity, volume and sweetness of its tone. **DESCRIPTION**—Genuine rosewood body made of 19 ribs with holly strip between each rib. Rosewood cap bound with white celluloid. Top is of white spruce with edges inlaid with a wide set of colored wood ornaments and celluloid bound. Soundhole is inlaid and bound to match edge. Guard plate has mother of pearl flowers and vines inlaid into the celluloid body in imitation of genuine tortoise shell. A very beautiful combination. Neck is of genuine mahogany with top of head veneered with rosewood and inlaid with pearl ornament. Fingerboard is of ebony, fretted and celluloid bound with pearl position dots. Patent head and tailpiece of latest and most approved style. This mandolin is only to be compared with what others are offering at $12.00 to $15.00 and we want an opportunity to prove it. **$7.45**

Pearl Guard Plate

No. 12F723 Price.....(Shipping weight, 7 pounds).....

THE IMPERIAL.

Please notice the elaborate guard

This mandolin has 28 ribs of extremely finely flamed rosewood, with thin strips of white holly between. Cap and apron also of rosewood and bound with celluloid. Top is a fine specimen of Eastern spruce. Edges and soundhole are bound with white celluloid and a very rich inlaying made of woods of different colors in a variety of shapes and sizes. Guard plate is most striking. It is made of celluloid in perfect imitation of tortoise shell, into which are inlaid leaves, acorns and two birds made of woods of bright colors and beautifully assembled. Neck is solid mahogany, the front of its head veneered with rosewood and inlaid with fine mother of pearl ornaments. Patent heads are of the sunken covered pattern, nickel plated, with white celluloid buttons. Fingerboard is of solid ebony, bound with celluloid and ornamented with position marks of pearl. Combination tailpiece and arm rest, nickel plated and burnished.

No. 12F726 Price.....(Shipping weight, 7 pounds).....

THE PALOMA.

PEARL ORNAMENTS.

Do not think because we are offering this mandolin at such a low price that it is correspondingly cheap in construction. If you could see this instrument and play on it you would undoubtedly believe us when we say we are selling it one-third cheaper than those of similar grade sold by other dealers. **DESCRIPTION**—35 ribs of first quality rosewood with strips of white holly between the ribs. Rosewood cap bound with white celluloid. Top is of Eastern spruce and is inlaid with mother of pearl dots and diamonds on black background bound with strips of colored wood. The outer edge is bound with white celluloid. The guard plate is made of imitation tortoise shell inlaid with a pretty design in mother of pearl. The neck is of solid mahogany hand carved at the heel. The head is veneered on the front and back with rosewood and is ornamented on the front with stars, crescents and flower designs in mother of pearl. The fingerboard is made of ebony bound with celluloid and inlaid with five mother of pearl position ornaments. The machine head is the American enclosed pattern, with aluminum plates, hand engraved and fitted with celluloid buttons. Hand engraved aluminum sleeve protector. The tone is powerful and mellow. **$12.75**

No. 12F756 Price.....(Shipping weight, 7 pounds).....

THE ANGELO.

Mere words cannot begin to describe this beautiful instrument; nor can illustrations do justice to the graceful outlines, the beautiful figures and designs and the perfect inlaying. As a matter of justice to yourself before purchasing a mandolin you must order this instrument under our most liberal terms. **DESCRIPTION**—Body of 44 ribs of genuine rosewood with strips of white holly inlaid between. Genuine rosewood scroll cap bound with white celluloid and inlaid with a strip of variegated wood in a combination of black, green, red and natural colors. The top is made of Eastern spruce in natural color and is thoroughly seasoned. The edges of the top and soundhole are bound with white celluloid and inlaid with a broad strip of mother of pearl between two strips of colored woods. The guard plate is the most beautiful of any design ever used on any mandolin. The background is made of imitation tortoise shell celluloid inlaid with the figure of a maiden playing a harp. This figure is made of mother of pearl in changeable green colors and is effectively surrounded by a ribbon design of mother of pearl and engraved to bring out small details. The neck is made of light mahogany, the head is veneered with a solid ebony extension pattern fingerboard (which allows performer to reach the last frets) bound with celluloid and inlaid with seven exquisite pearl position designs. The front of the head is veneered on the front with ebony and on the back with rosewood. The front of the head is covered with a pretty design in mother of pearl. It is fitted with the finest covered machine head, nickel burnished, with celluloid finger buttons. The tone is pure and mellow and of great volume and carrying power. **$1**

No. 12F766 Price.....(Shipping weight, about 11 pounds.)....

FIRST CLASS CLOTH BOUND FICTION, 11 CENTS EACH. SEE BOOK PAGE

MANDOLINETTOS.

The mandolinetto is a very neat little instrument of exactly the same shape as a guitar, only of smaller proportions, the body being 10 inches long by 8 inches wide. It is played exactly like the mandolin, and can be used by any mandolin player. With each instrument we include a genuine tortoise shell pick, one complete instruction book. Cases for these instruments, quoted below. Shipping weight of these instruments about 7 pounds.

This instrument is very fine, being made of genuine rosewood. The top is made of Eastern spruce, bound with white celluloid and inlaid with a broad strip of purfling in alternate colors in a very artistic design. The soundhole is also bound with white celluloid and inlaid with a broad ring of the same inlay as the top. The guard plate is inlaid with a very fine design of different colored woods. The back edge of this instrument is also bound with celluloid, and down the center of the back is inlaid a fine strip of purfling of the same as the top. The neck is made of genuine mahogany. The front of the head is veneered with rosewood. Patent heads are of the finest quality brass, screw pattern, with black celluloid and silver frets. It has genuine mother of pearl position dots. Tailpiece is nickel plated and polished. The finish of this instrument is magnificent.

No. 12F780 Price..... (Shipping weight, 7 pounds)..... **$5.75**

The body of this instrument is made of maple, finished by a patent process in a imitation of quarter sawed oak. The top is made of spruce, bound with white and inlaid around the edge and soundhole with strips of varicolored wood purfling. Nickel plated celluloid guard plate. The neck is finished in imitation mahogany, with brass frets and black celluloid buttons. Fingerboard is made of hardwood of ebony, and is very carefully fretted. It has four pearl position dots. Nickel plated tailpiece.

No. 12F782 Price..... (Shipping weight, 7 pounds)..... **$2.85**

BANJO-MANDOLINS.

This instrument is strung and played exactly the same as a mandolin. It has a 10-inch head with nickel shell and strainer hoop. It is lined with wood, and has 21 nickel plated brackets and protection nuts. It has a neatly cut cherry neck, finished in natural color, regular banjo extension style, with ebony veneered heelpiece. The front of the head is veneered with ebony, inlaid with a mother of pearl star, with screw patent heads, nickel plated and polished, of the very best pattern. Fingerboard is of solid ebony, extended over the head, with raised metallic frets and inlaid with pearl position ornaments. We furnish with this instrument one genuine tortoise shell pick, one mandolin instruction book. Cases for these instruments quoted below.

Each banjo is furnished wi set of strings, an instruction book and diagram fingerboard chart.

OUR CHALLENGE OUTFIT, $5

This outfit consists of the f
One Challenge Banjo.
One Extra Set of Glende
One Book of Guckert's C
One Lettered Fingerboar

This is one of the best and most complete banjo outfits ever placed on the market at this price. Every article that goes to make up this outfit is the very best that can possibly be procured for the price asked. The banjo has an 11-inch head, with nickel shell, with both edges spun over wire, strainer hoop and wood lined. It has thirty-nine nickel plated hexagon brackets, a well made neck, finished in mahogany. The front of the head is veneered with wood, finished in ebony; the fingerboard is ebony, fitted with raised metallic frets and inlaid mother of pearl position dots very acceptable instrument and cannot be duplicated anywhere in the country for less than double the price we are ask would be glad to have you order this banjo and outfit and compare it with anything your dealer has to offer at fro to $12.00, and if you do not find it to be superior in every respect it can be returned to us and we will cheerfully ret money. **Remember** that this outfit goes to you strictly on trial and if you are not fully satisfied that it is a great in every respect we will gladly take it back and return every cent you have paid, including transportation charges. Shipping weight, about 12 pounds.

This splendid outfit could not be purchased elsewhere for less than $10.00.

No. 12F822 Price (including 50 lessons with the best school of music in America)..... $5

THE STUDENT, $2.25

We would like to have you compare this banjo with any ordinarily sold by dealers throughout the country for $5.00 and $6.00. It has a 10-inch nickel plated shell, wood lined, with the lower edge spun over wire. The neck is made in imitation mahogany, and hardwood fingerboard fitted with raised German silver frets, with three mother of pearl position dots. It has eleven brackets, and is carefully and thoroughly made. It is a musical instrument in every sense of the word.

No. 12F810 Price.....(Shipping weight, 10 pounds)..... **$3.35**

This banjo is similar to the above, but is fitted with only nine brackets, has no position dots, and the edges of this instrument are not spun on wire, and while not as carefully finished as the above, it is superior to any on the market at $3.00 to $4.00.

No. 12F808 Price.....(Shipping weight, 10 pounds)..... **$2.25**

THE STAR, $4.15

This banjo is generally sold throughout the country at prices ranging from $7.00 to $9.00. It has an 11-inch nickel plated shell, with both edges spun on steel wire, and is fitted with seventeen nickel plated hexagon brackets. The neck and head are neatly cut and finished in mahogany color, and the head covered with a layer of ebony veneer. The fingerboard is made of ebony, ⅛ inch thick, 19 inches long, fitted with twenty-two German silver frets and four mother of pearl position dots. Calfskin head.

No. 12F813 Price.....(Shipping weight, 12 pounds)..... **$4.15**

THE CENTURY, $6.85

This is a regular $12.00 banjo and is sold at that price generally throughout the country. It has an 11-inch brass shell with both edges spun over wire and heavily nickel plated and polished, nickel strainer hoop of special design, preventing the hooks from cutting through the head. The shell is wood lined. It has an extension removable neck with metal truss and is tightened by two ebony keys. It has twenty-five hexagon brackets and genuine ebony fingerboard fitted with raised metallic frets and diamond and flower shaped position dots inlaid in mother of pearl. The front of the head is ebony veneered and fitted with ebony pegs. This instrument is fitted with special nickel plated patent tailpiece. Shipping weight, about 12 pounds.

No. 12F824 Price..... **$6.85**

THE GEM, $9.65

This banjo has an 11-inch heavy nickel shell with carefully wired spun edges and cherry wood lining. It has thirty-one nickel plated special pattern brackets with protection nuts and center grooved straining hoop which prevents the hooks of the brackets from cutting through the head. The head of the neck is veneered with ebony and inlaid with star, crescent, and flower shaped designs in mother of pearl. It has white celluloid keys and genuine ebony fingerboard with square and diamond shaped inlaid mother of pearl position dots. The very best calfskin head is used on this instrument as on all our high grade ones. **WE CAN RECOMMEND THIS BANJO as being first class in every respect and an instrument which will give the best of satisfaction under all conditions.** Other dealers charge $18.00 to $20.00 for the same grade.

No. 12F858 Price..... (Shipping weight, 17 pounds)..... **$9.65**

THE RUBY, $12.25

AUTOHARPS. The Autoharp is one of the most popular of small musical instruments. They require no lessons, but a little patience and practice to learn to play. The music is simply and plainly figured, and anybody can understand it and follow it in a short time play the sweetest and prettiest melodies. They are an infinite source of pleasure and education.

OUR TRADE IS ENORMOUSLY LARGE and is due to our low prices, about one-half what others charge. The question of quality cannot be disputed. There is only one Autoharp made, "Autoharp," and that is the one we handle. Each one of these Autoharps is carefully manufactured and finished in a beautiful manner and is shipped complete with pick and instruction book. If your time will not allow you to learn to play a violin, piano or other instrument of this class, we would by all means advise you to purchase an Autoharp. If a case or other small trimmings are ordered with the instrument it won't cost you much for transportation charges.

$4.95
32 Strings.
8 Bars.

Cases to fit all these Autoharps quoted at upper part of page.

$6.45
37 Strings.
12 Bars.

Size, 10½x21 inches.

For $4.95 we offer an autoharp that is strictly first class in workmanship and susceptible of wonderful manipulation. This special autoharp is complete with 32 strings and is fitted with 8 bars, as it has 8 chords, as follows: C major, G seventh, F major, C seventh, B flat major, B minor, A seventh and G minor. The range of different music is very great and the possibilities of the instrument are beyond that of any other of similar construction and much higher price. You cannot purchase this autoharp from any other dealer for less than from $8.00 to $10.00. Weight, packed for shipment, 10 pounds.

No. 12F904 Price..$4.95

Size, 11¾x21 inches.

This Autoharp is the very latest product of the manufacturers, and is destined to become the most popular style of their entire list. It has 37 strings and 12 chord bars; these bars are placed close together, making the manipulation of them exceedingly easy. They produce 12 chords, as follows: G major, E seventh, C major, A minor, G seventh, E seventh, F major, D minor, C seventh, A seventh, B flat major and G minor. It is strung and tuned in a perfect chromatic scale. The finish is beautiful; highly polished ebony finish; altogether a handsome, useful musical instrument. Weight, packed for shipment, 11 pounds.

No. 12F906 Price...$6.45

THE FAMOUS MARX PIANO HARP

Anyone, within a short time, can produce beautiful music on this instrument without the aid of a teacher.

$2.95

23 Strings,
7 Hammers.

36 PIECES OF MUSIC WITH EACH HARP.

Size, 11x20 inches.

A fine canvas case to fit for 98c

This instrument is picked with the right hand, same as an ordinary autoharp, while the hammers are manipulated with the left hand. These hammers are so arranged as to produce the chords of C major, G seventh, F major, C seventh, and their relative minors. The figured music which is used on this piano harp is the simplest ever offered in any instrument of this kind. It has 23 strings and 7 hammers. It differs from the ordinary autoharp in the important particular that there are no dead strings over which the performer has to play. It is 11 inches long and 20 inches wide, and weighs, boxed for shipment, 9 pounds. With this instrument we furnish one tuning key, one pick, one music holder and 36 pieces of figured music.

ZITHERS. The Guitar Zither is an improved and simplified German zither upon which may be rendered the most difficult music without the aid of a teacher. Our method of instruction is so easy that anyone can learn to play the instrument in a short time. The bass notes are tuned in groups of chords. This is a very attractive feature because the various chords of the key can be picked without effort. As an accompaniment of the voice these chords are invaluable. In connection with the violin, piano or other musical instrument, the guitar zither is especially delightful. It rewards individual skill more than any other harp in existence. These are musical instruments which charm alike the home circle and the concert audience.

$1.95
31 Strings,
4 Chords.

Size, 12½x19 inches.

This splendid Guitar Zither, made of maple, ebonized and polished. It is inlaid with soundhole with beautiful design, has 31 strings, namely, C, G, F major chords. BUY A VIOLIN AT LESS THAN IMPORT COST

$2.25

We have on hand a limited number of violins which through climatic conditions or in handling have become unglued or show a small check or crack at the top. These violins have been so carefully repaired that these small defects are hardly visible; furthermore, they were adjusted, fitted with a new set of strings of good quality and are in as good a playing condition as any new violins. Rather than sell these instruments to jobbers or pawnbrokers we are giving our customers an opportunity to obtain a violin at a great sacrifice in price. These violins are of different models (the majority being Stradivarius), carefully made, and are finished in either a brown or reddish color. With every violin we include a durable fancy paper covered pasteboard case, a Brazil wood bow, extra set of steel strings, rosin, fingerboard chart and instruction book, everything exactly as illustrated. An outfit such as we are offering usually retails at from $7.00 to $8.00. If you contemplate studying the violin and don't wish to invest a large amount of money until you know that you'll be able to master it, we would advise you to take advantage of this great offer. The small blemishes which these instruments may have affect them only in appearance. Your money returned if you are not fully satisfied. Shipping weight, 7 pounds.

No. 12F100 Our price for this regular $7.00 outfit....$2.25

OUR VIOLIN REPAIR SHOP

We are prepared to undertake repairing of any kind, from the simplest to the most difficult, from plain gluing of loose parts, to the careful repairing or renewing of others. All in a most artistic manner.

Our facilities for first class repairing are unequaled. We were very fortunate in securing the services of very competent and conscientious workmen who came to this country direct from the violin centers of Europe; men who have given a great part of their lives to the art of violin making and understand it thoroughly from the standpoint of construction, selection of woods, varnish and the principle of sounds. They are completely equipped with the best of tools, a variety of well seasoned materials and all modern conveniences to facilitate accurate workmanship.

We cannot tell you how much the cost of repairing your violin will be, as repair charges are figured on the actual time employed by our experts, plus the cost of the materials used and these are determined by the condition of the instrument. Send us your violin by express prepaid, we will carefully examine it and we will then advise you how much it will cost.

We guarantee that any violin which we might agree to repair will be put in an absolutely first class playing condition and that it will give the same amount of service and satisfaction as any new violin.

When sending your violin the address on the box should be in the form given below and it will come to the direct attention of our repair shop.

ROLLER ORGANS

THE ROLLER ORGANS are excellent instruments in every respect. They are durably made, beautifully finished, handsome in appearance and wonderful in tone. They are so simply arranged that a child can operate them and no previous knowledge of the music is necessary in order to play the most delightful pieces on these beautiful organs. The music is produced by the turning of the crank, shown in illustration, which sets in motion a roller which has teeth or pins like the cylinder of a regular Swiss music box. These pins operate upon valve keys, allowing the air to pass through and thus producing the different tones.

ALL THE WORKING PARTS of the instruments are easily accessible, and are made of solid metal, the rollers and keys being mounted on castings. Nothing has been omitted to give these instruments their crowning qualities of extreme simplicity and durability. They are beautifully finished, making a handsome parlor ornament, and are genuine musical instruments which are recommended by good musicians. Full size organ reeds are used, and the volume of sound will fill any ordinary size hall.

THEY WILL PLAY hymns and popular airs with discretion and rich acceptable music for any occasion. For dances they are most admirable. Perfect execution of music is obtained without the skilled musician. There is no limit to either kind or quality of music that they are the most perfect mechanical musical instruments in design, operation have been produced.

OUR LIBERAL TERMS. We are so confident that either organ ship it to you with the understanding that after ten days' trial, if for any you don't want to keep it you can return it to us at our expense and we will money and transportation charges.

The "GEM." Size, 14¼x7¾x12 inches.

THE GEM ROLLER ORGAN is 14¼ inches long, 12 inches wide and 7¾ inches high.

No. 12F985 Gem Roller Organ, including three rollers. Shipping weight, 14 pounds. Price..... **$3.45**

The Concert Roller Organ, $7.60

THIS ORGAN is larger and of higher grade than the Gem Roller Organ, has greater musical capacity, is much better constructed and is a finer instrument in every way. The case of this instrument is 17 inches long, 13¾ inches wide and 12 inches high. The cylinder and all of the mechanism are enclosed and covered with a glass door, which effectually excludes dust and dirt.

THIS IS A VERY DESIRABLE INSTRUMENT, produces delightful music and, as the cylinders are removable, a great many different pieces can be played. The tone is similar to that of a parlor organ. It is made of fine golden oak, nicely finished.

Five Tunes furnished Free with each Concert Organ.

Sonophone Brass Instruments.

The latest invention of the day. Rapidly becoming the most popular amusement, as the tune is produced by singing into them and anyone can play them without study, and produce good music or many imitations if so desired. With Sonophone Brass Band Instruments a band can be organized with men or boys who have no knowledge of musical instruments whatever, but with a few rehearsals are capable of rendering brilliant music, and producing instrumental effects possible hitherto to none but the best brass bands and orchestras.

GOOD RELIABLE LINE OF BLOW OR MOUTH ACCORDIONS

14 inches long.

Our Leader.

Flute Accordion. Substantially made, with ten celluloid keys, two basses and good well tuned reeds. Wood case painted red with projecting bell, metal ornaments. Shipping weight, 26 ounces.

No. 12F2210 Price **58c**

15½ inches long.

The Clariophone.

A handsome little musical instrument that possesses all the necessary qualities for pleasing the ear with melodious sounds. Wood body stained red and varnished, with fancy metal ornaments and bugle cord, ten white celluloid keys, two basses and excellent reeds, finely tuned. Shipping weight, about 28 ounces.

No. 12F2216 Price **85c**

14 inches long.

A Fine Instrument.

This instrument is of far better quality than blow accordions usually found in retail stores. The case is made of imitation ebony, highly polished and beautifully nickel trimmed. Has projecting bell. The action is the same as used on high grade accordions; the entire key being in one piece. Has ten nickel keys and two metal basses and is harmoniously tuned. Shipping weight, 32 oz.

No. 12F2220 Price **99c**

10 inches long, excluding mouthpiece.

THE HOHNERETTE

The Hohner Blow Accordion or Hohnerette is the only article of its kind that can be classified with musical instruments instead of toys. It is as perfect in tone and construction as any of Hohner's accordions. This instrument has mountings made of imitation mahogany, with panels in imitation of ebony, highly polished. It has ten keys and two basses, a very powerful set of reeds, which are rendered more powerful by the five trumpets shown in the illustration. These are made of brass of the same quality and tempered same as any band instrument, and their tendency is to amplify the tone, which has no other exit from the reeds except through these trumpets, as the reed plate is carefully enclosed and protected by a metal plate. The mouthpiece is the same as it would be on a band instrument. The entire metal trimmings are made of brass, heavily plated and burnished. Shipping weight, 20 ounces.

No. 12F2224 Price **$2.10**

THE WONDER-TONE "BEAVER" ACCORDIONS.

Desire to call the special attention of all accordion players to this splendid assortment of instruments. They are made specially for us by the most reliable and best known maker of medium priced accordions in Germany under our own special brand, so as not to confuse with the accordions which are sold under his own name at much higher prices. If you want an accordion of strong construction and satisfactory tone qualities you must not overlook these instruments. We invite comparison. In fact, that is the only way you can do justice to yourself and to us. We ship any instrument with the understanding that if you give it a trial of ten days, compare the number of keys, the number of stops, the sets of reeds, the folds in the bellows, the size, the material and everything else entering into its construction and the robust and pleasing tone, and if you are not satisfied that we have given you a better accordion than you could purchase elsewhere and saved you at least one-half in price, you are at liberty to return it to us and we will gladly return your money and pay the transportation charges both ways, so that the trial will have cost you absolutely nothing. We have thoroughly investigated the accordion market. We are familiar with every brand imported into this country and are satisfied that our low price, factory cost with only our small profit added, cannot be met by any other concern if the high standard of quality and sterling merits of our instruments are to be maintained. **The sizes given below do not include the keyboards. With each accordion we give a complete instruction book.**

5¾x6½x10¼ inches.

Made with triple bellows of nine folds, each fold protected by metal corners; imitation ebony moldings and keyboards with bright colored panels, two sets of reeds, two stops, ten nickel plated keys with metal buttons and two basses. The clasps, corners and other trimmings are highly nickel plated and polished. The leatherette used in covering the bellows is very handsome and durable, and the combination of colors makes it a very pretty instrument. Compare this accordion with those sold elsewhere at $4.00 to $4.50. Shipping weight, about 7 pounds.

Size, 5¾x6½x10¼ inches.

No. 12F1052 Price **$2.15**

No. 12F1054 Same as above, but larger in size and with three full sets of reeds and three stops. Shipping weight, about 8 pounds.

Price **$2.55**

Large Size. Three Sets of Reeds.

This is a large accordion, being 6x7x12-in. in size. It is therefore very powerful in tone. Ebonized fluted moldings and keyboards, the panels finished in very bright colors with embossed gold ornaments, triple bellows with nine folds fully protected by metal corners, three full sets of reeds, three stops, ten nickel keys with metal buttons, nickel clasps and trimmings. An accordion of this same high grade is usually sold at $5.00 to $6.00. Such is the value we are giving in this splendid instrument. Shipping weight, 9 pounds.

Size, 6x7x12 inches.

No. 12F1056 Price **$2.95**

No better double row accordion than this at any price. Beautiful in construction, ornamentation and, above all, tone. Keyboards and moldings in imitation ebony, with bright colored panels stamped with gold ornaments. Double bellows of ten folds, fitted with metal corner protectors, four sets of reeds, nineteen keys, four stops and four basses. Clasps, keys, buttons and everything made of metal is nickel plated and polished. The combinaton of colors of the panels, moldings and bellows renders this instrument extremely attractive. Shipping weight, about 9 pounds.

Size, 6¾x7x11¾ inches.

No. 12F1058 Price **$4.25**

No. 12F1060 Same as above, but 6¾x7x12½ inches in size and with twenty-one keys.

Price **$4.65**

MILANO ORGANETTO ACCORDIONS

are the product of one of the best manufacturers in Germany. In past years the Italians were the only capable of producing these instruments with that peculiar organlike tone, clear melody and deep bass, which is prized by accordion players. However, their methods of manufacturing, being slow and expensive, would not permit the instrument to be sold at a price within the reach of the average accordion player. The maker of the instrument we are offering spent several years in Italy studying their methods of tuning and voicing, has succeeded in producing an instrument equal in tone to the instrument produced by the Italians, with brilliant melodious notes and deep, sonorous tones resembling an organ in tone to such an extent that the name "Milano Organetto" or "Little Organ of Milan," has been adopted by the manufacturer as his trade mark. By employing modern methods and machinery, the cost of production has been reduced to a minimum, and by a special contract we are able to offer to our customers these superb accordions at prices far below what is ordinarily charged by dealers for accordions of inferior grade with no merit whatever. We recommend these very highly, as they are made according to the best principles of construction, and we will take back any instrument that may prove unsatisfactory for any reason whatsoever. **Complete with instruction book.**

Size, 5¾x10¼x8 inches. (Keyboard excluded.)

The moldings and panels are finished in a fine imitation rosewood. Very highly polished. The panels are cut in fancy fretwork, with cloth on the back. Bellows are made of leatherette cloth of ten folds with metal corner protectors. Ten keys and four basses all made of mother of pearl. Fitted with new patent lyre shape clasps with thumbscrews, permitting the instant removal of the frame from the bellows for repairs or cleaning purposes. All trimmings are nickel plated, and the straps are flannel lined. A very neat instrument and fine in tone. Weight, boxed for shipment, 10 pounds.

No. 12F1091 Price **$3.35**

Size, 5¾ x 10¾ x 9½ inches. (Keyboard excluded.)

The moldings and framework are finished in a beautiful imitation of rosewood. Bellows of fourteen folds of fine quality leatherette cloth with metal corner protectors. Panels are cut in fancy scrollwork, backed with colored cloth. It has twenty-one keys and eight basses. All keys are fitted with mother of pearl buttons screwed to the bars (not nailed as in low grade accordions), and the bars are covered with white celluloid. Fitted with new patent lyre shaped clasps with thumbscrews, permitting the instant removal of the frame from the bellows for repairs or cleaning purposes. All trimmings are highly nickel plated. Straps are made of leather and lined with flannel. This is a first class instrument in every respect. Weight, boxed for shipment, 12 pounds.

No. 12F1093 Price **$6.40**

Size, 6½x10¾x11 inches. (Keyboard excluded.)

This is the largest of our Milano Organetto line, and is an exceptionally beautiful and powerful instrument in every respect. All the woodwork is rosewood finished and polished. The bellows are made of fourteen very deep folds, protected at the corners with metal. All trimmings are made of highly nickel plated metal. It has three rows of keys for the melody, thirty-one keys, twelve basses and bar air valve, of the entire length of the panel which can be opened either with thumb or little finger. All the keys are made of mother of pearl, and are screwed to the bar, not nailed, as is the case in cheap instruments. Fitted with new pattern lyre shape clasps with thumbscrews permitting the instant removal of the frame from the bellows for repairs or cleaning purposes. It has flannel lined leather straps. This is an accordion which would ordinarily sell for $18.00 to $20.00. Weight, boxed for shipment, 16 pounds.

Size, 6½x11½x10 in. (Keyboard excluded.)

No. 12F1095 Price **$11.35**

TWO SPECIAL "BEAVER" CREATIONS.

Extra high grade accordions, special in design, quality of materials and decoration, and being of large size, of exceptional tone, of large volume and purity. The description given below can convey to you but a faint idea of their real beauty. They must be seen to be appreciated. **Instruction book free.**

Size, 6½x7¾x13 inches.

This is a very fine accordion and represents an extremely fine value. Moldings are fluted and finished in beautiful imitation of mahogany. Bass panel is of maple, finished in natural color. Part of the treble panel is in mahogany, the sunken part being in maple and surrounded by silver moldings. Double bellows with ten folds, fitted with nickel plated corner protectors. Keys and other metal parts are nickel plated and polished. Two sets of steel bronze reeds, very powerful and sweet. Two stops of ornamented metal. Ten beautifully decorated keys with brass rods, imitation ivory levers and genuine mother of pearl buttons screwed to the lever. The treble panel is ornamented with four gilt and enameled corners of a neat and pleasing design. Shipping weight, 9 pounds.

No. 12F1062 Price **$3.65**

This accordion is one of the very latest ideas in design and decoration. It has three sets of broad bronze reeds, three fancy metal stops, ebonized moldings, keyboards and bass panel, the treble panel being of the sunken type. The sunken part is finished in silver and the balance in imitation ebony with embossed silver ornaments. The bellows, are made of ten wooden ribs, each rib covered by nickel plated band of metal, surmounted by a gilt ornament and held in place by fancy brass studs. Has ten ebonized and silver ornamented keys with brass rods, white enamel levers and genuine mother of pearl buttons. Corners, clasps, bass and air keys are made of metal, nickel plated and polished. Beautifully varnished and highly finished. The combination of colors used on the bellows harmonizes most beautifully with the black of the frame and the silver ornaments. Would regularly cost $9.00 to $10.00. Shipping weight, 11 pounds.

Size, 7x8¾x13¼ inches.

No. 12F1064 Price **$5.75**

OUR SOLID, WELL MADE, HIGH GRADE KITCHEN CABINET AT $2.95.

OUR SPLENDID HOHNER INSTRUMENTS

ON THIS AND FOLLOWING PAGE we are showing a magnificent line of Hohner Accordions, Harmonicas and novelties. The Hohner goods really do not need an introduction. Their harmonicas have been on the market for fifty years and are now the standard by which all others are judged. Perfect in intonation, solid in construction and elegant in finish. Accordion players are now familiar with these popular instruments. There are no accordions which are so thoroughly and carefully made. Every joint is accurately fitted and solidly glued. Every piece of woodwork is polished and finished to perfection. Each instrument is fitted with the best quality of steel bronze reeds and is accurately and harmoniously tuned.

By special arrangement with the maker, each one of the instruments we handle is fitted with pearl buttons screwed to levers and so designed, rounded and finished as to be most agreeable to the fingers of the player. Most of the accordions handled by dealers have metal caps which are not only cheaper but easily come off. When you buy one of our Hohner instruments you have the assurance that you are buying the very best that can be had at any price. The measurements given below illustrations do not include keyboards. Complete instruction book with each accordion.

REE

They embody special features and improvements which are the result of study iments and represent an additional cost to make which is fully warranted by the longer life, purer musical qualities and n to the player. All these instruments have reinforced frame corners. Panels are made of triple veneers glued across grain warping impossible. Metal stems are glued and screwed to keys and not nailed as they are on cheap accordions. The pearl e also screwed to lever and should one ever break, it can be easily removed and replaced. All reed blocks, except on 20, are leather lined, held in place by clamps, and can be instantly removed by the turning of a thumbscrew. Not a beeswax is used to hold the reed plates in place, but every two reeds are fitted to a separate plate which is mounted on d firmly held in place by screws and staples. This method completely does away with reeds becoming detached and ren- eed cells perfectly airtight so that the air current must necessarily strike the reeds with more force, producing a d stronger sound. Don't forget all the Hohner accordions we handle have mother of pearl finger buttons. Another nt and furnished without advance in price is the new patent spring clasp which hold the bellows frames absolutely tight e body. No more leakages.

5¾x9¼x10¼ inches.

Italian-Bohemian Accordion. splendid accordion, hand- ished in black enameled e and white maple panels, green cloth. It has a bellows of ten folds with er protectors. It has four ten keys fitted with hand- er of pearl buttons. Weight, r ship- pounds. F1220 **$4.95**

WERFUL ACCORDIONS, TONED LIKE A BRASS BAND.

FOR CONCERT AND DANCE PURPOSES ECHOPHONES EXCEL ALL OTHERS.

Size, 7½x6½x11¼ inches.

The Echophone Accordion is the very latest creation of the famous Hohner factories, tested and examined and pronounced a wonderful success by leading accordion experts both of this country and Europe. It is fitted with the new patented brass horn attachment with detachable bell which covers the reeds and through which the tone passes, making it mellow and pleasing, not so harsh and shrill as on other styles, but resembling more a brass band playing soft music than anything else. Besides giving this mellow bandlike tone, the horn also carries the sound farther and increases it wonderfully. There is no doubt but what this latest invention of Hohner's will be warmly welcomed by all accordion players. **The Echophone illustrated has fluted moldings** finished in mahogany; bellows of eleven folds cut especially deep, lined with the finest sheepskin and fitted with corner protectors. Has **three sets of reeds,** tuned in octaves controlled by three stops, ten keys with bone tops and two large nickel plated bass keys. This instrument is closed with patent self acting spring clasps. Shipping weight, 16 lbs.

No. 12F1240 Price, complete with instruction book and carrying case, as described on page 702. **$7.95**

No. 12F1242 Same as No. 12F1240, only larger. Has four stops and four sets of reeds, complete with case and instruction book ... (Shipping weight, 16 lbs.) **$9.95**

SIX SETS OF STEEL REEDS—BRASS PLATES—SIX BASSES.

Size, 8x8¾x12½ inches.

To the lovers of the German Accordion no better instrument can be offered than this genuine Hohner Concert instrument. Its beauty consists in its size, harmonious decorations, the power and purity of its tone. The following special features cannot be had on any other instrument. **It has genuine brass plates, genuine steel reeds, six sets of reeds, every two reeds mounted on a separate plate and each plate held in place by special staples, six stops and six basses.** The volume and quality of tone, owing to the brass plates, to the steel reeds and to the size and general construction of the instrument, surpass anything ever heard before. The frame is finished in perfect imitation ebony, ornamented with gold floral designs. The bellows are of black leatherette, triple pattern with twelve folds with genuine brass corner protectors. It has twenty-one keys gilded and burnished, with brass buttons, six basses especially arranged, other trimmings also made of brass of the frame and the bellows, genuine leather straps. It is an instrument which is so well constructed that it will have a long life and will give satisfaction under all conditions. Shipping weight, about 32 pounds. to harmonize with the ornamentation

THE ONLY PERFECT CHROMATIC HARMONICA.

3½ inches long.

The Hohner Chromatic Harmonica is the result of many years of thought and experimenting and is the first and only practical instrument of its kind. Mr. Hohner has succeeded in producing a harmonica simple in construction and supplying all the half tones not found on the regular styles. With this wonderful little instrument you can play any piece of music, popular or classic, without skipping the half tones as on the regular styles of harmonicas.

DESCRIPTION. This harmonica has hardwood frame, heavy brass plates and flaring covers nickel plated and burnished. It has **twenty holes, forty extra fine reeds,** each reed space being covered with a **leather tongue** which prevents the air current from escaping and makes the harmonica not only very easy blowing, but of a much ...and purer tone. It is fitted with a nickel plated mouthpiece with ten holes. Back of the mouthpiece a space is ...for a perforated brass slide operated with the button shown on illustration, which shuts off the upper rows of reeds at ...the opening the lower or half note set. The change is instantaneous and the moment the pressure on the button is ...the slide, by medium of a spring, returns to the original position. **This harmonica** comes packed in a ...box covered with fine morocco grained paper, resembling leather. **A marvelous harmonica in a suitable case.**

...12F1601 **Chromatic Harmonica.** Price ..... (If mail shipment, postage extra, 12 cents.) **$1.35**

THE IMPROVED HARMONICA, 48 REEDS, FULL CONCERT.

6 inches long.

This Harmonica has twelve double holes and forty-eight reeds, or two holes and eight reeds more than the ordinary concert harmonica. By these additions the player is given greater possibilities, owing to the larger range of notes, which comprise two complete octaves and nearly a complete third octave beside the basses. Like all Hohner instruments, it has **brass plates** and has **nickel plated covers.** Comes in a very substantial and elegant box.

AMPLIFYING HORN ATTACHMENT.

6½ inches long.

The Hohnerphone is a harmonica with a brass horn which amplifies the tone and increases it in volume. By placing the right hand over the end of the bell the finest crescendo effect can be obtained. For concert work on the stage as well as for home playing this attachment is of great importance. The harmonica has **ten double holes, forty reeds,** brass plates and nickel covers. Our contract with the manufacturer is such that we are able to sell this instrument by our direct from the factory to customer method and thus offer it to you for about one-half the price generally asked by dealers for the same instrument.

No. 12F1620 Price **85c**

TWO BELLS, FORTY REEDS.

7½ inches long.

M. Hohner's Marine Band Tremolo Bell Harmonica. This is a splendid tremolo instrument with **twenty double holes, forty reeds,** brass plates, nickel covers, extension ends, fancy gilt stamp, with **two extra clear toned bells.** These bells are accurately tuned and a very beautiful effect can be obtained by using them in connection with music played on the reeds. For performers who do considerable concert work on the stage, this instrument is invaluable and never fails to call forth admiration and applause. Each harmonica goes to the customer complete with a handsome hinged case with nickel clasps, and the instrument is very ornamental as well as of great musical value.

POWERFUL AND ORGANLIKE IN TONE.

85c

Length of Harmonica, 5 inches
Length of Trumpets, 3½ inches.

The New Hohner Trumpet Call. This is the only harmonica of its kind on the market and is one of the very latest Hohner inventions. Not a novelty or a toy, but a practical musical instrument in every respect. The reeds are directly connected with a wooden sound box through which the tone passes into the five highly polished brass trumpets extending upward from the back of the instrument, thereby increasing the tone, making it powerful and organlike. Has **ten double holes and forty powerful reeds** on brass plates, fitted with a wind saving device, making it as easy to blow as a single reed harmonica. We guarantee that all harmonica players will be delighted with this new instrument.

TOURVILLE SAXOPHONES

Latest Improved System

Marvelous Action.

Ten Days' Free Trial.

The Best Saxophones made regardless of price.

We make you the sole judge of their splendid merits; it is your duty to give them a fair trial. We know your verdict will be in their favor.

SAXOPHONES have always been, and are today, sold at very high prices, prices out of proportion to the original cost of production. **Saxophones** are not sold in quantities and like any other luxury they must be sold at big profits. **With us** it is different. We handle groceries, shoes, dry goods, furniture and every other useful line of merchandise and sell everything on the same small percentage of profit. **That's why** we can sell high class saxophones and other musical merchandise at such low prices. **A great deal** has been said of saxophone quality. **Every dealer** has been singing the praise of his own line, which is quite natural. **We know our saxophones so well,** we know their superior merits, we know the large saving their low price represents, that we say to you, **"decide for yourself."** Send for one of our instruments, compare it side by side with instruments sold at from 30 to 50 per cent higher in price. Play upon it for ten days, try the tone, test it as to tune, manipulate the marvelous mechanism and we know you will keep it. Thus you will have taken nobody's word, but fully satisfied yourself by actual test of its true merits. **Should the instrument** we send you prove contrary to your idea and expectation, we will cheerfully take it back and return to you the amount paid and all the transportation charges besides. **It costs you absolutely nothing** to give our instruments a trial.

The genuine Tourville & Co. Saxophones are of the latest approved system of fingering, with addition of one F sharp shake key, also a plate for the first finger of the left hand for a new B flat and a new patent system at the G sharp key for shake G sharp with all the other notes, and the extra patent key for going down to low B flat, with new E flat key and with double C sharp, B natural and B flat keys for the middle finger of the right hand. The alto and tenor, with new E and F natural keys.

In the soprano we carry only the alto style, as we consider the straight model out of date and unsatisfactory in its tone and general appearance. **Our Saxophones** are shipped complete with leather strap, mouthpiece cap and a splendid instruction book with charts showing correct fingering.

BAND INSTRUMENTS

50 LESSONS under the direction of a former director of the Chicago Second Regiment Band, free with each valve instrument.

Our Magnificent Lines of Brass Instruments Sold Exclusively by Us. A Complete Line of Wood Wind Instruments, Drums, and General Band Supplies. Every Instrument Covered by Our Written Binding Guarantee.

We want all bandmen to know that we are now the largest band instrument dealers in the country. We sell our instruments direct to the bandmen but **one** profit to the maker's price and are thus able to sell instruments for $25.00 which is ordinarily sold for $50.00, with a proportionate saving throughout the entire line of band instruments.

We have no salesmen. We do not accept second hand instruments as payment on new goods. **We give no discount, commission or presents** to bandmasters or others for drumming up trade for us. **We never** use our **instruments** away in exchange for testimonials, nor hire professional musicians to advertise them. Such methods are expensive and were we to adopt them we could not sell our goods any cheaper than ordinary dealer or we would have to cheapen the quality. **Through method of sale** all of these unnecessary expenses are eliminated and only selling expense which is added to the manufacturer's cost and one profit. **This explains** why high grade instruments can be sold by us at one-half the price charged by others. **We ask you** to compare quality and price of our instruments with those offered by dealers and you will find the truthfulness of the above statement.

The illustrations we give on this and the following pages are photographic reproductions of our instruments. But while they show the model and general outline they cannot convey to you their fine workmanship, fine finish and splendid tone; and to give you an opportunity to try them and be convinced, we ship them under our most liberal terms. **Order the instrument** you desire, take it home, give it ten days' trial and if at the expiration of that time you don't like the instrument send it back to us at our expense and we will immediately return your money together with all transportation charges. **We don't want you to take our word,** we want you to be the sole judge of their merits and decide for yourself whether or not they are all we claim for them. **Our responsibility, however, does not cease after ten days. We guarantee every instrument for one year against defect of material or workmanship** and issue a certificate to that effect which plainly states that we will make good by repair or exchange any instrument showing such defects. This is the best proof of the confidence we have in our goods.

This Special Band Instrument Catalog Free on Request.

This illustration represents the splendid special Band Instrument Catalog which we send free and postpaid on request. It contains larger illustrations and more complete descriptions of our three splendid lines of brass instruments, also clarinets, saxophones, flutes, oboes, bassoons, drums and all kinds of band supplies.

We recommend that you order from our General Catalog, thus saving the inconvenience of delay. If, however, you cannot properly select your instruments, or if you do not find what you are looking for on the following pages, then just drop us a postal card saying, **"Please send me your special Band Instrument Catalog,"** and same will be forwarded to you **absolutely free.**

OUR SPLENDID LINE OF LOW PRICED MARCEAU BRASS INSTRUMENTS

The Marceau Band Instruments are certainly the very finest line of low priced band instruments offered to American bandmen. They are fully warranted by us, shipped under our special offer with the distinct understanding and agreement that the buyer must be perfectly satisfied or they can be returned at our expense. They are especially suitable for beginners or amateurs who are playing a medium grade of music and need a set of instruments which will give satisfactory service at low prices. We have sold hundreds of sets of these instruments and they have proven uniformly satisfactory. **They are all of the very best models** with good tapering bells, with German silver piston valves. **All upright instruments** have brass shield and protector at bottom. **E flat Basses, Alto and Tenor Trombones** have second valve slide in a vertical position, adding grace to the instruments and preventing injury. **These features** are not found in cheap lines of instruments handled by dealers throughout the country. **Remember,** the genuine Marceau instruments can only be purchased from us. They have a reputation and we are back of them. Thoroughly tested and inspected by us before shipping.

Order a Case at the time you order your instrument and save additional transportation charges.

Music rack, German silver mouthpiece, instruction book and school certificate, as explained above, free with each instrument.

No. 12F7994 Nickel plated, highly polished. Price..... **8.85**

Marceau F Circular Alto.

This style of Alto Horn has become very popular and is used almost exclusively by all the larger bands. Its circular model makes it a very easy blowing and sensitive instrument and not only does it add to the appearance of the band, but it gives the music a coloring which can be obtained in no other way. It is made by the same celebrated makers who manufacture the balance of this line which we have handled so successfully for years. If your band does not possess altos of this model you should by all means procure them without delay, and you will find that the beautiful effect which you will obtain will much more than compensate for the small expense incurred. It is furnished with three additional crooks, E flat, D and C, thus enabling the performer to play in four different keys. **All crooks are fitted with water key, enabling the performer to quickly remove the accumulation of saliva, a feature to be found only on our instruments.** Music rack free. Wt., 20 lbs.

No. 12F8033 Brass, highly polished. Price..... **$19.95**
No. 12F8034 Nickel plated. Price..... **$22.35**

New Marceau B Flat to A Quick Change Cornet.

Buy a Case with it and save charges.

FREE MUSIC RACK.

No extra set piece in order to change from Bb to A. Just push the screw as far as it will go and your change is instantaneous. Two water keys. No more saliva in the tubing. The model is long and graceful, the tone round, full and sympathetic, the valve action quick and responsive. If you are looking for a good cornet and don't care to invest in one of our more expensive instruments, we recommend this style. Weight, 8 pounds.

No. 12F7996 Brass, polished. Price..... **$12.45**
No. 12F7998 Nickel plated, burnished. Price..... **13.35**

Cases to fit quoted on page 708.

Marceau Upright Horns.

This illustration will give but a fair idea of the model of our upright horns. They must be seen and tried to be fully appreciated. For ease in blowing, valve action and general appearance they are superior to any medium priced instruments on the market.

The altos and tenors are fine for accompaniment, the baritones have a full and sonorous tone and are splendid solo instruments and the B flat basses and E flat basses are equally effective.

SHAWKNIT SOCKS, BURSON STOCKINGS, YOU KNOW THEM. WE HAVE

Digitized by Google

HE UNEXCELLED HENRI GAUTIER "VIRTUOSO" INSTRUMENTS

EN YOU PAY more than we are charging for the most perfect and most magnificent genuine Henry Gautier "Virtuoso" band instruments, you are simply the difference in price between our method of sale, "From factory to you with but our profit added," and the old method price embracing three or four profits. WE DO NOT other instruments may have been offered to you, foreign or American make. WE DO NOT CARE others may make about their instruments, WE CHALLENGE THEM ALL to produce a constructed, finished, more perfect in tune, easier blowing and more brilliant toned instru- the genuine Henri Gautier "Virtuoso." WE DO NOT WANT you to take our word for the ment, but want an opportunity of demonstrating the truthfulness of our claims. WE you send us your order for one of our instruments, which we are ready to ship with the understanding that it can be returned to us, if, after comparison with other makes and find you are not absolutely convinced that it is equal, if not superior to them and at least lower in price, and your money and transportation charges will be immediately returned. factory to make to you the same proposition and see what they will say. WE DO NOT CARE whether you are a soloist, a professional player, an amateur or just thinking of learning the instrument, we have only one quality, the best that can be produced at any price. A band instrument should only be bought once in a lifetime and ours are made to give satisfaction to all, for all time and under all conditions.

HENRI GAUTIER'S NAME is as familiar to the European musicians as Lincoln's is to the American school children. Whenever and wherever band instruments are the topic of conversation the name Gautier will reign supreme. He is the king of band instrument makers. His models are copied all over the world and we all know that "imitation is the sincerest of flattery." No man wants to copy the unworthy work of another. But, regardless of the fact that they have copied his models and adopted his improvements, they have failed to obtain the easy blowing qualities, the marvelous flowing tone, the rapid action and all other vital points constituting brass instrument quality. Band instruments, like men, must have character back of them or they are worthless. They cannot be judged by their appearance. They must be tried and come up to the test.

LONG MODEL B FLAT CORNET WITH INSTANTANEOUS CHANGE TO A

E YOU EVER SEEN a prettier model cornet than the one illustrated? Have you ever noticed more graceful lines, gentler curves on all the tubing? Have you ever observed a more tapering and well proportioned bell? Don't forget that points determine the ease of blowing and the quality of the tone. Abrupt angles, sudden turns, irregular tubing, will obstruct the air and make an instrument hard blowing, out of tune in the intervals, and the tone having to be forced through the instrument, will be harsh or nasal, thin or papery on the high; it will not flow, will lack brilliancy and duration. The greatest of "wizards" could not perform on an instrument, and a beginner would soon give up in utter discouragement as, regardless of his ambitions, application and efforts, no good results are obtained. The Gautier Cornet is the result of many years of study and experiment, nothing reaches perfection by chance, and we can say and prove that no better cornet can be had regardless of price. The model is proportioned to give the performer a B flat cornet with perfect and instant change to A. No more carrying around of an A set piece and no more delay in changing. Simply push out the screw device shown in the illustration and the change is made. It is, furthermore, adapted for high or low pitch, as we furnish with it an extra set of low pitch slides. It is absolutely perfect in tune, each interval in perfect accord; the tone is even, flowing, of surprising clearness, brilliancy and carrying power. All joints are reinforced, finely finished and absolutely airtight. The valves are of pure German silver, carefully ground into the casing; they fit snugly and the opening in them corresponds to the opening of the tubing with marvelous accuracy. They are quick and responsive to the touch and a real delight to the performer. The valve buttons are made of mother of pearl and the bell of the instrument is artistically engraved. Free with each cornet a splendid carrying case, as illustrated and described; instruction book, music rack and a course of fifty lessons, as explained on page 705. Shipping weight, 11 lbs.

Shown in illustration, with this cornet. Weight, 11 pounds.

No. 12F7900 Brass, polished. Price $25.00
No. 12F7901 Nickel plated, polished. Price 26.25
No. 12F7902 Silver plated, satin or dull finish with gold plated bell. Price 30.45
No. 12F7903 Silver plated, burnished or bright finish, with gold plated bell. Price 32.90

FREE with each Henri Gautier Cornet, one of these beautiful cases. Covered with very neatly embossed seal grain keratol. Lined with green plush and white silk with satin ribbons across the cover. Nickel plated trimmings. A feature of this case is the spring grasping device (as shown in the illustration), which holds the cornet the same as a human hand, there being no danger of it falling out even if the case is turned upside down. This case usually retails at $6.00 to $7.00.

ONLY PRACTICAL TRIPLE TONED CORNET MADE

N YOU BUY the Gautier "Virtuoso" Triple Toned Cornet you may proceed to play in a band by using it in the key of B flat; join the orchestra and play in A; become a member of their or play right along with the piano or organ in your home by changing the instrument to the and, therefore, without having to transpose the music. Not only that, it does not make any difference any of the organizations above mentioned are using, or your piano be tuned to high or low pitch, the be changed to adjust itself to either. It is marvelous but it is true. A cornet as perfect in B flat, in high or low pitch is actually what we are offering you in our Gautier Triple Toned Cornet. A cornets have been introduced on the market at different times claiming to be perfect combination but they were only experiments and never proved practical. It remained for Henri Gautier to suc- these experiments to perfection or an assured success. A glance at the illustration will reveal the of this cornet, the fine tapering bell and handsome engraving. But nothing but a trial will dis- the silvery and brilliant tone, the quick and responsive valve action and the skillful workmanship. of our liberal free trial offer, as explained above, and convince yourself of the meritorious fea- instrument. Shipped complete in a case, as illustrated, with instruction book, music rack, direc- changing to different keys and a certificate entitling the holder to a course of fifty lessons under a well cornet teacher. Shipping weight, 11 pounds.

Case, as illustrated and described above, given free with this cornet.

GAUTIER "VIRTUOSO" B FLAT TROMBONE IS THE REALIZATION OF THE PLAYER'S DREAM

YOU TO HAVE THIS INSTRUMENT in your possession you could tell at first glance that it is the work of an artist, as the construction reveals itself at every point. You would admire first of all the graceful the delicate and gradual increase in the size of the tubing up to the flaring bell. surprised at the exactness of every part, the accuracy and cleanliness of every would be amazed at the easy slide action, absolutely non-binding and noiseless. But by the instrument, you would be positively aston- beautiful, round and sympathetic tone. You

THE SLIDE TROMBONE has been termed the king of band instruments. The Gautier Trombone is the king of them all. It combines the deep sympathetic tones of the valve trombone with the silvery one of the slide and eliminates the faults of both. It is the realization of many a trombone player's dream. The Gautier trombone is fitted with high and low pitch attachment, is beautifully and elaborately engraved at the bell, has silver plated mouthpiece and we ship it complete with music rack and instruction book. Shipping weight, 12 pounds.

LEATHER CASES ARE QUOTED IN OUR BAND CATALOG.

We put our Gautier instruments in competition with the most advertised and so called standard makes. You may pay a higher price for them but you will not get better quality, and quality counts.

12F7908 Brass, polished. Price $18.00

GAUTIER UPRIGHT INSTRUMENTS

ENGRAVING ON BELL.

MOTHER OF PEARL BUTTONS

MODEL OF B FLAT BARITONE.

All Instruments in High and Low Pitch

Space will not permit us to illustrate and describe each one of the upright instruments of this unrivaled line, but to give an idea, at its best a poor one, of the symmetry, compactness and gracefulness of design and ensemble, we illustrate at the left the Baritone. We wish we could talk of the individual merits of each instrument and could but convey to you in words their powerful and beautiful tone, their careful workmanship, the exact and most careful details of their construction, the lightness and responsiveness of their valve action, but as such is impossible, we may say to you, "Convince yourself by giving us a trial order entirely at our risk and expense." We know our Gautier instruments upon comparison will excel all others, regardless of make or price. **They are instruments of real character and will bear investigation.**

All Gautier upright instruments are made with extra low pitch slide, are fitted with **mother of pearl** buttons, pistons or valves are of the finest quality **German silver**, and we ship them complete with silver plated mouthpiece, music rack, instruction book and a course of fifty lessons, as explained on page 688.

THE MOST GRACEFUL HORN EVER MADE. IT SOUNDS LIKE A FRENCH HORN.

In the Gautier "Virtuoso" F horn we offer an instrument of superior and unequaled merits, an instrument representing years of study and experimenting, crowned by success; an instrument that can instantly be changed to E flat, D or C, by the simple turning of a valve; an instrument of extreme grace in dis tone so mellow and sweet to closely resemble the famous French horn and de difficulties of playing. **For orchestra or band use it will prove one of the ma** additions. The materials and workmanship are the Gautiers', which means quality. Complete with low pitch slide, music rack, instruction book and co lessons.

THREE SPLENDID LINES OF CLARINETS

The illustrations below do not represent any particular make of instrument. They are only given to show the different models. Read very carefully what we say of each make and order according to your judgment and means. We guarantee all of our clarinets to be the best values on the market in their respective classes.

MODEL OF A 13 KEYS—2 RINGS.

MODEL OF A 15 KEYS—2 RINGS.

We furnish our clarinets in four keys, either high or low pitch. In ordering be sure to state key and pitch desired or we cannot fill your order.

INSTRUCTION BOOK WITH EACH CLARINET.

MODEL OF A 15 KEYS—4 RINGS AND ROLLERS ON KEYS.

We furnish our clarinets in four keys, either high or low pitch. In ordering be sure to state key and pitch desired or we cannot fill your order.

THE UNEXCELLED CLARINETS OF CARL SCHUBERT.

Those who read this must be interested in clarinets and may be undecided as to what to believe in the many claims made by dealers in general regarding the instruments they sell, but we state positively that there are no instruments, however costly, that excel the instruments of Carl Schubert. "THE PROOF OF THE PUDDING IS IN THE EATING," and we would very much like to have you eat your share and satisfy yourself. It will cost you nothing. Try one of our instruments, try it for ten days, compare it with instruments sold at twice our price and if it does not suit you, just send it back and get your money and transportation charges. Easy, isn't it? We know what we are doing. We have been in the music business a long time, have made a study of it and are proud to say we know it well. Carl Schubert is one of those independent spirits, a true artist who loves his profession and whose desire is to make instruments of superior merits. We discovered him, tried and compared his instruments and were so favorably impressed with the superiority of his quality that we contracted with him to take all he makes. We sell his instruments direct to you with a small profit added, and thus you save all the profits each unnecessary handling represents. Sensible way of doing business, isn't it? **Our method of sale** explains how a high grade instrument can be sold at a low price.

Carl Schubert wood wind instruments are made of the choicest grenadilla wood, thoroughly seasoned and oil treated. The smoothness of the bore is amazing, just like original, and the key holes are delicately reamed. They are fitted with pure German silver, elegant in shape and finely polished. The mechanism is perfect, every key works easily and easily, the intervals absolutely correct and tone most beautiful and of great power. Instruments are oil or dull finish. **If interested don't fail to consider our liberal offer.**

No. 12F8863 15 keys, 2 rings, grenadilla wood, in the key of A, B flat, C or E flat, high or low pitch. **Be sure to state key and pitch wanted.** Shipping weight, Price..... **$16.50**

No. 12F8865 15 keys, 4 rings and 4 roller keys, in the key of A, B flat, C or E flat, high or low pitch. **Be sure to state key and pitch wanted.** Shipping weight, 5 pounds. Price..... **$19.85**

LA FAYETTE & CO.'S CLARINETS.

This is certainly the finest line of low priced clarinets ever offered to the American bandmen. They are substantially made and well finished. They are made of grenadilla wood and all of the trimmings are of pure German silver, highly polished. Our low prices save the purchaser from $5.00 to $7.00 upon each one of these clarinets, and to prove it we ask our friends to compare them and the prices we ask with the instruments and prices offered by other dealers. LaFayette & Co. have been manufacturing these clarinets for years. They have always given the greatest satisfaction. Shipping weight, 5 pounds.

No. 12F8850 13 keys, 2 rings, grenadilla wood, in the key of A, B flat, C or E flat, high or low pitch. **Be sure to state key and pitch wanted.** Price..... **$ 9.95**

No. 12F8852 15 keys, 2 rings, grenadilla wood, in the key of A, B flat, C or E flat, high or low pitch. **Be sure to state key and pitch wanted.** Price..... **11.95**

J. B. MARTIN CLARINETS.

This is the line of favorite clarinets which we have handled for years, and which has given such universal satisfaction. We do not believe that there is a line of moderate priced clarinets on the American market today which in any way equals it in tone or finish. They are all made of genuine grenadilla wood, with trimmings of pure German silver, highly polished. They are bored through cleanly and evenly and are accurately made throughout. We guarantee them as to tune and tone and are prepared to take back any instrument which does not give satisfaction in every way. Many expert clarinet players have been surprised at the wonderful degree of superiority demonstrated by these clarinets. Bandmen desiring to furnish their reed section with clarinets and who are not prepared to pay a large amount for such instruments cannot do better than purchase a set of these splendid clarinets. Shipping wt., 5 lbs.

No. 12F8854 13 keys, 2 rings, grenadilla wood, in the key of A, B flat, C or E flat, high or low pitch. **Be sure to state key and pitch wanted.** Price..... **$11.25**

No. 12F8856 15 keys, 2 rings, grenadilla wood, in the key of A, B flat, C or E flat, high or low pitch. **Be sure to state key and pitch wanted.** Price..... **13.25**

No. 12F8858 15 keys, 4 rings, grenadilla wood, in the key of A, B flat, C or E flat, high or low pitch. **Be sure to state key and pitch wanted.** Price..... **15.35**

COURTOIS MODEL.

$13.15

This is one of our double water key Marceau Cornets. Courtois model, engraved especially in response to a demand for a cornet of handsome appearance and good tone at a moderate price. We are pioneers in offering instruments of this high grade at the exceedingly low prices quoted below. Up to the time we began to offer these instruments to the public the prices on all engraved band instruments were exceedingly high and were so fixed and maintained by the dealers, as it was to their interest to do so. We found that by importing the instruments directly from Europe and selling them with our one small margin of profit added we could furnish these beautifully engraved instruments at prices in many cases two-thirds lower than the dealers could afford to make. Complete with A set piece, music rack, instruction book and a course of fifty lessons free with each cornet.

WOOD WIND INSTRUMENTS OF REAL MERIT

FLUTES. KEY OF D (C).

Flutes are named in the key of D, but they are actually tuned in C and vocal or violin music can be played upon them without transposing. The name "D" flute originated from the fact that before flutes had keys to them the lowest note that could be blown was the "D."
NOTE—Beginning with our No. 12F9076 we furnish flutes in either high or low pitch. In ordering be sure to state pitch desired.

No. 12F9070 Genuine cocoa wood, German silver trimmed, tuning slide, 1 German silver key. Shipping weight, 20 ounces. Price..... **$1.75**

ACME PROFESSIONAL DRUMS

FITTED WITH OUR NEW PATENT RODS AND CORD HOOKS.

OUR LINE OF DRUMS is so far superior in general construction to most others in the market, embodying so many special patent features not found in other dealers. Their drums are made today exactly the way drums were made thirty years ago, while our drums are up to the minute in every detail and stand in a class by themselves.

THE SHELLS of our drums are made of seasoned materials, well braced, and we guarantee they will retain their shape. Have you ever seen an oval or distorted drum? If so it was not ours.

OUR HEADS are carefully selected for their clearness, evenness, and are graded in their thickness to meet the requirements of the different size and style drums. Nobody can guarantee heads against breaking, but we guarantee that our heads are free from cuts, flaws and other defects which would tend to make their life of short duration. Don't forget that the head is a very vital part of the drum and represents a large portion of its cost. Cheap drums with poor heads are too dear at any price.

DRUM RODS used by us in all our Prussian pattern Snare and Bass Drums are made of pressed steel with brass buckles or thumb piece, according to the style, are nickel plated, while the old fashioned rods are made of cast iron and tinned. Our rods are much lighter. As an illustration: Our 6-inch center buckle rod weighs 1½ ounces, the thumbscrew rod, 2 ounces and the clumsy old cast iron rod 3 ounces. Figure the lightness of any drum fitted with our rods as compared to the others and think of the increase of responsiveness owing to the elimination of all the useless weight. On account of more flat surface our rods are strong as the ordinary one and add to the appearance of the drum, not only because they are graceful design, but because they lie flat on the hoop.

HOOKS. All cord or regulation bass or snare drums are now equipped with open back patent hook, which permits the replacing of a broken hook without cutting the cord, and cuts in half the time necessary to replace a new cord.

OUR PRICES, are much lower than you would pay for the common drums and our drums consistent with the excellent workmanship and the valuable improvements, will outwear two of the other kind.

OUR OFFER. We are so sure that we can sell you a better drum for less money than anybody else that we would like to send you one with the understanding that if it does not suit you for any reason whatsoever, you can return it to us and we will cheerfully return your money and all transportation charges.

REMEMBER, Prussian pattern drums are furnished with either center buckle or thumbscrew rod. The price is different. In ordering be sure to state which style you want and allow price accordingly.

PRUSSIAN PATTERN.

...RE OR TENOR DRUMS. REGULATION PATTERN.

No. 12F8500 Regulation pattern with a shell 14 inches in diameter, made of birdseye maple finish, 8 inches high, nickel, patent cord hooks, with seven braces. DRUMMERS' DELIGHT—SINGLE HEADED DRUM.

Designed to meet the requirements of drummers wishing a very sharp drum. It is quick in responding to the lightest touch of the sticks. It has a birdseye maple shell, highly polished, 14½ inches diameter, 3½ inches high, including hoop; twelve nickel plated rods, silk snare, with patent adjuster. Best quality transparent head. The real thing for trap drummers. Easily carried. Occupies little space. Weight, packed for shipment, 5 pounds.

No. 12F8526 Price, with rods illustrated, including a pair of genuine ebony sticks **$7.95**

No. 12F8526½ Price, with thumbscrew rods, including ebony sticks **8.90**

QUADRUPLEX BAND AND ORCHESTRA DRUM.

For band or orchestra, in a concert room or on the street, this drum has no equal. Its advantages, when used as a street drum, lie in the lightness of construction and the penetrating, yet brilliant tone. For orchestra playing, which is a severe test on snare drums, it is far superior to any drum made, regardless of price. It responds to the lightest touch of the sticks, so that from the softest to the loudest roll it can be played with remarkable ease and rapidity. The main feature of this drum is the quadruplex rod, so constructed that each head can be tightened separately (see illustration). This drum has a highly polished birdseye maple shell, 4 inches high, 16 inches in diameter, fitted with twelve latest improved quadruplex rods, highly nickel plated and burnished. The hoops are finished in rosewood color. Has two of the best quality transparent calfskin heads, and twelve waterproof snares and nickel plated strainer. With this drum we include one pair of ebony sticks and webbed sling. Weight, packed for shipment, 17 pounds.

Quadruplex Drum Rod.

No. 12F8525 Price **$16.45**

...DRUMS.

We furnish bass drums in either imitation mahogany or birdseye maple at the same price. In ordering please use the number ...imitation mahogany drum is wanted, the number will be 12F8528. BANJOISTS, TAKE NOTICE!

At last, here is a head already stretched, dried and hooped ready for immediate use. No fussing, ruining of heads or delay. Just slip it over your rim, put straining hoop on and apply the brackets. These heads are of fine calfskin and we put them up to fit five sizes of rims or shells. When measuring your instrument take diameter of rim alone, without straining hoop or brackets.

Catalog No.	Diameter	Price	Postage

SAVE ONE-HALF ON MUSIC BOOKS

THIS CATALOG FREE

WE SHOW on this and following pages but a few of the instruction books, folios and sheet music which we are prepared to supply, just to show the difference between the regular retail price and our price. If you are interested in instruction books, folios and publications of any kind, **send for our special Sheet Music Catalog,** quoting a very large and complete line of instruction books for all instruments, vocal folios, instrumental collections, orchestra and band selections and songs of all kinds. You will be startled at the astonishingly low prices quoted therein, lower than what dealers usually term "teachers' prices." **Our Department of Publications is the largest in the country** dealing directly with the consumer, and our buying power, together with our method of selling (our small margin of profit added to original cost) enables us to make these prices **the lowest ever named.** Look over the few books shown as an illustration of what we can do, then if you do not find what you desire, be sure to send for **our special Sheet Music Catalog** before making your purchases elsewhere, as we can save you from 30 to 50 per cent on any publication that you may want to buy.

WE ESPECIALLY RECOMMEND THESE BOOKS.

No. 12F01800 The violin, the king of instruments, is the most difficult to learn. Heretofore it has required expensive lessons, many tedious hours of study and much patience to become proficient. These great difficulties have now been overcome and we do not hesitate to say that with this new method of illustrated diagrams anybody can learn to play without the aid of a teacher. All the scales, chords and exercises in every major and minor key are fully illustrated in this book by diagrams of the fingerboard, showing the positions of the fingers of the left hand to be used in holding down the strings. It shows correct fingering and bowing and many other features never before published. Try this method and learn to play. Retail price, $2.00; our price.....(Postage extra, 12 cents).....**75c**

No. 12F01620 Chord Book for Piano. This book was especially compiled for us by the celebrated instructor and composer, E. N. Guckert. It contains a complete method of regular instructions besides a very elaborate study of all the chords easily explained by illustrations of the piano keyboard, showing the fingers to be used in each chord, besides many other valuable illustrations and instructions for the beginner or advanced pupil. This book will teach anyone how to play chords and accompaniments without the aid of a teacher. Our own edition price.....(Postage extra, 20 cents).....**$1.00**

THE MOST POPULAR PIANO PIECES.
This most excellent volume has been arranged by the famous American composer, George Rosey, and contains the very best piano compositions that the world has produced, 35 in all.

THE MOST POPULAR CHILDREN'S PIANO PIECES.
The high class collection of standard pieces has been especially arranged and adapted for the use of first and second grade students.

MOST POPULAR OPERA SELECTIONS.
We especially recommend this collection to teachers and players desiring the highest grade piano solos. Contents: Aida, Barbier de Seville, Bohemian Girl, Carmen, Cavalleria, Faust, Frieschutz, Huguenots, Lohengrin, Lucia, Martha, Maritana, Mignon, Poet and Peasant, Prophete, Rigoletto, Tannhauser, Trovatore, William Tell, and others.

THE MOST POPULAR PIANO DANCE FOLIO.
Mr. Geo. Rosey is the arranger of this **splendid collection.** He has chosen 33 selections from both old and modern composers. Includes waltzes, two steps, marches, etc.

THE MOST POPULAR PIANO DUETS.
This collection is entirely different from any other published. Contains nothing but the best efforts of the popular and classic writers. Every piece a jewel, 19 compositions in all.

MOST POPULAR NEW VIOLIN SOLOS.
These 17 solos have been effectively arranged by Mr. Albert E. Wier. Contains: Chaconne, by Durand; the Fountain, by Bohm; Gipsy Dance, by Wier; My Heart at Thy Sweet Will, by Saint-Saens. Violin and piano. Two parts complete.

THE MOST POPULAR VIOLIN PIECES.
Includes, Angels' Serenade (Braga), Ave Maria (Gounod), Bridal Chorus from Lohengrin (Wagner), Raff's Cavatinate, Sextet from Lucia (Donizetti), The Palms, La Paloma, Mendelssohn's Spring Song, Traumerei, and twenty others. Violin and piano parts bound separately. Two parts complete.

THE MOST POPULAR FLUTE SOLOS.
Same contents as above for flute and piano. Two parts complete.

THE MOST POPULAR CLARINET SOLOS.
The collection consists of sixteen complete solos with piano accompaniment and we are sure clarinetists will appreciate it. It is the first book of the kind ever issued and contains rare musical gems. Two parts complete.

THE MOST POPULAR CORNET SOLOS.
Twenty-eight selections including Angels' Serenade, by Braga, Bridal Chorus from Lohengrin, by Wagner; Stabat Mater, by Rossini; Evening Star from Tannhauser, by Wagner; Cavalleria Rusticana, by Mascagni; The Lost Chord, by Sullivan; Schubert's Serenade; Simple Aveu, by Thome. Two separate parts, complete.

The Most Popular Selections for the Cornet. Nothing better in standard music has ever been put on the market. It contains: Celeste Aida from Aida, The Bell, by Saint-Saens, June Barcarolle by Tschaikowsky, True Love by Brahms, The Way of the World, by Grieg. Cornet and piano in two separate parts, complete.

The Most Popular Trombone Solos, same contents as Cornet Solos.

The Most Popular Selections for the Trombone, same contents as the Cornet selections.

The Most Popular Cello Solos, same contents as Cornet Solos.

The Most Popular Selections for the Cello, same contents as the Cornet Selections.

The Most Popular Songs From the Most Popular Operas. Contains 24 songs, is especially arranged for medium voice and simplified so that it is within the range of every singer of average ability.

The Most Popular Piano Instructor. Teachers and students will welcome this book. It presents the elements of music in such a pleasant way as to interest even the most indifferent student.

The Most Popular Songs for the Guitar. To give you an idea of the class of songs in this book, will mention: Ah, I Have Sighed to Rest Me; Alice, Where Art Thou? Annie Laurie; Bingo; Dear Evalina, Sweet Evalina; Forsaken; Forty-Nine Bottles; Good Night Ladies, Juanita, Lead Kindly Light, Love's Old Sweet Song; Old Black Joe; Then You'll Remember Me; Two Roses; When the Swallows Homeward Fly, and 100 others.

THE MOST POPULAR MANDOLIN PIECES.
Same contents as Violin Pieces. Published for 1st and 2d mandolin or guitar. Each part **30c**
Piano accompaniment.....**40c**

The Most Popular Mandolin Dance Folio. It furnishes standard music for the dance hall, or any other occasion where light, enjoyable music is wanted. Especially arranged by L. Tocaben. The following are a few of the twenty-seven pieces: A Waltz Dream, Strauss; Artist Life Waltz, Merry; Widow Two-Step; In Old Madrid, Bolero; Ox Minuet, Danza Habanera; Published for 1st mandolin, 2d mandolin, guitar and piano.

COMPLETE YOUR MUSIC LIBRARY.

98c FOR (Postage, 20 cents) → 25 COPIES FOR (Postage, 20 cents) → 98c

COMPLETE YOUR MUSIC LIBRARY.

For the first time in the annals of the music business we place within the reach of everybody the most complete and arranged edition of the standard classical and operatic music by all the eminent artists of the world. Music that has been played for the last fifty years; music which will be played for the next five hundred years; music which is entertaining and represents the very best in each music class. It is printed from stone engravings with magnificent covers in colors emblematic of the subject represented. We have carefully selected all of these compositions for their special merits and in our list you will find the waltzes of Strauss, king of waltz writers; the beautiful sonatas of Liszt and Mendelssohn; the powerful and profound marches of Wagner; the pathetic and enrapturing flower and spring songs and other melodies by Lange, Tobani and Mendelssohn; gems of melodies from the best operas of Verdi, Flotow and Sullivan; the powerful orchestration of Meyerbeer and Rossini, and all other music of an educating and inspiring nature. **Owing to the ridiculously low prices at which we sell these compositions we cannot accept any order for less than twenty-five copies.** In making up your order you are at liberty to choose either vocal, operatic or instrumental compositions. **We furthermore recommend that you give us a list of about forty selections from which to pick the twenty-five you desire.**

REMEMBER, 25 COPIES FOR ONLY 98 CENTS, LESS THAN 4 CENTS PER COPY, THE BEST MUSIC IN THE BEST FORM.

HOW TO ORDER.

You have the privilege of selecting music from the vocal, operatic or instrumental classes; give ten or fifteen extra titles in your twenty-five copies from, as sometimes and thus avoid substitutions.

NOTE—In ordering give Catalog Number and name of selections desired; also allow 10c for postage.

A capital indicates the key of the song, the smaller letters the compass; the first letter, the second the highest note of the song.

It is a machine that is made ery detail of workmanship, the best materials all through, perfect in action, strong, nd simple, a machine that will give you no trouble and will afford a never failing pleasure to you and your friends for many years. Shipping weight, 31

$9.45

Type L. E.

OF5071 Oxford Disc Talking Machine Type L. E. Price..... $9.45

OXFORD TAPERING ARM DISC TALKING MA

SPECIFICATIONS.

CABINET—Solid oak, 11⅛ inches by 10⅛ inches at base; 10⅛ inches by 9⅝ inches at top; 5¼ inches high. Fine hand rubbed finish.

HORN—Flower shaped, very ornamental, and possessing the best acoustic properties obtainable in a horn of this size. Diameter of bell, 14 inches; length, 12½ inches. Finish, dark red enamel with gold stripes.

TURN TABLE—8 inches in diameter, covered with green felt. Takes either 7 or 10-inch records.

MOTOR—Single spring, finely made throughout, practically the same as the motor of our type L. E. machine, but with start and stop lever and speed regulator both on top of cabinet. Noiseless in operation, absolutely uniform in speed, insuring perfect reproduction. May be wound while running.

TAPERING ARM—Nickel plated, the same up to date construction used on types L. E., J. F., and R. W., the feature which distinguishes the Oxford machines from all others.

REPRODUCER—Oxford Special design, made with heavy mica diaphragm and positive screw clamp for needle. Cannot rattle, buzz or blast. The same reproducer we furnish with all the Oxford machines shown on this page.

An ideal musical instrument for home use, a perpetual entertainer and ever ready source of pleasure and amusement. Machines of this style, quality and size have heretofore been sold at $25.00 by dealers everywhere. Think of the value we give you in pricing this machine, this new up to date Type O. Tapering Arm Machine, exactly as illustrated and described at only $11.60, less th regular price; a little better than type L. E., not quite so good as the type J. F., derful bargain at our special price. If $11.60 fits your pocketbook, you will make in ordering the type O. D. machine. Shipping weight, 35 pounds.

No. 20F5073 Oxford Disc Talking Machine, Type O. D. Price .....

RD TAPERING ARM DISC TALKING MACHINE

$14.90

Type J. F.

SPECIFICATIONS.

CABINET—Solid quarter sawed oak. Base, 13 inches square; top, 11 inches square; height, 5⅞ inches. Extra fine hand rubbed finish.

HORN—Large and ornamental, of splendid acoustic properties and handsome flower shape. Diameter of bell, 18 inches; length, 14½ inches. Finish, dark red enamel with gold stripes.

TURN TABLE—10 inches in diameter, covered with green felt. Takes any record, either 7, 10 or 12-inch.

MOTOR—Same style and quality throughout as the motor of the type R. W. machine, but made with a single instead of double spring. Runs one 10-inch or two 7-inch records with one winding, and may be wound while running. Noiseless, smooth running and absolutely uniform in speed.

TAPERING ARM—Exactly the same style with which we equip all the Oxford Disc Talking Machines, the feature which, in connection with the perfect reproducer, gives to these machines their wonderful musical quality.

REPRODUCER—Oxford Special, exactly the same style with which we equip all Oxford Disc Talking Machines. Made with heavy mica diaphragm and positive screw needle clamp, the best reproducer made.

The Type J. F. Oxford Disc Talking Machine is almost as our next higher priced model. The horn is a little shorter, and the requires winding a little oftener than the type R. W., but so far as the lon is concerned, it is hard to see any difference. Of course, it is not quite and not quite so handsome in appearance, but it reproduces the record just tly as any machine, regardless of price, and it is exactly the same style, grade ty of machine that retail dealers sell at $30.00; yet we ask you only $14.90. weight, 38 pounds.

OXFORD TAPERING ARM DISC TALKING MACHINES

WITH MUSIC MASTER HORNS

TYPE A. W.

27.90

With Music Master Horn

THE MUSIC MASTER HORN stands for all that is best in tone and reproduction. The supremacy of these horns, like the violins of the old makers, defies explanation and cannot be imitated. They are built on scientific principles from the finest selected wood, giving a resonant tone to the reproduction and rendering all the tones in any scale with perfect fidelity to the original.

SPECIFICATIONS.

CABINET—Dark golden oak with fine hand rubbed finish. Size, 14¼ inches square at the base, 12¼ inches square at the top and 6½ inches high.

HORN—Genuine Music Master Wood Horn in dark golden oak finish to match the cabinet. Diameter of bell, 18 inches; length of horn, 20 inches.

TURNTABLE—10 inches in diameter, covered with green felt, takes any size record from 7 to 12 inches inclusive.

MOTOR—Suspended from top of cabinet to avoid vibration. Absolutely noiseless. Absolutely uniform speed assured by automatic governor and extra long worm gear. Start and stop lever and improved speed regulator both located on top of cabinet. Double spring, runs three 10-inch records with one winding and can be wound while running.

TAPERING ARM—Nickel plated and scientifically designed so that it affords a passage for the sound waves from the reproducer to the horn entirely without obstruction, resulting in greater volume of sound and better tone quality than is secured with machines of other designs.

REPRODUCER—Oxford Special design, with heavy mica diaphragm and positive screw clamp for needle. There is no reproducer made which excels this instrument in accuracy and clearness of reproduction.

THIS NEW OXFORD DISC MACHINE is manufactured especially for us by one of the largest, best known and most successful talking machine manufacturers in the world. It is made from our own design, and is sold with the positive guarantee that it is in every way equal to machines sold by the regular dealers at from $50.00 to $60.00. We absolutely guarantee this machine to equal machines sold by others at double our price, both in mechanical perfection, beauty of design and finish and in musical quality.

The beautifully proportioned and scientifically designed Music Master Wood Horn contributes in no small measure to the unusually perfect musical reproduction of this machine. It is a well known fact that wood surpasses all other materials for the construction of talking machine horns, provided the horn is properly designed and properly constructed, and among experts it is universally conceded that the Music Master Wood Horns are in a class by themselves and superior to any other wood horns on the market. Shipping weight, 45 pounds.

No. 20F5080 Oxford Disc Talking Machine, Type A. W., complete with Music Master Horn. Price..... **$27.90**

TYPE B. W.

$39.35

With Music Master Horn

SPECIFICATIONS.

CABINET—Fine hand rubbed mahogany finish throughout. Size, 16½ inches square at the base, 13½ inches square at the top and 7¾ inches high.

HORN—Solid mahogany Music Master Horn, beautiful piano finish throughout. Diameter of bell, 21½ inches; length of horn, 23 inches.

TURNTABLE—11½ inches diameter, covered with green felt, takes any record from 7 to 12 inches inclusive.

MOTOR—Extra powerful triple spring, runs from four to five complete records with one winding and can be wound while running. Unlike all Oxford machine motors, it is constructed throughout from the finest materials, and is of the same design as all other Oxford Disc Machine motors except that it is larger and more powerful. These motors are unsurpassed for the uniformity of speed and smoothness of action which are so essential to perfect sound reproduction.

TAPERING ARM—Nickel plated and scientifically designed so that it affords a passage for the sound waves from the reproducer to the horn entirely without obstruction, resulting in greater volume and perfect tone quality.

REPRODUCER—Oxford Special design, made with heavy mica diaphragm, and positive screw clamp for needle. In accuracy and clearness of reproduction there is no producer made that excels the Oxford Special.

THE TYPE B.W. OXFORD TAPERING ARM DISC TALKING MACHINE

is one of the most beautifully finished machines on the market, regardless of price. It is an ornament to any home. It is finished throughout in mahogany, the cabinet itself being constructed of birch and finished in exact imitation of the very finest mahogany. The Genuine Music Master Horn is constructed throughout from genuine mahogany, specially selected for fine grain effects.

There is no talking machine on the market at any price that surpasses this Type B. W. Oxford Machine, either in appearance or musical quality. It is absolute perfection in talking machine construction. If you will compare this machine carefully, point for point, with other machines, you will find that its equal in quality and style, in mechanical perfection and design cannot be purchased for less than $60.00 to $75.00.

Our special price of $39.35 is made possible by the fact that we handle this machine exclusively; there is only our one small profit between the manufacturer and our customer, and the enormous quantities in which we are able to purchase enables the manufacturer to reduce the cost to us to a figure impossible under the usual system of marketing talking machines. Shipping weight, 63 pounds.

10 INCH OXFORD DISC RECORDS

30 CENTS EACH — $3 50 PER DOZEN

Why Pay 60 Cents Each or $7.20 Per Doz.

for other disc records when we furnish the new Purple Label 10-Inch Oxford Records at 30 cents each or $3.50 per dozen, and absolutely guarantee them equal in musical quality, durability and appearance to any record ever made at any price? **THE MAKING** of good records requires the services of high class musicians, help of the highest degree of skill in the recording laboratory, and last, but by no means least, a high grade and expensive material, and these conditions are complied with to the limit in the manufacture of the Oxford Disc Records. You will be surprised at their marvelous tone, their freedom from scratch and their wearing quality.

YOUR MONEY BACK, and no questions a if you don't like

We accept orders for Oxford Disc Records the understanding and agreement that you compare them with other records costing the price we ask, or judge them by the highest standa musical and technical excellence, and if you do not find equal in every way to the best records on the mark superior to most records; if you are not entirely satisfie them and immensely pleased, you can send them back and we will return your money in full, including all or express charges you may have paid.

THESE RECORDS FIT any Oxford Disc Talking Machine, any Victor Talking Machine, any Columbia Disc Graphophone or any other style or make of disc talking machine using records with a hole not exceeding ¼ inch in diameter.

THEY DO NOT FIT special machines like the "Aretino," "Harmony," "Standard," "Busy Bee" or other machines made with center post of **large size or unusual shape,** thus requiring a large or peculiar shaped hole in record. **Look at the illustration of the Oxford** Record and you can easily decide whether it will fit your machine.

Haile's Modulator, Exact Size.

HAILE'S MODULATOR

For Disc Talking Machines. Softens and Purifies the Tone. Eliminates the Scratch.

No. 20F5376 Haile's Modulator is an attachment for the disc talking machines, by means of which soft tones are produced with any ordinary standard or loud tone needle. The delightfully soft effect produced by this Modulator makes it especially suited to use in the home where the ordinary full loud tone is often objectionable. Moreover, it eliminates all scratching and rasping sounds, and every note is clear, pure and wonderfully natural. Besides softening and improving the reproduction, the use of this Modulator also adds greatly to the life of the record, as the needle is supported between elastic surfaces which permit it to "give" slightly with every curve in the record groove, thus lessening the shock to the delicate walls of the groove, and greatly decreasing wear. Haile's Modulator may be attached to any disc talking machine and is put on or taken off just as easily as a needle is inserted or removed. By slightly turning the screw in the side of the Modulator, it may be regulated or adjusted to give any volume of tone desired, from the normal of the machine, to the very softest tone so pleasant and agreeable in small rooms. Shipping weight, 2 ounces. Price

STANDARD NEEDLES.

1,000 for 35 cents.

No. 20F5350 These Needles for disc talking machines of any make are made from cold drawn, oil tempered steel wire, and guaranteed to be the finest needles manufactured.

EACH OXFORD CYLINDER RECORDS $2.15 PER DOZEN

THE OXFORD CYLINDER RECORDS

are standard size wax records of the highest degree of excellence. They are made by the very latest and most approved method, molded in gold lined metallic molds, and in clearness of reproduction, accuracy and musical quality are unsurpassed by any wax cylinder records made.

THESE RECORDS FIT ANY MACHINE

using standard size wax cylinder records; they fit any cylinder record machine that we have ever sold; they fit any cylinder talking machine or Graphophone made or sold by the Columbia Phonograph Company; they fit any Phonograph or Edison talking machine; they fit any of the small low priced imported talking machines, such as the "Lyra" or the "Little Princess," or any of the various machines of this type which have been extensively sold and given as premiums.

They do not fit the "Busy Bee," because this machine is made with a mandrel that is larger than standard size. These Oxford cylinder records are exactly 4 inches long; the outside diameter is exactly 2 3-16 inches and the inside diameter varies from 1¾ inches at one end to 1⅞ inches at the other end. They are exactly the same size as the Columbia Phonograph Company's XP records or the Edison records.

We accept all orders for these new Oxford cylinder records with the understanding and agreement that you can try them on your machine, compare them with other records costing twice the price we ask you, and if you do not find them entirely satisfactory, as good, if not better, than any cylinder record you ever heard, you can return them to us at our expense, and we will cheerfully, without question or argument, return your money in full, including any transportation charges you may have paid.

IN ORDERING OXFORD CYLINDER RECORDS MENTION CATALOG No. 20F5103 AND ALSO STATE SELECTION NUMBER OF EACH ONE WANTED.

No. 20F5103 Price, per dozen, $2.15; each.....18c

OXFORD TONE ARM CYLINDER TALKING MACHINES

Oxford Tone Arm Cylinder Talking Machine, 1909 Model, Type G. H. $13.75

Cabinet—Solid oak, with dovetailed corners, measuring 7¼x10¼ inches at the base and 6¾x10 inches at the top. Affords to the motor complete protection from dust or injury of any kind.

Cover—Handsome bent oak cover or top for protection to the upper mechanism and constituting at the same time a convenient carrying case. Total height with cover, 8½ inches.

Horn—Handsome flower shape, of perfect acoustic properties. Diameter of bell, 16½ inches; length, 16½ inches. Finish, baked on black enamel, with gold stripes.

Motor—Powerful, noiseless and smooth running, with latest type of speed regulator and governor, insuring absolutely uniform speed. Can be wound while running.

Tone Arm—Flexible and affording unobstructed passage for sound waves from reproducer to horn.

Reproducer—New, spring contact, with button shaped sapphire point.

Weight—13 pounds.

Never until we placed this type G. H machine on the market had a Tone Arm cylinder talking machine been sold for less than $30.00, yet we have this season reduced our price for this machine to $13.75, the lowest price ever known for a cylinder talking machine with flexible tone arm, spring contact reproducer and large flower horn, the latest improvements in machines of this kind. Shipping weight, 37 pounds.

No. 20F5002 Oxford Tone Arm Cylinder Talking Machine, Type G. H. Price.....$13.75

Oxford Tone Arm Cylinder Talking Machine, $1 1909 Model, Type W. M.

Cabinet—Solid quarter sawed oak of handsome design, with bent oak cover, affording protection to the machine and forming and convenient carrying case. Size at base, 7½x12¼ inc 7½x12 inches; height to top of cover, 10¼ inches. Finely

Horn—Latest flower shape, of unexcelled acoustic prop size, measuring 18 inches in length, with bell 19 inches in di

Motor—Extra powerful, with double spring, runs five reco winding and may be rewound while playing. Instantaneo stop device, perfect governor and improved speed regulator in operation, smooth running and absolutely uniform in s

Reproducer—Improved spring contact, with extra qual sapphire, button shaped reproducing point.

Tone Arm—Exactly the same style and design fo machines selling at $30.00 to $45.00, flexible, of am and so shaped that it affords a perfectly free the sound waves from reproducer to horn.

Weight—24 pounds.

We have tried, tested and critically every cylinder talking machine on and we have yet to find one which ex ness and accuracy of reproduction, quality, this new type W. M. machine merit of this machine is the combin the improved spring contact button phire reproducer, the flexible tone a large flower horn. We could put more this machine, increasing the actual duction, but we could not increase of the essential parts. Any increase of building this talking machine would be limited to making mental, perhaps giving hand carved cabinet, ing the metal parts, tional money put into tion would improve the accuracy of reproduc ping weight, 40 pounds

4x5 MODEL I CONLEY CAMERA $1.78

$1.78 FOR THE CAMERA ALONE, $3.23 FOR THE CAMERA AND COMPLETE OUTFIT.

SPECIFICATIONS.

Size of Picture—4x5 inches.
Lens—Genuine meniscus achromatic, universal focus, speed F.16.
Shutter—Conley time and instantaneous.
View Finders—Two, ground glass type.
Tripod Sockets—Two, adapting camera to either horizontal or vertical use.
Covering—Seal grain keratol.
Metal Parts—Steel, oxidized finish.
Plate Holder—Conley flexible valve.
Capacity—Three double plate holders (six plates).
Dimensions—5½ inches wide, 7⅛ inches high, 8⅛ inches long.
Weight—35 ounces.

YOU WILL BE SURPRISED to see how easy it is to take pictures with the Model I Conley Camera, and you will be equally surprised to see what good pictures it will take. Cameras of this size and style of construction are by far the most popular cameras made for amateur use, and the enormous number of these cameras that we sell every year has enabled us to reduce the manufacturing cost so that we can sell this camera at less than one-half the price ordinarily charged for cameras of this style and quality.

EASY TO OPERATE. The Model I Conley Camera is one of the simplest and easiest cameras in the world to use; no previous experience is necessary; everything is simple and easy to understand, and the big book of instructions which comes free with every one of these cameras tells you in plain and simple language all that you need know in order to make good pictures. The shutter is entirely automatic in action, being operated for either time or instantaneous exposures simply by pressing the lever at the side of the camera. It is always set and always ready for immediate action. Its construction is exceedingly simple and there are no complicated parts to get out of order, making it a most effective and reliable instrument. Two view finders are provided, one for use when making pictures the long way of the plate, and the other when making pictures the short way of the plate, so that the shape and style of the picture may be adapted to the subject. This camera is also provided with two tripod sockets, so that in case a tripod is used, the pictures may still be made either way of the plate. The Conley Improved Flexible Valve Plate Holder which is furnished with these cameras is exactly the same style and quality of holder that we furnish with our very finest cameras.

COMPLETE INSTRUCTIONS IN PHOTOGRAPHY. With every Model I Conley Camera we include, without extra charge, our big manual, "Complete Instructions in Photography," the largest, the most complete guide to photography ever published. This book makes plain, clear, simple and easy to understand, and not only insures success to beginner in picture making, but contains a fund of valuable information for the professional photographer. See page 728 for description of this book.

Developing, Finishing and Material Outfit which we furnish with the Model I Cameras at the price quoted below, contains everything necessary for developing, toning and mounting the pictures complete. Every item that goes into this outfit is good. The plates and paper are guaranteed to be fresh and perfect, the chemicals are made and of the highest degree of purity, and all the other items strictly high grade and serviceable.

UNDERSTAND, we furnish the camera alone (with one double plate holder and "Complete Instructions in Photography") for $1.78, but we especially urge that you order the camera and outfit all complete, at our special price of $3.23 so that you can commence making pictures as soon as you receive it.

The complete outfit at $3.23 contains the following items:

- Model I Conley Camera.
- Double Plate Holder.
- Dark Room Lamp.
- Tray for Developing Plates.
- Tray for Fixing Plates.
- Tray for Toning Prints.
- Roller for smoothing down the mounted prints.
- 1 dozen Dry Plates.
- 1 dozen Card Mounts with fancy mount holders.
- 1 Graduated Glass for measuring liquids.
- 1 package Concentrated Dry Developer (makes 8 ounces of solution).
- 1 package Concentrated Dry Toner (makes 8 ounces of solution).
- 1 dozen 4x5 sheets DuVoll's Paper.
- 1 4x5 Printing Frame.
- 1 package Hypo for fixing negatives and prints.
- 1 tube of fine Photo Mounting Paste.
- 1 copy of "Complete Instructions in Photography."

THE SERIES D DEVELOPING OUTFIT.

The Model I Conley Camera and this Big Developing, Finishing and Material Outfit, all complete, for $3.23. See No. 20F272.

MODEL II CONLEY CAMERA $2.65

Model II Camera Alone. $4.10 for the Camera and Complete Outfit.

SPECIFICATIONS.

Size of Picture—4x5 inches.
Lens—High grade, universal focus, achromatic, speed F.16.
Shutter—Conley special time and instantaneous (with bulb release if desired).
View Finders—Two, of ground glass and mirror type.
Tripod Sockets—Two, so that pictures may be taken either the long or short way of the plate.
Covering — Genuine walrus grain leather.
Metal Parts—Brass, fully nickel plated.
Plate Holder—Conley flexible valve.
Capacity — Three double plate holders (six plates).
Dimensions—5½ inches wide; 7⅛ inches high; 8⅛ inches long.
Weight—36 ounces.

NEW MODEL II CONLEY CAMERA was designed and built by the Conley Company to meet the requirements of those who are willing to pay more for the sake of a camera made a little better, finished a little more elegantly and a little more convenient to handle than the Model I Conley. This camera is covered with genuine walrus grain leather; all metal parts of brass, nickel plated and highly polished, and it is equipped with bulb release shutter, built on exactly the same principles as the shutter set on the Conley Magazine Camera. This shutter is so constructed that it can be operated by either bulb release or finger release, and can be instantly detached when it is not required. As the bulb and tube are absolutely essential, we quote our price on the camera without including this as an extra part to those who desire it. While not in actual necessity, it is a very great convenience and insures a better quality in the pictures, as there is no danger of jarring the camera when the shutter is operated by the bulb, and it is an especially desirable feature when making time exposures.

COMPLETE DEVELOPING, FINISHING AND MATERIAL OUTFIT. With the Model I Conley Camera described above, we furnish this camera with or without complete outfit, our price for the camera alone, with Double Plate Holder and "Complete Instructions in Photography," $1.78, and for the camera with complete developing, finishing and material outfit, $4.10. The outfit which we furnish with this camera is the same as the one furnished with the Model I Conley Camera, which is illustrated and described above, and we recommend by all means that you get the complete outfit at $4.10, so that you will be able to commence making pictures with this camera as soon as it reaches you.

20F276 Model II Conley Camera (bulb and tube not included), with Double Plate Holder and "Complete Instructions in Photography." Shipping weight, 2 pounds. Price.....$2.65
20F278 Model II Conley Camera (bulb and tube not included), with Double Plate Holder and complete Series D Outfit. Shipping weight, 11¼ pounds. Price.....$4.10
20F505 Bulb and Tube, with special connector for Model II (Cannot be used with Model I Camera.) Shipping weight, 2 ounces. Price.....15c

If bulb and tube are not ordered, the shutter may be operated by hand.

20F561 Extra Plate Holders. (See page 730.).....38c

4x5 MODEL III CONLEY MAGAZINE CAMERA $3.95

TWELVE PICTURES WITH ONE LOADING.

SPECIFICATIONS.

Size of Picture—4x5 inches.
Lens—High grade achromatic, of universal focus, speed F.16.
Shutter—Conley special, metal base, time and instantaneous with bulb release.
View Finders—Two, of brilliant type.
Tripod Sockets—Two.
Covering—Genuine leather, seal grain.
Metal Parts—Brass, fully nickel plated.
Plate Changing Device—Conley patent, absolutely positive in action.
Register—Automatic, indicating number of plates exposed.
Capacity—One dozen plates (twelve pictures with one loading).
Dimensions—6⅜ inches wide; 7⅛ inches high; 8 inches long.
Weight—64 ounces.

THE SPECIAL ADVANTAGE of a magazine camera lies in the fact that it dispenses entirely with the use of extra plate holders, the construction being such that twelve plates can be placed directly in the camera and it is then ready for the making of twelve exposures without the necessity of returning to the dark room to reload and without carrying any separate or extra plate holders.

THE SHUTTER.

THE GENERAL CONSTRUCTION of this camera is strong and substantial in every way. It is covered with the best quality of genuine seal grain leather; the wood is carefully selected, air seasoned and kiln dried; the doors are of selected cherry, paneled to prevent shrinking or swelling, and all exposed metal parts are heavily nickel plated. We equip this camera with an entirely new shutter which is entirely automatic in action, always set, and is operated either by pressing a button, or by bulb and tube.

THE PLATE DROPPING DEVICE is the result of years of experience in building cameras of this type. It is absolutely positive in action and so constructed that difference in the thickness of plates does not interfere with its operation. It is impossible to drop more than one plate at a time, a fault which is quite common to other magazine cameras, and at the same time it is absolutely certain to drop one plate every time the operating lever is moved. The plates are inserted at the back of the camera, and as each one is exposed it is dropped forward and to the bottom of the camera and the next one brought into position, simply by a turn of the small lever on the side of the camera. The plates are inserted through a hinged door at the back of the camera and after exposure are removed through another hinged door in the bottom of the camera. Any number of exposed plates may be removed at any time without disturbing the unexposed ones still remaining. An automatic tally shows at all times the number of plates that have been exposed.

No. 20F285 Model III Conley Magazine Camera, with "Complete Instructions in Photography." Shipping weight, 5½ pounds. Price.....$3.95

MODEL IV 4X5 CONLEY FOLDING CAMERA, $3.25

SEE PAGE 728.

Camera Open.

SPECIFICATIONS.

Size of Picture—4x5 inches.
Lens—High grade achromatic meniscus, speed F.10.
Shutter—Conley time and instantaneous with three diaphragms.
Ground Glass—Spring actuated for fine focusing.
Focus Scale—Accurately set, for quick focusing.
Finder—Brass bound and reversible.
Front—All metal with screw clamp.
Woodwork—Thoroughly air seasoned and kiln dried.
Metal Parts—Brass, oxidized finish.
Covering—Black keratol, morocco grain.
Bellows—Best quality keratol.
Plate Holder—Conley flexible valve.
Tripod Sockets—Two.
Dimensions—Camera closed, 2½x5¼x6¼ inches. Bellows capacity, 7½ inches.
Weight (including plate holder)—23 ounces.

$3.25 IS A REMARKABLY LOW PRICE for a folding camera with ground glass focusing screen. With this camera you can see the picture on the ground glass just the same as with the most expensive professional outfits, and the pictures which it makes are astonishingly good. On the ground glass at the back of the camera the picture is seen just exactly as it will appear when finished, and it is a very simple and easy operation to focus the camera, which insures every picture being perfectly clear and sharp. On the ground glass you see every detail of the picture, and everything can be carefully arranged so that each object in the picture will appear just as you want it and just as required in order to secure the best possible effect. There are, of course, times—for example, in photographing rapidly moving objects, when it is not convenient to focus the camera carefully by means of the ground glass, and to provide for such cases this camera is also equipped with a carefully adjusted finder and accurate focus scale. By means of the focus scale the camera may be focused for any desired distance, and the object to be photographed may be located by means of the view finder.

ON THE GROUND GLASS. The illustration to the right shows how the picture is seen on the ground glass when focusing the camera, and it also illustrates the manner in which a camera made without reversible back may be turned on its side so that the picture may be made either the long way or the short way of the plate. In illustration the camera is turned on its side, in which position it just as well as when upright. The picture is, of course, seen upsi on the ground glass, as it always is with all cameras.

The pi it app the ground

SOME OF THE BEST PICTURES that have been sent to us by our customers have been made with the Model VII Conley Folding Camera every day in the year we receive samples of work which our customers have done with the various cam in this catalog, samples of pictures which they have made with various folding cameras, including our Long Focus and Double Extend and some of the very best pictures that have come to us in this way have been taken with the Model VII Conley Folding Camera. We mention particularly because we know that many people feel that good pictures can only be made with expensive cameras, while, as an actual matt the advantages of the higher priced cameras are chiefly convenience of operation, due to their more complete adjustments and also to the with the more elaborate cameras certain kinds of work can be accomplished which cannot be successfully done with the lower priced one Model VII Conley Folding Camera we offer an instrument embodying the most essential features of all high grade folding cameras, but wi adjustments which would only increase the cost of the camera without adding to its real value as a picture taking machine.

We put into the Model VII Conley Folding Camera the very best materials, the exact same materials that we use in the construction of priced cameras, and we put into it our very best workmanship. It is made throughout from mahogany, thoroughly air seasoned and kiln dried. The covering and the bellows are genuine leather, and all metal parts are of brass, heavily nickel plated and highly polished.

THE LENS AND SHUTTER. We equip this camera with a strictly high class lens, a double rapid rectilinear lens of the exact same style and quality that is used by other camera manufacturers for cameras selling at from $15.00 to $20.00. It is a double rapid rectilinear lens working at F.11, guaranteed to cover the plate fully to the extreme corners and to produce negatives that are sharp, clear and full of detail. The shutter is the Wollensak Junior, an automatic shutter making time, bulb and instantaneous exposures.

Wonder Automatic Cannon Photo Button Machine

This Remarkable Cannon Camera Takes, Develops and Finishes a Button Photograph in Less Than One Minute and if Sold at 5 Cents Each the Net Profit on Each Button is 400 Per Cent.

$15.00

THE NOVEL AND STRIKING APPEARANCE of this machine quickly attracts attention, and at picnics, fairs, celebrations, frequented street corners, or any place where crowds of people gather, it is a quick and easy money maker.

EASY TO OPERATE. This machine is exceedingly simple and easy to operate and may be successfully used by anyone of average intelligence, even though without the slightest knowledge of photography. The exposure is made simply by pressing the bulb, after which a lever is pressed which drops the button into the lower part of the machine where it is automatically developed and fixed and in just a few seconds it can be delivered to your customer ready to wear. Most operators charge 5 cents for the buttons, at which price they yield a profit of 400 per cent on the investment, but nearly everyone will also want one of the handsome gilt frames shown below, which readily bring 10 cents each, thus greatly increasing the profit.

THIS MACHINE is manufactured of metal throughout, and is the simplest and most attractive machine on the market. It is entirely free from complications and can be taken apart and put together in a few minutes. The developing cup, which contains the developing jar, is made of fine polished aluminum. The lens is specially ground and polished and is peculiarly adapted for this kind of work on account of its speed and sharp brilliant definition. The plates are packed in lightproof tin tubes and can be loaded into the machine in broad daylight in a few seconds. No darkroom is required.

A Complete Outfit, $23.30

While we quote prices on this machine and each of the various supplies separately we advise the purchase of this complete outfit at $23.30, because it contains everything necessary for immediate results and enables the purchaser to start work at once. Additional supplies may be ordered with the outfit if desired, and if you live some distance from Chicago it might be well to include some extra plates, frames and developing powders with your order to avoid delay after getting to work. The complete outfit contains the following items: 1 Cannon Photo Button Machine, as shown in illustration; 1 tripod, 300 plates, 288 No. 20F507 gilt frames, 2 packages of developing powders, 1 ammonia tester. Shipping weight, 7 pounds.

No. 20F499 Complete Photo Button Outfits. Price.....$23.30

SUPPOSE YOU PURCHASE THE COMPLETE OUTFIT AT $23.30.

Figure the possible profit. There are plates enough in the outfit to make 300 buttons, which, at 5 cents each, will sell for $15.00. There are two gross of frames, which, at 10 cents each, will sell for $28.80, making the sales $43.80, leaving a profit of $20.50 in actual money, besides the outfit itself. Now, on future business, plates will cost you $10.00, and the necessary developer for same about $1.50; the finished buttons sell for $60.00. Five gross (720) of frames, at $1.75 per gross, will cost you $8.75 and sell for $72.00. Total cost, $20.25; selling price, $122.00; net profit, $101.75. This is figuring on the basis that less than three-fourths of the people buy frames, but the percentage is usually higher. It looks good, doesn't it?

No. 20F501 **The Wonder Cannon Photo Button Machine,** complete, as shown in illustration. Price. $15.00
No. 20F503 **Tripod for Wonder Cannon Photo Button Machine.** Price..... 1.90

Plate Holder—Conley flexible valve.
Carrying Case—Optional, keratol covered, solid sole leather, or none at all, according to price.
Dimensions—4x5 size, closed, 5⅞x6¼x2 inches. 3¼ x 5½ size, closed, 4¾x6⅞x2⅝ inches.

MANUFACTURING this camera the Conley Company use only the very highest grade of the exact same style and quality of materials that are in their very highest grade cameras. The best quality of well seasoned, kiln dried mahogany is used for woodwork, and the covering is a fine quality of genuine leather. The bellows is made from the best red Russia leather, lined with black gossamer cloth. All metal parts are brass, nickel and highly polished. The workmanship is in every way as good as these cameras being put up by the same workmen who make higher priced instruments.

ADJUSTMENTS AND SPECIAL FEATURES. This camera is made with rack and pinion focus movement and the automatic front clamp, the most satisfactory and convenient of any now devised. The front is constructed entirely of brass, nickel plated and highly polished, and is equipped with rising and falling adjustment for regulating the relative amounts of sky and foreground. It is equipped with an extra quality reversible brilliant view finder, nickel plated piano hinge, polished mahogany back panel, strong leather handle and spring actuated ground glass focusing screen protected by a black cloth. It is equipped with a double rapid rectilinear lens guaranteed to cover the entire plate to the extreme corners and produces an unusually clear cut and snappy negative. The Wollensak Senior Automatic Shutter is a very durable form of shutter, arranged for instantaneous exposures and bulb or time exposures of any desired length, a shutter that is easy of operation, working and entirely automatic.

Plate Holder—Conley improved flexible valve.
Carrying Case—Solid sole leather, with space for camera and extra holders.

Dimensions—4x5 size, focal capacity, 6¾ inches; camera closed, 2½x5¼x6¼ inches; carrying case, 3x6¾x11 inches; capacity of carrying case, camera and four holders; 5x7 size, focal capacity, 8 inches; camera closed, 2¾x6⅝x8½ inches; carrying case, 3¼x8⅞x13½ inches; capacity of carrying case, camera and five holders.

THE MODEL VIII CONLEY CAMERA is cheap in price only. It is made just as good as the manufacturers know how. They put good materials into it all the way through, good mahogany, good leather and good workmanship. The parts of the Model VIII Conley Folding Camera are made by the same mechanics who make the parts for our highest priced cameras. They are assembled, put together and finished by exactly the same workmen that are employed on our highest grade long focus and double extension cameras, and throughout the factory these cameras receive exactly the same painstaking care, the same rigid inspection and the same strict attention to the smallest details of construction.

LENS AND SHUTTER. This camera is equipped with a double rapid rectilinear lens working at F.11, which is ample speed for making instantaneous exposures except under very unfavorable conditions. This lens covers the plate sharply to the extreme corners, even with full aperture, and yields a sharp, clear cut and snappy negative. The shutter is the new Conley Junior Automatic with pump and valve completely enclosed within the case.

ADJUSTMENTS. This camera is made with rising and falling front, Conley automatic front clamp, spring actuated ground glass focusing screen protected by leather covered, hinged, mahogany back panel, reversible view finder, an accurately adjusted focus scale and two tripod sockets.

Lens—High grade double symmetrical, work F.11 (U. S. 8).
Plate Holder—Conley improved flexible valve.
Carrying Case—Solid sole leather, with space fo era and extra holders.
Dimensions—4x5 size, focal capacity, 9½ inches era closed, 3⅛x6¼x6¼ inches; carrying 3½x7x12 inches; capacity of carrying case, and five holders.
5x7 size, focal capacity, 12⅞ inches; camera 3¾x8½x8½ inches; carrying case, 4¼x9x15¾ capacity of carrying case, camera and six h

ECIAL FEATURES OF THIS CAMERA, the features that especially commend it to the careful and discriminating buyer, are the reversible back, the vertical ne rack and pinion focus movement, the Conley Safety Shutter and the fine rapid rectilinear lens. Besides re important features, it should also be remembered that this Model IX Camera is made with the hand-nley all metal rising and falling front, brilliant hooded finder, Conley automatic front clamp and accurately adjusted focus scale. The ground glass at the back of the camera is protected by a hinged mahogany panel, covered with leather, and the bed of the camera is joined to the box by a strong and rigid piano hinge.

A CLOSED.

READ THE SPECIFICATIONS CAREFULLY and compare this camera with cameras offered by other dealers at about the same price. You will find that no other dealer can furnish anywhere near so good a camera for the same money and you will find that for a camera of equal value you must pay the dealer in trust goods from 50 to 75 per cent more money than we ask for the Model IX.

THE REVERSIBLE BACK with vertical swing enables the user of this camera to take either upright or horizontal pictures without changing the position of the camera, the back being detachable by pressing a concealed button and easily and quickly replaced in either position desired. The vertical swing is operated by simply loosening the two set screws at the base of the side arms. Focusing is accomplished by a fine rack and pinion movement, using, when the nature of the work permits, the ground glass at the rear of the camera, or when this is not convenient, it may be used as a hand camera by means of the view finder and focus scale, which are conveniently located on the bed of the camera.

SHOWING REVERSIBLE BA DETACHED.

CARRYING CASE.

AND SHUTTER. We equip the Model IX Conley Folding Camera with a Double Rapid Rectilinear Lens of the symmetrical type working at F.11, or with the Conley Rapid Orthographic Lens at F.8. Both of these lenses are high grade lenses, guaranteed to cover the plate to the extreme corners aperture, but the greater speed of the Orthographic lens makes it particularly desirable. This is the s with which we regularly equip the Model XV Conley Camera. With either lens equipment we furnish ley Safety Shutter, one of the most complete, easily operated and practicable shutters on the market.

PRICES.

s quoted for the Model IX Camera include one plate holder, leather carrying case and "Complete Instructions in Photography."

Plate Holder—Conley flexible valve.
Auxiliary Bed—New style with rack and pinion focus movement.
Carrying Case—Extra quality leather, with space for camera and six plate holders.

THE ILLUSTRATIONS shown on this page, engraved direct from original photographs of the camera, will give you some idea of the general construction and adjustments of the Model XV Conley Long Focus Revolving Back Camera, but these illustrations cannot convey to you any adequate idea of the handsome appearance, beautiful finish and fine workmanship. The beautifully polished mahogany woodwork and the highly finished nickel plated brass trimmings contrasted with the fine black bear grain leather covering and the rich red leather of the bellows give to this camera a strikingly handsome appearance.

DIMENSIONS.

Bellows Capacity	Equivalent Focus of Lens	Focus Rear Combination	Size of Camera, Closed	Size of Carrying Case
12½ inches	6¾ inches	10½ inches	3⅝x 6⅝x 6⅝ inches	4¼x 7 x12 inches
13¾ inches	6⅞ inches	11¾ inches	3⅝x 7⅛x 7⅛ inches	4¼x 7⅝x12½ inches
15 inches	7 inches	12½ inches	3¾x 8 x 8 inches	4½x 8½x14½ inches
16¼ inches	8 inches	14 inches	4 x 8¾x 8¾ inches	4⅝x 9⅜x15½ inches
20 inches	10½ inches	17½ inches	4½x10¼x10¼ inches	4⅞x10⅞x19 inches
22¾ inches	12½ inches	20 inches	4¾x11¾x11¾ inches	5½x12¼x21¾ inches

Dimensions are given in inches. Bellows capacity is measured from ground glass to front board, with camera fully extended.

NEW MODEL XV CAMERA, as illustrated and described on this page, does not look very much like the original Long Focus Cameras with which we started nearly eleven years ago. Every year has seen improvements made, adjustments weak points strengthened, changes of various sorts that would add to the efficiency or the attractiveness of the camera. We expect to continue this policy of improvement in the future; but when we look at this Model XV of the Long Focus Revolving Reversible Back Camera it seems impossible to suggest further improvement.

LENS AND SHUTTER. The Rapid Orthographic Lens with which the Model XV Conley Long Focus Cameras are regularly equipped is an extra high grade lens, very rapid, working at F.8, and suitable for all kind of general photography, including portraits and groups as well as landscapes, architectural subjects, street scenes, etc. It is composed of two combinations, each one consisting of a crown glass and a flint glass, accurately ground, polished and cemented together. Both front and rear combinations are perfectly corrected and the bellows length of the camera is sufficient to permit the use of the rear combination alone, a very desirable feature in landscape and architectural work. The shutter is the new Conley Safety, an unusually efficient, convenient and satisfactory shutter, that meets the requirements fully for all ordinary work.

THE REVOLVING BACK

THE NEW CONLEY REVOLVING REVERSIBLE BACK is one of the features of the new models, the most easily operated, most convenient and most effective form of reversible back ever invented. This revolving back is another distinctive Conley feature, one of the features that put the Conley cameras in a class by themselves. By simply pressing a small nickel plated button on top of the camera this back is unlocked so that it may be instantly revolved from a horizontal to a vertical position, or may even be turned clear around, if desired, so that the plate holder may be inserted from the left side. The revolving back is furnished with all sizes of the Model XV Long Focus Cameras, except the 8x10 size, which is made with detachable reversible back of the same construction as the back of the Model IX Conley Camera described on page 726.

THE VERTICAL SWING BACK

THE SWING BACK is of the most approved form, this important adjustment being operated and controlled entirely by two set screws, one at the base of each side arm. By simply loosening these set screws, the back of the camera can be swung either forward or backward to any desired angle, thus maintaining its vertical position regardless of the position of the bed, which may be tilted up or down as required.

AUXILIARY BED. With every Model XV Conley Long Focus Camera we furnish the new Conley Auxiliary Bed, made with rack and pinion focus movement, and so designed that it may be instantly attached to the camera when using a short focus or wide angle lens.

AUXILIARY BED IN USE

MODEL XV CAMERA, CLOSED

PRICES.

Prices quoted for the Model XV Conley Long Focus Cameras include one plate holder, leather carrying case, auxiliary bed and "Complete Instructions in Photography."

NOTE—All sizes are made with revolving reversible backs, except the 8x10, which is made with detachable reversible back of same style as the Model IX Conley Camera described on page 726.

Our Special Catalog of Cameras and Photo Supplies

MAILED FRE
POSTPAID ON

ON PAGES 723 to 742 of this catalog we illustrate and describe only the more important items in our line of cameras and photographic supplies. The space available in this big General Catalog compels us to shorten descriptions, reduce or in many cases omit illustrations; still we give you, in the following pages, sufficient information regarding the most important items in our photographic line so that you can conveniently make up your order direct from these pages. We guarantee to satisfy you with anything you order or return your money. But if you want to see our entire line of cameras and photographic goods with more complete descriptions, large illustrations showing all the details, and wish to take advantage of the instructions and valuable information contained in our special Camera Catalog, by all means write for it at once. We will be glad to send it to you.

This Special Catalog Quotes the Lowest Prices ever known for high grade cameras, lenses and photographic accessories of all kinds, including sensitized papers, dry plates, card mounts and chemicals. Even if you do not buy from us, you ought to have this catalog so that you can check up the prices which you pay to other dealers, and for the information which it gives you regarding actual values in photographic merchandise. If you own a camera or if you ever expect to purchase a camera and take up the fascinating work of photography, you should by all means have a copy of our Special Camera Catalog. If you are already using a camera, it will give you new ideas regarding the things you can do. It will double your pleasure and in this way actually increase the value of your own camera. If you have not yet purchased a camera this special Camera Catalog will give you valuable and practical information regarding the selection of an outfit.

"COMPLETE INSTRUCTIONS IN PHOTOGRAPH

FREE WITH EVERY CONLEY CAMERA.

"Complete Instructions in Photography" is an instruction book that is different from all other instruction books. It was written expressly for the beginner in photography. It explains everything fully, clearly and in detail, and it does not assume any previous knowledge on the part of the reader. It explains all those little points which the writers of other instruction books assume the beginner to know in advance and which he is thereby forced to find out for himself, often at the expense of much valuable time and costly materials. "Complete Instructions in Photography" starts at the very beginning. It tells you everything that you need to know about cameras, all about the various apparatus and accessories used in photography. It tells you all about the various materials, including plates, sensitized papers, chemicals, etc. It tells you everything that you need to know, and tells it in a clear, simple and easily understood manner, which enables you to make good pictures right from the start.

Besides the Valuable Information for Beginners, it also contains information of the greatest possible value to the most experienced photographers, becoming a valuable reference book both for the expert amateur and the professional photographer.

Twenty-Two Chapters. "Complete Instructions in Photography" twenty-two chapters so arranged and paragraphs that any desired subject may be found with the least possible trouble an easy matter to refer instantly to any of the various questions on which you to desire information.

HOW TO GET THIS BOOK FREE.

First Way: With every camera that we sell, every camera shown in this include without any extra charge whatever a copy of "Complete tions in Photography." We do this because we want everyone who purchases a us to be successful in using it, and "Complete Instructions in Photography" anyone to be successful without even the slightest previous experience. If you o from us you will get the book free with the camera.

Second Way: If you will send us an order, amounting to $3.00 or more graphic materials of any kind, accessories, dry plates, mounts, chemicals, anything that you may need in the photographic line, we free of charge a copy of "Complete Instructions in Photography," provided you order that you desire it. We make this special offer in order that you may obt of this book, even though you are not in the market for a camera. You can use for at least $3.00 worth of photographic goods, especially at the astonishing which we quote on all kinds of photographic merchandise, and if you will just order for photographic goods amounting to $3.00 or more we will be very glad copy of "Complete Instructions in Photography" in your shipment without any **Be sure to state that you want it.**

6½x8½	27¼ inches	10½ inches	17½ inches	23½ inches	5 x11 x11 inches	5⅝x11½x19½ inches

The Model XVI Conley Camera is the finest folding hand camera made by the Conley Camera Company, and it is the very highest grade folding camera that we sell. When you buy the Conley Model XVI Camera you are buying a camera which is as nearly perfect as the very best makers can possibly produce. You are buying a camera that will be absolutely certain to give you perfect satisfaction, a camera that will do any kind or style of work which you may wish to attempt, and you will spend just about one-half as much money as you would be compelled to pay for a camera of similar design and quality if purchased from a regular dealer in photographic supplies. While this camera is in no way superior to the Conley Long Focus Camera so far as materials, workmanship and finish are concerned, it possesses certain advantages which appeal particularly to those who wish to go deeply into photography and want a camera that will do anything that may be required, including the most special or unusual work.

Extra Long Copying Length Bellows. The chief advantage of the Model XVI Camera over other cameras lies in the extreme focal capacity, the bellows length being sufficient to permit the use of either the front or rear combinations of the lens alone, by which very desirable effects may be obtained in landscape work, architectural subjects and portraiture. This extra bellows length also permits the camera to be focused when very close to the subject, so that small objects may be photographed to their full size, or even larger, and other pictures may be copied in the full size of the original.

Adjustment. The Model XVI Conley Camera is fitted with every adjustment, every convenience and every improvement that can in any way add to its effectiveness and ease of operation. It is made with the new Conley revolving reversible back, vertical swing, automatic front clamp, rack and pinion focus movement with automatic pinion lock, extra large detachable lens board, rising and falling front with side shift adjustment, Conley automatic front clamp, brilliant hooded finder, double spirit level and Conley all metal, rack and pinion auxiliary bed for wide angle lens.

The Telescopic Double Extension Triple Bed, of which is more fully shown in above illustration, is one of the features of Its construction is such as to secure the greatest possible strength and rigidity the bellows is fully extended. A single pinion moves each section of the bed or backward, the first section, carrying the camera front, moving out first it is fully extended, automatically locking with the next section, which forward without the slightest lost motion. By pressing in the pinion the locked at any desired point.

The Lens and Shutter. We equip this camera with a special convertible lens, a double lens of the finest construction, composed of two combinations, each combination made up of a crown glass perfectly ground, polished and cemented together, and both of the are perfectly corrected so that either may be used alone. The front combination has longer focal length than the rear combination, and each combination has focal length than the complete lens, thus affording a choice of three different This lens possesses unusual covering power and ample speed. The shutter is automatic, with all working parts completely enclosed in the case. This shutter automatic in action, does not require to be set, and makes instantaneous exposures 1-50, 1-25, 1-5, ½ and 1 second, besides time and bulb exposures of any de

SWING BACK AND RISING FRONT

FOR EITHER AMATEUR OR PROFESSIONAL there is no camera made that so fully meets all the requirements for general photography as the Model B. S. Conley View Camera. It is perfectly adapted to all branches of landscape photography or outdoor work of any kind. It is very desirable for both interior views and architectural subjects. It is very effective for copying and the convenience of the adjustments and ample bellows capacity make it very desirable for portrait work. The design of this camera permits the use of extremely short focus or extremely long focus lenses with equal facility, and the rigid construction and perfect alignment particularly adapt it to any kind of work requiring precision and accuracy. There are certain unusual features about the Conley B. S. View Camera which deserve special mention, among which is the diagonal rack for the focus movement, the extra large stereo front, the unusual range of movement in the front and the sliding plate divider. The diagonal rack was first used in the focus movements of fine microscopes, in which it is essential that absolutely all lost motion be [illegible], and we have applied this same principle to the focus movement of these view [illegible] resulting in a smoothness of action and an absence of lost motion which is found in [illegible] corners. The extra large stereo front permits the use of the largest anastigmat lenses [illegible] the smaller sizes of portrait lenses, and is wide enough to accommodate a pair of [illegible] lenses, thus making any of these cameras, the 5x7, 6½x8½ or 8x10 available for [illegible] work. The rising and falling front is made with unusually great range of movement [illegible] which is particularly desirable in photographing buildings and other architecture, the 8x10 size having a movement up and down of 5½ inches, thus permitting [illegible] to be raised 2¾ inches above center or lowered the same distance [illegible] subjects, in the 6½x8½ size the range of movement is 4⅜ inches, and [illegible] size it is 3⅜ inches. The sliding plate divider permits either two [illegible] exposures to be made on one plate if desired. For example, in using [illegible] camera, the entire plate may be exposed at once, making a 5x7 [illegible] or two exposures may be made on the same plate, making two [illegible] 4¼x5½ or 2½x7, or four exposures may be made, making four [illegible] 2½x3½.

MODEL B. S. CLOSED

[illegible]STMENTS. We have equipped this camera with all those adjustments and all [illegible] adjustments that make a camera easy to use and [illegible] it possible to accomplish work that cannot be successfully performed with cameras less fully equipped. The [illegible] is reversible; the lens board is detachable; [illegible] glass swing and the vertical swing are centrally [illegible] and operated by rack and pinion movements; the [illegible] falling adjustment of the front is operated by rack and pinion movement; the bed [illegible] in three sections, and as the rear section is essential only in long focus work, it is [illegible]chable, and the front and middle sections are joined by a strong piano hinge.

HOW THE MODEL B. S. PERMITS THE USE OF SHORT FOCUS LENSES

PERFECTLY BALANCED. In ordinary landscape work it is seldom necessary to use the rear extension of a view camera, as sufficient bellows extension is obtained without it. Yet in all other view cameras the tripod socket is placed immediately below the back so that when the camera is placed on the tripod it is not balanced, the front overhanging in a manner that makes it awkward to use and frequently results in the camera tipping over. The Model B. S. Conley View Camera is provided with an additional tripod socket placed far enough forward so that the camera is properly balanced when used without the rear extension, and when the rear extension is used and the bellows fully extended the camera is perfectly balanced by using the other tripod socket.

TRIPOD AND CARRYING CASE. We furnish with every Conley B. S. View Camera a fine combination tripod, rigid and durable, made from selected ash and folding so compactly that it goes into the same carrying case with the camera. This carrying case is made extra strong, covered with canvas, lined with cloth, reinforced with wooden partitions, and the corners are brass bound. It is provided with a strong leather handle and holds the complete outfit, camera, lenses, extra plate holders and tripod; only one package to carry.

MODEL B CLOSED

DESIGN of the Model B Conley View Camera is the result of an effort to produce the most practical and efficient camera possible at a very low price. [illegible] the fact that with many purchasers every dollar in the cost of a camera [illegible] to building this camera we have eliminated everything that added to the cost [illegible] except those essential details which are necessary to make the camera a [illegible] instrument so far as actual results are concerned.

[illegible] OF THE WOODWORK except the bed is Spanish cedar, a wood so closely resembling genuine mahogany that it is often sold as [illegible] camera dealers. The bed itself is of cherry, not for the sake of economy but because of its greater strength. The workmanship throughout is first class in every detail and the entire construction is extra strong, substantial and rigid, adapting the camera to the hard requirements of the professional photographer, to whom it will particularly appeal, and at the same time making it an ideal camera at a very low price for the amateur photographer. The bellows is made of the best grade of black keratol, lined with lightproof gossamer cloth, and all metal parts are of brass, nickel plated. This camera is made with diagonal rack and pinion focus movement, reversible back, centrally pivoted vertical swing operated by rack and pinion, rising and falling front and removable lens board.

PRICES.

[illegible] for the Model B Conley View Cameras include one plate holder, canvas covered carrying case and "Complete Instructions in Photography." (Tripod is not included.) [illegible] quoted under Nos. 20F481 to 20F485, inclusive, may be used with these cameras.

CONLEY PLATE HOLDE

FIT ALL SEROCO, CONLEY, CENTURY, PREMO, BLACK BEAUTY AND SENECA CAMERAS

4x5 40c

Drake's Patent Lightproof Flexible Valve Is Positive Insurance Against Light Struck Plates.

The Improved Spring Bar Plate Locking Device Makes Them Easy to Handle in the Darkroom.

Other Sizes in Proportion.

Showing Construction of Drake Valve.

Showing Advantage of Spring Bar Loading or Unloading.

THE DRAKE LIGHTPROOF FLEXIBLE VALVE AND THE SPRING BAR PLATE LOCKING DEVICE, combined with high class construction in every detail, make the Conley plate holders the best holders in the world. The Flexible Valve makes it impossible for one of these holders to leak light even if the slide is inserted cornerwise, as this valve will automatically close up all around the edge of the slide, making light struck plates an impossibility.

THE SPRING BAR PLATE LOCKING DEVICE makes these holders exceedingly convenient and satisfactory to handle, as they are loaded or unloaded, even in total darkness, with the greatest ease and without the slightest danger of touching the surface of the plate. We put into these holders the very best thoroughly seasoned, kiln dried lumber, and the workmanship is exactly the same high standard that we maintain in our highest grade cameras. Every joint is dovetailed, and they are made with fine hand rubbed mahogany finish.

We make these holders with either pressed board or hard rubber slides, but we particularly recommend the pressed board slides, as they are less liable to break. The pressed board slides have the word "Exposed" printed on one side, and after making an exposure, by replacing the slide with the word "Exposed" out, the operator is always able to tell with y which plates have been used. As we cannot print the word "Exposed in a satisfactory manner on the hard rubber slides, we make en handle black on one side and mahogany colored on the other, which answers the same purpose in showing which plates have sed.

E LIST OF CONLEY PLATE HOLDERS

STYLE 1, FOR BOX CAMERAS.

No. 20F560 Conley Plate Holder, 3½x3½, shellac finish, with pressed board slides; fits the Perfection Jr., Seroco Jr., and the Conley Jr. Box Cameras. Shipping weight, 5 ounces.

IMPROVED CONLEY INSIDE KITS

FOR USING SMALLER SIZE PLATES.

KITS are thin wooden frames which fit into a plate holder, the same as an ordinary plate, and the opening in the center holds a plate of smaller size than the holder is designed for. They are to be used when it is desired to use smaller plates than the regular size of the camera, and thus save the expense of a larger plate.

OUR IMPROVED CONLEY INSIDE KITS are made with special inside corner supports and a spring across one end by which the plate is held firmly in position, a great improvement over any previous style of kit.

THE EXPO WATCH CAMERA

The Expo Watch Camera is a true vest pocket detective camera, the smallest practical camera made, though it is so small that it may be carried in the pocket, it is a strictly practical instrument, pictures ⅞ inch long by ⅝ inch wide. the exact size shown in our illustration. This little camera looks exactly like a watch in size and style, and pictures may be taken with it without anyone suspecting that a camera is being used. It uses daylight loading film and can be loaded for twenty-five exposures at a time.

The Expo Watch Camera may be used for either time or instantaneous exposures, suitable for landscapes, street scenes, groups, portraits, etc.; in fact, just the work that is accomplished with larger cameras. It is carefully constructed from out, nickel plated, fitted with an achromatic lens, and the negatives which perfect that the pictures may be enlarged to about 2x3 inches with perfectly

COMPLETE DEVELOPING AND FINISHING OUTFITS

SERIES "C" DEVELOPING OUTFITS

$2.60 TO $5.75 According to Size

OUR SERIES "C" OUTFITS are the largest, best and most complete outfits of this kind ever put up. They are suitable for use with any plate camera that we sell, or for any film camera. While our series "D" Outfits, as described on this page, contain everything necessary for finishing your first pictures, we strongly advise everyone who purchases a camera to buy one of the bigger, larger and more complete Series "C" Outfits in preference to the smaller ones, thus securing this big assortment of necessary supplies and apparatus for less than half the money the same goods would cost if purchased separately from the regular dealers in photographic supplies.

Every item contained in these big outfits is extra high grade, the best the market affords, and suitable for use with the very best cameras. Not an unnecessary item is included, and you will find use for everything contained in these outfits when you commence making pictures.

EACH SERIES "C" OUTFIT CONTAINS THE FOLLOWING ITEMS:

- 1 High Grade Oil Ruby Lamp.
- 1 Fine Professional Printing Frame.
- 1 Composition Tray for developing.
- 1 Composition Tray for fixing.
- 1 Composition Tray for toning.
- 1 Folding Negative Rack.
- 1 8-Ounce Cone-Shaped Graduate.
- 1 Bristle Paste Brush.
- 1 Rubber Covered Print Roller.
- 25 Fine Quality Card Mounts.
- 1 Jar Photo Paste.
- 1 Dozen Roebuck Extra Rapid Dry Plates.
- 1 Dozen Du Voll's Sensitized Paper.
- 1 Package Toning and Fixing Powders (makes 24 ounces of toner).
- 1 Package Hydro-Metol Developing Powders (makes 24 ounces of developer).
- 1 Package Hyposulphite of Soda.
- 1 Fine Gossamer Focus Cloth.
- 1 Copy "Complete Instructions in Photography."

SERIES "T" DEVELOPING AND PRINTING OUTFITS

$4.15 TO $9.95

According to Size.

THESE OUTFITS are arranged for developing plates by the tank method, and finishing prints on developing paper. In these respects they differ from the other outfits shown on this page, which are arranged for developing plates in flat trays and finishing the prints on printing-out paper. Every item contained in these outfits is strictly high class and perfectly suited to the purpose for which it is designed. The tank system of developing plates and the use of developing papers constitute the latest and most approved methods, and we recommend these outfits highly.

Each Series "T" Outfit contains the following items:

- 1 Nickel Plated Brass Developing Tank.
- 1 Package Tank Developing Powders.
- 1 Package Pea Crystal Hypo.
- 1 Oil Ruby Lamp.
- 1 Graduate.
- 1 Glass Stirring Rod.
- 1 Photographic Thermometer.
- 1 Negative Rack.
- 1 Dozen Roebuck Blue Label Plates.
- 1 Dozen Brilliant Darko Paper.
- 1 Package Darko Developing Powders.
- 1 Package Acid Hypo.
- 1 Professional Printing Frame.
- 1 Bottle Acetic Acid.
- 3 Enameled Steel Ware Trays for Prints.
- 1 Copy "Complete Instructions in Photography."

No. 20F840	Series "T" Outfit for 4x5 camera.	Shipping weight, 21 pounds.	Price $4.15
No. 20F841	Series "T" Outfit for 3¼x5½ camera.	Shipping weight, 21 pounds.	Price 4.45

PHOTOGRAPHIC LENSES

THE CONLEY F.8 THREE-FOCUS RAPID RECTILINEAR LENS

$6.15 For the 4x5

$8.95 For the 5x7

THE CONLEY RAPID RECTILINEAR LENS is as good a rectilinear lens as can be manufactured, fully equal in every way to rapid rectilinear lenses many photographic supply dealers under high sounding names at two and three times the price we ask. This lens for the professional photographer who does all around work, both indoors and outdoors. It is a good lens amateur photographer who wants an instrument suitable for landscape work, buildings, groups, etc., and at the a lens that is capable of making a good portrait. The Conley Rapid Rectilinear Lens will do all these things, and well. It is a good lens.

THIS LENS IS PERFECTLY RECTILINEAR, rendering the straight lines of buildings or other absolutely true and without curvature. It possesses flatness of field and gives brilliant definition and fine detail. For landscape work, views of buildings and other arc subjects, flashlights, groups, and general instantaneous work, this lens is absolutely unsurpassed except by the anastigmat lenses.

THREE-FOCUS CONVERTIBLE TYPE. The Conley Rapid Rectilinear Lens is of the convertible t front and rear combinations being fully corrected so that be used alone, the front combination having a focal length about 40 per cent greater than the rear combinati affording the user a choice of three different focal lengths, which is equivalent to owning three separate lenses of styles. These lenses are made especially for us in one of the best equipped lens grinding establishments in th States, and the greatest possible care is exercised in the grinding, polishing, cementing, centering and Every one is carefully inspected and tested before it leaves the factory and goes out under our positive to be perfect in every respect.

No. 20F1102 The Conley F.8 Three-Focus Rapid Rectilinear Lens. Prices as follows, includ and tube.

CONLEY F.6 SYMMETRICAL LENS. A COMBINATION PORTRAIT AND VIEWING LENS OF EXTREME RAP

THE CONLEY F.6 SYMMETRICAL LENS is designed to meet the demand for a lens equally suitable for either portrait work or general viewing. Its extreme rapidity makes it especially desirable for portrait work, and it is equally well suited to high speed instantaneous work and general viewing and commercial work. On dark cloudy days the speed of this lens insures successful negatives in many cases where the ordinary lens would fail.

THE GENERAL APPEARANCE of this lens is practically the same as the F.8 Conley Lens illustrated above, but it is of course larger in diameter. It is of symmetrical construction, the front and rear combinations being of the same focal length, and either combination may be used alone, as they are both perfectly corrected. These lenses are ground from the highest grade of imported optical glass, polished, cemented, centered and mounted with the utmost care, and every one goes out under our positive guarantee to be absolutely perfect both mechanically and optically.

THERE IS NO LENS ON THE MARKET which so perfectly requirements for b view work and portrait work as this new Series II F.6 Conley Symmetrical Lens. We it unreservedly to anyone requiring a universal lens at the lowest possible cost.

THE CONLEY SERIES V F.6.8 ANASTIGMAT LENS

$23.55 For the 4 x 5

$31.20 For the 5x7

A UNIVERSAL LENS. The Conley Series V Anastigmat Lens is in every sense of the word a universal lens, being suitable for any kind of photographic work, landscapes, architectural subjects, portraits, groups, studio use and high speed instantaneous work. It is a double anastigmat of the most perfect type, symmetrical in construction, absolutely free from astigmatism and perfectly corrected for both chromatic and spherical aberration. Both the front combination and the rear combination are fully corrected and may be used alone, each having a focal length of about twice that of the complete lens. With all extremely high grade lenses absolute accuracy of adjustment is necessary, and the final mounting and adjusting of these lenses is entrusted only to the most expert workmen of long experience. Each lens is treated individually and carefully studied and tested before it is shipped.

SPEED. The Conley Series V Anastigmat Lens works at a speed of F.6.8, which is amply sufficient for instantaneous work, even under adverse conditions of light and which, under favorable conditions, permits exposures with the focal plane shutter as short as the 1-1000 part of a second. As compared with even the best rapid rectilinear lenses, this lens possesses greater speed, better definition, a flatter field and greater covering power.

FOR HOME PORTRAIT WORK this lens is a perfect instrument that will enable you to make good portraits in your own home. For successful portrait work under the ordinary conditions existing in the home, a fast lens is necessary, and the Conley Series V Anastigmat Lens has speed. Portrait work is the most interesting branch of photography and requires some skill and a knowledge of lighting. This skill and knowledge of lighting, however, is of no avail unless backed up with a good lens, and the Conley Series V Anastigmat Lens is a good lens, not only for portrait work, but for all kinds of photography.

COMPARE OUR PRICES on Anastigmat Lenses with the prices quoted by others for lenses of equal quality. We save you 50 per cent.

No. 20F1110 The Series V F.6.8 Conley Anastigmat Lens. These prices include bulb and tube. Prices as follows:

SHUTTERS FURNISHED WITH OUR LENSES

THE CONLEY SAFETY SHUTTER is a double pump shutter with all working parts enclosed within the case. It makes time or bulb exposures of any desired length and automatically controlled exposures of 1-100, 1-50, 1-25, 1-5, ½ and 1 second. It is one of the most satisfactory shutters for all around work that can be secured and is made especially for the Conley cameras by the Wollensak Optical Co.

THE CONLEY AUTOMATIC SHUTTER is similar in general design to the Conley Safety Shutter, having all working parts entirely enclosed, but it does not require to be set, as it is self setting or automatic, resetting itself after each exposure. It makes time, bulb and automatically controlled exposures same as the Conley Safety.

THE OPTIMO is a new high speed shutter made by the Wollensak Optical Co., and in our opinion possesses advantages over any between the lens shutter now on the market. There are five shutter leaves which revolve in making the exposure, the end of each leaf passing from the opening and the other end taking its makes high speed possible in opening and closing. The aperture is star shap of the star reaching to the edges of the opening, thus giving the greatest possib to the plate. The Optimo makes time and bulb exposures in the ordinar automatically controlled exposures of 1-300, 1-200, 1-100, 1-50, 1-25, 1-5, ½ and 1 when working at the unusual speed of 1-300 of a second it sets and releases operates without the slightest jar or recoil. All working parts are entirely e the case, making it perfectly dustproof.

THE WOLLENSAK STUDIO SHUTTER, furnished only with the Portrait Lenses, is designed especially for studio use. An idea of it may be gained from the illustration of our Series III F.3-8 Portrait Lens, mounted in this shutter. It is an iris diaphragm shutter, opening with a of the bulb and closing when the pressure is released. When opened by the the side it remains open for focusing.

PORTRAIT LENSES

Conley Series II F.5 Portrait Lens.

This Series II Conley Portrait Lenses are a true portrait lens of the most improved type of portrait lens construction. They are built from the best imported optical glass, composed of two systems of two glasses each, the front system cemented and the rear system with an air space between the two glasses. The special formula by which the lenses are ground, combined with their large diameter, give them the high working speed of F.5, producing brilliant pictures with plenty of detail.

We recommend the **Series II Portrait Lens** as the very popular priced portrait lens on the market, and for all around work in the studio these lenses are unsurpassed. They are beautifully finished in lacquered brass with black trimmings and mounted with the same care and attention that is given in our highest priced portrait lenses. We furnish these lenses in sizes Nos. 3, 4 and 5, either without the Wollensak Studio Shutter. When sold with the shutter the lens is equipped with a fine iris diaphragm.

Ray Filters at 60 Cents.

No. 20F1140 A Ray Filter absorbs the violet and ultra-violet rays of light and produces a picture in which the color values are correct. Clouds in a photograph improve the artistic value of the picture wonderfully, and you can get them with a ray filter. Landscapes photographed with the ray filter possess a brilliancy and contrast it is impossible to obtain otherwise; and in the photography of flowers, paintings or any brightly colored subjects, it is practically indispensable. [illegible] cameras with lens 1 7-16 in. diam.	2.45

[illegible] and put up in cases.

Conley Series III F.3.8 Extra Rapid Portrait Lens.

High Speed. This lens works at the extremely high speed of F.3.8 and may be used at full aperture for heads and busts. When used with a smaller diaphragm it is a splendid instrument for groups. In softness, delicacy and depth, in speed, flatness of field and brilliancy of illumination the Series III Conley Portrait Lens is not excelled by any other portrait lens on the market regardless of price or make.

This lens is composed of two systems of two glasses each, the glasses of the front system cemented together and the glasses of the rear system mounted without cementing and in such a way that the separation may be varied, constituting a diffusion attachment.

No expense is spared in mounting these lenses and they represent the highest degree of mechanical perfection, beautifully finished in lacquered brass with engraved diaphragm scale and black trimmings.

No. 20F1130 The Conley F.3.8 Series III Extra Rapid Portrait Lens.

Lens No.	Size of Plate Covered, inches	Diameter of Lens, inches	Equivalent Focus, in.	Distance Lens to Sitter for 2-in. head, feet.	Outside Diameter of Flange, inches	Price With Shutter	Price Without Shutter
1	5 x8	3	10	about 6	5⅝	$49.50	$45.00
2	6½x8½	3 9-16	13	about 7½	6½	65.25	60.00
3	8 x10	4 3-16	16	about 9½	7⅝	81.00	75.00

Auxiliary Portrait Lenses.

No. 20F1158 In making portraits with the ordinary short focus folding hand camera, the great difficulty heretofore has been the small size of the faces. This portrait lens, however, entirely overcomes this difficulty and enables anyone with any kind of a folding camera to make portraits in which the faces are large and distinct. Constructed in the same style and used in same manner as the Enlarging Lens No. 20F1155. Shipping weight, from 3 to 5 ounces, according to size.

No. 1 for 4x5 camera with lens 1 5-16 inches in diam.	$0.90
No. 2 for 5x7 camera with lens 1 5-16 inches in diam.	.90
No. 3 for fixed focus or box cameras	.90
No. 4 for 4x5 camera with lens 1 7-16 inches in diam.	.90
No. 5 for 5x7 camera with lens 1 7-16 inches in diam.	.90
No. 6 for 4x5 camera with lens 1½ inches in diam.	1.20
No. 7 for 5x7 camera with lens 1½ inches in diam.	1.20
No. 8 any size camera with lens 1¾ inches in diam.	1.35
No. 9 any size camera with lens 2 inches in diam.	1.50
No. 10 any size camera with lens 2¼ inches in diam.	1.65
No. 11 any size camera with lens 2½ inches in diam.	1.80

For other sizes see special Camera Catalog.

In measuring lens, take the outside diameter, remembering that the portrait lens slips over your regular lens same as a cap.

Any of the above sizes may be used on lenses ¼ inch less in diameter than size given.

Any Size Duplicator for 17 Cents.

No. 20F1148 Duplicator. A device enabling one to photograph a person in two positions on the same plate. Very humorous and interesting pictures can be made in this way. Can be used with any folding camera. **Cannot be used with box cameras. State outside diameter of lens. Be sure to state size.** Shipping weights, from 2 ounces to 4 ounces, according to size.

Price, each, any size 17c

Light Sliding Tripod, 48 Cents.

No. 20F701

No. 20F701 This is a Two-Section Sliding Tripod, suitable for light 4x5 cameras. Made of pine, shellac finish. Length, extended, 56 inches. Closed, 30 inches. Weight, 19 ounces.

Price 48c

Maple Combination Tripod, $1.28.

No. 20F708

No. 20F708 This is a finely made Tripod of the combined folding and sliding style of construction. It is made from selected maple, nicely finished, metal parts of lacquered brass, detachable wood head and is suitable for any camera from 3¼x 4¼ to 5x7. It stands 56 inches high when extended and is 21 inches long when closed. Weight, 30 ounces.

Price $1.28

Tilting Top Combination Tripod, $1.45.

No. 20F709 This combined Folding and Sliding Tripod is made from selected ash, finely finished in dead black to look like ebony and is provided with the new tilting top. By means of the tilting top the camera may be leveled up or tilted to any desired angle without adjusting the tripod legs, a feature which will be appreciated by anyone who has experienced the difficulty of leveling a camera by moving the tripod legs. Length extended, 51 inches; closed, 22 inches. Weight, 34 ounces.

Price $1.45

Sliding Tripods, $1.55 to $2.10.

These Sliding Tripods are well made, strong, rigid and carefully finished. The tops are permanently attached, made of three pieces of wood to prevent warping, and felt covered. Length extended, 57 inches; closed, 30½ inches.

No. 20F713 Sliding Tripod, Size A, for 4x5 or 5x7 cameras. Weight, 29 ounces. Price $1.55

No. 20F714 Sliding Tripod, Size B, for 5x7 or 6½x8½ cameras. Weight, 52 ounces. Price $1.90

No. 20F715 Sliding Tripod, Size C, for 8x10 cameras. Weight, 64 ounces. Price $2.10

Compact Combination Tripods, $1.95 to $2.95.

These Tripods are made in three sections with detachable heads, the lower section sliding into the middle, and the upper section folding back on the middle, making them very compact. They are made from especially selected ash, finely finished, very strong and rigid, and convenient to use. Length extended, 56 inches; closed, 22½ inches.

No. 20F720 Compact Tripod, Size A, for 4x5 or 5x7 cameras. Weight, 36 ounces. Price $1.95

No. 20F721 Compact Tripod, Size B, for 5x7 or 6½x8½ cameras. Weight, 47 ounces. Price $2.25

No. 20F722 Compact Tripod, Size C, for 8x10 cameras. Weight, 62 ounces. Price $2.95

For telescopic metal tripods see special Camera Catalog.

Telescopic Metal Tripods, $1.55 to $4.60.

These new Telescopic Metal Tripods are the lightest and most compact tripods on the market. They are very convenient under all conditions, but are especially desirable when traveling, owing to their exceedingly compact form when folded and their comparatively light weight. They are very carefully made and finely finished throughout, and while not possessing the extreme rigidity of the larger and heavier wooden tripods, they are at the same time entirely satisfactory for use with cameras of moderate weight, and in all cases where a light, compact outfit is desirable we recommend them in preference to any other tripod.

No. 20F726 Telescopic Metal Tripod, three sections. Length, when extended, 44 inches; when closed, 17 inches. Weight, 18 ounces. Adapted to light weight 4x5 or smaller cameras.

Price $1.55

No. 20F728 Telescope Metal Tripod, four sections, heavier tubing than the preceding style and adapted to light weight or medium weight 4x5 cameras. This tripod will give fairly satisfactory service, even with cameras as heavy as our 4x5 Long Focus or Double Extension styles, but for cameras as heavy as the two latter styles we recommend a heavier tripod. Length, extended, 48½ inches; closed, 15¼ inches. Weight, 22½ ounces. Price $1.95

No. 20F730 Telescopic Metal Tripod. This tripod is made in five sections and is heavier and stronger than the preceding style, making it sufficiently strong and rigid to carry practically any style of 4x5 camera or light weight 5x7 cameras. Length extended, 49½ inches; closed, 14½ inches. Weight, 28 ounces. Price $2.45

No. 20F732 Telescopic Metal Tripod. This tripod is made in seven sections, making it unusually compact, and as it is made of good heavy tubing, it is unusually strong and quite rigid, considering the large number of sections. It is suitable for any 4x5 camera or for light weight 5x7 cameras. Length, extended, 49 inches; closed, 11 inches. Weight, 25 ounces. Price $2.75

No. 20F734 Flat Folding Telescopic Metal Tripod. This tripod differs from the preceding styles in that it folds flat and may, therefore, be packed away with still greater economy of space. It is made in seven sections and when folded occupies a space 11¾ inches long by 2 inches wide by 5/8 inch thick, and the length extended is 49 inches. It is made of brass, the first sections finished in black enamel and the inner or telescoping sections nickel plated. Suitable for any 4x5 camera or light weight 5x7 cameras. Weight, 23½ ounces. Price $3.75

No. 20F736 Flat Folding Telescopic Metal Tripod. This tripod is exactly the same as the preceding style, except that the tubing is of **aluminum** instead of brass, which makes the tripod very much lighter and at the same time just as strong and rigid. Weight, only 14½ ounces. Price $4.60

Negative Preservers.

No. 20F760 Envelopes for preserving negatives, made of strong manila, the proper size for negatives, open at the end and have notched cut for admitting thumb and finger in removing; **printed on the face with lines for numbers, description, etc.;** put up in packages of fifty each. **Be sure to state size wanted.**

EXPOSURE METERS.

Photo Beacon Exposure Card, 15 Cents.

No. 20F775 A Little Book of Tables which gives you the exact exposure at any hour of the day, and any day of the year, with any brand of plates, or any speed of lens. Simple and absolutely correct. No more over exposed or under exposed plates. Price....(Postage extra, 1 cent)....15c

Watkins' Bee Exposure Meter, $1.10.

The Bee Exposure Meter is a thoroughly reliable, practical and easily used exposure meter. Made same size and shape as a small watch, diameter only 1¾ inches. The use of this little exposure meter does away entirely with the annoying calculations as to the time of day and weather conditions, which are a part of the process of using exposure meters of other types. With this meter a little strip of sensitized paper is exposed through a slot in the face of the instrument until its tint matches the printed tint beside the slot, and, with the length of time required for matching this tint as a factor, the correct exposure under any conditions of light or weather, at any time of day or year, indoors or outdoors, with any brand of plates, is instantly determined. Sensitized paper discs for 500 exposure tests included with each instrument. Shipping weight, either style, 4 ounces.

No. 20F781 Watkins' Bee Meter, with F. system dial. Price.....$1.10
No. 20F782 Watkins' Bee Meter, with U. S. system dial. Price.....$1.10
Order the style with dial to correspond with the system by which your lens diaphragms are marked. If not specified we send U. S. system, as most lenses are so marked.
No. 20F783 Extra Sensitized Discs for Bee Meter. Six discs in a package. Price, per package.....19c

The Morrison Vignetter.

42c

No. 20F860 The Morrison Vignetter is a very ingenious device which can be attached to any ordinary folding camera of any size and is used in portrait work, shading off the picture gradually toward the edges, just the same as is done by professional photographers. Our illustration shows the manner in which this vignetter is used. Shipping weight, 4 ounces.
Price 42c

Camera Level, 31 Cents.

No. 20F870 This Little Level is intended to be attached to the bed of the camera, enabling the operator to quickly and easily place the camera perfectly level. It is nicely made from brass, finely finished and accurately adjusted. Shipping weight, 2 ounces.
Price 31c

SHUTTER BULBS, 10 TO 30 CENTS.

No. 20F875 Bulb and Tube. Good quality American made red rubber small oval bulb, suitable for use with any film camera and very compact plate cameras. Shipping weight, 3 ounces. Price...10c

No. 20F876 Bulb and Tube. Good quality American made red rubber. Same as No. 20F875, but larger size; suitable for any plate camera. Shipping weight, 3 ounces.
Price 15c

No. 20F877 Bulb and Tube. This is an imported bulb and tube, made from the very finest grade of pure rubber, and will outlast several of the ordinary American made bulbs. The bulb is oval, the color is a mottled red and black, and it is suitable for practically any style of camera. Shipping weight, 3 ounces. Price.....25c

No. 20F878 Bulb and Tube. This imported bulb and tube is made from the same high grade pure rubber as No. 20F877, but the bulb is round in shape and somewhat larger. Color, red and black stripes. We recommend this bulb for any camera where extreme compactness is not essential. It is the finest bulb made. Shipping weight, 3 ounces. Price.....30c

Photographic Instruction Book.

281 PAGES. FULLY ILLUSTRATED. BOUND IN CLOTH. BY TOWNSEND D. STITH.
Publisher's price, $1.00; our price 40c

No. 20F965 A systematic course and working guide in all the processes which ordinarily take up the attention of camera workers. This is absolutely the best book on the subject published. It tells how to choose a camera, all about developing, all about printing and the different methods of toning. Tells all about the different kinds of plates and sensitized papers, how to use each, and their special advantages. Explains in detail the best way to make interiors, flashlights, portrait groups, landscapes. Hints on retouching, copying, making lantern slides and enlargements, and thousands of other subjects of interest to all who would know and understand the camera. Size, 5x7 inches. 281 pages. Publisher's price, $1.00; our price...(If mail shipment, postage extra, 9 cents)...40c

The Book of Photography, $2.48

744 PAGES. 1,000 ILLUSTRATIONS. 48 FULL PAGE PLATES.

No. 20F967 The Book of Photography, by Paul N. Hasluck, is the most comprehensive description of the art yet published. A complete photographic library in one big handsome volume, 7x10 inches, substantially bound in cloth. Contains a vast amount of information, put in a simple and direct way. No other book approaches this in the fullness and up to date character of its information. Formulas and working methods accompany the processes, with illustrations. The index, covering 24 pages, gives instant reference to the contents of the work in detail.
Our price $2.48
Postage extra, 32 cents.

The Complete Photographer, $3.15.

No. 20F969 The Complete Photographer, by R. Child Bayley, is a splendid book, containing 397 pages, 59 halftone illustrations and 40 line cuts. It treats of every phase of photography—landscape, portraiture, pictorial, architectural and scientific. Exposure, development, intensification and reduction, various printing processes, dodging and "faking," the darkroom, the hand camera, pinhole photography, orthochromatic and three-color photography, enlarging, reducing, slide making, exhibitions and societies are exhaustively treated.
Price $3.15
If mail shipment, postage extra, 17 cents.

CANDLE RUBY LAMP, 14 CENTS.

Black Enameled Steel Trays.

12c

No. 20F1283 These trays are stamped from sheet steel, forming a perfectly smooth and finely finished tray without seams or joints. They are glazed with a hard glossy black enamel, making them proof against the action of all chemicals. They are suitable for any photographic work, and the large sizes are particularly desirable for toning and fixing prints. These trays are made by exactly the same process as the white enameled trays shown below, except that there is one less coating of enamel, and they are finished in dead black instead of white. The remarkably low prices at which we offer these trays make them exceptional bargains.

Size	Price	Size	Price

White Enameled Steel Trays.

No. 20F1285 These fine imported steel trays, with white enamel finish, the highest grade steel trays made, are guaranteed to be absolutely chemical proof and superior to all other enameled steel trays for general all around purposes. They are equally well adapted to developing and fixing plates, toning prints and washing. **They are as easily cleaned as a porcelain tray.** They are absolutely proof against the action of all chemicals, including the most powerful acids. They are made in one solid piece, without joints or seams, and are practically unbreakable. They are underglazed and quadruple coated and guaranteed to be the very finest tray that can be produced. **Be sure to state size wanted.**

REDUCED PRICES FOR FIXING BOXES.

20c

These Fixing Baths are made of metal, thoroughly coated with a preparation which renders them impervious to the action of hypo. The use of these baths **avoids the danger of spots and stains,** which is the frequent result of fixing in a flat tray. They hold six plates each. Shipping weight, 9 to 17 ounces, according to size.

Composition Fixing Box.

No. 20F1325 This Fixing Box is made from the same material as our composition trays (No. 20F1280), a hard, smooth, fine grained material, resembling hard rubber. It is guaranteed to be proof against the action of either the plain hypo or the acid hypo bath. This box is made in one size only and holds twenty 4x5 plates or twelve 5x7 plates. Shipping weight, 5 pounds. Price.....$1.20

Big Reductions on Zinc Wash Boxes.

42c to $1.20

This washer is perfect in its construction. The water enters through the inlet tube and is carried to the bottom, and is circulated over the whole area of the box, thus **insuring uniform washing of the plates.** It is carried off through the outlet tube. The water can be carried to the box by attaching a rubber hose from the faucet to the inlet tube, or the box can be placed under the faucet and the water allowed to run into the funnel. We guarantee that you can **wash twenty 4x5 negatives in fifteen minutes in our washer.**

This washer is **constructed of heavy zinc throughout.** The lifting bottom can be taken out if necessary. Shipping weights, from 2 pounds to 6 pounds, according to size.

No. 20F1356 Rubber Hose, suitable for attaching wash boxes to hydrant. Price, per foot.....8c

Print Washers.

This Print Washer is so constructed that the prints are kept thoroughly separated and constantly in motion without requiring any attention whatever during the entire process of washing. The rubber hose is simply attached to the faucet and the water turned on. The shape of the washer is such as to impart to the water an eccentric motion, which has the peculiar faculty of keeping the prints separated from each other all the time and in constant motion and always in contact with fresh water. This washer, of course, requires running water for its operation. Shipping weight, 2 pounds to 6½ pounds, according to size.

Catalog No.	Diameter of Washer	Suitable for Prints	Price
20F1360	9 inches	4 x 5 or smaller	$1.12
20F1362	12 inches	5 x 7 or smaller	1.55
20F1363	16 inches	6½x 8½ or smaller	2.70
20F1364	20 inches	8 x10 or smaller	3.85

Rubber hose not included at above prices. See No. 20F1356 for suitable rubber hose.

Folding Negative Rack, 12 Cents.

No. 20F1366 This Drying Rack is very neatly made and nicely finished. It will hold twenty-four negatives, taking any size from 3¼x4¼ up to 8x10 inches, although for sizes above 5x7 we recommend one of the larger racks listed below. For sizes up to and including 5x7 inches it is very satisfactory. Shipping weight, 11 ounces. Price.....12c

Folding Negative Rack, 21 Cents.

21c

No. 20F1367 This rack is larger and more strongly made than the No. 20F1366, and is suitable for any size of negative from 3¼x4¼ inches up to and including 8x10 inches. It holds twenty-four negatives. Shipping weight, 16 ounces.

Price 21c

The New Conley Pivot Bearing Silent Shutter.

No. 20F851 The Conley Pivot Bearing Silent Shutter is a shutter for studio cameras that is absolutely noiseless in opening. The photographer who has experienced repeated failures by reason of a child or a member of a group looking at the lens at the critical moment because he heard the click of the shutter will appreciate this new instrument, which opens with absolute silence. The wings as they open come to rest against the air cushions in the cups at the sides, thus avoiding all sound. A large rubber bulb and 6 feet of rubber tubing are furnished with each shutter.

This new Pivot Bearing Shutter is made with steel frame and conical brass pivot bearings with adjustable set screws for taking up any play that may arise. It will last a lifetime. A cheaper style of the Conley Silent Shutter is made without the conical pivot bearings and the steel frame, but the pivot bearing shutter is so much superior to the older and cheaper style that we no longer carry the older style in stock, although we can furnish same, if specially desired, and prices will be quoted upon application.

The Conley Silent Shutter is placed back of the lens on the inside of the front board. In ordering this shutter, both the diameter of your lens and the size of your front board must be taken into consideration.

Diameter of Opening	Outside Dimensions of Shutter	Price
1 inch	2¼x3¼ inches	$4.50

Automatic Daylight Development of Plates by the Tank Method.

This modern process of developing plates is rapidly taking the place of the old method of development in flat trays and possesses many advantages. The plates to be developed are placed in the tank, which is filled with a weak developer, and simply left in for a certain specified time, which may be varied by the extent to which the developer is diluted.

The process is extremely simple and easy. The exposed plates, any number from one to twelve, are placed in the tank in the darkroom, and the tank may then be carried out into the light. At the end of a certain specified time, ten minutes, twenty minutes or an hour, according to the strength of the developer used, development is complete. It is not necessary to rock the tank nor examine the plates during development, as the process is entirely automatic. When the right length of time has elapsed, the plates are correctly developed.

Reversible Brass Developing Tanks.

These new Reversible Developing Tanks are the most convenient, most effective and most economical tanks yet designed. The covers are lined with thick sheet rubber and the spring clamps on the sides hold the covers down so firmly that they are perfectly watertight, and the tanks may be turned over or reversed during the process of development. This reversing insures negatives of perfectly uniform density throughout. While excellent results are secured in nonreversible tanks, we strongly urge the use of a tank that can be reversed, to avoid any chance of unequal density in the negatives.

The small size of these tanks, in comparison with other reversible tanks, makes them very economical, as they require only about one-half as much developer as reversible tanks of other styles, the 4x5 tank, for example, when filled with one dozen plates, requiring only about 18 ounces of developer.

As shown in our illustration, these tanks are provided with a removable, adjustable rack so designed that plates of various sizes may be developed in the same tank. For example, Tank No. 20F1326 may be used for either 4x5, 3¼x5½ or 3¼x4¼ plates, simply by changing the position of or removing the sliding partition in the rack. Their capacity is twelve plates, if placed two plates in a groove, back to back.

These reversible tanks are very carefully made throughout of brass and heavily nickel plated both inside and out, so they stand the action of hypo, as well as the various developers, and are suitable for both fixing and developing.

Catalog No.	For Plates	Price
20F1326	4 x 5, 3¼x5½ or 3¼x4¼	$2.75
20F1327	5 x 7, 3¼x5½ or 4 x5	3.60
20F1328	6½x 8½, 5 x8 or 5 x7	5.85
20F1329	8 x10, 6½x8½ or 5 x7	7.35

Nonreversible Brass Developing Tanks.

These tanks are constructed throughout of brass and heavily nickel plated both inside and out, so that they may be used for fixing as well as developing. They are fitted with removable plate rack with six wide grooves to hold the plates, the total capacity of each tank being twelve plates if they are placed two in a groove, back to back.

These tanks are provided with a light tight tube on the inside, extending to the bottom of the tank and connecting with a funnel at the top, through which the tank is filled with developer, which thus enters the tank at the bottom, insuring thorough circulation.

After developing and fixing the plates in this tank it may be used very conveniently as a wash box, the water passing to the bottom of the tank through the tube and running off at the top, thus insuring the perfect elimination of all hypo, both from the plates and from the tank itself, so that by the time the plates are thoroughly washed, the tank is also perfectly clean and ready to be used again for developing.

Catalog No.	For Plates	Price
20F1330	3¼x 4¼	$1.50
20F1331	4 x 5	1.65
20F1332	3¼x 5½	1.75
20F1333	5 x 7	2.25
20F1334	6½x 8½	3.00
20F1335	8 x10	4.50

Nonreversible Zinc Developing Tanks.

These tanks are of the same style as our nickel plated brass tanks, but are made of zinc instead of brass, and are therefore suitable for developing only, and can not be used for fixing. Well made throughout, and so arranged that when the developer is poured in, it passes through a light tight tube and enters the tank from the bottom. They are provided with removable plate rack, and the capacity of each tank is twelve plates, if placed two in a groove, back to back. For developing only, they are just as satisfactory as the higher priced nonreversible brass tanks.

Hayden's Film Tank, 85c.

No. 20F1408 Hayden's Film Tank affords a very convenient and satisfactory means for developing roll films. The roll of film to be developed is simply placed in the tank, as shown in our illustration, the tank is filled with developer, and by turning the handle the developer is kept stirred up and the film in motion, so that development proceeds regularly and evenly. Suitable for any size up to and including 4x5. Full instructions for using, together with formula for developers, are sent with each tank.

Glass in a printing frame is necessary when printing from glass negatives smaller than the frame, and in all cases when printing from film negatives. We furnish only the best imported glass.

Masks, 19 Cents.

Every package contains a large assortment of fancy designs.

Made from tough opaque paper, and designed to be placed between negative and sensitized paper while printing, thus producing oval, circular or various fancy shaped prints from any negative. The illustration shows only one of the many sizes of styles. Made for the following negatives: 2¼x3¼, 2½ x 4¼, 3½ x 3½, 3¼ x 4¼, 3¼x5½, 4x5, 5x7 and 3½x5½ (for post cards). Be sure to state size wanted. Shipping weight of one package masks, 2 ounces.

No. 20F1425 Masks. Assortment No. 1 contains one oval, one circle, one rectangle, one round corner rectangle, balance being a variety of ornamental designs.

Price, per package, any size.....

No. 20F1426 Masks. Assortment No. 2 consists entirely of ornamental designs, all different from Assortment No. 1. Price, per package, any size.....

For other styles of masks see our special Camera Catalog.

Conley Post Card Printing Frame

This New Printing Frame is designed especially for printing post cards on developing papers. It is not suitable for printing-out papers. It is so constructed that it will take any negative from 4x5 or 3¼x5½ up to 6½x8½ inches. It is particularly desirable with 5x7 negatives, as any part of the 5x7 negative may be printed from. This frame is constructed in two parts which are hinged together, and when opened up the negative is placed in position so that just that portion which is desired on the post card is opposite the opening. Closing the frame clamps the negative so that it need not be disturbed as successive prints are made, as only the small door in the back is opened to put in the post card. Our illustrations will undoubtedly show clearly the manner in which this frame operates. It is exceedingly convenient to use, as it is very much more rapid and much handier than the old style frame. The outside measurements are 8x10 inches, and the size of the opening is 3½x5½ inches.

NOTE—If 3¼x5½ negatives are used it is necessary to add a piece of 6½x8½ plain glass, 3¼x5½ mask as the opening is larger than this size negative.

No. 20F1420 Conley Post Card Printing Frame, as illustrated. Shipping weight, 30 ounces. Price.....

No. 20F1421 Conley Post Card Printing Frame, same as No. 20F1420, but with 6½x8½ plain glass and mask for using 3¼x5½ negatives. Shipping weight, 40 ounces. Price.....

Professional Printing Frames.

Plain, Clouded and Scenic Backgrounds

THE BACKGROUNDS which we illustrate herewith and the many additional designs which we illustrate in our special Camera Catalog are all new and up to date. They have been very carefully selected from a large number of designs submitted to us by the best back- ground painters, and they include only the most popular designs used by the best amateurs and the most well known professional photographers. It is not alone the design that makes a good back- ground, but the painting of that design in a way that will give the proper quality when photographed, and our backgrounds are unexcelled in their photographic qualities.

Clouded Headgrounds.

Clouded Design No. 21.

No. 20F1650 **Clouded Headgrounds furnished in designs Nos. 21 and 24, illus- trated herewith.** These clouded grounds can be used in different positions and are suitable for either right or left light. Dif- ferent effects can be produced by changing the position of the ground.

Size, 4x4 feet. Price.....**$0.75**
Size, 5x6 feet. Price..... **1.00**
Size, 5x7 feet. Price..... **1.35**
Size, 6x8 feet. Price..... **1.98**
Size, 6x15 feet (6x8 design with 7-foot floor extension). Price.....**$3.60**

Other designs are shown in our special Camera Catalog.

Flexible Backgrounds.

No. 20F1651 **THESE GROUNDS are just the thing for home portrait work.** The design is **stained** instead of being painted in the ordinary manner, so they may be folded or rolled up without the slightest damage. The absence of paint makes them very light, and the stained design photo- graphs just as effectively as a painted de- sign. Their convenience will appeal to everyone who is interested in home portrait work.

Clouded Design No. 24.

We furnish these special flexible backgrounds in clouded designs Nos. 21 and 24 illustrated here- with.

Size, feet	Shipping weight, ounces	Price	Size, feet	Shipping weight, ounces	Price
4x4	13	**$0.98**	6x 8	28	**$2.40**
5x6	19	**1.30**	8x 8	37	**3.65**
5x7	22	**1.60**	8x10	45	**4.60**

For portraits showing just the head and shoulders the 5x6 or 5x7 size is suitable. For full figure portraits the 6x8 size is best, and for small groups the 8x8 size will do, but the 8x10 is better.

Scenic Design No. 42.

Scenic Design No. 44.

Scenic Design No. 45.

Plain Grounds in Black or Blue-White.

No. 20F1660 **These are perfectly plain, flat tinted back- grounds, made in two colors, blue-white and black.** The black grounds are a perfect dead black and are very desirable when making portraits with Rembrandt lighting. The blue-white grounds are a very light blue, almost white, having just enough color to afford a little contrast with white draperies. They are very fine for portrait work.

Size, 5x 6 feet. Price.....**$1.00**
Size, 6x 8 feet. Price..... **2.05**
Size, 8x10 feet. Price..... **5.25**
Size, 6x15 feet, with floor extension. Price..... **5.90**

Scenic Backgrounds.

No. 20F1665 **These new scenic backgrounds are fur- nished in designs Nos. 42, 44 and 45, illustrated herewith, also** in many other designs which are shown in our special Camera Catalog.

Size, 6x 8 feet. Price.....**$3.90**
Size, 8x 8 feet. Price..... **4.60**
Size, 8x10 feet. Price..... **5.80**
Size, 6x15 ft. (6x 8 design with 7-ft. floor extension) **5.65**
*Size, 8x15 ft. (8x 8 design with 7-ft. floor extension) **7.50**
Size, 10x15 ft. (8x10 design with 7-ft. floor extension) **9.30**

When ordering scenic backgrounds, state size and design. Also state whether you want "right light" or "left light." If the light falls on the right side of sitter, it is said to be "right light." "Right light" falls on the left side of the operator when facing the sitter.

OTHER BACKGROUND DESIGNS are shown in our special Camera Catalog, mailed free upon request. If the designs shown here are not just what you want, send for the special Camera Catalog.

DARKO PAPERS

PRINTS AT NIGHT

The Finest of Developing Papers.

All Darko papers may be printed either by lamplight or by daylight.

PRINTS ON DARKO PAPER may be made at any time, on dark, cloudy days, or at night, and a light may be used, a kerosene lamp, a gas jet, an electric light, sunlight. Printing is, of course, accomplished more rapidly with a brilliant light than a weak one. For ex paper will print more rapidly with an electric arc lamp than it will with a kerosene lamp, but prints made wi sene lamp are just as good, in fact, are exactly the same as prints made by any other light, the only differenc time required for printing. The length of time required for printing Darko paper depends upon the brilliancy o and the density of the negative. With a very thin negative and a very bright light just a few seconds may be while several minutes may be required with a denser negative or a weaker light; but with an average negat bright kerosene lamp, for example, the time required is from one to two minutes.

THE BEAUTIFUL RESULTS which can be secured with the various styles of Darko paper comm both the amateur and the professional photographer. It is an ideal the amateur who finds his time too much occupied during the day for photographic work, because the prin made and finished in the evening, and it is an ideal paper for the professional photographer, because it independent of the weather. It enables him to deliver his pictures when they are promised whether the sun shi

CARBON AND PLATINUM EFFECTS. Prints made on the various styles of Darko paper c artistic qualities of both the carbon and platinum There is a richness of tone in the shadows, a clearness in the whites, and a sharpness of outline that is un other developing papers. The prints are remarkable for their softness without loss of detail; the high distinct and well defined without harshness, and the shadows are full of detail which passes by imperceptible into the high lights.

IT IS VERY EASY TO MAKE AND FINISH PRINTS on any of the various styles of Dark Only a few moments are required fo developing is accomplished in just a few seconds, after which the prints are fixed and washed in the usual m the pictures are complete. In simplicity and ease of operation, beautiful results, and as a time saver, Dar are unrivaled.

DARKO POSSESSES CERTAIN SPECIAL POINTS OF SUPERIORITY as comp other de pers, among which is its great latitude in development. Slight errors of underexposure or overexposure are rected in the developer. Underexposed prints may be brought out fully by simply leaving them in the developer a little longer, and overexposed prints may be saved by removi developer a little sooner. In development the picture does not flash up almost instantaneously as it does with other developing papers, but comes up slowly and evenly, the entire development occupying from five to ten seconds, which permits the operator to watch the progress of development and avoid over or under development.

CARBON MATTE, ROUGH, GLOSSY AND SMOOTH PORTRAIT DARKO

No. 20F1703 Carbon Matte Darko. This style of Darko is made with a fine matte surface, a surface that may perhaps be better described as a dull finish. It is not a rough surface, and yet it is not a glossy surface. It is suited to almost any kind of a picture and gives particularly pleasing effects for landscapes. Carbon Matte Darko is best suited to soft negatives. For prices, see list below.

No. 20F1704 Rough Darko. The surface of this style of Darko is quite rough, a finish that is rapidly becoming more popular than ever, because of its unusually artistic effects. It is especially suited to landscape views and large portraits, and is adapted to practically any kind of a negative.
For prices, see list below.

No. 20F1705 Glossy Darko. This style of Darko is made with a highly polished or glossy surface, similar to the surface of a gelatine printing-out paper. Prints made on this paper should be squeegeed or mounted upon cards and burnished in order to bring out the full extent of polish or glossiness. It is suited to negatives of almost any kind, and the prints show a greater amount of detail than the dull finish or rough styles.
For prices, see list below.

No. 20F1706 Smooth Portrait Darko. The surface of this paper is the same as the Carbon Matte Darko, but the emulsion is particularly suited to negatives that show a great deal of contrast. Of the four styles of Darko here described, the Smooth Portrait is perhaps the best style for general all around work. It is an excellent paper for landscape views, gives fine results with architectural subjects, and is a very good paper for groups.

Cardboard Brilliant Darko.

This new Darko Paper is made with the same surface and the same emulsion as our regular Brilliant Darko described under No. 20F1725, but instead of being coated on paper of ordinary thickness it is made on a stiff cardboard stock of the same weight and thickness as our Darko post cards.

Cardboard Brilliant Darko possesses all of the characteristic qualities of the regular Brilliant Darko, giving a wealth of detail in the halftones that is seldom seen in a developing paper. The surface may be described as a semi-matte, giving the prints a rich and velvety appearance. Prints made on Cardboard Brilliant Darko possess a brilliancy and snap that makes them particularly pleasing.

Cardboard Brilliant Darko prints do not need to be mounted, and very pretty effects are obtained by printing with a mask, thus leaving a white margin.

Brilliant Darko.

No. 20F1725 Prints made on Brilliant Darko have the characteristic surface, finish and general effect of prints made on collodion matte surface papers. It is an ideal paper for the professional photographer, as the prints possess all the peculiarly characteristic effects of tone, surface and detail of the best collodion matte surface papers. Brilliant Darko prints are absolutely permanent and there is a wealth of detail in the halftones that is not equaled by any other developing paper.

India-Tint Darko.

No. 20F1728

India-Tint Darko is an entirely new idea in sensitized paper and of an artistic quality which adds greatly to the possibilities in real pictorial photography. The paper upon which India-Tint Darko is coated is a rough surface paper of a soft India tint color, so the high lights in the picture are of a delicate sepia or light buff tone.

India-Tint Darko is manipulated just the same as the other varieties of Darko, printed fixed and washed just the same as any developing is very easy to work. The India tint of the paper trasted with the rich blacks of the picture, giving that is unique and beautiful.

The Darko Sepia Toner gives particularly with India-Tint Darko, the delicate cream tint itself harmonizing delightfully with the warm imparting to the print the soft delicacy of an old

DU VOLL'S GELATIN PRINTING-OUT PAPER

DU VOLL'S PAPER IS VERY EASY TO WORK. It is printed by sunlight and may be toned in an ordinary gold toning solution that anyone can make up without the slightest trouble. After toning the prints are fixed in a plain hypo bath, a simple solution made by dissolving hypo in water, and after fixing they are washed in clear water. It may also be worked by the combined toning and fixing process in which the prints are toned and fixed in one solution, this being a still simpler and easier method of working. The entire process of printing, toning, fixing and washing is very simple and very easy. No darkroom is required, and good results, even in the hands of a beginner, are practically certain.

PRINTS BY SUNLIGHT.

OTHER SIZES IN PROPORTION.

ANY DESIRED TONE. Prints made on Du Voll's Gelatin Printing-Out Paper may be toned to any desired shade from a very warm sepia to a deep purple, or by using a platinum toning bath they may be toned to a rich black. The surface is glossy, and if the prints are squeegeed they have an exceptionally brilliant luster. Gelatin printing-out papers are especially desirable where it is necessary to preserve absolutely all the detail that exists in the negative. No other paper preserves detail so perfectly as a gelatin printing-out paper.

IMPORTED STOCK. Du Voll's paper is coated on the very best grade of imported stock. Only the very finest quality of imported gelatin, together with chemicals of the highest degree of purity, are employed in preparing the emulsion for it. The emulsion is very rich in silver, the most important ingredient of sensitized papers, as the brilliancy, richness and detail of the finished prints depend largely upon the purity and quantity of silver in the emulsion.

INSPECTED AND SORTED. Du Voll's paper is very carefully sorted and thoroughly examined before it is packed. Every sheet is subjected to the most rigid scrutiny for blemishes or imperfections of any kind, and we absolutely guarantee every sheet of this paper to be perfect. Every gross will yield 144 perfect prints.

For larger sizes and rolls see special Camera Catalog. **Less than one gross is sold at dozen rates only.** For example, one-half gross of 4x5 (which is 6 dozen) would cost 60 cents (6 dozen at 10 cents per dozen), and not one-half of 97 cents. **We cannot violate this rule under any circumstances.**

Azuro Blue Print Paper.

Blue Print Paper affords the simplest process known for producing a photographic print, as it requires no chemicals of any kind. It is simply printed by sunlight in the ordinary manner and then washed in clear water which completes the process of making a finished blue-print photograph. The prints are a brilliant blue and white color, and the extreme simplicity, low cost and beautiful results make this paper well worthy of the popularity it has always possessed. Azuro Blue Print Paper is an unusually high grade paper, coated on the very best quality of imported stock, and the prints possess a brilliancy, depth and clearness that is unequaled by other blue print papers.

This paper is put up in hermetically sealed tin cans, twenty-four sheets to a can.

DRY PLATES AND FILMS

BLUE LABEL ROEBUCK DRY PLATES.

The Blue Label Roebuck Dry Plates are coated on the finest grade of imported glass, carefully sorted, and guaranteed to be free from bubbles, scratches or other imperfections. The emulsion is rich in silver, yielding strong, vigorous negatives, with a wealth of detail and no tendency whatever toward fog. Negatives made with Roebuck Plates are of perfect printing quality, equally suited to either developing papers or printing-out papers, clear, clean brilliant negatives that will please the most exacting operator.

Roebuck Dry Plates are designed especially to meet the requirements for general all around photography and we recommend them for landscapes, architectural subjects, general instantaneous work, portraits in the studio or in the home, groups and general commercial work. They are absolutely reliable, uniform in speed and quality, and adapted to the widest possible range of work.

EXTREME RAPIDITY. The Blue Label Roebuck Plates are extremely rapid, ranking in speed with such well known brands as Seed's No. 27, Hammer's Special Extra Fast, Stanley, Standard Extra, Standard Orthonon, Cramer's Crown or Cramer's Instantaneous Isochromatic. The high speed of these Blue Label Plates makes them especially desirable for subjects where the use of small diaphragms is necessary, and for instantaneous work under poor light conditions. Moreover, **these plates are easy to work** because they permit unusual latitude in exposure, thus greatly decreasing the possibility of failure by over or under timing, and they produce strong, vigorous negatives of the finest possible printing quality.

There are plates sold at lower prices than we quote, but we challenge any dealer to furnish a plate equal to our Blue Label plate in quality at the price we ask.

No. 20F1775 Blue Label Roebuck Dry Plates.

Roebuck Orthochromatic Plates.

Roebuck Orthochromatic Plates are of the same speed as our regular Blue Label Plates, but are especially sensitive to orange, yellow, green and certain shades of red. With ordinary plates, the reds in a picture take almost black, the blues come out nearly white and shades of yellow and orange take just the same as red, black or green, but **with the Roebuck Orthochromatic Plates** the true relative values of all these colors are properly brought out.

The color sensitiveness of the Roebuck Orthochromatic Plates makes them especially suitable for landscape views, portrait work, and **all subjects in which color values are particularly important,** such as flowers and paintings. Landscapes made with these plates possess a brilliancy and a contrast that cannot be obtained with ordinary plates. Flowers, paintings and other highly colored subjects can be successfully photographed only with Orthochromatic Plates and the value of these plates in the studio for portrait work has always been recognized by the most successful photographers.

Orthochromatic Plates do not actually produce colored photographs, but they show the various colors in their true relations.

No. 20F1776 Roebuck Orthochromatic Plates.

Roebuck Double Coated Orthochromatic Plates

Roebuck Double Coated Orthochromatic Plates combine the advantages of both non-halation plates and color sensitive plates. They possess the same sensitiveness to orange, yellow, green and red which distinguishes our Orthochromatic Plate, resulting in negatives with correct color values and, by virtue of the double coating, perfectly free from halation.

With these plates interior views may be made directly against bright windows or open doors without the slightest trace of halation. They preserve perfect detail in tree tops outlined against a bright sky; they add wonderfully to the detail and brilliancy of white draperies, and they are indispensable in photographing clouds, snow scenes and marine subjects.

Roebuck Double Coated Orthochromatic Plates are coated **first with a slow orthochromatic emulsion** which is allowed to dry as usual, after which they are again coated with an extra fast orthochromatic emulsion, resulting in a plate of the same speed as the Roebuck Blue Label or Orthochromatic Plates.

We recommend the use of these plates exclusively for any and all photographic work, indoors or outdoors, time exposures or instantaneous exposures.

No. 20F1777 Roebuck Double Coated Orthochromatic Plates.

Water Colors, 18 Cents.

No. 20F1905 Osaka Transfer Colors. This outfit is a box of twelve cakes, containing red, yellow, green, magenta, new rose, white and black. Shipping weight, 2 ounces. Price.....18c

Litmus Paper, 8 Cents.

No. 20F1913 Red Litmus Paper, turns blue if the solution is alkaline. Shipping weight, 3 ounces. Price, per package.....8c

No. 20F1914 Blue Litmus Paper, turns red if the solution is acid. Shipping weight, 3 ounces. Price, per bottle.8c

Opaque, 20 Cents.

No. 20F1916 This is a preparation for blocking out or rendering opaque certain portions of negatives, also for spotting out imperfections and covering slides or backgrounds. It is very easily applied to the negative with a moistened camel's hair brush. Shipping weight, 3 ounces. Price, per box.....20c

Glycerin for Squeegee Plates, 10 Cents.

No. 20F1920 This is a dry preparation for polishing squeegee plates to prevent the prints from sticking to them. Shipping weight, 2 ounces. Price, per box.....10c

Soline, 30 Cents.

No. 20F1925 Soline is a solution for sensitizing paper or other materials. It is very easy and the material sensitized with it acts just like an ordinary printing-out paper. Shipping weight, 10 ounces.

Price, per 8-ounce bottle.....30c

Blue Print Powder, 13 Cents.

No. 20F1933 This Blue Print Powder is a preparation for sensitizing paper, cloth, cards or other materials for making blue prints. The powder is merely dissolved in water and the solution applied to the paper or cloth with a camel's hair brush. With this preparation you can make blue prints on any kind of paper, including your letter paper, or on cloth of any kind, making pretty blue pictures for sofa pillows, tidies, banners, etc. Shipping weight, 3 ounces.

Price, per 1-ounce bottle, sufficient for 8 ounces.....13c

Argo Soda, 20 Cents.

No. 20F1940 We find that developer made up with instead of the ordinary carbonate and sulphite gives very fine results with any of the various styles of Argo Soda is particularly desirable with the Post and Cardboard Darko and the Darko Post developer made up with it prevents friction. Another advantage is that it produces good, clean, prints from paper too old to produce good prints with other. Shipping weight, ½-pound package, 12 ounces; 1-pound package, 20 ounces.

½-pound package.....20c
1-pound package.....40c
Directions for use are enclosed with each package.

Hydro-Metol Developer, 18 Cents.

No. 20F1948 We consider this our best developer as it is a very effective combination of well known hydrochinon and metol. It works very rapidly, never fogs the plate, is very brilliant, snappy negative.

4-ounce bottle.....18c

During winter months on account of freezing through freezing.

We especially recommend the purchase of this powder form rather than in solution, as they ship better, there is no breakage, the transportation charges are much less, as the expense of bottles, etc., is all saved.

Developing Powders, 20 Cents.

No. 20F1946 Darko Developing Powders consist of a combination of hydroquinon and metol, together with the other necessary chemicals, put up in hermetically sealed paraffin lined tubes. Each tube, in dry form, a sufficient quantity of the chemicals, accurately proportioned, to make 4 ounces of developer when dissolved in water. The chemicals in these powders are absolutely pure and are so accurately compounded and, being sealed, will keep indefinitely. Photographers who prefer to compute their own developer for Darko papers find these powders very convenient and exceedingly satisfactory. They are suitable for developing any of the Darko papers, including the Darko Post Card, weight, 5 ounces. Price, per package.....20c

Anti-Stain Darko Developer 20 Cents.

No. 20F1947 This is a modified form of our regular Darko Developing Powders, put up in exactly the same way, in regular tubes, and is adapted especially to the use of Cardboard Darko and the Darko Post Card, or heavy stock developing papers which show fine lines or markings which are liable to show the appearance of these marks. This prevents the use of this special Anti-Stain Darko Developer. Shipping weight, 2 ounces. (6 tubes).....20c

Darko Toner, 32 Cents.

No. 20F1955 This is a special toner, adapted for use with the Darko Post Card paper. With this toner the paper may be toned to a beautiful brown color. Its use is very simple, the toner is quick and it may be used with any paper to be toned with this preparation. If used in the regular way, the toning bath, Darko Sepia Toner is put up in a concentrated developer, six hermetically sealed tubes, making 4 ounces of liquid developer.

Price.....32c

Eikonogen Developing Powders, 15 Cents.

No. 20F1950 Eikonogen Developer gives a soft negative full of detail and is especially suitable for portrait work. It is a clean developer that keeps well after it is put into solution and is preferred by many photographers for general all around work. We put up this developing powder in packages of six powders. Each powder is sufficient for making 4 ounces of liquid developer. For use the powder is simply dissolved in water. Shipping weight, 3 ounces.

Price, per package.....15c

Hydro-Metol Developing Powders, 16c.

No. 20F1952 Our Hydro-Metol Developing Powders are made from the purest chemicals, put up in the most careful manner, and will be found a perfect developer in every way. They are a combination of the well known hydrochinon and metol, two of the best and most popular developing agents. This developer works very rapidly, does not fog nor stain the plate and produces brilliant, sparkling negatives of the most perfect printing quality. Shipping weight, 3 ounces.

We consider this Hydro-Metol the best developer made for general all around work.

These developing powders are put up in boxes of six powders. Each powder makes 4 ounces of developing solution.

Price, per package.....16c

Elko-Hydro Developing Powders, 15c.

No. 20F1954 Our Elko-Hydro Developing Powders make an excellent developer for all around work. They work rapidly, are clean and stainless and produce bright, snappy negatives. They keep well in solution and may be used repeatedly. We put these powders up in packages of six powders, each powder sufficient to make 4 ounces of developer. Shipping weight, 3 ounces.

Price, per package.....15c

Tank Developing Powders, 20 Cents.

No. 20F1959 This Developing Powder is put up especially for use with automatic developing tanks, and we can recommend it very highly to those who do not wish to prepare their own developers.

Each package contains six powders, each sufficient to make 28 ounces of twenty-minute developer. Shipping weight, 6 oz.

Price, per package.....20c

Toning and Fixing Solution, 16 Cents.

No. 20F1960 This is a simple solution for the combined toning and fixing of Du Voll's paper or any other gelatine printing-out paper. Prints may be toned in this solution to any color, from a warm sepia to a rich purple, and as it is very rich in gold it may be used repeatedly before becoming exhausted. (Unmailable.)

Price, per 8-ounce bottle.....16c
Price, per 16-ounce bottle.....29c

Gold Toning Solution, 27 Cents.

No. 20F1962 This is a plain gold toning bath for use when prints are toned and fixed in separate solutions instead of by the combined toning and fixing process. It is used for toning Du Voll's paper or any other printing-out paper, the prints being immersed in this solution until they reach the desired color and then transferred to a plain hypo bath for fixing. Prints finished by the separate toning and fixing process are more certain to be permanent than prints finished by the combined toning and fixing process. (Unmailable).

Price, per 8-ounce bottle.....27c

Toning and Fixing Powder, 15 Cents.

No. 20F1964 Our Toning and Fixing Powder, when dissolved in water, forms a complete toning and fixing solution for Du Voll's or any other printing-out paper. It gives a variety of beautiful tones varying from a warm sepia to a dark brown. This Toning and Fixing Powder forms a very simple and easy means of toning and fixing prints, as no skill whatever is required in its use. This is by far the best preparation of its kind in dry form that we have ever seen. Put up in packages which make 36 ounces of solution. Shipping weight, 7 ounces.

Price, per package.....15c

Platinum Toning Solution, 39 Cents.

No. 20F1966 This toning Solution gives pure platinum tones on any kind of gelatin printing-out paper in a single operation. Platinum tones are ordinarily obtained by toning first with gold and then with platinum, but with this single solution pure platinum tones are obtained in one operation. (Unmailable).

Price, per 8-ounce bottle.....39c

Intensifying Powders, 16 Cents.

No. 20F1970 A weak, thin negative, lacking in contrast, may be greatly improved by intensification, and this powder is a very convenient means of preparing a good intensifier. It requires only to be dissolved in water to be made ready for use, forming a simple and easy method of intensification with satisfactory and permanent results. Each package makes 24 ounces of solution. (Unmailable).

Price, per package.....16c

Reducing Powders, 16 Cents.

No. 20F1972 Negatives which from overdevelopment or other causes are too dense can be quickly reduced to the proper density for printing by the use of this preparation. These powders are put up in packages containing twelve powders and each powder makes 10 ounces of reducing solution. For use they are simply dissolved in water and a little hypo added just before the solution is used. Shipping weight, 3 ounces.

Price, per box.....16c

Neg-Dry, 17 Cents.

No. 20F1980 Neg-Dry is a hardening solution for either plates or papers, making the gelatin film absolutely insoluble. Negatives treated with Neg-Dry may be dried in less than five minutes after they have been washed by placing them in this preparation and drying them by artificial heat. Neg-Dry also eliminates all traces of hypo that may not have been washed out of the film. This preparation may be used over and over again. (Unmailable.)

Price, per 4-ounce bottle.....17c

Acid Hypo, 6 Cents.

No. 20F1985 This is a special combination of very pure powdered hypo and other ingredients, which when dissolved in water makes a very clean, clear fixing solution for either plates, films or papers. It dissolves very easily and quickly, making it a very convenient means for preparing the fixing bath, and it gives usually good results as it not only fixes to perfection but also acts as a clearing solution and a hardener.

¼-pound box, makes 16 ounces of solution. Shipping weight, 5 ounces.

Price.....6c

½-pound box, makes 32 ounces solution. Shipping weight, 10 ounces. Price.....10c

1-pound box, makes 64 ounces solution. Shipping weight, 20 ounces. Price.....18c

PHOTOGRAPHIC CHEMICALS.

The chemicals used in photography are of just as much, if not more importance than any of the other supplies, as poor pictures and spoiled plates or papers are frequently the result of using chemicals which are not of the proper standard of purity for photographic use.

We buy all of our chemicals from manufacturers of established reputation and we handle only those grades and qualities which are perfectly suited to photographic work. All of our chemicals are furnished in original containers just as they come to us from the various factories, and we can thus guarantee them to reach the purchaser in perfect condition.

For chemicals not shown in list see special Camera Catalog.

No. 20F2001 Pyrogallic Acid. An absolutely pure, resublimed pyrogallic acid of the very finest quality. Put up in tin cans.

Ten Pounds Pea Crystal Hypo, 35 Cents.

There is no chemical that is used to so great an extent in photography as Hyposulphite of Sodium, or "hypo" as the photographers call it, and the importance of purity in this commonly used chemical is sometimes overlooked. The common commercial grades of hypo often contain impurities which cause spots and defects both in negatives and prints, and it is poor economy to spoil good plates and paper to save a few cents on hypo. We furnish hypo in one form only, the "pea" crystals, small, perfectly formed crystals, **absolutely pure, clean and dry.** Our hypo does not cake, it is free from dirt or other impurities, it dissolves quickly and easily and forms a clear, colorless solution. No better hypo is made.

No. 20F2150 Pea Crystal Hypo in 1-pound sealed cartons. Shipping weight, 21 ounces. Price, per pound....4c
No. 20F2152 Pea Crystal Hypo in 10-pound sealed package. Price, per package (10 pounds).....35c
No. 20F2155 Pea Crystal Hypo, in original keg. Price, per keg (100 pounds).....$2.00
Our Hypo is all sold in sealed packages, clean and pure.

CARD MOUNTS AND ALBUM

EVERY CARD THAT WE SHOW IN THIS CATALOG and all the additional styles shown in our special Camera Catalog is manufactured by the A. M. Collins Manufacturing Co. of Philadelphia, a concern whose product is universally recognized as the standard of excellence. They make high grade cards only; they do not manufacture cheap nor second quality cards of any kind.

ORIGINAL SEALED PACKAGES. Our cards are all put up in sealed packages, each package containing twenty-five cards of the same kind and color and are guaranteed to reach the purchaser unsoiled, as clean and fresh as the day they leave the factory. In order to guarantee clean, perfect cards we must decline to break packages and we do not sell less than twenty-five cards of a kind and color. We do not break packages in order to furnish assorted colors. We cannot furnish cards of more than one color in the same package.

Collins' Plain Bevel Edge Melton Cards.

No. 20F2203 A perfectly plain, fine quality, round cornered, bevel edged melton surface card, suitable for almost any kind of a picture.

Colors, Scotch gray or carbon black.

Collins' "La Tour" Cards.

No. 20F2216 This is one of the prettiest cards brought out this year. The heavily embossed design is very artistic and the card is made from a fine quality of heavy stock, giving it an appearance equal to many cards sold at twice the price. These cards are made with square corners and plain beveled edges.

Colors, white, ash gray or Paris black.

FOR OTHER PROFESSIONAL CARDS, including new designs in Portrait Cards, Standard Mounting Boards, Penny Picture Cards and new amateur styles, send for our Free Special Camera Catalog.

Collins' Amco Post Card Holders.

The Amco Post Card Holders are made of extra strong heavy cardboard, overlaid with ripple board in rich, dark chestnut brown. They are handsomely embossed and furnished with silk cord. The post card is inserted through a slit at the back and easily guided into position by means of the oval opening. These post card holders are of unusually rich, expensive appearance and afford an ideal way to display your favorite post card pictures. By attaching one of the neat calendar pads listed below, they make very appropriate gifts.

No. 20F2220 Amco Post Card Holder, for horizontal post cards, as shown in illustration. Price, per package of six.....55c

No. 20F2221 Amco Post Card Holder, for vertical post cards. Per package of six..55c

Sold only in original sealed packages.

1911 Calendar Pads.

No. 20F2222 1911 Calendar Pads suitable for attaching to Acme Post Card Holder, or for any other similar purpose. They are attached by simply applying a little paste or mucilage to the backs.

Price, per package of six.....12c

Sold only in original sealed packages.

Collins' "No. 424" Cards.

No. 20F2234 This is an original design for those who like fancy effects. Made from extra heavy stock with square corners and plain beveled edges. The wide border is heavily embossed in a strikingly handsome and novel design, in effect like a frame for the picture. The darker tint of the design around the center and also around the outer edge adds much to the attractiveness of this card, the contrast of the light and dark tints giving snap and vigor to the mount.

Colors, white, gray or Amco brown. The Amco brown is particularly pleasing.

Size of Card	For Photos	Price, per 100	Price, per 25

Collins' "Lexington" Cards.

No. 20F2235 This new Collins' card is made with a decorative art design, heavily embossed in a dark tint on the plain gray or brown surface of the card. It is made of extra heavy stock, with square corners and plain beveled edges. We recommend this card as one of the handsomest of this season's new designs. Colors, ash gray or Burmese brown.

Collins' Standard Mounting Board.

10 PLY. 12 PLY. 16 PLY.

We furnish this high grade melton cardboard, the standard Collins' board, in three weights, 10-ply, 12-ply and 16-ply, the thickness being shown by the following lines:

This board is noted for its absolutely smooth surface and freedom from imperfections. It takes the print better than any other cardboard made and is used by the best photographers everywhere.

Colors, carbon black or Burmese brown.

Sold only in original sealed packages.

Be sure to state size and color wanted.

Collins' "Hendrick" View Mounts.

No. 20F2261 Extra quality cards, embossed with plain roll border, made from solid 14-ply stock, with square corners and plain straight edges. While designed especially for professional use, this card also makes a very attractive mount for the amateur and is one of the best designs brought out this season.

Colors, white, ash gray, Burmese brown or Paris black.

Collins "Leicester" Po[illegible] Cards.

No. 20F2273 This is an excellent mount for oval, square and horizontal photographs. It is a mount of refinement adapted to the best class of work. Made of extra heavy stock, with square corners and colored beveled edges. A dark rim line around the opening, repeated by a thinner line around the edges, gives it snap and brings in value the high lights of the photograph. The entire effect is delicate and subdue[illegible]

Colors, gray, kromite or umber. [illegible] a new and pleasing shade of d[illegible] Umber is a new shade of red[illegible] excellently suited to sea prints.

POST CARD PROJECTORS $3.98 TO $9

THE MODERN MAGIC LANTERN

No Glass Slides Necessary. Uses Any Kind of Picture. Pleases the Whole Family.

Very simple easily operated struments wh project a brilli illuminated greatly enla image of any card, photogr clipping or sma ject of any kind white screen or

THE PICTURES ON THE SCREEN are from 3 to 9 feet across and look just like stereopticon or magic lantern views, but the expensive glass slides which were necessary with the old style magic lantern are not required. These new projectors use any photograph or post card, any picture cut from a magazine or newspaper, your own drawings, or any small flat object, such as a butterfly, a leaf, a pressed flower or a watch, and the object or picture is accurately projected onto the screen, greatly enlarged, **sharp and clear in all its details and in all its own natural colors.**

THE LENSES. The most important part of any projection machine is the lens, and every one of our projectors, styles "A," "B" or "D," is equipped with a newly designed, specially ground **double lens system** which results in sharper pictures and greater luminosity than is possible with any other projector made. It is this superior double lens system, aided by the **improved curved picture holder,** which enables our projectors to show the entire picture, sharp and clear, even to the extreme edges.

THERE ARE CH ER POST CARD JECTORS, but in of design and durability, simplic operation, and bri and clearness of th jected picture, th no other make st card projector at any price which ca with the machine scribed on this p Even our lowest projector at $3. carefully and acc made, beautifully ished and guarant be both mechan and optically per Do not judge new and scient designed machine any other post projectors you have seen. The ket has been with cheap and wo projectors which could not conscientiously offer for sale, but these new projectors, as illustrated a scribed on this page, are made right in every way, the optical features are scient correct, the mechanical construction is perfect, the finish throughout is beyond cism, and every detail of design and construction has had the painstaking at of experts in projection apparatus.

Style "A" Post Card $3.98 Projectors,

For Electric Light, Acetylene or City Gas.

Our Style "A" Projectors are remarkably effective machines at a wonderfully low price. They are equipped with the new double lens system, multiplane reflectors and hinged backs with the new curved reversible picture holders. The tops are double and lined with cellular asbestos to prevent overheating, which is further provided against by the specially designed chimneys which afford perfect ventilation and yet confine all light within the instrument. Our Style "A" Projectors are beautifully finished in highly polished oxidized copper plate and measure 9¾ inches long, 9¼ inches wide and 7¼ inches high. **The double lenses are 2½ inches in diameter.**

Size of picture, 3 to 5 feet across, according to distance from screen.

No. 20F2872 Style "A" Electric Projector, as illustrated and described above, equipped with two high candle power incandescent electric lamps, 6 feet of double conductor electric cord, and socket for attaching to any electric light fixture. Unless otherwise requested we send lamps suitable for 104 to 115-volt circuits. Shipping weight, 6 pounds. Price **$3.98**

No. 20F2873 Style "A" Acetylene Projector, as illustrated and described above, equipped with two high candle power acetylene burners, specially designed large size acetylene generator and connections. Carbide not included; see note below. Shipping weight, 6½ pounds. Price **$3.98**

No. 20F2874 Style "A" Gas Projector, as illustrated and described above, equipped with two high candle power gas burners and mantles, 6 feet of special gas tubing, and connections for attaching to any gas fixture. Uses either natural or city gas. Shipping weight, 6½ pounds. Price **$3.98**

STYLE "D" POST CARD PROJECTORS, $9.25

FOR ELECTRIC LIGHT, ACETYLENE OR CITY GAS.

Our Style "D" Projectors represent the very highest degree of perfection in projecting machines, throwing a larger, clearer and more brilliant picture than any other machine on the market. The new double lens system with which they are equipped consists of two extra large long focus lenses with center diaphragm, yielding pictures that are beautifully sharp and clear even to the extreme edges, and the brilliancy of the picture is still further enhanced by the extra large highly polished multiplane reflectors. The double walls are lined with cellular asbestos fireboard which, in connection with the extra large light-tight ventilators, prevent any possibility of overheating. These instruments are provided with two sliding backs (each with curved reversible picture holders) which are entirely detached in filling to avoid jarring the picture on the screen. While one back is in position the other is being loaded and slides smoothly into position as the previous one is removed, so that one picture follows another on the screen without the undesirable interval with a blank and brilliantly lighted screen between pictures. These projectors are finished in highly polished oxidized copper plate, **hand curled,** a finish of remarkable beauty and richness to which no illustration can do justice. It must be seen to be appreciated. Size of machine, 13 inches long, 13¼ inches wide and 12¼ inches high. **Diameter of double projecting lenses, 3⅝ inches.**

Size of picture, from 5 to 9 feet across, according to distance from screen.

No. 20F2881 Style "D" Electric Projector, as illustrated and described above, equipped with two high candle power incandescent electric lamps, 6 feet of double conductor electric cord, and socket for attaching to any electric light fixture. Unless otherwise requested we send lamps suitable for 104 to 115-volt circuits. Shipping weight, 14 pounds. Price **$9.25**

No. 20F2882 Style "D" Acetylene Projector, as illustrated and described above, equipped with two high candle power acetylene burners, specially designed large size acetylene generator and connections. Carbide not included; see note below. Shipping weight, 14 pounds. Price **$9.25**

No. 20F2883 Style "D" Gas Projector, as illustrated and described above, equipped with two high candle power gas burners and mantles, 6 feet of special gas tubing, and connections for attaching to any gas fixture. Uses either natural or city gas. Shipping weight, 14 pounds. Price **$9.25**

Style "B" Post Card $6 Projectors,

For Electric Light, Acetylene or City

When you see one of our Style "B" m you will wonder how they can be so finely for so low a price. They are equipped with specially ground double lenses, highly p multiplane reflectors, and hinged back w new curved reversible picture holder, whic instantly, accommodates pictures either ly or horizontally and is not limited to p of exactly post card size. The top is made and lined with cellular asbestos to preven heating. Perfect ventilation, without per any light to escape from the machine, is by the large specially designed ventilating ney. Our Style "B" Projectors are very finished in highly polished oxidized copper and measure 11¾ inches long, 11¾ inches and 11¼ inches high. **The double lenses inches in diameter.**

Size of picture, from 4 to 7 feet across, ing to distance from screen.

No. 20F2878 Style "B" Electric Pro as illustrated and described above, equipped two high candle power incandescent lam feet of double conductor electric cord, and for attaching to any electric light fixture otherwise requested we send lamps suita 104 to 115-volt circuits. No. 20F2879 Style "B" Acetylene jector, as illustrated and described equipped with two high candle power a burners, specially designed large size generator and connections. Carbide not in see note below. Shipping weight, 11 pou Price .....

No. 20F2880 Style "B" Gas Projec illustrated and described above, equipped w high candle power gas burners and man feet of special gas tubing, and connectio attaching to any gas fixture. Uses either or city gas. Shipping weight, 11 pounds Price .....

ABOUT THE LIGHT. We furnish any of our post card projectors equipped for either electric light, acetylene or city gas. We recommend electric light or city gas to those whose houses are lighted by electricity or gas, but if your house is not lighted by electricity or if you do not have city gas in your home then you must use acetylene. We recommend electric light or city gas where it can be used, because it is a little handier than acetylene, but so far as results are concerned acetylene gives just as good and just as large and bright a picture as electric light or city gas. While it is a little more trouble to use acetylene, still there is nothing complicated or difficult about it. **With our improved generator,** which is guaranteed to be absolutely safe, it is only necessary to put in a little carbide, pour in a little water and immediately the projector is ready to light.

NOTE—We do not send any carbide with the acetylene outfits, as this article can be easily obtained at any place selling bicycle or automobile supplies, or at any hardware store or drug store.

DRAWING INSTRUMENTS $1.95 TO $10.50

OUR GRADE A INSTRUMENTS.

Furnished in Large, Medium or Small Assortments.

OUR GRADE A INSTRUMENTS are made from the finest wrought German silver for elasticity, density and hardness. The tongues of the joints, needle points, and other steel parts are made from the best English steel, finely tempered and finished. The finish throughout is remarkably fine and so bright that the least flaw in the workmanship, form or quality of material may be instantly detected.

Compasses and Dividers in our sets of Grade A instruments are made with pivot joint, the most desirable joint, as it permits of adjustment for taking up lost motion due to wear, and compasses and dividers are provided with straightening device which holds the leg perpendicular to the drawing surface at all times, irrespective of the spread of the legs. The dividers in all of our sets of Grade A instruments are made with hairspring adjustment.

Bow Instruments are of the latest type of construction with center screw adjustment and circular spring, the most modern style of bow instruments yet designed. The **circular spring** is a particularly desirable feature, owing to the absolutely even tension at any adjustment, the central screw affords an exceedingly convenient form of adjustment.

Pens in all of our Grade A sets are made with unusual care, the steel being tempered to a degree of hardness which causes them to hold their points a long time, and perfect alignment of the nibs is absolutely assured. All of our pens (except the Swedish pen in the large assortments) are made with **patent release** so that the pen may be cleaned or sharpened without changing the adjustment of the line. This release attachment is also furnished with the pen points for the compasses.

Engineers and Professional Draftsmen who make extensive use of drawing instruments will find that in every respect our **Grade A instruments meet the most severe** requirements. In perfection of detail; in materials, in durability, in short, in all qualities which the experienced draftsman demands in his tools, they are equal to any instruments on the market, regardless of price.

OUR GRADE B INSTRUMENTS.

Furnished in Large, Medium or Small Assortments.

OUR GRADE B INSTRUMENTS are most carefully constructed of fine German silver and English steel, beautifully finished. They are surpassed in quality only by our Grade A instruments, and are fully equal to the instruments sold by many dealers at three times our quality.

Compasses and Dividers in our Grade B instruments are all made with pivot joint heads, permitting adjustment to compensate for wear, and with straightening device which keeps the legs always in perpendicular position. The dividers in all our Grade B sets are provided with **hairspring adjustment.**

Bow Instruments are carefully made from one continuous piece of steel finely tempered, highly finished, and made with **screw adjustment.**

Pens in all our sets of Grade B instruments are very finely made, highly finished and tempered, and (with the exception of the Swedish pen in the large assortments) are all furnished with **patent release,** so that the pen may be cleaned or sharpened without changing the adjustment for width of line. This release attachment is furnished with the pen points for the compasses. In all of our sets of Grade B instruments the divider is made with **hairspring** adjustment.

Grade B Instruments are designed especially to meet the requirements of advanced students in college and technical courses. The good materials, fine finish and high class workmanship will meet with the approval of the most exacting professors and instructors of our leading technical institutions. They are in use by thousands of architects and mechanical engineers throughout the country and are thoroughly practical, high grade instruments.

OUR GRADE C INSTRUMENTS.

Furnished in Large, Medium or Small Assortments.

OUR GRADE C INSTRUMENTS are of fine German silver and English steel throughout.

Compasses and Dividers are made with pivot joint, permitting adjustment for wear, but are without hairspring.

Bow Instruments are made with side screw adjustment and constructed from one continuous piece of steel, finely tempered and carefully finished.

Pens are in every respect first quality instruments, spring blades, finely tempered, with points accurately ground, but are without the patent release.

Our Grade C Instruments are not so highly finished and in many details not so perfectly as our Grade B and Grade A instruments, still they are of most excellent quality and will meet with the entire approval of students and draftsmen who wish to satisfy themselves at the smallest possible expense. They fulfill all requirements for school and ordinary college work, or for the carpenter and mechanic who finds occasion to use drawing instruments in his work.

LARGE ASSORTMENTS.

LARGE ASSORTMENTS of drawing instruments which we furnish in Grades A, B and C, as listed on this page, contain fifteen pieces, as follows:

- Compass with Needle and Points.
- Lengthening Bar for 6-inch Compass.
- Point for 6-inch Compass.
- Compass with Divider Point for 4¼-inch Compass.
- Point for 4¼-inch Compass.
- Pencil Point for 4¼-inch Compass.
- 6-inch Hairspring Divider.

The Ready Drafting Instrument, 48c

No. 20F4145 This **Pocket Drafting Instrument** is a most unique and clever instrument which performs every service of a complete drafting outfit. It is so simple and compact that you can put it in your vest pocket or between the pages of a book. It can be used as a rule, T square, triangle, square, protractor or compass. Just the thing for architects, civil engineers, draftsmen, students, etc., who require a reliable pocket instrument for emergency work. With this instrument you can lay out a piece of work as quickly and accurately as with a regular drawing set. You can make anything from an ordinary straight line to the parts of a machine or the plan of an entire factory. We include full directions showing just how to use the instrument for describing circles or angles of any size and for architectural or engineering drawings of every kind. Shipping weight, 3 ounces.
Price 48c

Complete Drafting Outfit, $7.75.

This big and complete Draftsman's Outfit is strictly high class throughout, every item carefully selected, the very best quality that we can secure and absolutely guaranteed. An outfit that is suitable for correspondence school work, and in every way superior to the outfits usually furnished for such work.

Hawkins' Self Help Mechanical Drawing, the complete manual of mechanical drawing included with this outfit, contains 320 pages, and 300 illustrations. It is strongly and handsomely bound in fine silk finish green cloth, with title stamped in gold, printed on the very finest white calendered paper, with full gold edges; extra large size, measuring 7x10 inches. This book covers the subject of mechanical drawing from start to finish, and is carefully arranged according to the fundamental principles of the art of drawing. It gives full information regarding drawing materials and instruments, free hand drawing, mechanical drawing, geometrical drawing, penciling protection, inking-in drawings, lettering, etc. It gives drawing office rules, rules for patent office drawings, useful tables of all kinds; in short, the most complete, comprehensive and practical book published on mechanical drawing.

The Outfit contains the following items: 1 copy **Hawkins' Self Help Mechanical Drawing** for home study.
1 set of our No. 20F4111 Pivot Joint Instruments, with three bow instruments, compasses, dividers, pen, etc.
1 16x22 Drawing Board.

CAN FIT YOU WITH GLASSES AT ONE-FOURTH THE USUAL COST

OPTICAL DEPARTMENT We have three expert opticians (graduate Doctors of Optics) who devote their entire entirely to the fitting of spectacles and eyeglasses on orders received by mail. They have for years made a specialty of fitting spectacles by mail, and their experience in handling of thousands of such cases has given them a degree of skill and ability that is truly marvelous.

EASY TO ORDER BY MAIL. Just answer the few test questions given on this page. Tell us the catalog number of the style you want, and our expert opticians will carefully fit the glasses up with just exactly the right kind and strength of lenses to suit your eyes.

YOU TAKE NO RISK in ordering spectacles from us by mail. We guarantee to fit you perfectly, and if you should receive a pair of glasses from us that do not give you perfect satisfaction, we will cheerfully exchange them without one cent of expense to you, or if you so request we will return your money in full.

READ THESE LETTERS FROM SATISFIED SPECTACLE CUSTOMERS.

The manager of our Optical Department recently wrote to a number of our customers who had purchased glasses from us, and the following are extracts from a few of the replies that we received. Most of the letters received are too long to print in full here, but these extracts will give you an idea as to our success in fitting glasses by mail.

N. Graves, Lacona, Iowa, says: "The spectacles are all right and satisfactory in every way. In quality and price, better than I could do or have done anywhere. They are giving perfect satisfaction."

N. H. Counts, Bertig, Ark., says: "The spectacles that I purchased from you last spring are in my service daily and are giving perfect satisfaction. I could not get along without them. I could not expect to get the same lenses, mounted as yours are, for less than $5.00 here."

K. E. Reinhart, Brimfield, Ill., says: "The spectacles purchased of you last spring are entirely satisfactory in every respect. As to price, would have to pay from $8.00 to $10.00 for such goods here. Mine were only $1.98."

J. J. Perkins, Reelsville, Ind., says: "I am pleased to say the glasses I received from you are all right in every respect. As for saving on this purchase will say, I paid $7.50 for similar goods for my wife. This means a saving of about $6.06, and goods were not any better than those received from you."

Carrie E. Jones, Winton, N. Car., says: The spectacles purchased from you are satisfactory in every respect. Everybody is astonished at the price. They could not be bought here for double the money that I paid for them. I have been wearing them ever since I bought them and they now look just as good as when new. They fit my eyes perfectly and are the clearest I have ever worn.

C. Washington, Houston, Texas, says: "The spectacles received from you last spring are the best that I have ever used. I bought a pair about three years ago, gave $10.00 for them, and those that I got from you are better than those that I paid $10.00 for."

L. J. Brantner, Brighton, Colo., says: "The spectacles are entirely satisfactory. The lenses fit the eyes perfect and are proving very beneficial."

W. H. Kellom, Concord, N. H., says: "The pair of Bifocal Alumnico Spectacles which I bought from you were for a friend of mine who is seventy-four years old. He says he can see as well as he could at twenty-one years of age. He says they are better than he expected."

E. P. West, Turtle Lake, Wis., says: "Concerning the spectacles which I ordered early last spring, I truthfully say that they are perfectly satisfactory to me in every way. They fit my eyes, the quality is satisfactory, they wear well. They are better quality than our dealers carry."

T. E. Bush, Wetumpka, Ala., says: "The glasses I ordered from you last spring are of good quality, fit my eyes all right, and I like them fine."

J. G. Farnsworth, Colfax, Iowa, says: "The spectacles I received from you are satisfactory to me so far. I think I saved about $10.00 on my purchase, for that is what they charge to fit one's eyes to glasses here."

Mrs. Wm. Behan, Bisbee, N. Dak., says: "The spectacles I received from you were entirely satisfactory and cost about $2.20 and are apparently as good as those sold by traveling eye specialists at $7.00."

H. Benson, Clitherall, Minn., says: "Regarding the spectacles, I am very much pleased with them. They fit my eyes all right. The quality is satisfactory and they are wearing well. They are fully as good as a pair I paid $10.00 for. The lenses are much clearer."

C. E. Campbell, Plymouth, Ind., says: "The eyeglasses I bought of you for my wife and the spectacles later on for myself are in every way satisfactory. I could not buy any better ones here for less than $5.00."

Mary Morton, Oconee, Ill., says: "The glasses are entirely satisfactory. They are wearing well and fit my eyes as well as any glasses I ever had."

J. W. Ogden, Winslow, Ariz., says: "The eyeglasses I purchased from you some time ago are entirely satisfactory in every way, also the pair I ordered for my neighbor, Mr. Brook, please him very much, as they are just what he wanted."

E. L. Tyler, Lovelocks, Nev., says: "The spectacles are entirely satisfactory. If I had been compelled to buy the glasses at Reno would have cost me no less than $14.00 to $19.00."

C. L. Seeby, Beaulieu, N. Dak., says: "In reply to yours of the 13th inst., will say that the glasses are giving good satisfaction. I can read for hours without getting tired. So far as price, why, the cost was only about half of what they would cost me here. They wear well and give good satisfaction."

TEST QUESTIONS

Have you worn glasses before, and if so how long have they been?
Do your eyes stand out prominently or are they sunken?
Do your eyes become tired after slight use?
At what age did your eyes began to fail?
Do you have headaches or pain over the eyes?
Can you see at a distance without glasses?
Do you use glasses for reading or for seeing at a distance?
Can you read type No. 8 at a distance of 10 feet?
Can you read the smallest type that you can easily and clearly read when holding this page at a distance from your eyes without glasses?
What is the greatest possible distance at which you can still distinctly read paragraph No. 26

TYPE FOR TESTING EYES

60

The smallest size letters on this card should be read easily at fifteen inches from the eye. If you cannot do so you should wear spectacles. It does not pay to buy cheap spectacles.

52

They distort the rays of light, disturb the angles of vision, cause pain and discomfort and injure the eyesight. When it is necessary to hold work or reading matter farther than fifteen inches from the eyes

44

in order to see distinctly, it is a sure sign of failing vision, and much annoyance, discomfort and pain will be prevented

40

by having a pair of glasses fitted. Pain in the eyes when wearing spectacles is usually caused

36

either by improperly fitted lenses, or from the centres of the lenses not corresponding with

32

the centres of the eyes. To be perfect, a lens must be made with highly polished surfaces

26

of accurate curvatures. Our crystalline lenses are the best in the market.

HOW TO MEASURE FOR GLASSES

If you desire SPECTACLES answer the following three questions:

No. 13. What is the distance between the pupils (A to B)?
No. 14. What is the width of nose at base (C to D)?
No. 15. What is the distance between the temples (E to F)?

If you desire EYEGLASSES answer the following four questions.

No. 16. What is the width of nose (T to T)?
No. 17. What is the width of nose (P to P)?
No. 18. Is the bridge of your nose prominent or flat?
No. 19. What is the distance from the center or pupil of one eye to the center or pupil of the other eye?

OUR FOUR MOST POPULAR STYLE

Our $1.85 Gold Filled Spectacles.

No. 20F3080 We have sold this special gold filled spectacle for years. During this time we have sent out a great many thousand pairs. Every pair that has gone out has been covered by our binding ten years' guarantee, as printed opposite, under the terms of which we agree to replace free of charge every pair that gives out through any defect in material or workmanship, and up to the present time we have not been asked to replace a single pair. This in itself indicates the quality of spectacle that we are furnishing, genuine American Optical Company's frame, highest grade crystalline lenses, in short, the best gold filled spectacle that we can buy. Shipping weight, 4 ounces.

Price, with leather case.....$1.85

Cable Bow Gold Filled Spectacles for $1.98.

No. 20F3083 Cable Bow Spectacles are very comfortable to wear, the secret of their comfort lying in the fact that the bows or temples are of a peculiar twisted construction, made from the very highest grade of gold filled wire twisted together like the strands of a rope, this peculiar construction being indicated in our illustration. These bows are very flexible and somewhat larger than the regulation style, so that they do not cut into the flesh back of the ears, and they entirely do away with the discomfort which is often experienced with the ordinary style. These gold filled cable bow spectacles are sent out under our regular ten years' guarantee, as printed above, exactly the same guarantee that applies to every gold filled spectacle or eyeglass illustrated on this page. They are fitted with the finest quality of accurately centered crystalline lenses, and are absolutely certain to give satisfaction to the most critical wearer. Shipping weight, 4 ounces.

Price, with leather case.....$1.98

OUR TEN-YEAR GUARANTEE

on gold filled Spectacles and Eyeglasses. The gold filled Spectacles and Eyeglasses shown on this page, every style except the colored spectacles and scenery spectacles illustrated at the bottom of the page, are the very highest grade gold filled goods on the market. These gold filled spectacles and eyeglasses are guaranteed to be the highest grade gold filled goods that can be made. We guarantee them to be genuine 10-karat gold over the highest grade of composition metal, made by the most expert and experienced workmen and fitted with the highest grade, carefully centered crystalline lenses. Every gold filled spectacle or eyeglass that we sell is genuine American Optical Company's goods, made by the American Optical Company, makers of the highest grade spectacles and eyeglasses in the world. Every pair is sent out with the distinct understanding and agreement that if the gold should wear off, discolor or tarnish in ten years' constant use, if they should give out through any defect in material or poor workmanship at any time within this period, we will replace them with a new pair absolutely free of charge.

ABOUT THE QUALITY.

Spectacles and Eyeglasses offer great opportunities to unscrupulous dealers to impose upon their customers. Spectacles, particularly the lenses, are made in a great variety of qualities, ranging all the way from the highest grade of optically perfect goods such as we handle and describe on this page, down to the poorest kind of trash that is not only worthless, but liable to result in permanent injury to the wearer's eyes. We could offer gold filled spectacles at $1.50 per pair, or $1.25, or $1.00; in fact, we could sell gold filled spectacles all complete at 75 cents per pair and make a good profit, if we were willing to use a low grade of lenses, cheap frames and allowed our orders to be filled by men who knew nothing of optics but who were willing to work cheap. We believe, however, that quality is more important in spectacles than in any other line of merchandise. We believe that only the very best should be used, and when we offer our gold filled spectacles and eyeglasses at the prices quoted on this and the preceding page, we furnish the highest grade goods that are made.

See preceding page for Straight Temple Spectacles, also both Riding Bow and Straight Temple in SOLID GOLD.

Rimless Spectacles at $2.14.

optical construction, light and elegant in appearance able to wear, and contribute in no small measure neat, dressy, and stylish appearance. Scenery or Shooting Spectacles.

While these spectacles are commonly known as shooting spectacles, they are largely used by tourists in looking at scenery especially where the light is bright and dazzling or when the ground is covered with snow, which reflects the light and tires the eyes.

The peculiar amber tint of the lenses not only improves the view but enables one to see more plainly at a distance, and is very pleasant and soothing to the eye. The lenses are known as diaphragm lenses, being sanded or ground in such a manner as to exclude the view except through the clear circle in the center of each lens.

No. 20F3187 Shooting Spectacles, steel frames, straight temples, good quality, nickel plated, amber tinted diaphragm lenses. Price.....16c

READING GLASSES

Reading glasses make it easy to read the smallest type and are very desirable in looking at pictures. They add greatly to the beauty of photographs, bringing out the details in a wonderful manner. They are also very convenient for examining any small objects for which a magnifying glass is ordinarily used. The smaller sizes have the highest magnifying power, but with the large sizes a greater area can be seen at one time.

As burning glasses these instruments are very powerful, readily setting fire to light materials like paper, shavings and dry leaves. The larger the glass the more powerful it is as a burning glass.

Pearl and Gold Reading Glass, $2.60.

No. 20F3330 Best Grade French Reading Glass with extra quality lens, gold plated rim, Oriental pearl handle, beautifully finished throughout. A powerful and very ornamental instrument. Diameter of lens, 3½ inches. Shipping weight, 15 ounces. Price.....$2.60

French Reading Glasses, 44 Cents to $2.10.

Best Grade French Reading Glasses, with extra quality lenses, nickel plated rims and black ebonized handles. These instruments are finely finished throughout and are the highest grade and most powerful reading glasses made.

Chevalier Opera Glass, $2.25.

No. 20F3402 This opera glass has achromatic lenses, 1⅛ inches in diameter. The center bar and draw tubes are gold plated; the cross bars and top are finished in black enamel. The covering is black pebbled morocco leather. Shipping weight, 12 ounces.

Price, with case.....$2.25

CONVERSATION TUBES, 95c to $1.75

While many new and unusual forms of hearing instruments have been introduced within recent years, the well known conversation tube still remains the most popular and the most widely used instrument for the aid of hearing. The following conversation tubes are extra high grade instruments, made with metallic spiral spring lining, which insures a free opening throughout the tube in any position, and gives perfect flexibility. The mouthpiece and the earpiece are made of polished hard rubber and the covering is the best grade of black mohair or silk, as specified. The hard rubber earpiece or tip at the smaller end of the tube just fits the ear, and the person with whom you are talking speaks directly into the large end of the tube, the same as when using a telephone.

All of our conversation tubes are 40 inches in length over all, and with the exception of the Midget tube, are tapered from one end to the other, gradually decreasing in diameter from the mouthpiece to the earpiece.

Midget Conversation Tubes.

The small size of these tubes makes them very convenient to carry, and for that reason they are popular even with those who may prefer a larger tube for home use. Length, 40 inches. Diameter of mouthpiece, 2 inches. Diameter of tube throughout, 7-16 inch. Weight, only 3¼ ounces.

No. 20F3240 Midget Conversation Tube, black mohair covered. Shipping weight, 9 ounces. Price.....$0.95

No. 20F3241 Midget Conversation Tube, black silk covered. Shipping weight, 9 ounces. Price.....$1.10

Medium Size Conversation Tubes.

Length, 40 inches. Diameter of mouthpiece, 2½ inches. Diameter of tube, ⅞ inch at the larger end, tapered to ½ inch at the smaller end. Weight, 8 ounces.

No. 20F3242 Medium Size Conversation Tube, black mohair covered. Shipping weight, 16 ounces. Price.....$1.30

No. 20F3243 Medium Size Conversation Tube, black silk covered. Shipping weight, 16 ounces. Price.....$1.60

Large Conversation Tubes.

Length, 40 inches. Diameter of mouthpiece, 2⅝ inches. Diameter of tube at larger end, 1 inch, tapering to ½ inch at the smaller end. Weight, 10½ ounces.

No. 20F3244 Large Conversation Tube, black mohair covered. Shipping weight, 20 ounces. Price.....$1.40

No. 20F3245 Large Conversation Tube, black silk covered. Shipping weight, 20 ounces. Price.....$1.75

NOTE—Our No. 20F3245 is the most popular size and style that we carry, the large diameter making it very effective and the silk covering giving it a handsome appearance.

Dr. Fossgate's Vibro-Phones, $3.50 and $4.00.

Dr. Fossgate's Vibro-Phone is an improved form of conversation tube which is provided with an internal diaphragm for dividing and intensifying the sound waves. No other conversation tube has ever been produced that magnifies sound to such a degree. Many people who have tried nearly every other hearing device with little or no benefit, find the Vibro-Phone entirely satisfactory. If you have tried other instruments without success, send for this new Vibro-Phone, and if you do not find it entirely satisfactory return it to us and we will return your money. These Vibro-Phone Conversation Tubes are very finely made throughout, fitted with spiral spring lining, hard rubber earpiece and special metallic mouthpiece finished in black enamel. Length over all, 40 inches. Diameter of tubing at large end, ⅞ inch, tapering to ½ inch at the smaller end. Diameter of mouthpiece, 2½ inches. Weight, 9 ounces.

No. 20F3246 Vibro-Phone Conversation Tube, covered with black mohair. Shipping weight, 20 ounces. Price.....$3.50

No. 20F3247 Vibro-Phone Conversation Tube, covered with black silk. Shipping weight, 20 ounces. Price.....$4.00

London Hearing Horns, $1.20 and $1.30.

The London Horn is constructed upon old and well known acoustic principles. It is made throughout of metal and finished in dead black. The peculiar shape and special design is such that the sound is intensified to the greatest possible extent, so that even sounds coming from a distance may be heard and understood. These instruments are small and while in use may be concealed in the hand, making them particularly desirable for use in public places. It is one of the few hearing instruments with which one can hear public speaking, and is used a great deal in church, public meetings, concerts and theaters. The London Hearing Horn is particularly adapted to those who are only moderately deaf, and to those who are very deaf we recommend the conversation tubes. Specialty houses often sell London Hearing Horns at from $8.00 to $15.00 each, but the instruments which we offer at $1.20 and $1.30 each are exactly the same instruments which are sold at such exorbitant prices by many dealers. Our prices are possible simply because we are satisfied to make the same small margin of profit on goods of this kind as we do on the most staple merchandise.

No. 20F3265 London Hearing Horn, small size, black finish, 2½ inches high. Shipping weight, 6 ounces. Price.....$1.20

No. 20F3267 London Hearing Horn, large size, black finish, 4 inches high. Shipping weight, 8 ounces. Price.....$1.30

Marchand Opera Glass, $2.75.

No. 20F3407 This opera glass has fine achromatic lenses, 1⅛ inches in diameter. The eyepieces are extra large. The center bar and draw tubes are gold plated. The cross bars and top are finished in black enamel. The covering is dark maroon leather, with two narrow beaded gold plated bands. Shipping weight, 12 ounces.

Price, with case.....$2.75

Pearl Opera Glass, $4.20.

No. 20F3412 This opera glass has achromatic lenses 1 inch in diameter. All metal parts are gold plated, and bodies, eyepieces and focusing screw are of fine Oriental pearl. A very handsome instrument at a very low price. Shipping weight, 10 ounces.

Price, with case.....$4.20

Colmont Pearl Opera Glass, $7.90.

No. 20F3417 This genuine Colmont glass is a very high grade instrument. Beautifully made throughout, fitted with the very best achromatic lenses 1 inch in diameter. Exquisitely finished in Oriental pearl and gold plate. No better opera glass made. As handsome as a piece of jewelry. Shipping weight, 14 ounces.

Price, with fine leather case.....$7.90

Lemaire Pearl Opera Glass, $10.35.

No. 20F3421 This genuine Lemaire Opera Glass is finished throughout in Oriental pearl and gold plate. It is finely finished throughout, fitted with fine achromatic lenses, and like all opera glasses from this famous maker, is as good as can be made. Diameter of lenses, 1⅛ inches (13 lignes). Shipping weight, 13 ounces. Price, with fine leather case.....$10.35

Lemaire Opera Glass, $4.80.

No. 20F3419 This genuine Lemaire instrument is of the same quality throughout as the No. 20F3421 glass, but is finished in black enamel and the barrels are covered with black morocco leather. The lenses are 1¼ inches (15 lignes) in diameter. Shipping weight, 15 ounces. Price, complete with leather case.....$4.80

NINE-POWER MAXIM BINOCULAR TELESCOPE, $19.25.

Only 1 inch thick, you can put it in your pocket.

No. 20F3460 This Maxim Binocular Telescope is the smallest and most compact high power instrument made, and is not only an exceedingly convenient but a very effective glass, having a magnifying power about 50 per cent greater than the ordinary field glass and yet occupying only a small fraction of the space and weighing only about one-third as much. It weighs, complete with case, only 13½ ounces and as the case measures only 4¼ inches wide by 5½ inches long and 1 inch thick, it is easily carried in the coat pocket. The instrument itself, when closed, measures 4¾ inches long by 3½ inches wide, and the barrels are ¾ of an inch in diameter. When extended for use, as shown in our illustration, the length is 6¾ inches. This glass is made by Maxim, the celebrated Paris telescope maker, and is of very fine workmanship throughout. It is fitted with the highest grade achromatic lenses, accurately fitted and adjusted. All metal parts are finished in black, and the barrels are covered with fine black morocco leather. The diameter of the field of view at 1,000 yards is 210 feet. The magnifying power is nine times, and the definition is exceptionally fine. Shipping weight, 22 ounces. Price, complete with fine silk lined morocco pocket case..... **$19.25**

CHEVALIER GLASS, $2.80.

No. 20F3430 All metal parts of this instrument are heavily nickel plated, and it is made with special hooded eyepieces. The barrels are covered with black morocco leather. This field glass measures 5½ inches high when extended, 4⅜ inches high when closed. The object glasses are 19 lignes in diameter. The weight is 16½ ounces, and the magnifying power three times. Shipping weight, 37 ounces.

Price, with leather case and strap.....**$2.80**

MARCHAND GLASS, $6.80.

No. 20F3440 This Field Glass, also from the famous maker, Marchand, of Paris, is provided with first quality achromatic lenses, carefully fitted; the draw tubes are finished in dead black and the trimmings are in bright black enamel and nickel plate. It possesses higher magnifying power than the $5.95 Marchand Glass, and the lenses are of better quality, giving finer definition. Workmanship and materials throughout are first class. It measures 5¾ inches high when closed, 7¼ inches when extended; object glasses 24 lignes in diameter, magnifying power five times. Weight, 22 ounces. Shipping weight, 47 ounces.

Price, with leather case and strap.....**$6.80**

COLMONT GLASS, $7.95.

No. 20F3445 The name "Colmont" is in itself a guarantee of quality, and we can recommend this instrument to anyone desiring a strictly high class field glass of the best optical qualities. It is strongly and substantially made, good materials and workmanship throughout, insuring strength and durability. All metal parts are finished in bright black enamel, the leather covering is the best quality of morocco, the eyepieces are extra large, making it an easy glass to use, and the fine achromatic lenses are noted for their power and clear definition. This field glass measures 6 inches high when fully extended, 5 inches when closed. The object glasses are 26 lignes in diameter and the magnifying power is six times. Weight, 25 ounces. Shipping weight, 51 ounces.

Price, with leather case and shoulder strap.....**$7.95**

JENA SPECIAL FIELD GLASSES

At $12.95 and $15.60

The Jena Special Field Glasses come from the same factory that makes the marvelously perfect Busch Prism Binoculars and the makers put into these field glasses exactly the same high class workmanship and materials that have made their binoculars famous. The lenses are ground from the wonderful Jena special glass, made under the patronage of the German government, and surpassing all other glass in its adaptability to the severe requirements of fine optical instruments. The perfect mechanical construction, combining strength, rigidity and durability, in conjunction with the superb optical qualities, makes these instruments absolutely the finest field glasses that can be manufactured.

No. 20F3454 Jena Special Field Glass, constructed throughout of brass, with all exposed portions beautifully finished in fine black enamel, and bodies covered with best morocco leather. The objective lenses are 26 lignes in diameter. Weight of instrument, 33 ounces. Height, closed, 6 inches; extended, 7¾ inches. Magnifying power, seven times. Shipping weight, 6[illegible]

Price, with fine velvet lined leather case and shoulder strap .....$1[illegible]

No. 20F3455 Jena Special Field Glass, constructed throughout of **aluminum,** otherwise exactly [illegible] No. 20F3454. All exposed metal parts are finished in fine black enamel, except the highly polished draw tu[illegible] are left in the natural silvery color of the aluminum, adding much to the attractive appearance of the [illegible] **The use of aluminum instead of brass reduces the weight of this instrument to only 19½ ounces.** Shipp[illegible] 50 ounces. Price, with fine velvet lined leather case and shoulder strap .....$1[illegible]

BUSCH "LYNKOP" PR[illegible] BINOCULARS, $31.4[illegible]

The Busch "Lynkop" Prism Binocul[illegible] noted for simple, rigid construction and optical qualities. Many binoculars ar[illegible] cately made that they soon become out[illegible] in the wear and tear of everyday use. [illegible] construction of these instruments. In [illegible] cross bars and bodies are cast in one [illegible] of aluminum alloy, assures permanent rig[illegible] accurate aligument of the optical ax[illegible] optical perfection results in wonderful [illegible] definition, every detail being clearly an[illegible] defined to the very edge of the field of vi[illegible] are finished in black enamel and the [illegible] covered with fine black morocco leather. [illegible] adjustable for pupillary distance and [illegible] with turning eyepiece for unequal [illegible] user's eyes and universal focusing a[illegible] **The objective lenses are ¾ inch in** [illegible] These instruments are compact in design [illegible] stand rough usage and in the every [illegible] ditions of long and familiar use, they [illegible] the most exacting tests.

No. 20F3464 Six-Power Busch "Lynkop" Binocular. The power of this instrument is sufficient f[illegible] use in hunting, racing, sports, yachting, ocean travel, and the everyday use of the tourist in the mountai[illegible] the sea shore. Having a larger field and affording greater steadiness than the higher powers, it is usually [illegible] **for universal use** and is especially desirable in regions where hazy, foggy or rainy weather is frequent. [illegible] view at 1,000 yards, 125 yards. Height, 3¾ inches. Weight, 14 ounces. Shipping weight, 40 ounces.

Price, with fine leather case and shoulder strap.....$1[illegible]

No. 20F3465 Nine-Power Busch "Lynkop" Binocular. This glass is preferred by many because of [illegible] power, and under favorable conditions, this higher power is often very desirable, but it must be remembered [illegible] increase in magnifying power is necessarily accompanied by a corresponding decrease in the field of vie[illegible] brilliancy. Field of view at 1,000 yards, 80 yards. Height, 4¼ inches. Weight, 16 ounces. Shipping [illegible] ounces. Price, with fine leather case and shoulder strap.....$1[illegible]

No. 20F3466 Twelve-Power Busch "Lynkop" Binocular. This instrument meets the demand for a [illegible] glass at a moderate price, but it must be borne in mind that a high power glass is more difficult, especial[illegible] inexperienced, to handle, and with haze, fog, rain or darkness it is not as effective as an instrument of lo[illegible] However, under favorable conditions, especially in the clear atmosphere existing throughout so much of o[illegible] country, this instrument will be found wonderfully efficient, especially for long range work. Field of view [illegible] yards, 60 yards. Height, 4¼ inches. Weight, 16 ounces. Shipping weight, 44 ounces.

Price, with fine leather case and shoulder strap.....$1[illegible]

BUSCH "TERLUX" PRISM BINOCULARS, $48 TO $73

The Busch "Terlux" Binoculars are the highest grade instruments that can be manufactured. The objective lenses are very large, 1⅜ inches in diameter, almost twice the size of ordinary prism glass objectives, resulting in great light gathering power. Optically, they are so perfect that it would seem no further improvement could be made in instruments of this type. No expense is spared in the construction of these instruments and they possess the greatest possible solidity and durability, combined with ease of manipulation and comparative lightness of weight. All "Terlux" glasses are adjustable for pupillary distance and the eyepiece of the right barrel is adjustable for possible differences in the user's eyes.

No. 20F3473 Six-Power Busch "Terlux" Binocular. Field of view at 1,000 yards, 110 yards. Height, 5⅞ inches. Weight, 23 ounces. Shipping weight, 58 ounces.

Price, with case and shoulder strap.....**$48.00**

No. 20F3474 Nine-Power Busch "Terlux" Binocular. Field of view at 1,000 yards, 80 yards. Height, 6⅞ inches. Weight, 25 ounces. Shipping weight, 64 ounces.

Price, with case and shoulder strap.**$48.00**

No. 20F3475 Twelve-Power Busch "Terlux" Binocular. Field of view at 1,000 yards, 60 yards. Height, 6⅞ inches. Weight, 25 ounces. Shipping weight, 64 ounces.

Price, with case and shoulder strap.....**$49.85**

BUSCH TEN-POWER "TERLUX" BINOCULAR.

U. S. ARMY AND NAVY MODEL.

Purchasers of Binoculars usually insist upon a glass as small in size and as light in weight as will serve their specific purpose, but in designing this instrument it has been thought best to disregard these limitations in size and weight, in order to provide a binocular affording the broadest field and the greatest possible illumination consistent with the power. The result is a glass, which, in its breadth of field, in the sharp even clearness of its definition and in the light gathering power of its lenses, is absolutely unrivaled either in the European or American market. **Because of its large objective lenses, 1¾ inches in diameter,** this glass is of special value in marine work, at night, or for use under adverse conditions of light and weather. Because of its power and the exceptional size and brilliancy of the field of view, it has proven of particular interest and value to the amateur astronomer and to nature students. For astronomical work, a tripod with adjustable clamp is practically a necessity and the tripod listed on page 751 is adapted to this or any of the other Busch Binoculars.

No. 20F3476 Ten-Power Busch "Terlux" Binocular. U. S. Army and Navy model. Field of view at 1,000 yards, 80 yards. Height, 7¾ inches. Weight, 29 ounces. Shipping weight, 4½ pounds.

Price, with fine leather case and shoulder strap.**$56.00**

HIGH POWER BUSCH "TERLUX" BINOCU[illegible]

There is a demand for extremely high power [illegible] noculars despite their greater size and weight. [illegible] increased necessity for holding the instrume[illegible] steady. Telescopes and Spy Glasses

HIGH GRADE ACHROMATIC TELESCOPES

Shown in These Four Illustrations $1.68 TO $3.60 ACCORDING TO SIZE

20F3505 Achromatic Telescope, diameter, 10 lignes; length, 8¾ inches; closed, 5¾ inches; magnifying power, 8 Shipping weight, 14 ounces. $1.68

20F3506 Achromatic Telescope, diameter, 12 lignes; length, extended, 11⅞ inches; closed, 6½ inches; magnifying power, 11 diameters. Shipping weight, 15 ounces. $1.90

No. 20F3507 Achromatic Telescope, diameter, 14 lignes; length, extended, 18½ inches; closed, 7⅛ inches; magnifying power, 13 diameters. Shipping weight, 16 ounces. Price $2.35

No. 20F3508 Achromatic Telescope, diameter, 16 lignes; length, extended, 23¾ inches; closed, 8½ inches; magnifying power, 16 diameters. Shipping weight, 24 ounces. Price $3.60

CLAMP AND TRIPOD FOR TELESCOPES OR BINOCULARS.

THIS DEVICE consists of a compact steel tripod with an adjustable telescope clamp. The tripod, which is constructed from steel tubing, stands 57½ inches high when extended and telescopes to a length of only 16½ inches. The clamp is adjustable for any size telescope, from the small 10-ligne glasses to the large 25-ligne instruments, and also takes binoculars of any size. The construction of this clamp permits the telescope to be swung around in any direction and also inclined at any angle. The effectiveness of any telescope or binocular is very greatly increased by the use of a tripod to hold it perfectly steady. Even with small telescopes a tripod is of great advantage, and with the larger sizes it becomes practically indispensable, as it is almost impossible to get good results with a high power glass unless it is supported on a tripod. This complete device consists of tripod and clamp, but we also sell the clamp separately, as it is so constructed that it may be attached to any ordinary camera tripod. If you already have a good strong, substantial camera tripod you do not need to purchase the complete device, as the clamp may be used with your regular tripod.

No. 20F3560 Telescope Clamp and Tripod, Complete. Shipping weight, 52 ounces. Price $6.75

No. 20F3561 Telescope Clamp only, ready for use with any good rigid photographic tripod. Shipping weight, 17 ounces. Price $3.70

THESE FOUR ILLUSTRATIONS showing the telescopes fully extended and the fifth illustration (Fig. 1) showing one of these same instruments closed will give you some idea of the general appearance and construction of these fine Achromatic Telescopes which we offer at $1.68 to $3.60 each, according to size. They are real telescopes, made in Paris, constructed throughout from brass, the bodies covered with fine morocco leather, the brass draw tubes highly burnished, the trimmings all lacquered, and provided with brass cup for front lens and dustproof sliding cover for the eyepiece.

Fig. 1. TELESCOPE CLOSED.

THESE TELESCOPES ARE HIGH CLASS INSTRUMENTS and should not be compared in any way with the cheap, trashy, worthless instruments that have been so extensively sold lately, so called "telescopes" made with paper tubes and window glass lenses, absolutely without value as telescopes.

IF YOU WANT A TELESCOPE, get a good instrument made from brass throughout and finely finished, covered with genuine leather and fitted with a fine quality of optically perfect achromatic lenses. These telescopes, as shown in the four illustrations on this page and quoted above at prices ranging from $1.68 to $3.60 according to size, are the biggest bargains that have ever been put out in the way of high class telescopes. They are made right all the way through and are guaranteed to give satisfaction.

ABOUT THE MAGNIFYING POWERS. If you find other dealers claiming higher magnifying powers for certain telescopes than we do for corresponding instruments, please bear in mind that it is a trade custom to overrate magnifying powers. An instrument of about 16 diameters, actual power, for example, is usually described as 20 diameters, but in our descriptions of telescopes we state only the actual powers.

SUNSHADE TELESCOPES, $4.75 AND $8.50

are fine achromatic telescopes made from brass throughout with burnished draw tubes, lacquered trimmings, bodies covered with morocco leather and provided with sunshade which can be extended forward in such a manner as to shade the object glass from the direct rays of the sun.

No. 20F3521 Sunshade Telescope. Diameter, 19 lignes; length, extended, 30 inches; closed, 10 inches; magnifying power, 18 diameters. Shipping weight, 40 ounces. Price $4.75

20F3522 Sunshade Telescope. Diameter, 25 lignes; length, extended, 37 inches; closed, 12 inches; magnifying power, 23 diameters. Shipping weight, 50 ounces. Price $8.50

HINGE CAP TELESCOPE, $3.95

No. 20F3515 This instrument is made by a Paris maker who is celebrated for the quality of his lenses, which are of higher grade and better quality than those of other telescope makers. This telescope is fitted with a special hinge cap, and sliding cover for the eyepiece. The draw tubes are of highly burnished brass, the trimmings of bronzed brass, lacquered, and the covering is of morocco leather. Diameter, 14 lignes; length, extended, 16¾ inches; closed, 6⅝ inches; magnifying power, 15 diameters. No better telescope of this size is made. Shipping weight, 17 ounces. Price $3.95

GENUINE BARDOU & SON RIFLE RANGE TELESCOPE, $17.75

20F3533 This Rifle Range Telescope, made by Bardou & Son, has the reputation of being the finest instrument of the kind in Paris. The magnifying power and definition are such that a bullet can be seen in clear weather at a distance of one-half mile. It is 36 inches long when extended, 11 inches when closed. The diameter of the object glass is 22 lignes, and the magnifying power is 33 diameters. It comes complete with leather caps for both ends and leather shoulder strap. Be sure to insist upon having the genuine Bardou & Son Rifle Range Telescope and the name engraved on the barrel, "Bardou & Son, Paris. Rifle Range Telescope. Power, 33 Times." Be sure you get the genuine when you buy a Bardou telescope. Shipping wt., 62 oz. $17.75

No. 20F3534 Astronomical Eyepiece for Bardou Rifle Range Telescope, increasing the power to 56 diameters, making a fine instrument for astronomical work. Shipping weight, 12 ounces. Price $2.70

EXTRA HIGH GRADE 25-LIGNE TELESCOPE, $19.85

20F3547 This is the most powerful telescope that we handle, a much higher grade than is to be found in the best optical stores in the United States. It is the work of a specialist who has made this instrument so much superior to ordinary telescopes, these lenses being ground from the finest optical glass, very carefully centered and accurately adjusted, and made to combine to the greatest possible extent the finest definition and the greatest magnifying power. For astronomical work this telescope forms an ideal instrument. Clearly and distinctly the interesting changes and mysterious spots on the surface of the moon, the wonderful mountain ranges and apparently extinct craters of the moon, the surface markings of the planet Jupiter, the wonderful rings of Saturn, the markings of the planet Mars, double stars, etc. For the observation of the sun it is provided in the slide cover of the eyepiece. The magnifying power is 45 diameters. The fine steel blue gunmetal finish will never tarnish nor rust and the draw tubes always work smoothly and easily. The body of the instrument is covered with a fine grade of pebbled morocco leather. This telescope is made with sunshade, and instead of the ordinary cap it is provided with a hinged metal cover which affords perfect protection to the object glass. The length, when extended, is 41½ inches; when closed, 12¼ inches. Weight, 50 ounces. The diameter of the object glass is 25 lignes (2¼ inches) and the magnifying power 45 diameters. Shipping weight, 4 pounds. Price $19.85

No. 20F3548 Celestial Eyepiece, to fit telescope No. 20F3547, for astronomical work, increasing power to 68 diameters. With all celestial eyepieces the image is seen inverted, a matter of no consequence in astronomical observations, but which of course renders such eyepieces unsuitable for terrestrial work. Shipping weight, 12 ounces. Price $5.20

Shipment, POSTAGE EXTRA, 1 CENT AN OUNCE, according to shipping weight.

POCKET COMPASSES

Watch Style, 18 Cents.

No. 20F3800 Pocket Compass, watch style, open face, bevel edge glass, paper dial, brass case. Diameter 1½ inches. Shipping weight, 2 ounces. Price... **18c**

Good Compass for 43 Cents.

No. 20F3803 This Watch Style Pocket Compass is made with silvered metal dial protected by heavy bevel edged glass, substantial brass case and provided with **sliding stop.** Diameter, 1¾ inches. Shipping weight, 3 ounces. Price..**43c**

Jeweled Compass, 98 Cents.

No. 20F3809 Our Watch Style Jeweled Pocket Compass is made with finely finished strong brass case with hinged cover, heavy beveled edge glass, silvered metal dial with full circle divisions and sliding stop. The needle is very sensitive and mounted with jeweled cap. Diameter, 2 inches. A compass that will last a lifetime and give perfect satisfaction under any conditions. Shipping weight, 5 ounces. Price **98c**

Fine Jeweled Compass, $1.65.

No. 20F3813 An extra high grade pocket compass, made throughout in the most careful and accurate way. Strongly made lacquered brass case, 2⅜ inches in diameter, with cap cover, extra heavy beveled glass, automatic stop and best grade **jewel mounted English bar needle.** Bottom of compass is oxidized in black, with white lettering, and the full circle divisions are raised to level of needle, engraved on a silvered metal dial Shipping weight, 6 ounces. Price **$1.65**

High Grade Compass, $2.15.

No. 20F3816 This is a very fine compact compass, very convenient for carrying in pocket, made like a watch with **nickel plated dustproof case,** spring hinged cover, opened by pressing on stem, best jewel mounted English bar needle, automatic stop and heavy beveled glass. The full circle divisions are engraved on a silvered metal dial. Diameter, 2 inches. Shipping weight, 4 ounces. Price.....**$2.15**

Explorers' Compass, $1.25.

No. 20F3824 This Compass is made with a special hand which, by rotating the bottom of the compass, can be caused to point in any direction. The user, after getting his bearings, revolves the bottom of the compass until the hand points exactly in the direction which he desires to go, making it a very practicable and efficient instrument in every way. The case is made of solid brass, very strong and substantial, fitted with a heavy beveled edge glass, silvered metal dial, with full circle divisions, jeweled cap to needle and sliding stop. Diameter, 1¾ inches. Shipping weight, 4 ounces. Price..**$1.25**

THERMOMETERS

Tin Case Outdoor Thermometers.

No. 20F3700 Japanned Tin Case Thermometer, ordinary grade, black figures on light metal scale; mercury tube. Length, 7½ inches. Shipping weight, 7 ounces. Price..... **12c**

No. 20F3703 Japanned Tin Case Thermometer, extra quality, heavier, better made and more accurate than the preceding style; **seasoned tubes of standard size,** mercury only; a good reliable thermometer for ordinary use. Length, 8 inches. Shipping weight, 8 ounces. Price..... **25c**

No. 20F3706 Guaranteed Tin Case Thermometer, best grade made ("Accuatus" trade mark), white figures and graduations upon black oxidized scale, thoroughly **seasoned tubes of large size,** good material and workmanship throughout, and **guaranteed absolutely accurate;** mercury only. Length, 10 inches. Retails everywhere at $1.50. Shipping weight, 17 ounces. Price..... **85c**

No. 20F3710 Polished Copper Case Thermometer for indoor or outdoor use. Red spirit tube graduated to 60 degrees below zero, in large, easy reading figures. Carefully tested for accurate readings. Length, 10 inches. Shipping weight, 16 ounces. Price..... **55c**

Distance Reading Thermometers.

In the Distance Reading Thermometers the scale and figures are **large and very distinct,** the tube **magnifies the column of red spirit,** and the temperature is therefore **easily read** at a distance of from 15 to 25 feet. They are very convenient and present a handsome appearance.

No. 20F3715 Distance Reading Thermometer, enameled metal case, large black figures, red spirit tube, 7⅝ inches long. Shipping weight, 9 ounces. Price **13c**

No. 20F3716 Distance Reading Thermometer, same style as No. 20F3715, but 2¾ in. wide by 9½ in. long, with extra large and plain figures, easily read at a distance of 25 feet. Shipping weight, 13 ounces. Price.. **17c**

No. 20F3720 First Quality Cabinet House Thermometer. Guaranteed seasoned tubes. White figures on black background. Reading from 40 degrees below zero to 120 degrees above zero. Fancy carved oak back. Length of scale, 8 inches. Can also be used out of doors. Shipping weight, 17 ounces. Price. **85c**

Storm Glass Thermometers.

No. 20F3730 The Old Original Poole's Barometer, a combined storm glass and thermometer, mounted upon varnished wood case, 3 inches wide by 9 inches long. This storm glass foretells the weather with a fair degree of accuracy for twenty-four hours in advance, and the thermometer shows correct temperature. Shipping weight, 13 ounces. Price..... **18c**

No. 20F3733 Antique Oak Storm Glass and Thermometer combined, mounted upon carved oak back with fancy beaded edge, black oxidized metal scale to thermometer with brass mountings, extra large storm glass with etched lettering. A reliable and handsome instrument. Shipping weight, 18 ounces. Price..... **58c**

No. 20F3736 Copper Case Storm Glass and Thermometer, case made of polished copper, silvered metal scale, high grade thermometer with standard size tube, mercury. A very serviceable instrument for outdoor use. Shipping weight, 15 ounces. Price..... **50c**

Fever Thermometers.

No. 20F3745 Fever Thermometer, 4 inches long, magnifying tube, self registering, in hard rubber case, very accurate and guaranteed. A certificate of accuracy given with it. Shipping weight, 6 ounces. Price.....

No. 20F3746 Fever Thermometer, 4 inches long, self registering, in hard rubber case, magnifying tube, carefully tested and guaranteed. **Registers in one minute.** A thermometer accompanied by certificate of accuracy. Shipping weight, 6 ounces. Price.....

No. 20F3747 Fever Thermometer, 4 inches long, self registering; in black enameled case with gold trimming and clasp; cannot be lost out of pocket; magnifying tube, very carefully tested and certificate of accuracy with it. Shipping weight, 6 ounces. Price.....

Dairy Thermometers.

No. 20F3760 All Glass Dairy Thermometer, 12 inches. **New, easy reading style,** made with extra large figures, special red lettering at scalding, cheese, churn freezing points. Red spirit column, easy to see. Ballasted with shot, stands upright in cream. Very accurate. Shipping weight, 10 ounces. Price.....

No. 20F3763 Dairy Thermometer, all glass, 9¾ inches. This thermometer floats in the cream in upright position. Scale is **hand graduated and very accurate;** **spirit** magnifying tube, making it very easy to read. Shipping weight, 12 ounces. Price.....

No. 20F3765 Extra High Grade Glass Dairy Thermometer in wire case to prevent damage. Length over all 12 inches. The scale is carefully lettered and gives all of the **standard readings** necessary to the dairy business. It is carefully seasoned and is magnifying on a white ground, so that the readings can be easily made. Length of scale, 10 inches. Shipping weight, 13 ounces. Price.....

Incubator Thermometers.

No. 20F3770 Incubator Thermometer on legs, extra large bulb and tube, very sensitive, white graduations on black oxidized metal plate. Absolutely accurate; 4 inches long. Shipping weight, 10 ounces. Price **45c**

No. 20F3772 Incubator Thermometer, same quality in preceding style, but triangular in shape, 4 inches long, will stand upright among the eggs with scale showing plainly. Shipping weight, 10 ounces. Price..... **44c**

No. 20F3774 Standard Incubator Thermometer. A certificate of accuracy with each instrument. Graduations engraved on both tube and metal back. Absolutely guaranteed. Four inches long, triangular in shape, to stand upright among the eggs. Shipping weight, 10 ounces. Price **95c**

No. 20F3776 Brooder Thermometer, straight pattern, 4 inches long. Shipping weight, 10 ounces. Price..... **18c**

Incubator Hygrometer.

No. 20F3778 This is a wet bulb thermometer graduated with humidity percentages. It shows by direct reading the exact humidity, and is much superior to the ordinary hygrometer because it is scientifically **accurate.** The common moisture gauge is not accurate. During the first week the moisture in an incubator should be 65 per cent, the second week about 60 per cent, the third week about 55 per cent, and at the time of hatching per cent. This hygrometer enables you to maintain degree of moisture with absolute certainty. Shipping 14 ounces. Price.....

BECKMANN DRAINAGE LEVEL, $21.95

No. 20F3950 Genuine Beckmann Drainage Level, a thoroughly practical, accurately constructed level, designed especially for the use of farmers and ditchers. As shown in the illustration, this level is provided with tripod and leveling head, by means of which the instrument can be perfectly leveled up and kept so when revolved.

The telescope is a powerful high grade achromatic instrument, 12 inches long with adjustable eyepiece, and made with fixed cross-hairs inside which cannot get out of adjustment. With this telescope, which has a magnifying power of 15 diameters, a leveling rod can be read at a distance of 500 feet. The telescope carries a carefully ground spirit level, adjustable by two nuts and so sensitive that a difference of ⅛ of an inch in 100 feet can be easily determined. The entire instrument is constructed of bronze metal, finely finished, with best workmanship throughout. Shipping weight, 19 pounds. Price, complete, with tripod and box **$21.95**

This illustration shows Level No. 20F3951, with horizontal circle.

Level No. 20F3950 is exactly the same except that it is not provided with horizontal circle.

$21.95

Drainage Level with Horizontal Circle, $26.00

No. 20F3951 Beckmann Drainage Level, as shown in illustration, same as No. 20F3950, but fitted with horizontal circle so that angles reading to single degrees can be turned off, thus making a very suitable instrument for builders. Shipping weight, 19 pounds. Price, complete, with tripod and carrying case..... **$26.00**

Shipping weight, Compact Telephones, 13 pounds.

PHONES, $3.75 A PAIR.

These telephones give perfect service on short lines between house and barn, office and residence, near neighbors, or between any two points not over 300 feet apart. They are made entirely of metal, so they are not affected by extremes of dampness or dryness, and the receivers and transmitters are remarkably efficient. All that is required in putting up a pair of these phones is four batteries (any kind, either wet or dry) and the necessary wire.

F5565 Battery Phones. Price, per pair, Shipping weight, 5 pounds..... $3.75

F5566 Battery Phones. Price, per pair, of Red Label Dry Battery..... $4.25
Shipping weight, 18 pounds.

TO PHONES, $9.90 A PAIR.

No. 20F5570 This Magneto Call Telephone is built for use on short lines of from 50 feet to 5 miles. It can be used with copper or iron wire or even with fence wire. It is equipped with a high grade transmitter, receiver and three-magnet pony generator. It is put up in a handsome and all parts are heavily nickel plated. Shipping weight, 48 pounds.
Price, per pair (two telephones)..... $9.90
Batteries are included with each pair.

HOW OUR TELEPHONES ARE MADE.

FIRST, they are made complete from start to finish, under one roof, in one factory. The generators, switch hooks, ringers, transmitters, receivers, cabinets, everything, even the smallest screws and washers which enter into the construction of our telephones, are made in one factory. Every part is interchangeable, and we can furnish at any time in the future, ten, fifteen or twenty years from now, exact duplicates of every part. Every part is interchangeable and we can replace, at any time, any part that may wear out in service or become damaged in any way.

TRANSMITTER. We equip all telephones with our latest improved solid back long distance transmitter, a transmitter that will talk farther and louder and plainer than any other transmitter made. The framework is built of heavy brass castings, making it absolutely solid, and the carbon cup is turned from a solid brass bar. The carbon diaphragm and the granulated carbon are the very finest grade of carbon that we can import from Europe, and before going into the transmitter are subjected to a special process of polishing which still further improves the quality.

RECEIVER. We equip all our telephones with our latest improved bi-polar receiver, a receiver that is the result of years of study, experiment and constant improvement. It is made with concealed connections, the coils are wound with **double silk** insulated magnet wire, the magnets are made from the highest grade **imported** magnet steel, and the cords, which are made extra heavy to prevent any possibility of cord trouble, are attached with a special wide contact which cannot work loose.

GENERATOR. Our generators are made from the best imported magnet steel, and are guaranteed to retain their magnetism and power longer than any other generator made. There is more steel, more wire and more power in our five-magnet generator than in any five or six-magnet generator on the market. The steel is the best imported magnet steel. The wire on the armature is the best double silk insulated magnet wire. Our five-magnet generator weighs 10½ pounds, and this weight is made up of the best imported magnet steel, the most expensive steel that can be bought, and the best double silk insulated copper magnet wire, the best magnet wire we can buy. **There is plenty of reserve power in this generator,** more power than you will ever need in actual practice. The resistance of an ordinary line, 25 or 30 miles in length, with thirty bridging telephones installed, **even if poorly constructed and put up with small wire,** is less than 60,000 ohms, and we absolutely guarantee our five-magnet generator to ring through 125,000 ohms resistance, more than double the work which it will **ever** be called upon to do, and from three to four times the work which it will ordinarily be required to perform. The gear wheels are solid brass castings with milled gears and reinforced spokes, made extra wide to insure strength and durability, and the shunt springs are of heavy German silver.

SWITCH HOOK. We equip all our telephones with our special long lever switch hook made with heavy German silver springs and pure platinum contacts. This hook is so constructed that no current whatever passes through the frame and there is no chance of a shock when removing the receiver from the hook. The greatest attention is paid to securing perfect connections, every joint being soldered, and the general construction and design of this switch hook is such as to prevent any possibility of trouble from this source.

RINGER. Our telephones are all equipped with the latest improved ringers, made with adjustable armatures, the coils wound with **double silk** insulated magnet wire, and with magnets of the best **imported** magnet steel, heavily nickel plated and polished.

LIGHTNING ARRESTER. Our New Two-Path Carbon Lightning Arrester is the most perfect protection from lightning, as well as sneak currents, that has ever been devised. This lightning arrester is made up of three heavy brass punchings, the binding posts sweated on to insure perfect contact, the carbon extra large, presenting ample surface to the ground plate, and the mica insulated washers carefully perforated so that the shortest possible air gap is maintained between the carbon and the ground plates.

PUSH BUTTONS AND CONDENSERS.

FOR 20 CENTS extra per telephone, we will equip any of our bridging telephones with a simple push button attachment, by means of which you can ring any subscriber on your line without ringing central, or you can ring central without ringing the bell of any other subscriber, provided every telephone on the line is equipped with push button. The push buttons can be used only on metallic lines; they will not work on grounded lines.

FOR 40 CENTS extra per telephone, we will equip any of our bridging telephones with condensers, which enable you to ring any party you want, no matter how many receivers are off their hooks. Condensers can be used on either metallic or grounded lines.

FOR 55 CENTS extra per telephone, we will equip any of our bridging telephones with both push button and condenser.

SERIES PHONES, $7.80 AND $8.20.

No. 20F5530

Series Telephones are made for use on lines where only two instruments are to be installed or for use on lines having a switchboard and an operator at a central office. Our Series Telephones are made throughout in the same perfect manner as our Bridging Telephones; every detail has exactly the same rigid inspection, and exactly the same high standard of excellence is maintained throughout the instrument. They are equipped with three-magnet generators and 80-ohm ringers, will talk over lines of any length, and the generators are guaranteed to ring a bell over a 30-mile single line.

No. 20F5532

TELEPHONE PARTS.

Transmitters.

No. 20F5600 Solid Back Transmitter, same as furnished with all our telephones. Absolutely guaranteed. See description on preceding page. Shipping weight, 20 ounces. Price $1.30

Receivers.

No. 20F5605 Bi-Polar Receiver, same as furnished with all of our telephones. Absolutely guaranteed. See description on preceding page. Shipping weight, 21 ounces. Price, each.. 92c

Generators.

The following generators are the same as furnished with all of our telephones. See description on preceding page. Shipping weights, 8½, 10½, 10½ and 13 pounds each, respectively.

No. 20F5610	3-Magnet Series Generator.	Price. $2.38
No. 20F5612	4-Magnet Series Generator.	Price. 2.77
No. 20F5614	4-Magnet Bridging Generator.	Price. 3.38
No. 20F5616	5-Magnet Bridging Generator.	Price. 4.00

Ringers.

The following ringers are the same as furnished with all of our telephones. See description on preceding page. Shipping weight, 18 ounces.

No. 20F5619	80-Ohm Series Ringer.	Price. $0.92
No. 20F5621	1,000-Ohm Bridging Ringer.	Price. 1.46
No. 20F5623	1,600-Ohm Bridging Ringer.	Price. 1.85
No. 20F5625	2,000-Ohm Bridging Ringer.	Price. 2.23
No. 20F5627	2,500-Ohm Bridging Ringer.	Price. 2.62

Telephone Bells.

No. 20F5635 Telephone Bells or Gongs, same as furnished with all of our telephones. Shipping weight, 7 ounces. Price, per pair, complete with brackets for attaching... 19c

Switch Hooks.

No. 20F5640 Long Lever Switch Hook, same as furnished with all of our telephones. See description on preceding page. Shipping weight, 11 ounces. Price..... 39c

Induction Coils.

No. 20F5654 75-Ohm Induction Coil, silk wound, same as furnished with all of our Compact and Southwestern type telephones. Price 35c

No. 20F5655	250-Ohm Induction Coil.	Price..... 43c
No. 20F5657	500-Ohm Induction Coil.	Price..... 58c

Shipping weight, any style, 6 ounces.

Extension Bells.

These Extension Bells may be connected with any telephone and placed at a point distant from the phone; for example, if the telephone is downstairs the extension bell may be placed upstairs or in any distant part of the house, or even in an outside building, so that the call may be heard even if no one is in the same part of the house where the telephone is located. The extension bell must be of the same ohms resistance as the telephone with which it is to be connected.

No. 20F5670	80-Ohm Extension Bell.	Price.. $1.59
No. 20F5671	1,000-Ohm Extension Bell.	Price.. 2.30
No. 20F5672	1,600-Ohm Extension Bell.	Price.. 2.78
No. 20F5673	2,000-Ohm Extension Bell.	Price.. 2.97
No. 20F5674	2,500-Ohm Extension Bell.	Price.. 3.13

Shipping weight for any style extension bell, 5 pounds.

Adjustable Arm and Transmitter.

No. 20F5680 Adjustable Arm, complete with transmitter and induction coil, same as furnished with all of our telephones. Shipping weight, 4 pounds. Price..... $2.15

Receiver Cords.

No. 20F5685 Receiver Cords, 36-inch, same as furnished with all our telephones. Shipping weight, 2 oz. Price, each.. 16c

Mouthpieces.

No. 20F5690 Composition Mouthpieces for transmitter, same as furnished with all of our telephones. Shipping weight, 5 ounces. Price, each..... 10c

Fuse Blocks With Carbon Lightning Arrester.

No. 20F5725 Single Pole Fuse Block with Carbon Lightning Arrester. Porcelain base and brass mountings, upright carbons, with mica insulation. Western Union or Postal style.
Price, each, with one dozen copper fuses..... 23c

No. 20F5727 Double Pole Fuse Block with Carbon Lightning Arrester, either Western Union or Postal style.
Price, each, with one dozen copper fuses..... 26c

One-Quarter Ampere Fuses.

Glass Insulators.

No. 20F5800 Pony Glass Insulator, for telephone, telegraph and fire alarm work. Packed 400 in barrel. Weight, per barrel ready for shipment, 300 pounds.
Price, per barrel, 400 insulators..... $6.27
Price, each, in less than barrel lots..... 1¾c

No. 20F5805 Double Groove Pony Glass Insulator, for telephone transposition work, packed 400 in a barrel. Weight, per barrel, ready for shipment, 300 pounds. Price, per barrel, 400 insulators..... $6.05
Price, each, in less than barrel lots..... 1¾c

Porcelain Insulators.

No. 20F5810 Porcelain Insulator No. 4½, new code; requiring 1 inch space between bottom and groove. Height, 1⅞ inches; diameter, 1½ inches; hole, 5-16 inch; groove, 7-16 inch.
Price, per 100 (Shipping wt., 15 lbs.)..... $0.70
Price, per standard package of 1,000 (Shipping weight, 120 pounds)..... 6.65
Order a few more than actually required to allow for breakage in putting them up.

No. 20F5815 Porcelain Insulator No. 5½, new code; requiring 1 inch space between bottom and groove. Height, 1 3-16 inches; diameter, 1 inch; hole, ¼ inch; groove, 5-16 inch.
Price, per 100 (Shipping weight, 25 pounds)..... $0.42
Price, per standard package of 1,000 (Shipping weight, 225 pounds)..... 3.90

Pony Oak Brackets.

No. 20F5820 Pony Oak Telephone Brackets, for telephone and telegraph line construction. Can be fastened to side of pole or house. Do not require the use of cross arms. Painted and dipped, weight, ½ pound each.
Price, per sack, containing 100 brackets (Shipping weight, 50 pounds)..... 90c
Price, each, in less than sack lots..... 1c

Pony Oak Pins.

No. 20F5825 1¼-Inch Pony Oak Pins, for telephone and telegraph line construction. Best quality. For use on cross arms, etc. Painted and dipped.
Price, per sack, containing 250 pins. $1.44
Price, each, in less than sack lots..... ¾c

Insulating Friction Tape.

No. 20F5835 Black Insulating Friction Tape, will not vulcanize with heat, nor crack nor harden and become defective by exposure and use; ¾ inch wide.
Price, per roll (½ pound)..... 13c

10 Pounds Wire Solder for $1.98.

No. 20F5855 Wire Solder, best grade, for all electrical work. Price, per pound..... $0.21
Per 5-pound coil. $1.00; per 10-pound coil..... 1.98

Tackle Block Wire Stretcher.

No. 20F5900 Tackle Block Wire Stretcher. Self locking at any point. This stretcher is provided with all malleable iron grapples for stretching barbed wire strands and woven wire fencing and telephone wire. It is also a complete safety rope hoist for ordinary use with which one man can raise 500 pounds. Weight, 4½ pounds. Price, complete, with 16 feet of ⅝-inch rope.. 78c

78c

Bull Dog Wire Grip.

No. 20F5905 Bull Dog Wire Grip. The more you pull the tighter it grips. Used with a tackle block with an ordinary wire stretcher, or with a hand spike and chain. It never slips, and does not injure the wire. Price..... 19c

Linemen's Climbers.

We guarantee these climbers to be made of the very best steel, perfectly tempered, finely finished, the very best, strongest and safest climbers made. We carry these climbers in standard lengths, namely, 15, 15½, 16, 16½, 17 and 17½ inches.

No. 20F5945 Linemen's Climbers, Eastern Pattern. Price, per pair, without straps..... $1.73

No. 20F5946 Extra Spurs, for Eastern Pattern Climbers. Price, per pair, without straps..... 50c

No. 20F5950 Climber Straps. These straps are furnished with a large leather pad, which prevents the climber from digging into the knee. Can be used with any make of climber, either Eastern or Western.
Price, per set of four..... 95c

Iron Box Bells at 23 Cents.

No. 20F6000 3-Inch Iron Box Bell for door and call bell use. The box is made of stamped sheet metal, has cast gong and German silver contacts. Guaranteed to ring clearly through 300 feet of No. 18 annunciator wire (150 feet, bell to battery) on one cell of battery; but to get the maximum sound at this distance two cells should be used. Add one extra cell for each additional 500 feet of wire. Where less than 200 feet of wire is used, one cell is amply sufficient. Shipping weight, 13 ounces. Price, each..... 23c

No. 20F6002 4-Inch Iron Box Bell. This bell is larger and heavier than the 3-inch and is intended for use where a louder call is necessary. Shipping weight, 16 ounces. Price, each.. 32c

Ecco Buzzers.

No. 20F6006 Ecco Buzzer No. 0. A very small buzzer. Size, 1⅝x1½x½ inches. Dust and bug proof, with spring cover, fully nickel plated, finely finished throughout. Platinum contact points. Will operate equally well on one or ten cells of battery. Shipping weight, 2 ounces. Price, each.... 38c

No. 20F6008 Ecco Buzzer No. 4. Same as above, but larger. Size, 3½x2⅞x1¼ inches. Japanned finish. Shipping weight, 10 ounces. Price..... 38c

Stand-By "Special" Dry Batt

The Stand-By "Special" is a dry battery low internal resistance and is designed especially for ignition work. This battery gives an unusually heavy discharge and a correspondingly hotter and fatter spark. It is suitable for use with stationary gasoline engines, automobiles and launches. It may also be used for operating small motors, lighting miniature incandescent lamps, etc. The Stand-By "Special" is without question the best ignition battery on the market. Each cell is guaranteed to test from 22 to 25 amperes.

Electric Alarm Clock.

$2.95

No. 20F6177 This instrument consists of a first class clock mounted on a metal base, which forms the container for an ordinary dry cell battery. The alarm is set the same as with any ordinary alarm clock, and the bell will ring until you get up and turn off the switch to stop it. It is also furnished with a pear shaped push at the end of a long cord, which may be left near the bed. By pressing this push a small incandescent electric lamp in front of the clock is lighted, thus showing the time at any hour of the night. Leave the end of the cord where you can reach it from the bed, and when you wake up in the night you can press the button and see what time it is. Copper oxidized finish throughout. Shipping weight, 6 pounds.
Price, complete, with battery.....$2.95

WESTINGHOUSE ELECTRIC IRONS

$3.60 TO $4.35

The convenience and comfort of the electric iron as compared with the old fashioned iron is so great that no one who has once used an electric iron would ever go back to the old fashioned method. The electric iron saves the trouble of changing irons, saves the time of attending to the fire, does away with superfluous heat from the stove, does away with the chance of soiling the clothes with smut from the stove, and the iron is always evenly heated, so there is never any danger of scorching the goods. In use this iron is simply connected to an ordinary electric light socket by means of the long cord and plug which comes with each iron. It heats in just a few moments and stays uniformly hot during the entire time it is in use. We consider the Westinghouse superior to any other iron on the market, and, moreover, the reputation of this manufacturer is such that the name is in itself a guarantee of quality. **Made only for currents of 100 to 107 volts and 108 to 115 volts. Be sure to state voltage.**

No. 20F6181 5-Pound Westinghouse Electric Iron. Shipping weight, 13 pounds. Price.....$3.60

No. 20F6182 6-Pound Westinghouse Electric Iron. Shipping weight, 14 pounds. Price.....$3.75

No. 20F6183 7½-Pound Westinghouse Electric Iron. Shipping weight, 15½ pounds. Price.....$4.15

No. 20F6184 9-Pound Westinghouse Electric Iron. Shipping weight, 17 pounds. Price.....$4.35

When ordering state the voltage of the current in your house. If you are not sure about the voltage, you can find out from your electric light company. All these irons are sent complete with stand and connecting cord, as shown in illustration.

Gas Engine Igniters, $10.80 to $16.60.

These igniters are low tension direct current magnetos, suitable for use with one or two-cylinder gasoline engines, either stationary or portable. They are guaranteed to be both mechanically and electrically perfect, and to outwear the engines they run. Most engines can be started on these igniters without batteries, although in some cases, especially with very large engines, it may be necessary to use a battery when starting. We furnish these igniters for either friction drive or belt drive, the friction drive igniters being mounted with the friction pulley in contact with the fly wheel, while the belt drive igniters are provided with a belt pulley to be run from the fly wheel. These igniters are furnished either with or without coil, as desired. When the coil is furnished it is mounted inside the magnets where it is out of the way, giving perfect protection against any possible injury. These igniters measure 7 inches high; length over all, 11½ inches; base, 6x6¼ inches. Actual weight, 20 pounds. Shipping weight, any style, about 26 pounds.

Jump Spark Coil, $3.30.

No. 20F6511 This high grade Jump Spark Coil is suitable for use on any one-cylinder engine, regardless of horse power. It gives a hot, fat spark with very little battery consumption, making it a most effective and economical coil. It gives best results with four cells of battery. Shipping weight, 5 pounds. Price.....$3.30

Make and Break Spark Coil, $1.30.

No. 20F6514 Make and Break Spark Coil with 8-inch coil, 1⅛-inch Norway wire core, copper windings, six layers of No. 14 wire. This is a first class coil, adapted for use with any make and break engine. Shipping wt., 3½ lbs. Price.$1.30

Launch Engine Spark Coil, $2.20.

No. 20F6516 Make and Break Spark Coil designed especially for use with launch engines. The coil is enclosed in a hard rubber shell filled with paraffin, and the ends closed so as to seal it perfectly. Six-inch coil, core 1⅛-inch Norway wire, copper windings, five layers No. 14 wire. We furnish iron hangers to suspend this coil under launch seat if desired. Shipping weight, 3½ pounds. Price, without hangers $2.20
No. 20F6517 Hangers for No. 20F6516 Coil.
Price, per set.....25

No. 20F6522 Quick Action Spark Plug, mica. Shipping weight, 5 ounces. Price.....54c

MEDICAL BATTERIES

$2.95 BUYS THIS ONE-CELL MEDICAL BATTERY

A FAVORITE BATTERY FOR HOME USE

THIS OUTFIT is shipped complete, all ready for operation as soon as it arrives. The dry cell is encased in a nickel plated cylinder, and the case is made of polished hardwood, fitted with strong clasp and handle for carrying. All metal parts are richly nickel plated, and the contact screw has a platina point, firmly held in place by locknut. We include with this outfit a complete equipment consisting of one pair silk battery cords, one pair metal handles, one pair sponge electrodes, two wooden insulating handles, one nickel plated foot plate, directions for operating the battery, and our special instruction book, "Medical Electricity at Home." Everything is complete, so that you have only to connect the cords with the machine, turn on the switch, and the battery is in instant operation, and you can begin treatments immediately. This is by far the most popular outfit that has ever been placed upon the market. Shipping weight, 8 pounds.

No. 20F6300 Our special One-Cell Medical Battery. Price, complete..... **$2.95**

$6.80 BUYS THIS BIG TWO-CELL MEDICAL BATTERY

BEST VALUE FOR THE MONEY ever offered by any dealer. Our sales on this battery have been enormous, and we have received the most gratifying letters from our customers expressing their entire satisfaction with the operation of this machine. It has a beautiful appearance, the case being made of hardwood, highly polished, and fitted with strong metal clasps and handle for carrying. The two dry batteries are concealed in the lower part of the cabinet, and the cover is provided with a compartment for carrying the various electrodes. All metal parts are nickel plated, and the entire outfit finished in the very best possible manner. The battery has a regulator for controlling the strength of the current, a pole changer for reversing the poles from positive to negative when desired, and a three-point switch which allows the use of either one or both batteries at the same time. We also include the complete equipment of one pair silk battery cords, one pair metal handles, one pair sponge electrodes, two wooden insulating handles, one electric hair brush, one metal foot plate, directions for operating the battery, and our special instruction book, "Medical Electricity at Home." For a moderate priced machine, one adapted for professional use as well as home treatment, this outfit stands absolutely without an equal. Shipping weight, 15 pounds.

No. 20F6305 Improved Double Cell Medical Battery.
Price, complete..... **$6.80**

THREE-CELL MEDICAL BATTERY

$9.95

THIS BATTERY is the most powerful and completely equipped machine on the market. It presents the acme of perfection in medical batteries. It is furnished with three dry cell batteries concealed in the lower part of the cabinet and connected by a switch so that either one, two, or three of the batteries can be used at one time. It has a pole changer for reversing the current from the positive to negative and there is also a circular carbon rheostat for regulating the strength of current, gradually increasing it from the very mildest vibrations to any strength desired. A special feature not found in other batteries is the wheeled rheotome which allows the interval between vibration to be regulated to any speed required. This feature is of the greatest importance in the treatment of many diseases by electricity. The outfit has a full equipment of one pair silk battery cords, two metal handles, one pair of sponge electrodes, two wooden insulating handles, one electric hair brush, one metal foot plate, complete directions for operating the battery, and our special instruction book, "Medical Electricity at Home." Size, 8x8x11 inches. Shipping weight, 23 pounds.

No. 20F6310 Our Three-Cell Medical Battery. Price, complete..... **$9.95**

ELECTRIC FLASH LIGHTS 48 CE

The Flash Light is not only a great convenience, but a practical necessity in every home. These lights are absolutely safe; they can be carried into a cellar where gas is leaking, or put into a keg of gunpowder without danger. They are always ready for instant use by simply pressing the button.

Every doctor needs one. Farmers find a thousand uses for them. Watchmen use them. Railroad men use them. Everybody finds use for them. On a camping trip they are indispensable. Automobile owners avoid danger of fire by using them around the car at night. When you go to bed, put one where you can reach it, and there will be no hunting for matches when you are called up in the night. There are no wires to go wrong, no smoke, no dirt, no oil, no danger, but a brilliant electric light, simply by pressing the button.

Cheap Flash Lights. The great popularity of flash lights has resulted in some very cheap and worthless instruments being placed upon the market. Unscrupulous importers have brought the cheapest and poorest kind of flash lights from Europe and offered them to the American public at prices which are apparently very low, but such goods are dear at any price. **We do not handle these cheap goods.** Flash lights, to be of practical utility, must be well made, and there is nothing on the market that approaches in quality the genuine Ever Ready Flash Lights which we handle.

= TO $1.5

THE NEW TUNGSTEN LAMP.

The Osram Lamp. Exact size.

ALL OF THE EVER READY "OSRAM" FLASH LIGHTS ARE MADE WITH THE NEW OSRAM TUNGSTEN which produces 500 per cent more candle power than the ordinary carbon filament lamp and uses less current. It incre life of the battery to a remarkable extent. The filament is made of a special finely drawn metal (tungsten), looped in manner as to allow great extent of incandescent wire and concentration of light. The glass bulb, as shown in the tion, is made with the tip on one side so that it offers no obstruction to the light, thus utilizing the full candle powe glowing filament. Cheaper flash lights are made with carbon filament lamps.

THIS NEW OSRAM ELECTRIC FLASH LIGHT REDUCED TO 9

Every Flash Light Comes Complete With Battery and Lamp.

Exact size of this illustration. The handiest thing you ever had around the house. No smoke, no dirt, no oil, no danger. Instant light whenever and wherever you want it. Just press the button. The smallest, most efficient and highest grade flash light made. Only 1¼ inches in diameter by 5⅜ inches long. This flash light is No. 20F6269, illustrated and described below.

Improved Ever Ready Lighter.

No. 20F6235 This is the latest and by far the best Pocket Lighter yet invented. It is very small, measuring only 5-16 of an inch thick, ⅞ of an inch wide, 2⅝ inches long, and it is finished in full nickel plate. It is operated by simply giving the little wheel shaped file about a one-fourth turn with the finger, as shown in illustration. This wheel shaped file revolves against a piece of the remarkable metal called pyrophorer, producing a shower of hot sparks which instantly ignite the wick. Shipping weight, 1 ounce.
Price 42c
No. 20F6236 The spark producing metal, pyrophorer, wears away in time. Extra pieces. Price, each.....8c

42c

EVERY PRICE WE QUOTE FOR FLASH LIGHTS IS FOR THE INSTRUMENT COMPLETE, INCLUDING THE BATTERY AND LAMP. The flash light is ready for use when you receive it, without purchasing any extra or additional parts of any kind.

Just below each flash light we quote prices for extra batteries which are necessary when the original battery becomes exhausted or worn out. We advise purchasers of flash lights to include one or more **extra** batteries in the same order, instead of waiting until the battery which comes with the flash light is worn out.

We also quote prices below each flash light on extra lamps, but these are only necessary when the lamp is accidentally broken, which sometimes happens.

Matchless Cigar Light

No. 20F623 Matchless Cigar light your cigar, ret anywhere, at wind, rain or raising of the friction between steel, producing ignite the end of does not produce simply glows, and the wind blows it burns. It is the that can be satisfi with a pipe. This is only 2¾ inch 1½ inches wide thick, as easy to watch. It is practically indispen man who ever has occasion to or pipe out in the wind. It is for use, does not require charging line or any other liquid and is destructible. Shipping weight, Price, complete.....

ELECTRICAL TOYS AND EXPERIMENTAL APPARATUS

Electric Engine, 48 Cents.

No. 20F6350 Electric Engine. This is a dandy little engine which will run at a speed of from 300 to 1,000 revolutions per minute. The speed can be regulated by the controlling lever, which also starts, stops, or reverses the engine. Well made and nicely finished throughout. Operates with one cell of battery. Size, 4 inches long, with 2-inch fly wheel. Weight, 10 ounces. Shipping wt., 16 oz.
Without battery.....48c

Electric Engine, 83 Cents.

No. 20F6351 Electric Engine, same as No. 20F6350 above, measuring 5¼ inches long, with 2⅝-inch fly wheel, best results with two batteries. Weight 21 ounces. Shipping weight 39 ounces. Price, without battery.....83c

Type B Motor, $1.98.

No. 20F6380 The Type B is similar in construction to the Little Hustler, but larger and more powerful, will drive a 6-inch fan at a high rate of speed and has improved pulley for operating small mechanical toys. Finished throughout in enamel with nickel plated trimmings and mounted on polished board. Height, 4½ inches. Weight, 3 pounds. Shipping weight, 5 ounces.
Without battery....$1.98
No. 20F6381 Four-Blade Fan, 6 inches in diameter, to fit Type B. Shipping weight, 2 ounces. Price.....38c
No. 20F6382 Wire to connect Type B to battery. Shipping weight, 2 ounces. Price.....38c

$1.98

High Speed Dynamo-Motor, $3.75

AND USED AS EITHER A DYNAMO OR MOTOR.

No. 20F6385 This Type S Dynamo-Motor is an exceptionally efficient and handsomely finished machine, of the semi-enclosed style, designed especially for experimental work in school laboratories as well as the home. The armature is made of steel laminations 1¾ inches in diameter, with six slots, and the shaft is ¼ inch in diameter. The windings are dipped in insulating varnish and baked, to insure the best possible results. The pulley is 1 inch in diameter, grooved. The brush holder has rocker arm for adjusting the brushes and is equipped with oil cups.

As a dynamo, this machine, on open circuit, when run at 1,000 revolutions per minute, has an output of nine volts. At maximum load the output is six volts, four amperes. As a dynamo, it may be used for electro plating, operating electric lamps, operating electric motors, fans, and various other appliances. It will light a single power lamps, or a larger number of smaller lamps. As used as a dynamo, this machine may be operated by hand power described below, or by means of a belt. It may be connected to a gas engine, a water motor, or any other source of power. Height, 5 inches. As a motor, this machine is operated by batteries, giving results on from four to six volts (three or four batteries, any kind, wet or dry). One cell of battery will drive this motor at a high speed, but for greater power cells are obtained by using four cells, or better still, two in series, two multiples. Shipping weight, 7½ pounds.
Without battery.....$3.75
No. 20F6386 Hand Power Machine, for operating the Dynamo-Motor when used as a dynamo. Made with a belt so that it will drive the dynamo at high speed with ease. Substantial and finely finished. Shipping weight, 15 pounds. Price.....$3.50

Little Hustler Motor, 85 Cents.

No. 20F6364 The Little Hustler Motor is the best toy electric motor ever built, and is finished in black enamel with nickel plated trimmings and mounted on a neat wooden base. It will drive a small fan at a high rate of speed and is fitted with a grooved pulley for operating mechanical toys, etc. It illustrates the principles of motor construction just as well as motors sold for several times as much money. Height, 3½ inches. Shipping weight, 16 ounces. Price, without battery.....85c

No. 20F6367 Four-Blade Fan, for use with the Little Hustler Motor. Shipping weight, 3 ounces. Price.....19c

Little Hustler Motor Parts, 68 Cents.

No. 20F6378 This outfit consists of all the parts for building the Little Hustler Motor, including the wires, screws, bolts, brushes, bearings, etc., all packed complete, with plain and simple instructions, enabling anyone to build a motor complete, a most interesting way to learn the principles of electrical construction. Shipping weight, 16 ounces. Price, complete.....68c

Semi-Enclosed Motors, $1.20 to $2.00.

Type K Motor.

No. 20F6392 Type K Semi-Enclosed Motor. This motor, as shown in the illustration, is one of the most complete and practical motors ever designed for experimental work. It is furnished with detachable protecting caps on each side of the armature, and these caps may be instantly removed so that every part of the motor can be inspected. It may be started, stopped or reversed with the **reversing lever** shown in the illustration. **The reducing gear,** also shown in the illustration, changes the high speed of the motor to low speed and power, when desired. Height, 3½ inches. Shipping weight, 22 ounces.
Price, complete, with reversing lever and reducing gear, but without battery.....$2.00

No. 20F6393 Type I Semi-Enclosed Motor, with reversing switch, exactly the same as No. 20F6392, except that it is not provided with reducing gear. Shipping weight, 20 ounces. Price, without battery.....$1.60

No. 20F6394 Type H Semi-Enclosed Motor, same as No. 20F6392, but not provided with either reducing gear or reversing switch. Shipping weight, 19 ounces. Price.....$1.20

No. 20F6395 Parts for Type H Semi-Enclosed Motor. A complete set of parts for the Type H Motor, including everything necessary for building the motor complete, with full instructions so that any boy can put the motor together, thus learning the principles of electrical construction. Shipping weight, 19 ounces. Price.....98c

Permanent Horseshoe Magnets.

We furnish these magnets in two qualities, the German and the English. The English magnets are much more powerful and will retain their magnetism longer than the German magnets.

Electric Thriller, 80 Cents.

80c

No. 20F6360 The Electric Thriller will create more fun and amusement than any other electric toy ever built. It gives a shock so **strong** as to make a strong man tremble, or so **mild** as not to injure a young child, the strength of the shock depending entirely upon the speed with which the handle is turned. It costs nothing to run and does not require a battery. Finished in bright red enamel with nickel plated trimmings, mounted on a neat wood baseboard. Shipping weight, 21 ounces.
Price, complete, ready for use.....80c

Electrohit, 75 Cents.

75c

No. 20F6355 The Electrohit is a scientific and experimental toy that will delight everybody. Lots of interesting, amusing and instructive experiments may be performed with this apparatus, all of which are explained in the little sheet of instructions which goes with each one. It can be used also as a medical coil in the treatment of nervous and other diseases. **The current can be regulated to any desired strength.** It works with one cell of dry battery. Shipping weight, 9 ounces. Price, without battery.....75c

Powerful Electro-Magnet, 78 Cents.

No. 20F6405 This Powerful Magnet, operated by batteries, serves not only as a source of amusement, but also as a practical demonstration of the principles of magnetism, as many interesting experiments may be performed with it.
With one good cell of dry battery, this magnet has a lifting power of 5 pounds; with two cells, it will lift about 10 pounds, and with four cells, if carefully handled, it will lift over 20 pounds. Shipping weight, 12 ounces.
Price, without batteries.....78c

ABOUT THE BATTERIES. Any of the motors described on this page may be run with **one cell** of battery, but to develop the **full power** of the larger sizes, more should be used. Two cells **connected in multiple** (carbon to carbon, and zinc to zinc) will run a motor three times as long as one cell. **Any battery may be used, wet or dry.** See preceding pages for batteries.

ELECTRIC RAILWAYS

Our electric locomotives, street cars, etc., are unusually high class goods. They are well and substantially made, the designs are mechanically and electrically good, and the finish of their construction has received the most careful attention. These goods are not to be confused with the cheap toy railways so extensively sold, as they are in every way more substantial, will run better, last longer and prove more satisfactory in every way than ordinary toys of this description. The electric current is conveyed to the trains by the rails, which are insulated from each other by wooden ties, the simplest and most practical method of operation. These cars can be run by ordinary dry cell batteries which can be purchased very cheaply, are simple to use and perfectly safe under all conditions.

No. 20F6335 Electric Locomotive. This locomotive is a faithful reproduction of regular steam locomotives used on railroads. It is operated by electricity which thereby avoiding the danger of explosion which is always present in locomotives operated by steam. It is equipped with the same reversing switch, which we use on 20F6320, a well made motor with power to haul a number of cars. Finely painted and decorated with a most attractive and practical locomotive measures 11 inches long, 4½ inches high; the driving wheels are 1 inch in diameter; the tender with wheels 1 inch in diameter. Total length of locomotive and tender. Requires from four to six batteries, according to number of cars to be hauled. 4 pounds. Price, without track or battery.....$5.40

No. 20F6320 Electric Motor Car. This car is furnished with a horseshoe type motor with special cast field and armature, a durable and simple motor, sufficiently powerful to pull a number of trail cars. The wheels are 1½ inches in diameter and the car itself measures 9½ inches long and 5½ inches high. It requires three dry batteries. Shipping weight, 2½ pounds.
Price, without track or batteries....$2.75

No. 20F6321 Trail Car. Same size and style as motor car No. 20F6320. Shipping weight, 1½ pounds. Price.....$1.10

No. 20F6338 Passenger Car, 13 inches long by 5 inches high, handsomely painted. Shipping weight, 2 pounds. Price.....$1.25

No. 20F6339 Combination Passenger and Baggage Car, same size and style as the passenger car shown above. Shipping weight, 2 pounds. Price.....$1.30

No. 20F6340 Freight Car, 11 inches long by 5 inches high, attractively painted. Shipping weight, 2 pounds. Price.....$1.05

No. 20F6341 Gondola Car, 11 inches long by 4 inches high. Shipping weight, 1½ pounds. Price.....85c

No. 20F6342 Caboose, 11 inches long by 6 inches high. Shipping weight, 2 pounds. Price.....$1.05

No. 20F6345 Straight Track. So constructed that there are no sharp edges to injure the hands, no soldered joints to work loose, and no screws or nails are required to put it up. This straight track comes in 12½-inch sections and is put up in packages of eight sections, sufficient to make a piece of straight track over 8 feet long. Shipping weight, 2 pounds.
Price, per package (eight sections)....78c

No. 20F6346 Curved Track. Put up in packages of eight sections, each section 12½ inches long, a package making a circle 3 feet in diameter. Shipping weight, 2 pounds.
Price, per package (8 sections).....78c

No. 20F6347 Switches. Put up in pairs, one right and one left. Shipping weight, 1¼ pounds.
Price, per pair.....$1.95

No. 20F6348 Crossing. Two sections of straight track arranged for a crossing. Shipping weight, 1 pound. Price.....59c

No. 20F6349 Reversing Trip for use with electric locomotive. This reversing trip may be attached to the track at any desired point, and when the locomotive reaches this point the trip catches the reversing lever of the motor so that the locomotive will reverse the direction of travel and return to the starting point. Shipping weight, 20 ounces. Price, per pair, one for each end of the line.....78c

NOTE—Very interesting tracks may be laid by purchasing several packages of both straight and curved track, also a pair of switches and the crossing.

Any kind of wet or dry battery can be used for operating these miniature railway outfits, but the dry battery will be found the most convenient, and we especially recommend the Stand-By Battery, size 2½x6 inches. The Red Label Dry Battery may also be used with satisfactory results.

ncrease Your Salary By LEARNI TELEGRAP

THIS BIG 264-PAGE "TELEGRAPH INSTRUCTOR" covers every branch of telegraphic work and is full of the most u and suggestions that have ever been put into printers' ink. It con plete instructions for setting up the instruments, line construction, installation of switchboards, care of batteries, etc. It gives the Morse code in hundreds of abbreviations that are in general use. The duties of every railroad employe, from the superintendent down to the engineer, conductor and are fully explained in this big book. There is information regarding switchboards that is worth money to any operator.

THE AUTHOR OF "THE TELEGRAPH INSTRUCTOR," Mr. G. M. Dodge of Valparaiso, Ind., is an old and expert telegra with years of varied experience in both railroad and commercia service. He is now holding a responsible position with the Western Union Telegraph Company, and is president of the largest school of telegraphy He is also an associate member of the Association of Railroad Superintendents of Telegraphy. Mr. Dodge is an authority on all matters pertai telegraph.

YOU CAN BECOME A STATION AGENT, equipped with all the knowledge of an old time railroad man, as soon as you have m contents of "The Telegraph Instructor." The various train signals and interlocking vices are fully explained and illustrated by diagrams. Much other valuable information, such as the Block system for handling trains, and many ern systems and devices used in railroading are fully explained in this big book.

BIG SALARIES are paid to telegraph operators who become expert. Twenty years ago there were less than 25,000 operators in the count they number more than 75,000, as compared with 120,000 lawyers, 115,000 preachers and 150,000 doctors. The demand for tele ators is rapidly increasing every day and the beginner usually receives a salary of $50.00 to $60.00 per month. Positions with commission houses m of Trade, where accuracy and speed are absolutely necessary, pay as high as $4.00 and $5.00 per day, and the chief dispatchers of many railroad annual salary of thousands of dollars and have the very best opportunity for promotion to the highest executive offices of the company.

No. 20F6477 "The Telegraph Instructor," just as illustrated and described above. Price.....(If mail shipment, postage extra, 7 cents

8 OUR IMPROVED Learner's Telegraph Outfit

IPROVED 4-OHM LEARNER'S INSTRUMENT, as included in this outfit, consists of a full size key and sounder, mounted d quarter sawed oak base. The key is made with nickel bar, latest thumbnut adjustment, composition and switch handle, platina contact points and cast frame finished in black. The sounder has covered ound to 4 ohms resistance. The sounding bar and sounder frame are lacquered brass and made with mbnut adjustments. The sounder frame and key base are each cast, which insures an easy working, strument which cannot get out of adjustment.

OPERATOR'S MANUAL" which we include free of charge with this outfit, is a sixteen-page book, containing full instructions for setting up and opera- outfit. It also contains instructions for telegraphing, explaining the Morse code fully, gives a number exercises and a lot of general information.

OF6451 Learner's Telegraph Outfit, with improved instrument, complete as illustrated bed herewith. Shipping weight, 5 pounds. Price..... **$1.48**

OF6453 Our Special Learner's Telegraph Outfit, consisting of 4-Ohm Learner's Instrument with nnecting wires, etc., just exactly the same as outfit No. 20F6451 except that instead of the small s Manual," we include a copy of our big 264-page book, "The Telegraph Instructor," as and described above. Shipping weight, 5¾ pounds. Price..... **$2.10**

OF6455 Our Double Learner's Telegraph Outfit. This outfit consists of two of our 4-ohm instru- r cells of dry battery, and 300 feet of insulated copper wire. With this outfit the instruments can d in two different rooms in the house, and two operators can practice the Morse alphabet, d receiving messages from each other. Shipping weight, 19 pounds. Price, complete..... **$3.90**

OF6461 Improved 4-Ohm Learner's Instrument, without battery or connecting wire. eight, 42 ounces. Price..... **1.35**

OF6463 Improved 20-Ohm Learner's Instrument. This is exactly the same as our regular 4-Ohm Instrument, except that the magnets are wound to 20 ohms resistance, making the instrument suitable of any length up to 15 miles. No connecting wire or battery is included. Shipping ounces. Price..... **$1.65**

NATIONAL AUTOMATIC TELEGRAPH TRANSMITTER

$14.60 AND $18.25

The National Automatic Telegraph Transmitter consists of a high grade sounder and key, together with a clockwork motor mounted on a polished oak base, one copy of "The Telegraph Instructor," as illustrated above, and a complete series of twenty-seven records. This outfit constitutes an automatic teacher by which one may become an expert telegraph operator in a comparatively short time. It is in mechanism that a child can operate it, and it is of equal value to one who knows nothing of telegraphy and to r who is well advanced in the work.

RECORDS consist of long strips of paper tape which contain perforations corresponding to the dots and dashes of the Morse alphabet. As the tape is drawn through the apparatus by the clockwork circuit is broken and closed in accordance with the perforations of the tape, causing the sounder to reproduce the ist exactly as though an expert operator were working the key. The complete series of twenty-seven records com- inning exercises, newspaper reports, train orders, commercial and railway messages, wire conversation, market rvice messages and many miscellaneous exercises tending to make the student proficient in every field of telegraphy. rds may be reproduced at any desired speed from five to forty words per minute, and they are superior to all raph records because they are exact reproductions of messages sent by the human hand. Each record was orig- fe by an expert operator sending into the recording perforator by means of an ordinary telegraph key. Experienced will tell you that this human quality is a very important factor in mastering telegraphy.

S EXPERTS. The National Automatic Telegraph Transmitter will make you an expert operator. You learn to send accurately by listening to records which have been made by an expert telegraph and which reproduce the characters just exactly as they were sent by him. Each record contains from 300 to and there are twenty-seven different records in the outfit, making a total of more than 10,000 words.

OF6490 The National Automatic Telegraph Transmitter complete, including key and sounder, clock work motor, n records, "The Telegraph Instructor" and two Stand-by dry batteries. Shipping weight, 21 rice..... **$18.25**

OF6491 The National Automatic Telegraph Transmitter, exactly the same as No. 20F6490, but ey, sounder or batteries. Shipping weight, 14¾ pounds. Price..... **14.60**

uote this outfit without key, sounder or batteries, because many of our customers already own first class keys ers, and any high grade key and sounder can be used in place of the ones which are ordinarily supplied.

WIRELESS TELEGRAPH HAND BO

OPERATORS' WIRELESS TELEGRAPH AND T PHONE HAND BOOK. By Victor H. Laugh

No. 20F6478 The most complete treatise on the subject yet published. Gives the historical work of early investigators up to the present day. Describes in detail the construction of an experimental wireless set. How to wind spark coils and dimensions of all size coils. The tuning of a wireless station is fully explained with points on the construction of the various instruments. A special chapter on the study of wireless telegraphy is given and the rules of the naval stations with all codes, abbreviations, etc., and other matters interesting to one who takes up this study. The most difficult points have been explained in non-technical language and can be understood by the layman. Wireless telephony is given several chapters and all the are shown with photographs and drawings. By work and a close study of this treatise one all the details of wireless telegraphy. Size, bound in cloth. 180 pages. Fully illustrated, additional full-page halftone illustrations sho stallation of Wireless on the U. S. warship liners. Price.....

SCHOOL DESKS

$1.55 For No. 5 or No. 6

$1.65 For No. 3 or No. 4

SCHOOL DIRECTORS, COUNTY COMMISSIONERS, SCHOOL BOARD COMMITTEES, TEACHERS, everyone having anything to do with the buying of school furniture, note our new school furniture proposition. See the astonishing prices we quote, very much less than this line of goods has ever before been offered.

This is the Handsomest, Most Strongest, Lowest Price, Most Satisfactory Desk Ever Offered.

$1.75 For No. 1 or No. 2

OUR SIMPLEX SCHOOL DESK,

illustration of which is here shown, is the best school desk manufactured at any price. It is the acme of school desk building, excelling in simplicity of construction, quality of materials, beauty of outline, ease of operation, noiselessness and durability any school desk ever before manufactured. Our whole aim in building this desk has been to reduce the number of parts to the minimum, thus reducing first, the cost, and secondly, **the liability to get out of order.** We have succeeded in reducing the price to a level never before attained, and so simple and wonderful is the construction of the Simplex School Desk that it is absolutely impossible for it to come apart or get loose and noisy, no matter how long it is used.

GENERAL DESIGN.

No desk was ever placed in the schoolroom which is more beautiful in appearance than the Simplex. While striving for the beautiful, however, we have kept constantly in mind the needs and the comfort of the growing child. In graceful contour of the back and seat we offer a desk conforming to the natural lines of the body, the most comfortable school seat ever devised. The castings are in attractive patterns and the writing surface is at the proper height and slightly tilted at the approved angle.

SEAT HINGE THE VITAL POINT IN A SCHOOL DESK.

We have produced a hinge which is absolutely free from complicated parts, thus eliminating the possibility of breakage, wear and noise making. We have but one detached part in the hinge of the Simplex seat, the buffer spring. It will wear a lifetime and still be as good as new. The spring is tempered by a special process and is so surrounded and protected by other parts that it cannot be strained, weakened, broken or gotten out of place by any sort of usage. This arrangement of the spring makes the movement of the seat the easiest and most noiseless of any school desk on the market. The Simplex hinge is, in fact, frictionless, noiseless and as near perfection as human skill can produce it.

THE CASTINGS.

The castings used on the Simplex Desk are attractive in design and finish. They are made with the greatest care, using only the best grades of new iron. No old or scrap iron is used, which accounts for their remarkable toughness and elasticity. The half rounded shape is a feature which gives our castings great strength. The finish is two-coat japan, thoroughly baked, insuring a smooth, glossy, permanent finish.

THE WOODS.

All the wood used in the Simplex School Desks is selected rock maple, thoroughly seasoned and kiln dried. Under no circumstances do we permit the use of wood which has not been as thoroughly dried as the most modern woodworking methods require. The pieces comprising seat, back and top are carefully milled, tongued and grooved, glued under pressure, and then so thoroughly sanded that the joints are practically unnoticeable and will not come apart. In finishing we use the best three-coat work—one coat of heavy filler well rubbed in, one coat of the best shellac well sanded, and a heavy coat of varnish, which guarantees a handsome and lasting finish. Seat, back and top are attached to the iron framework by means of lugs, ribs and screws—a method of construction which has stood the test of time, and which, though simple, gives the strongest desk it is possible to devise.

Ink wells are not furnished with the No. 5 and No. 6 desks.

BINDING GUARANTEE

WE GUARANTEE THE WORKMANSHIP ON OUR DESKS TO BE FIRST CLASS IN EVERY RESPECT, AND THE MATERIALS TO BE THE BEST THAT CAN BE PROCURED; AND IF NOT SATISFACTORY THEY MAY BE RETURNED AT OUR EXPENSE.

This wonderful desk offer is only a sample of what we will save throughout our entire line of school furniture and supplies. SEND FOR SCHOOL FURNITURE CATALOG.

TABLE SHOWING SIZES, PRICES AND SHIPPING WEIGHTS OF OUR SCHOOL FURNITURE.

Our school seats are quoted f. o. b. cars from factory near Grand Rapids, Mich., or from warehouses in Chicago and St. Paul. School desks are shipped knocked down, and your freight agent can give you the rate per 100 pounds from Grand Rapids, and this table will enable you to figure quite closely the total weight and freight charges of the outfit desired.

Watches Diamonds Jewelry

OLD GOLD AND SILVER ACCEPTED BY US in exchange at the highest market price for any article in our Jewelry Department. We allow 72 cents per pennyweight for 18-karat gold, 56 cents per pennyweight for 14-karat gold and 40 cents per pennyweight for 10-karat gold. In all cases we hold the old metal until we are instructed by our customers that the value is satisfactory.

OLD SILVER ACCEPTED in exchange at the rate of 45 cents per jewelry, watches, diamonds, etc. In a hold the old metal until we are instructed by our customers that the value is a

ENGRAVING. Cash in full must accompany all orders when goods a with engraving. We charge for engraving in script watches, etc., 2½ cents per letter; in Old English, small, 5 cents per letter.

INTERSTATE CHRONOMETER.

If you wish to own the most accurate running watch manufactured in the United States, by all means buy our Interstate Chronometer. We conscientiously recommend it. This is a broad statement. We make it only after long experiments and comparisons with the most expensive and perfect watches sold by others. It is illustrated and described complete in gold filled cases on page 768, as the best watch according to grade manufactured in the United States, and we sell it to you at little more than one-half of what inferior watches bring on the market. This wonderful money saving is brought about by the fact that we are not controlled by any trust or fixed price license, and are satisfied with a very small profit, just large enough to be consistent with good business principles. Instead of paying for a name and a license, you are getting your money's worth in fineness of finish, accuracy in running and perfection in construction, when you buy this watch from us.

REGARDING OUR WATCH MOVEMENTS AND WHY WE CAN SEND WITH EVERY ONE OUR FIVE-YEAR GUARANTEE.

An accurate, true running watch is very valuable, and we consider the handling of this delicate piece of mechanism of great importance. We therefore buy every movement listed in this catalog from one of the regular appointed distributing agents or direct from the manufacturers, according to the make.

So that every detail can be thoroughly investigated, we have here a large force of skilled watchmakers who carefully examine, time and regulate every watch that passes through our hands. Unless we did this we would be unable to give our five-year binding guarantee with the watches we sell.

When you order a watch from us the movement is taken from its original du proof box that the factory used. It is then adjusted and regulated properly placed in the case that you select. In regulating the movement, we set and th chronometer, an instrument for accurately measuring time, and if we find the watch is according to its grade, we pass it as a watch that will give satisfacti terms of our guarantee; if found inaccurate according to the grade, we reject it regulated so that it will run accurately.

We then pack this watch for shipment by our own special method, a metho the very best ever seen or heard of by the various express companies and leadin ufacturers who have visited our plant to investigate it. Our system of packing w that while the goods are in transit they are absolutely protected against in falling, shaking or dropping.

We would not send our five-year guarantee with a watch unless we knew th had been practically eliminated. As a result we rarely, if ever, have custom about any of the watches they receive from us. We sell hundreds of the thousands of testimonials that we have received testify as to the satisfaction are receiving.

You cannot afford to buy anywhere else. Consider the money we save you, of the manufacturers of our movements and cases and the perfect manner in whi watches; also the fact that you receive our five-year guarantee with your pur

OUR GUARANTEES AND WHAT THEY MEAN TO YOU

In offering you our stocks of watches, diamonds and jewelry we are not only giving you the opportunity of selecting from the best assortments in the country at prices that mean a substantial saving on every transaction, but we are at the same time assuring you of absolute protection against disappointment—a protection that every experienced purchaser of watches, diamonds and jewelery knows how to appreciate. Without attempting any lengthy explanation of the widely different qualities and values offered in jewelry, we simply publis fitting introduction to this department of our catalog our ABSOLUTE GUARANT our various lines of watch cases, watch movements, diamonds and jewelry. We when you order from us, you will receive EXACTLY WHAT OUR CATALOG and in each case a LARGER MEASURE OF VALUE FOR YOUR MONEY COULD POSSIBLY OBTAIN FROM ANY OTHER FIRM.

WATCH CASE GUARANTEE.

Where a watch case in this catalog is described as guaranteed for life, twenty-five, twenty, ten, or five years, it applies to gold filled watch cases, and means that the case is covered by plates of solid gold over an inner plate of hard composition metal, and the gold is guaranteed to wear and retain its perfect color for the time stated, and if the gold in any piece or part of the case wears through within the stipulated time mentioned in the description and in the guarantee, the case will be replaced with a new case free of cost to you.

WHAT WE MEAN BY OUR LIFE GUARANTEE IS SIMPLY THIS:

Any watch case warranted and accompanied by our life guarantee can be returned to us at any time should the gold wear off exposing the inner composition metal, and we will, immediately upon its receipt, exchange it for a brand new one, free of all charge and return the transportation charges. This is in reality insuring your watch case for the term of your natural lifetime.

MOVEMENT GUARANTEE.

Where we guarantee a watch movement for five years, the guarantee is absolute and binding upon us to replace or repair, free of cost to you, any piece or part of the watch movement that may become defective by reason of imperfect material or workmanship at any time within five years; and while this guarantee does not include removing dirt, cleaning of movement or repairing, free of cost, any piece or part that may be broken or damaged through careless or improper handling, it is the widest, longest and strongest watch movement guarantee ever issued, and if you buy any movement from us and on the last day of the fifth year the watch stops or fails to keep accurate time, and this failure is in any way due to imperfect material or workmanship, it will be repaired by us or replaced with a new movement free of any cost to you. **Our written guarantees which accompany every watch and movement** are so written over our own signature that there can be no question of your absolute security in the purchase of any watch case, watch movement or complete watch from us.

TARNISHED JEWELRY.

Jewelry, like any metal, to be kept bright must be washed and polished from time to time. Solid gold, gold filled and rolled plate jewelry will sometimes tarnish, especially when it is not continually worn, and allowed to lie unused in boxes or bureaus, etc. Coal gas, the contact of matches, sulphur, rubber and acids will cause tarnish or oxidization on gold and silver. All good jewelry can be made like new by the application of hot water, soap and a little ammonia in the water. Scrub the article with a brush, rinse off, submerge in alcohol, then dry in boxwood sawdust, polish by a rub up with a piece of chamois, a piece of Canton flannel or any soft cotton fabric. We can supply you with a box of boxwood sawdust for 10 cents; it will last for years. Order by number.

No. 4F500 Boxwood Sawdust. Price, per box..... **10c**

WATCH CLEANING AND OILING AT ONE-HALF THE PRICE ASKED BY OTHERS.

Remember that a watch should not run longer than one and one-half years without having the oil cleaned off and fresh oil supplied. An engine or sewing machine will be oiled several times a day, but we have known people to carry a watch for ten years without having it cleaned or fresh oil applied. Usually a movement thus treated **is of no value, being entirely worn out.** Our charge for cleaning and oiling is **75 cents.** The regular price is **$1.50.**

WATCH REPAIRING.

We have a thoroughly equipped mechanical department, which is fitted with all the latest tools and appliances for the repairing of all kinds of watches. Our charges are about one-half what is usually charged and the work will be done in a very superior manner. We cannot give an accurate estimate of the cost of repairs without a thorough examination of the work. Our charges are merely enough to cover cost of material and labor. In sending a watch for repairing be sure to send it by registered mail, mark on the outside of the package your name and address, and write us at the same time that you have done so, giving full explanation regarding trouble with watch. **Do not fail when sending anything to us for repairs to plainly write your name and address on package. When watches are sent with instructions to put them in good order we will do everything necessary to put them in good running condition,** but when the instructions are to repair a certain particular part of a watch, the repairs will be strictly confined to the part or parts specified and we cannot hold ourselves responsible for anything further than may be necessary to insure correct running of the watch. In sending for any part of a watch, if your intention is to fit same yourself, do not instruct us to fit same, but kindly use the word "select." This prevents misunderstanding your wishes.

SHIPPING DIRECTIONS

When shipping watches or jewelry for repairs mark plainly as follows: "Sears, Roebuck and Repair Department, Chicago, Ill.," and in co corner put your own name and address, prefix "From." Also enclose a card in the package name and address and stating that the watch If you send a watch or small piece of jewelry to put letter postage (2 cents an ounce) on writing on the card put inside the package ma to first class mail charges. It is safer to send mail anyway, and it would be better to register additional. The government guarantees safe de istered mail. At the same time you send the pa a separate letter, stating that you have sent a w or express) for repairs, what repairs you want you wish us to quote cost of repairing.

MERCHANDISE ENGRAVED ING TO INSTRUCTION

We must caution you that under no circum exchange or return money on any merchandise engraved according to instructions with letters, grams. The merchandise is of no value to us so marked. Our goods are as shown and we them as carefully and as accurately as we co should you desire any article engraved you must own risk. But remember, we guarantee the di article in our catalog to be exactly as describe willing at any time to return your money, togeth portation charges both ways, whether the goods not when the quality proves different than is

MAIL AND EXPRESS SHIPM

We recommend sending watches by express, receive as hard usage as when sent by mail, show that 90 per cent of breakage in watches in transit through the mails; therefore, we ag to have watches shipped by express, and all othe by mail, as it is perfectly safe and far the che is 1 cent per ounce. A watch packed for sh from 6 to 8 ounces; chains, rings and other w jewelry, about 2 ounces. Packages amounting should be registered, which costs 10 cents extra, safest method. **25 cents will carry any watch the United States by express.**

FANCY DIAL, 90 CENTS.

We show here an illustration of the fancy dial and gilded hands that we furnish on different watches quoted and illustrated on the following pages, at 90 cents extra. Fancy dials cannot be fitted on every watch in our catalog. We caution you to order them only on watches where it is clearly stated on the page that we can furnish fancy dials. The illustration merely gives you an idea of how the fancy dial will look. They are not all exactly as this picture shows, as they vary in design. They come in various tints, with floral decorations and gold work, and all of them beautiful. We furnish any size, 18, 16, 12, 6 and 0-size for American watches.

18-SIZE THIN MODEL NI... OPEN FACE WATCH.

A new watch manufactured by one of the most representative watch makers in the East for $1.59. This watch is guaranteed for a term of one year; we warrant it to run well and to run accurately for this time. It is stem wind and stem set, is jeweled, has fine porcelain dial, the case is nickel open face, is thin 18-size model, the exact same size as illustration shows. We likewise show the illustration of the movement. It is made of strong metal plates; the same watch under certain names brings at any retail store from $2.50 to $3.00. This astonishing offer is made by us and can be made by us only by reason of our omitting the manufacturer's name. Please don't ask it. You will observe we have carefully erased the manufacturer's name from the plate of the movement as well as from ... It runs from thirty to thirty-six hours with but one ... We know that you will be more than pleased with it, ... that you will be much surprised. HORSE TIMER AT A CUT PRICE.

New, up to date, solid nickel, Bassene style, stem wind, jeweled Horse Timer. This timer is operated from the crown by merely pressing down, the same mechanism as used in horse timers worth hundreds of dollars. It has start, stop and fly back arrangements; also, as illustration shows, has a minute register. The escapement is jeweled, increasing the accuracy of the timer. The case is solid nickel, new Bassene style. Bright polish. The movement is imported from Switzerland, straight line cylinder escapement.

The lever movement, however, is the one we advise you to select. This principle, that is, the **lever escapement principle,** in watch making is accepted as the most accurate and most dependable. We always advise purchasing lever escapement movements.

No. 4F12020 Price..... **$3.92**

No. 4F12022 **Same style as No. 4F12020, but with fine jeweled lever escapement movement.** Price..... **$5.95**

We illustrate here for $18.42 the very latest 16-size 17-jeweled adjusted high grade movement fitted into a John C. Dueber case, the new dust and dampproof, swing ring style, plain polished, guaranteed for twenty years, and will fill your orders promptly. Complete open face watch for $18.42.

The movement illustrated is the celebrated and popular 16-size 17-jeweled, is adjusted, ruby and sapphire jewels in settings, closely timed, double sunk glass enameled dial. A good timepiece and one that will give eminently good satisfaction.

$23.00 to $25.00 is the cheapest price that this watch is sold for anywhere. The hunting style is also very popular. We fit the same movement into a hunting style case, manufactured by the Dueber-Hampden Watch Co., guaranteed for twenty years. This thin model, beautifully engraved, complete with the Rockford movement, for $19.88. **Order by number.**

"GENERAL," A WATCH WE SELL FOR 25 PER CENT LESS THAN WATCHES HALF AS GOOD SOLD BY OTHERS

$3.18 WE WILL SELL YOU EITHER OPEN FACE OR HUNTING STYLE IN VARIOUS METALS.

Clever watch buyers will be astonished at this 25 per cent discount watch proposition. In making the prices listed below we have actually taken off 25 per cent of what these watches are supposed to bring on the open market. We are permitted to do this because we withhold the manufacturer's name from the public. There is a fixed price on these watches that commands a larger profit than we ask.

THE MOVEMENT

(see the illustration) is the principal feature of any watch. It is the very latest manufactured, one size smaller than the regulation 16-size, thinner than any 16-size movement manufactured in the United States, is stem wind and pendant set, made of solid nickel, beautifully damaskeened plates, has 7 fine imported jewels, latest model double roller escapement, Breguet hairspring, fine true balance wheel with true timing screws, high polished regulator, sunk pivot holes; has gold plated second, third and escape wheel; is guaranteed American made, a close running, accurate timekeeper; equal in every way to any watch sold for double our price. So that we can suit all tastes and offer you this wonderful movement for $3.18 to $8.48, we quote it in open face or hunting style.

...12145 ...Open Face. ...Twenty-Year.	**No. 4F12149** Open Face. Gold Filled, Five-Year.	**No. 4F12153** Open Face. Solid Silver.	**No. 4F12161** Open Face. Alaska Metal.
...12147 Hunting.	**No. 4F12151** As above. Hunting.	**No. 4F12155** As above. Hunting.	**No. 4F12191** As above. Hunting.

Please observe this illustration. It shows you how compactly made, how neat in finish, and especially the extreme thinness of the watch cases quoted below in the various metals.

You can have a genuine Alaska metal, a solid silver or a gold filled watch. The open face case is especially ... those who are not occupied in arduous labor or wish it for Sunday wear. It is ... wide bezel, splendidly made and attractive in appearance. The hunting style ... a trifle more than open face but are a greater protection to the movement. Many ... desire hunting style watches. In the table below, we describe the cases and ... in two columns, one column representing the cost with the various cases in ... the other column representing the cost in hunting style. In ordering give the ... case you desire as plainly printed under illustration.

LADIES' NICKEL WATCH

$1.59

REDUCED PRICE $1.59

Send us $1.59 and postage (8 cents), making a total of $1.67, and we will send you this very handsome small size thin model nickel American watch, exactly as the illustration shows. Each one comes in a handsome lined box.

The case is nickel. The movement is American made. The dial is porcelain, not paper. For a school girl, school teacher or a young person desiring a cheap unpretentious watch that will give satisfaction, we advise this one; it is a good timekeeper; we guarantee it to run well and accurately for a year; with proper care it will wear five, ten and even fifteen years.

No. 4F12240 Price.....$1.59

LADIES' SOLID SILVER 0-SIZE WATCHES

$5.58

An American made watch in this small size, made of silver, has been wanted by thousands of ladies. So as to make our catalog complete and to positively quote all kinds and styles of watches, we show here the smallest silver American watch made. These cases are solid silver through and through, hand engraved with any Old English initial free of charge; they have the antique bow; the entire case is perfectly finished in every respect. They are stem wind and pendant set. We guarantee the movement for a term of five years, and the case will last your natural lifetime. We can fit this case with any movement, in either open face or hunting style, at prices quoted.

$1.95 AND UP

$2.35 AND UP

The Interstate Chronometer will give you the most accurate time and will outlast any other watch. We recommend it.

WHAT ALASKA METAL IS and why we recommend it. **Alaska compound metal is a secret composition metal; its principal ingredient is pure nickel.** This, combined with secret metals, secretly compounded, constitutes Alaska metal. We own the recipe, it is made only for us, cannot be made for any other firm. We paid a large sum of money to get the formula. We are charging you nothing for it, the cost of these cases is based absolutely on the metal and labor. Alaska compound metal is the nearest approach in appearance to solid silver yet discovered or compounded.

Patent screw nut and crown

FOR TENSILE STRENGTH as a protection to the movement, it is better than solid silver. It resembles solid silver in color, in grain, takes a high polish, will not tarnish, rust nor corrode and is the same beautiful silverlike material through and through.

FOR 90c EXTRA WE CAN FURNISH A FANCY DIAL AND GILDED HANDS ON ANY WATCH ON THIS PAGE. See illustration on page 762

25 CENTS will carry any watch to any part of the United States by express.

GOLD ONLAID SILVERLIKE OPEN FACE ALASKA METAL WATCHES

$2.76 AND UP

$2.76 for this solid gold onlaid genuine Alaska Compound Metal Case the nearest approach to a solid silver case manufactured, fitted with a genuine American made movement.

No. 4F12310 shows the Alaska Compound Metal Case, onlaid with a solid gold locomotive.

No. 4F12312 shows the same case onlaid with a solid gold stag. A sheet of solid gold is rolled out, this plate is then beautifully carved and onlaid on the back of the case. It will not wear off, it will not tarnish, but remains beautiful for a lifetime.

THE CASES are open face, screw back and screw bezel, dust and damp proof, made of what we call Alaska metal compound.

No. 4F12310 18-SIZE Screw Back and Screw Bezel. No. 4F12321

MOVEMENT we fit in either of these cases at $2.76 is made especially for us by one of the largest factories in the United States. Stem wind and pendant set, has 7 jewels, cut expansion balance, patent line lever escapement; in fact, a watch, considering the price, of convenient satisfaction.

OUR FIVE-YEAR GUARANTEE goes out with each one of these watches, with either movements listed below, complete with any movement listed below, movements that we fit in these cases. The prices quoted for each complete watch movement and case.

$2.44 FOR A 5½-OUNCE SILVERLIKE ALASKA COMPOUND METAL OPEN FACE CASE AND MOVEMENT COMPLETE

THE ONLY 5½-OUNCE ALASKA COMPOUND METAL CASE MANUFACTURED AND ONLY PROCURABLE FROM US.

$2.44 AND UP

SEE THE ILLUSTRATION. This watch has been made with the idea of producing a watch that is dust and damp proof and at the same time has a resisting strength unequaled by any other watch in the world. The illustration on the left hand shows the back and front removed by unscrewing it. The right hand illustration shows the back and front screwed into place. Alaska compound metal is known to be the nearest approach to solid silver yet discovered and is equal to solid silver in every way but in intrinsic value.

THIS WATCH is 18-size open face, stem wind and stem set, the crystal fitted in the front bezel is the heaviest manufactured. The illustration shows the 7-jeweled Elgin grade movement, which we send complete fitted in case for $4.93.

TAKE OUR ADVICE and always buy a watch that is jeweled. We believe in 15-jeweled grades or better for accurate timekeeping. Money cannot buy a better or a more accurate watch for timekeeping than the 23-jeweled Special Railway Hampden Movement, quoted for $27.05 complete in this indestructible case.

No. 4F12316 5½-Ounce Screw Back and Screw Bezel Unscrewed.

A STRONG SOLID SILVER 15-JEWELED OR WALTHAM OPEN FACE WATCHES

RD OF PRICE; THE HIGHEST GRADE SOLID SILVER ELGIN WATCHES. HOICE, 3-OUNCE SOLID SILVER ELGIN, HAMPDEN OR WALTHAM TCH FOR $9.40, A 4-OUNCE SOLID SILVER WATCH FOR $10.38.

SES are open face, solid silver, beautifully hand engraved in various designs. They have solid gold joints, gold filled crown, antique bow. Bassene style, extra tight joints; it is difficult to see where the back or front lids join, making the watch practically dust and damp proof. Each case is plainly stamped with the warrant and the number of ounces of silver it contains. For heavy work, when you want your movement to be amply and properly protected, for a watch that will not tarnish nor discolor, or if you wish to own the genuine article solid silver, we certainly advise one of these cases.

THE MOVEMENT we fit in these highest grade solid silver cases is your choice, either Elgin, Hampden or Waltham. They are 15-jeweled, stem wind and pendant set, and guaranteed for a term of five years against all defective material and workmanship; will wear for your natural lifetime and be an accurate timepiece if carefully handled. Be sure to order by number.

18-SIZE LEVER SET, OPEN FACE RAILROAD WATCHES $19.75 TO $54.25

THAT PASS RAILROAD INSPECTION. GUARANTEED BY THE MANUFACTURERS

IN ADDITION TO THE MANUFACTURERS' WARRANT we send you our own personal guarantee on both case and movement. The movements we list pass railroad inspection. If you are a railroad man or want a watch such as railroad men carry, you can select any watch here. It is safer to buy a railroad watch from us than anywhere else on earth. Our movements come direct from the factory in their original boxes and no movement has been touched by any other case than the one you select. It has been tried and tested, no watchmaker has tampered with it and you are getting a movement that is fresh, clean, untarnished and perfectly adjusted, the same as when it left the adjuster's hands at the factory.

THE 18-SIZE WATCH has been selected in preference to any other size. While the 16-size is accepted by some railroads, the majority require the 18-size. Statistics show that more than 90 per cent of railroad men use the 18-size watch. The best case for a railroad man to carry is a case so constructed that the time can be readily read that will not collect dirt or grease, a case that is absolutely dust and damp proof and, above all, a case that is an absolute protection to the movement. Our cup cases fill the bill. Our perfect railroad men's watches, will keep accurate time, are open face, screw bezel, solid back cup case with a regular round bow and fitted with the new patent screw nut and perfectly plain bright polished. You may have a choice of material; they are all constructed alike.

AFTER READING CAREFULLY the description of our cases and after making the selection of the movement you want and reading our quotations on same, you will discover a saving of no less than 15 to 20 per cent. On railroad watches this saving means considerable. On any other watch in our line we save you much more. We have many watches, our 21-jeweled Prince of Wales and King Edward are good running, accurate timekeeping watches. We do not know why, but they are not accepted by the inspectors of various railroads. On these we can save you larger profits. 15 to 20 per cent is a handsome amount considering the close price made on these types of watches. All we ask is a careful comparison of prices and a careful investigation and we know our more interesting figures will win your patronage.

$19.75 AND UP

Twenty-five cents will carry any watch to any part of the United States by express. We recommend sending watches by express, as they do not receive the hard usage as when sent by mail. If sent by mail, postage extra, including registry fee, 16 cents.

OUR LIBERAL OFFER. Convince yourself if our argument has not convinced you. Order any one of the watches. You can wear it for a week or month, you can examine it as carefully as you like, you can take it to any jeweler or inspector and if he finds it in any way different than described, and can criticise it in any legitimate, fair way, you can return the watch to us and upon its receipt we will return the purchase price, together with all transportation charges.

THE ALASKA METAL CASE is made from a secret composition metal manufactured exclusively for our use; it resembles solid silver in every way but in intrinsic value and has the same white silverlike color through and through, is tough, close grained and exceedingly hard. The case weighs from 3½ to 3¾ ounces.

THE SOLID SILVER CASE. This case is made of solid silver, weighs 3 ounces, solid silver of the highest quality, that is 935-1000 fine; all of the case with the exception of the swing ring is solid silver. It is not practical to construct this ring of solid silver.

THE GOLD FILLED CASE, guaranteed for twenty years' continual wear, is made of the very finest gold filled stock, manufactured by the Illinois Watch Case Co., of Elgin, Ill., plainly struck in the back with the terms of the guarantee signed by the company themselves.

No. 4F12500 ALASKA METAL.....$19.75

No. 4F12508 SOLID GOLD, 44.75

The above illustrations show views of our railroad plain polished, solid back, screw bezel, patent screw nut cup cases. The first illustration of the case shows its various parts—the bezel is unscrewed, the case is lifted up and exposed to view, the screw nut, crown, sleeve and stem removed. Second illustration shows the crown, screw nut and stem fitted on the case and the movement fitted into the swing ring. Third illustration shows the movement dropped back into place in the swing ring and the bezel screwed into place.

Above cases with the following 18-size movements. Prices quoted are for the complete watch, movement and case.	4F12500 Alaska Metal	4F12502 3-ounce Solid Silver	4F12504 20-Year Gold Filled	4F12506 25-Year Gold Filled	4F12508 Solid Gold

The Crescent Street Waltham, Adjusted Movement, Railway Grade	24.25	28.25	29.00	31.25	49.25

SOLID FILLED CASE, guaranteed for twenty-five years' continual wear. This case is manufactured of gold filled stock, warranted to retain a solid goldlike appearance for a term of twenty-five years; the back of the case is struck with terms of the guarantee signed by the manufacturers.

SOLID GOLD CASE. This case is manufactured by the Brooklyn Watch Case Co., of Brooklyn, N. Y., is of solid 14-karat gold and every piece and particle entered in its make except the swing ring is solid gold; it is not practical to use any desire of gold. Each case is plainly stamped with its quality, the United States Stamping Law protection.

The above illustration merely gives you an idea of the movements quoted on this page of Railway Watches at $19.75 to $54.25, according to the case you select.

MONEY RETURNED, together with transportation charges, if you receive an unsatisfactory watch from us. When your watch arrives, examine it carefully, and if you do not find it in absolutely perfect condition, in every way exactly what you wanted, return it and as soon as we receive it, we will return your money, together with all transportation charges, if you so desire.

This illustration shows the patent dust-proof crown and stem taken apart.

$8.98 AND UP FOR A 4-OUNCE SOLID GOLD INLAID IN SILVER ELGIN WATCH

It is dust and damp proof; has solid back, with screw bezel and swing ring attachment, gold reflector and patent screw nut. In fact the most perfect watch case made. $8.98 for this watch complete.

THE CASE IS SILVER FILLED, the silver sheets are of sufficient thickness to last your natural lifetime. The gold used in the inlaid work is solid. The case weighs 4 ounces. This case is stronger than the same style solid silver cases costing considerably more money used by railway men whose work requires the greatest protection to the movement, and where dust and damp proof protection is necessary. See the illustration. We graphically describe it showing exactly how this case is constructed with heavy sheets of solid sterling silver, 935-1000 fine, over an inner composition nickel metal. Nickel is known to be much tougher and more durable than solid silver. This combination of metals, that is, nickel and solid silver, makes it possible to produce the case with a tensile strength unmatched and unequaled. Money cannot buy a more perfect protection to a movement. The movements we furnish in this watch and the ones we advise if you are looking for a high grade accurate timekeeper, are as follows:

IF YOU ARE LOOKING for a 17-jeweled movement, and we advise 17 jewels or better, we can furnish the Dueber Grand Movement manufactured by the Dueber-Hampden Watch Co., at Canton, Ohio, for $14.22 fitted in this case. It has 17 fine jewels and is adjusted.

THE 21-JEWELED MOVEMENT is the one we advise your buying, if you are looking for the highest possible perfection in watch making. If you want a movement that will not vary, that is adjusted to all positions, isochronism and temperature, then select the 21-Jeweled Special Railway Hampden Movement.

PLEASE REMEMBER that this watch is guaranteed in every way; our five-year sweeping guarantee goes with the movement and we guarantee the case for the term of your natural lifetime. So to avoid possible mistakes, be sure to order by number.

OUR INTERSTATE CHRONOMETER THE BEST WA MANUFACTU

WE RECOMMEND IT

Because it is the most accurate running, simplest in construction, finest finished and most durable ma

Comes in the popular sizes, both open face and hunting style. Sold only by Sears, Roebuck and Co.

Interstate Chronometer Movements are manufactured solely for us by one of the greatest and best watchmakers in the United States. This line of movements, built expressly for us and named "Interstate Chronometer," will revolutionize watch construction. Simplicity is what we have succeeded in obtaining; not a part or piece used in these watches but what performs a duty necessary for accurate timekeeping and durability; no fragile parts, no unfinished pieces; each part and piece perfect. All weak parts eliminated, resulting in the most accurate running, finest finished, yet most simple, high grade watch manufactured in the United States.

Most high grade watches embody a number of useless, unessential parts and valueless improvements that do not improve, all of which weaken the watch and result in frequent repairs, inconvenience and expense.

We especially recommend the Interstate Chronometer. We named it the Interstate Chronometer because it is the most perfect measurer of time manufactured. Buy one and you are owning a watch that is superior to any on the market at 50 per cent less than other high grade watches.

The handsome cases illustrated on this page are gold filled, beautifully engraved and guaranteed for twenty years. They are manufactured by the John C. Dueber Watch one of the most representative and well k case makers in the United States. The en ings are simply exquisite, joints splen and perfectly made, close fitting lids, ar crown, bow and stem; in fact, all de all parts perfect in construction. come in both open face and hunting according to your choice. OUR GUARANTEE goes with every one of our Interstate Chronometer Watches. This is a most important factor if you consider the protection and insurance that we offer. With every one of these watches we send our written binding guarantee that protects you for a term of five years against defective material and workmanship. It will be impossible for you to get a defective watch from us; if the watch fails to perform its duties in any way within this five-year term, if handled properly and given the attention a watch should receive, you are at liberty to return it and have it exchanged for a brand new one or repaired free of all cost to you. Was there ever such a guarantee given before? Was there ever such an insurance offered? It would be impossible for us to give such a contract unless we knew the workmanship and material in these watches to be perfect.

Gentlemen's Regulation 12-Size Interstate Chronometer.

$17.5

GENTLEMEN'S 18-SIZE KINGSTON GOLD FILLED WATCHES $5.03 AND UP

GUARANTEED FOR TWENTY YEARS. NEWEST DESIGNS ON THE MARKET.

THE KINGSTON GOLD FILLED CASE, illustrated and described on this page, if you want to own the best moderate priced watch manufactured in the United States. It is the make of case we advise you to buy. Kingston gold filled cases are made under our own specifications; we know the amount of gold that each one contains, we know the quality of the inner composition metal, we know all about the model; our specifications as to designs and finish have been carried out to the very letter. Knowing of the superiority of this high grade case, we can and do send our written binding sweeping twenty-year guarantee. Our guarantee that we send means simply this: that if any piece or particle of the solid gold sheet that covers this case wears off, showing the inner high grade composition metal at any time within the period of twenty years, you are entitled to send the watch back to us and we will exchange the case for a brand new one free of all costs and transportation charges to you.

IF YOU ARE UP TO DATE you will want to own the latest model watch. The Kingston watches are the very latest extra thin 18-size Bassene style models with antique crown, bow and stem.

A 12-SIZE WATCH AT AN UNHEARD OF PRICE

Boys' or Gentlemen's Hunting Style Genteel, Thin, 12-Size Gold Filled Watches. Illustrations show the watch partially opened and also side view of watch, showing extreme thinness of same.

A SMALL, thin, genteel, high grade, twenty-year gold filled watch, the coming size, thickness, shape and style for boy or gentleman; the neatest, most perfect watch made. All the movements we fit in this case are 6-size. The case is made especially for that size movement. Plenty large enough for any gentleman; not a load in the pocket, but a thin, light, neat watch and more convenient than a heavy watch, also a very popular size for boys.

THIS CASE IS GOLD FILLED warranted for twenty years, a certificate of guarantee accompanying each case. It is hunting style, fine engine turned in perfect imitation of solid gold, has solid gold antique bow and crown.

No. 4F12790 12-Size Hunting Style.

We fit in this case the following 6-size movements:

7-Jeweled American Made Movement $6.88
7-Jeweled Elgin, Hampden or Waltham Movement 9.15
15-Jeweled Elgin, Hampden or Waltham Movement, $11.35
16-Jeweled Lady Waltham Movement, adjusted grade 13.25

Solid Gold Ornamented. 18-Size, Hunting Style.

ILLINOIS WATCH CASE CO. Commander case, gold filled, solid gold ornamented, warranted for 25 years.
No. 4F12843 Hunting style only.

$7.75 18-SIZE, OPEN FACE, SCREW BEZEL, SOLID BACK, SWING RING, GOLD FILLED WATCHES

GUARANTEED for 20 and 25 years' continuous wear. The Illinois Watch Case Co., of Elgin, Ill., manufacturer of these cases, agrees to replace with a brand new gold filled case of same style and grade any one of these cases worn through to the base metal within 20 or 25 years. **The swing ring, a new improvement on gold filled cases,** makes it possible to produce an absolutely dust and damp proof watch case. You can examine the movement in a swing ring case without difficulty. See illustration. The front or bezel screws off. The back is solid, made of one piece. The movement is fastened ...ring, which is securely joined to the case by a strong hinge. To ...the works, lift up the swing ring (illustration shows the ring partially ...regulate in case, let ring drop back in first position and screw on bezel.

ILLUSTRATION of the Elgin movement is the one that we will fit in this case for **$11.20**, if you select the 20-year ...case, or $13.30 if you select the 25-year guaranteed case. This move- ...has 15 fine jewels in settings, exposed pallets, cut expansion balance, mean ...patent detachable balance staff, patent Breguet hairspring, hardened and tempered in form, patent micrometer regulator, tempered steel safety barrel, hard white enamel dial, and exposed winding wheels. A watch for the price that is a marvel of value, and we conscientiously recommend it to those who want a good timepiece for little money.

$4.77 AND UP

...Gold Filled, Screw Bezel, ...King, Solid Back.

$23.90 FOR A 21-JEWELED WATCH.

To railway men, train starters and all others wanting a reliable timepiece, one that can be depended upon, we can recommend the 21-jeweled John Hancock Hampden movement. It has solid nickel plates, patent regulator, Breguet hairspring, especially adjusted, fitted in one of the new dustproof swing ring cases as an absolute protection against dust and damp.

This shows the parts of the patent screw nuts and crown fitted on to this case.

FOR THIS 14-KARAT SOLID GOLD KNIFE EDGE OPEN FACE BRIGHT POLISH GENTLEMEN'S WATCH. SAME SIZE AS THE ILLUSTRATION SHOWS.

A KNIFE EDGE GOLD WATCH.

$45.00 the regulation price that this watch rings here in Chicago, as sold by some of our leading establishments; our price is $29.75. We import them ourselves; we save you every cent there is to be saved and give you the benefit of all the saving. The case, see the illustration (we show front and side view), is extra thin model called "Knife Edge;" the illustration does not exaggerate the thinness. No watch made in America as thin as this one. A marvel o mechanism, I would seem utterly impossible that a watch could be constructed so wonderfully thin. The case is bright polished, made of 14-karat solid gold through and through, has antique crown, bow and pendant; has fancy gold dial with black enamel figures, jointed front and back. The movement is imported from Switzerland, has lever escapement, 15 fine jewels, solid nickel plates, exposed winding wheels; an accurate runner and guaranteed for five years against defective material and workmanship.

No. 4F12880 Solid gold.

No. 4F12882 Black oxidized gunmetal. Same size, same style, same movement. Price.....$15.75

$29.98 FOR THIS HIGH GRADE WA

A 19-JEWELED ADJUSTED HIGH GRADE GOLD FILLED EXT MODEL 12-SIZE GENTLEMEN'S WATCH FOR $29.98.

$40.00 is the regulation accepted and understood price that a watch of this high grade, with all its adjustments, generally brings in any first class jewelry store. The case is guaranteed for twenty-five years' continual wear, it is 14-karat gold filled, plain polished, open face, jointed front and back with full size inside protecting cap, new up to date French style crown, bow and pendant. To arrive at the true value of this watch, so that you will thoroughly appreciate what you are receiving, compare any watch of equal grade and finish, from any source that you may desire, valued at $40.00 to $50.00, and if ours does not equal it in every way, return it and we will cheerfully return your money, together with transportation charges. Accuracy is of vital importance. We give you our written binding guarantee for the running ability and the accurate timekeeping qualities of this watch. Should any piece or part fail to perform its duties through defective material or workmanship you can return it and have the case fitted with a brand new movement or readjusted and repaired absolutely free. We know the excellency of this watch. It has been tried and tested; no American watch, of same number of jewels, at twice the amount we ask, will give better satisfaction. The movement is finished by experts, high grade, has 19 fine jewels, has four complete adjustments, is extra thin model, stem wind and pendant set, nickel plates; in fact, all improvements, all finishes that are used on fine Swiss watches that sell for $125.00 to $150.00 each. This movement is imported direct from Switzerland by us. We have visited the factory, we have investigated their processes and interviewed their skilled mechanics. We therefore know and have absolutely proven the efficiency and accurate timekeeping qualities of this movement.

No. 4F12978 The illustration shows plain polish, dust and damp proof case with patent dust proof crown, fitted with safety to give you an idea exactly what it looks. This case is 14-karat solid gold, screw bezel, only with a solid back. This case is fitted in a swing ring hinged on the inside of the watch. This case is gold ornamentation, hand engraved and hand chased, hand filed center, extra heavy weight, a marvel of beauty and one of the most striking watches manufactured this year, especially adapted as a presentation gift for some special affair, where something grand is desired.

The Interstate Chronometer will give you the most accurate time and will outlast any other watch. We recommend it.

GUARANTEED SOLID GOLD

No. 4F12980 **No. 4F12982** 18-size, solid 14-karat gold, extra heavy weight, full box style, hand engraved and hand chased. Hunting style only.

No. 4F12982 Solid 14-karat gold set with genuine brilliant regular cut diamond, raised variegated color

14-KARAT SOLID GOLD, CHOICE FOR $17.78

Solid gold 14-karat guaranteed new extr. thin model 12 and 16-size Open Face Gentlemen's Elgin or Waltham Watches. $17.78 for your choice of either one of these watches fitted with a genuine stem wind and pendant set new up to date Elgin or Waltham movement. If you are looking for a good solid gold open face watch, the new gentlemen's nobby size in solid gold, 14-karat, quality guaranteed, either one of these two watches will suit you.

GUARANTEED SOLID GOLD

The Sizes—See the illustration. You will observe that one is the small extra thin model 12-size, the other is the small extra thin model 16-size. They are solid gold through and through. Solid back with inside movement ring. The weight of the cases will be found sufficient to give them a wearing quality for your natural lifetime, sufficiently heavy to be an ample protection to the movement. The finish is in bright plain polish, Bassene style, no rough edges to collect dust and mar their rich appearance.

A monogram similar to the illustration, in two or three letters, we will engrave on any one of these cases for $1.25 extra. The illustration merely gives you a faint idea of the type of monogram we will engrave.

These watches are guaranteed. You have our written binding guarantee with any one you select for a term of five years, both on the movement and case.

Be sure to order by number and state plainly the size of watch you want.

Together with the movement that you select, either one of these handsome 12-size case, the 12-size or 16-size, fitted with a 7-jeweled Elgin or Waltham movement. Price... $17.78

No. 4F12984 Gentlemen's Size **No. 4F12986** 16-Size

$12.85 for this extra thin, 16-size gold filled 15-jeweled lever watch, means prices cut in half. This watch as illustration shows is extra thin; in fact, the thinnest 16-size lever watch we know of; will not bulge the pocket.

GUARANTEED FOR 25 YEARS

THE CASE is gold filled and guaranteed to wear for a term of twenty-five years; manufactured by the celebrated Joseph Fahys Watch Case Co. Plain polished, no unseemly joints, all smooth and attractive to the touch and eye.

THE MOVEMENT, the principal feature of this watch, has 15 jewels, flat overstrung Breguet hairspring, lever escapement, exposed polished winding wheels, high polished regulator bar, true timing screws, cut expansion balance, is stem wind and pendant set. You never need to open this watch to wind or set it and we guarantee it against defective material and workmanship for a period of five years.

THE DIAL, another very attractive feature, is made of metal, gilded in Roman yellow satin finish with damaskeened center, plain Arabic numerals and fine blue moon style hands.

STARTLING VALUES IN AMERICAN WATCHE

$3.15 A Cut Price in Genuine Alaska Metal 16-Size Swing Ring Cup Case Watch

Solid silver and Alaska metal, extra thin model, 16-size, swing ring dust and dampproof watches. Perfection has arrived at last; $3.15 for a watch with an absolutely dust and dampproof case means that you have a watch that will last a lifetime. Dampness and dust are the banes of watches. It is from these two causes that most watch troubles arise.

$3.15 and up

Our $3.15 OFFER

Send us $3.15, together with the mail charges of 16 cents extra, and we will ship you, upon receipt, one of these solid Alaska metal watches, the nearest approach to solid silver yet discovered, fitted with a thin model, stem wind and pendant set 7-jeweled American made movement.

Buy the Swing Ring Case

It is the best. Note the illustration, which shows the front bezel unscrewed and the swing ring slightly raised. When the watch is closed this swing ring falls back and the bezel is tightly screwed on. This makes the front and back of the watch absolutely dust and dampproof. The watch is protected from above by a new patent screw nut stem; the extra nut being used for filling the crevices on the inside of the watch between the crown and the stem makes it impossible for the dust and damp to filter through. No part has been overlooked to bring about this perfect dust and dampproof arrangement.

$5.25 For the Same Watch in Solid Silver.

Think of it! $5.25 for this absolutely dust and damp proof solid silver watch. Competition defied when prices of such astonishing figures are being made.

$6.68 For a Genuine Elgin,

Hampden or Waltham movement fitted in one of these swing ring solid Alaska metal cases. A genuine 17-jeweled Elgin movement, adjusted grade, fitted in the same case for $14.10.

Solid silver swing ring cases, complete with American made movements for $5.25 to $18.60.

SOLID SILVER WATCHES

GOLD FILLED CENTER CASE with solid silver lids inlaid in solid gold for $6.90! The center of the case, that is, every part of the watch that the hinges fit upon, is of gold filled metal, and the crown, stem and bow of the antique style, made to match it. The lids, the front and the back are made of solid silver inlaid with pure gold in various colors, complete with the movement.

A SOLID SILVER 16-SIZE WATCH FOR $3.92 AND UP

$6.90 AND UP

THE NEW SWING RING CASE illustrated on this page as No. 4F13110, has many attractive features. It weighs 3 ounces without the movement. It is screw bezel with an absolute dust and dampproof patent screw nut crown; has the swing ring attachment. Illustration shows the bezel unscrewed with the movement fitted into the swing ring slightly raised. This device makes it possible to easily regulate the movement and likewise affords greater protection to its delicate mechanism.

THE TWO WATCH MOVEMENTS illustrated below show you the movements manufactured by the Dueber-Hampden Watch Co. We can conscientiously recommend them as accurate timekeepers and works that will give entire satisfaction in every way. The 15-jewel grade and the 17-jewel grade, called the General Stark are two of the most attractive watches in 16-size, considering the price, made by this celebrated factory. Finer watches than these, grade for grade, cannot be produced for more accurate time. Everything that the latest machinery and skilled mechanics create is embodied in these movements.

ENGRAVED SOLID SILVER, GUNMETAL OR GOLD FILLED CALENDAR WATCHES FOR $4.38, $6.30 AND $13.20.

MECHANICAL WONDER FOR $4.38. **This watch not only tells the hours, minutes and seconds, but gives the days of the week, the dates of the days, and the month.** The most complicated, most wonderful mechanical piece of mechanism. Exactly same size as illustration shows, exact thickness, exact counterpart in every way. It is not more easily broken, not more liable to get out of order, than any watch illustrated in this catalog. The price is within reach of all. It is fully guaranteed to wear; the manufacturer in turn guarantees it to us. It comes in open face only, is stem wind and stem set, has antique stem and bow, beautifully engraved. Illustration shows both back and front of the watch. The movement is imported from Switzerland, is full 7-jeweled, finely polished, exposed winding wheels, straight line lever escapement. In fact, such a watch that we recommend it, and will send our five-year written binding guarantee with every one shipped. Remember, we can furnish this watch in open face only.

$6.80 Solid Silver and Gunmetal Watches Without Hands. $7.98

No. 4F13150 Solid Silver.

$6.80 for a watch without hands; own a watch of this kind and the possibility of hands catching and mistakes in time will be entirely removed. It frequently happens that mistakes in time are made on account of the hands becoming loose, catching and sometimes dropping off. This is impossible with this watch. The case is gunmetal or solid silver, open face, as illustration shows, handsomely engraved, with fine silver, solid gold decorated dial. We show three views of the watch so that you can form a correct idea of its appearance. By this illustration you can see the extreme thinness, the back view with the handsome engraving and the front view with the decorated dial. Please observe the peculiar arrangement of the dial. The center circle shows the hour, the circle directly underneath shows the minute and directly beneath this is the second hand. At a glance you are able to tell the time to the very second. The movement is imported from Switzerland, is straight line fine lever escapement, is perfectly timed and finely finished in every detail. With care should last your natural lifetime. With each one we send our five-year binding guarantee.

LADIES' OR GENTLEMEN'S GERMAN SILVER WATCH.

$2.94

Illustration shows front and back views of Gentlemen's 12-Size Watch.

FOR $2.94 YOU CAN HAVE YOUR CHOICE, either ladies' or gentlemen's size. The gentlemen's size is the extra thin 12-size model, as illustration shows; the ladies' size is the new up to date extra thin model, 0-size, small enough to please any lady, yet large enough to keep good time.

THE MATERIAL of the case is called German silver, a compounded metal made in Germany; a very near approach to solid silver. Experts can scarcely distinguish the difference. It is oxidized in gray finish, bringing out the beautiful repousse work.

MOVEMENT is an imported Swiss cylinder, stem wind and pendant set and a good timekeeper; has two jewels placed in the escapement to reduce friction. They are all timed and tested before leaving our establishment and guaranteed to give good satisfaction. Dial is a fancy type, see illustration, which does not by any means show its beauties, as it comes in various tints.

No. 4F13165 Gentlemen's 12-Size Watch. Price $2.94

FILLED GUARANTEED 12-SIZE WATCHES THIN MODEL OPEN FACE OR HUNTING

$4.98 FOR YOUR CHOICE of either one of these gold filled gentlemen's extra thin model 12-size watches. The 12-size watch is one size smaller than the regulation 16-size; it is the smallest gentlemen's American watch manufactured. It does not weigh down or bulge out the pocket. For Sunday or holiday wear or when not occupied by heavy labor, it is the ideal size for a gentleman to carry.

OPEN FACE OR HUNTING STYLE, according to your own selection. The price is the same; they cost us the same, and we give you the advantage of the purchase.

THE CASES ARE GOLD FILLED, handsomely engraved, exactly as illustration shows. The open face case is screw back and screw bezel, dust and damp proof, and an excellent protection to the movement, a style that is very popular and most frequently purchased.

4F13230 12-Size. Open Face. No. 4F13232 12-Size. Hunting Style.

TING STYLE CASE is double lidded with inside protecting cap, engraved the same as the open face style.

VEMENT we fit in either one of these cases, open face or hunting style (be sure to give the number when ordering, so as possible error), is a good 7-jeweled lever escapement movement, is and pendant set, has exposed winding wheels and nickeled plates, nameled dial with fine blued spade steel hands.

GOLD FILLED, NEW THIN MODEL

DUEBER-HAMPDEN COMPLETE WATCHES

OPEN FACE AND HUNTING STYLE. 16-SIZE, 20-YEAR WARRANTED GOLD FILLED.

$11.00 AND UP

These cases are made by the Dueber Watch Co. They are the correct thing, the right size and shape, hand engraved and in every respect perfect. The movements are all new models manufactured by the Hampden Watch Co., each one guaranteed an accurate timepiece for five years. Note the prices and compare them with what others ask for the same watch.

Select the watch you want in gold filled open face or hunting style. The gold filled cases of the John C. Dueber factory are known to be exactly as represented, guaranteed for twenty and twenty-five years and so stamped on the inside lid, together with our own written binding guarantee. You are amply protected in selecting a John C. Dueber watch.

If you select the open face watch we will send you the new dust and damp proof, screw back and screw bezel case. Not jointed, but the latest idea in open face case making.

The hunting style cases are the Bassene type, close joined, no raw or unsightly edges.

Full 17-Jeweled General Stark Movement	13.00	15.50
Full 17-Jeweled William McKinley Movement	16.00	18.50
Full 21-Jeweled William McKinley Movement	26.50	29.00

$15.25 FOR A HIGH GRADE WATCH

This gold filled absolutely dust and damp proof twenty-five year guaranteed watch for $15.25 if you select the 15-jeweled movement, or $16.75 if you select the 17-jeweled movement, means breaking all accepted prices. The case is gold filled, plain polished, manufactured by one of the most renowned watch case makers in the United States; their trade mark and warranty are stamped in the back of each case. Patent dust and damp proof solid back cup case means everything in an open face watch (see the illustration). The back is of solid metal, the front or bezel operates on a screw. The movement is fitted into a swinging ring which drops back into the cup or solid part of the case. By this device it is impossible for dust or damp to penetrate into the delicate mechanism of the movement. Together with this wonderful improvement, this case has the screw nut crown; dust or damp cannot filter into the works through this part of the watch.

The 15-jeweled movement quoted in this case for $15.25 is manufactured by the Dueber-Hampden Watch Co., of Canton, Ohio. It is made of nickel, stem wind and pendant set, 15 jewels in composition settings, Breguet hairspring, sunken second dial, patent safety pinion, micrometric regulator and bright flat screws, a marvel for accuracy and true running.

The watch that we recommend, however, for the highest possible accuracy, a watch that has no equal, grade for grade, compared with any other make and quoted here for $16.75, is the 17-jeweled General Stark Movement, also manufactured by the Dueber-Hampden Watch Co., illustrated on the right of the case. The jewels are genuine ruby set in composition settings, plates are bridge model of nickel, has Breguet hairspring, patent safety pinion, mean time screws, patent regulator, bright flat screws, plates are beautifully engraved and damaskeened, has gold letter Arabic dial with red marginal figures; in fact, a movement that cannot be beaten for accurate and true running. We warrant these movements and send with every watch our binding guarantee protecting you against all defective material and workmanship. Our claim is simply this, concerning the 15-jeweled grade Dueber-Hampden watch, or their 17-jeweled grade. For true running and for accurate time there is no watch made in the United States that can surpass them.

The Dueber Watch Co. is one of the oldest manufacturers in the United States; the business has been handed from father to son, and they are renowned from one end of the United States to the other for their product, the care they exhibit in every detail and the personal pride they have in turning out the best possible. Order by number.

IMPORTED GENEVA WATCH

READ THIS WONDERFUL OFFER

DO YOU WANT SOMETHING MOST EXTRAORDINARY IN AN ESPECIALLY FINE WATCH FOR A LADY OR GENTLEMAN? ARE YOU WILLING TO PAY AS MUCH AS $14.98 FOR SUCH A WATCH, WITH THE ASSURANCE THAT YOU WILL GET SOMETHING MUCH BETTER THAN YOU ARE LIKELY TO FIND IN ANY JEWELRY STORE IN YOUR PART OF THE COUNTRY? IF SO, THIS PAGE OFFERS YOU THE OPPORTUNITY TO GET ONE OF THE FINEST AND BEST WATCHES MADE.

GENEVA, SWITZERLAND, turns out the very finest watch movements of the world. Go into the very finest jewelry store in Chicago, New York, or any other large American city and you will find such stores get very fancy prices for Geneva watches. Scarcely one Geneva watch is offered for less than $50.00 and from that figure they run up into the hundreds. All very fine watch movements, even one of the very special split second, repeaters, striking, chronograph, and especially fine made thin model movements, all the very finest watch movement work is done in, and therefore must come from Geneva, Switzerland, Europe.

WE ARE THE FIRST HOUSE in the world to bring the genuine high grade Geneva watch movements before the American public at anything like a low price, the first house to make a price low enough to bring such a fine watch within reach of all. No longer is it necessary to pay $50.00 to $100.00 to own a Geneva watch, for by a most wonderful watch movement contract made by us, strange as it may seem, we are just now able to take the very highest grade life guaranteed, full engraved American gold filled watch case made and fit into this case a very fine genuine Geneva Swiss movement in your choice of two sizes for men, or one size for women, and, strange as it must seem to every one who reads this, and much as watch dealers will wonder, we can offer these marvelously fine watches for only $14.98.

DON'T treat one of these fine watches as you would a dollar nickel watch. On occasions when you may be engaged in work that is dirty or heavy, when your watch would be jammed or roughly used, you should not wear one of these fine watches. For such purposes, you should have a cheap, heavy watch which you can buy for $1.00.

BUY THIS GENEVA WATCH AT $14.98 in either gentlemen's or ladies' styles and no American watch sold at $50.00 elsewhere will compare with it. Let your friends see, examine and compare your Geneva watch with their watches and many will pronounce your $14.98 watch worth $50.00 to $100.00.

THE SIZES OF THESE GENEVA WATCHES

THE PICTURES HEREON show the exact sizes of these watches. The largest, 16-size gentlemen's watch, just as illustrated, is 2 inches wide. The 12-size gentlemen's watch, just as illustrated, is 1⅞ inches wide. The ladies' 0-size, just as illustrated, is 1⅝ inches wide. All are made especially thin, neat and dainty, and all have unique antique bows. They are all smaller, thinner, lighter, neater and in every way handsomer and finer than what you can buy in American made watches; the 12 or 16-size, the ideal size, shape and style for the carrying timepiece of a real gentleman, and the 0-size is just the watch in size, thickness and weight for the most exacting, most fashionable lady to wear, and as for timekeeping dependability they are unequaled. The three illustrations on this page will give you just a little idea of the appearance of our Geneva watch and the several sizes in which it comes. The largest size, the 16-size for gentlemen, we offer for the first time in the history of the watch making industry with a genuine imported Geneva movement for only $14.98. One of the pictures in the group of three shows the front of the watch with its handsome Geneva special dial or face and gilded hands. Another picture shows the back of the watch, detailing the gold filled case with its beautiful engraving and elaborate finish. The third picture in the group shows the wonderful Geneva movement, and these three pictures are engraved by our artist direct from photographs and are exact in size and appearance.

THE LIFE GUARANTEED gold filled cases in all three sizes, 16, 12 and 0-size, are all American made and the highest grade gold filled cases manufactured. Cases are made of heavy thick plates of fine solid gold over inner plates of hard composition metal and are guaranteed to wear and retain their pure gold color for a lifetime. They are most elaborately engraved, finished and decorated, wonderfully well finished, all fitted with genuine antique bows, all stem wind and patent pendant setting. The gentlemen's watches, the 16 and 12-sizes are open face only, the 0-size ladies' watches are double or hunting case.

FANCY DIALS, or faces. These Geneva watches all have very fancy dials (see illustrations), the most beautiful dials made, finished with gold and colored ornamentations and fancy gilded hands.

JOSEPH FAHYS GOLD FILLED WATCHES. *Guaranteed Permanently.*

THE CASES of these watches are manufactured by Joseph Fahys & Co., of world wide reputation, nothing better manufactured; they are permanently guaranteed, which means everlasting. Own one of these watches in the open face or hunting style, and should it wear down to the inner composition metal you are entitled, by the binding contract of Joseph Fahys, to receive a new one free of all charge.

THE OPEN FACE WATCH, as illustration shows, is plain polished or engraved, if desired; has antique crown, bow and stem; screw back and screw bezel; dust and dampproof. The hunting style case is beautifully engraved, has antique crown, bow and stem; inside protecting cap; the very latest solid gold design.

THE MOVEMENT is called the General Stark, 16-size, manufactured by the celebrated Dueber-Hampden Watch Co., of Canton, Ohio. See the illustration; it is beautifully damaskeened; has 17 fine jewels in composition settings, is the bridge model, has patent center pinion and Breguet hairspring. The hunting style watch is stem wind and lever set. The open face watch is pendant set.

FOR $17.50 you will receive this very handsome Joseph Fahys permanently guaranteed gold filled case, fitted with this high grade accurate running, true timekeeping movement.

FOR $19.95 we will send you the hunting style case, fitted with the same movement.

$17.50

You are doubly protected when you buy a watch from us; together with the manufacturer's warranty, we send you our written binding certificate of guaranty. We guarantee this movement to be a true accurate timepiece and warrant it for a term of fire years against all defective material and workmanship.

MOVEMENT QUOTED ON THIS PAGE IS GUARANTEED AGAINST DEFECTIVE MATERIAL AND WORKMANSHIP FOR A PERIOD OF FIVE YEARS.

When this guarantee is mentioned in the catalog we send it with the watch. Money returned, together with transportation charges, if you receive an unsatisfactory watch from us. When watch arrives, examine it carefully, and if you find it in absolutely perfect condition, in every way what you wanted, return it, and as soon as we receive it we will return your money, together with transportation charges, if you so desire.

LOW PRICES FOR OUR 12 AND 16-SIZE KINGSTON BRAND CASES

THEY ARE GOLD FILLED, MADE FROM PLATES OF SOLID GOLD, HARD SOLDERED ON A COMPOSITION METAL

THESE PLATES are then worked up into the centers, lids, crowns, bows and stems. All visible parts are covered with a heavy sheet of gold so thick that we can give our own binding guarantee that warrants the case to retain its goldlike appearance for a term of twenty years. After the lids have been formed and the centers made the ornamentation is put upon them. When this is finished the cases are stoned down, hinged and jointed, inside cap fitted, inside bezel that holds crystal fitted, and crown and bow put on.

FOR 90 CENTS EXTRA we can furnish a fancy dial and gilded hands on any watch on this page. See page 762 for illustration. Protect your watch with an Ajax Watch Insulator. Price, 21 cents. See No. 4F1108 on page 762.

Illustration shows you the solid gold sheets are placed on these cases. The sheets of solid gold are slightly pulled from the base metal, illustrating our Kingston gold plate made. TWENTY-YEAR binding goes with the different cases listed on this page. TO DOUBLY PROTECT your watch from us, the manufacturer's guarantee is enclosed in each case, our own written guarantee that covers the movement.

GENTLEMEN'S GOLD FILLED 12-SIZE WATCHES, EXTRA THIN MODEL

$6.98 AND UP

The Interstate Chronometer will give you the most accurate time and will outlast any other watch. We recommend it.

$6.98 AND UP

No. 4F13730 Hunting Style.
No. 4F13732 Open Face, screw back and screw bezel, dust and damp proof.
The above illustration shows you the full engraved style Bassene center and floral bird design with engine turning.

No. 4F13733 Hunting Style.
No. 4F13734 Open Face, screw back and screw bezel, dust and damp proof.
The above illustration shows you the full engraved style Bassene center and floral stag design with engine turning.

No. 4F13735 Hunting Style.
No. 4F13736 Open Face, screw back and screw bezel, dust and damp proof.
The above case illustrates a half Juergenson style with engine turning, a case that will not mar or scratch, showing the results of wear. It has been used for hundreds of years and is still one of the most popular styles used.

No. 4F13737 Hunting Style.
No. 4F13738 Open Face, screw back and screw bezel, dust and damp proof.
This case is Bassene style, landscape with floral border and plain polished center.

These illustrations show you the 7 and 17-jeweled 12-size Elgin Movements that we recommend fitted in any of the cases that you select on this page. The 7-jeweled movement is a good one, has exposed pallets, cut expansion balance, Breguet hairspring, polished regulator, display winding work and other up to date modern devices. The 17-jeweled movement is the one that we recommend for an exceedingly accurate timepiece. It has 17 jewels, exposed pallets, cut expansion balance, Breguet hairspring, micrometric regulator, display winding work, patent recoiling click, patent self locking setting device, sunk second dial, true dust band and beautifully damaskeened plates.

We fit these cases with the following 12-size movements. Prices quoted are for the complete watch, movement and case.

	No. 4F13732 / No. 4F13734 / No. 4F13736 / No. 4F13738	No. 4F13730 / No. 4F13733 / No. 4F13735 / No. 4F13737

GENTLEMEN'S KINGSTON GOLD FILLED 16-SIZE WATCHES, EXTRA THIN MODEL, GUARANTEED FOR 20 YEARS

16-SIZE EXTRA THIN MODEL. The 16-size is one size smaller than the regulation 18-size. $5.50 for your choice of these twenty-year guarantee, open face, gold filled cases, fitted with our 7-jewel American made movement, means a record breaking price. Order one and compare it with any watch that any of your friends own that they paid far more for, compare it with watches offered by your local merchant at a much higher price and then if you find that it is not superior in every way, considering our price, return the watch to us and we will return your money. Or, if after you receive the watch you do not find it exactly as we described it, detail for detail, size for size, make and finish, or if for any other reason you are dissatisfied, you can return it and upon its receipt we will at once return your money, together with mail charges.

The Interstate Chronometer will give you the most accurate time and will outlast any other watch. We recommend it.

These illustrations below show you the 16-size 15 and 17-Jeweled Dueber-Hampden Watch Movements. The top one represents their 15-jeweled movement. It is made of nickel bridges, has Breguet hairspring, sunk second dial, patent center pinion, micrometric regulator and bright flat screws; an accurate timepiece and one that we cordially recommend. However, the bottom movement, called their General Stark, is one that we especially recommend for exceedingly accurate time. It has 17 jewels, nickel bridge model, jewels in composition settings, patent center pinion, Breguet hairspring, mean time screws, beautifully engraved and damaskeened, modern in every way and one that will not fail to please you in every respect. Quoted with any one of the 16-size cases illustrated here at $13.70 and $15.95.

No. 4F13741 Hunting Style.
No. 4F13743 Open Face, screw back and screw bezel style.
The illustration shows both styles. The back of the open face is engraved, as the hunting style watch shows.
Regarding the engraving: This is the Bassene style, named Juergenson diagonal engraved Bassene type, copied after a solid gold design.

No. 4F13745 Hunting Style.
No. 4F13747 Open Face, screw back and screw bezel style.
The illustration shows both styles. The back of the open face is engraved, as the hunting style watch shows.
Regarding the engraving: This is the diagonal engraved Bassene type, copied after a solid gold design.

No. 4F13749 Hunting Style.
No. 4F13751 Open Face, screw back and screw bezel style.
The illustration shows both styles. The back of the open face watch is engraved the same as the hunting style watch shows.
Regarding the engraving: This is the Bassene style.

No. 4F13753 Hunting Style.
No. 4F13755 Open Face, screw back and screw bezel style.
The illustration shows both styles. The back of the open face is engraved the same as the hunting style watch shows.

We fit these cases with the following 16-size movements. Prices quoted are for the complete watch, movement and case.

GENTLEMEN'S GOLD FILLED 12-SIZE WATCH

These illustrations show you the 7 and 17-jeweled 12-size Elgin Movements that we recommend fitted in any of the cases that you select on this page. The 7-jeweled movement is a good one, has exposed pallets, cut expansion balance. Breguet hairspring, polished regulator, display winding work and other up to date modern devices. The 17-jeweled movement is the one that we recommend for an exceedingly accurate timepiece. It has 17 jewels, exposed pallets, cut expansion balance, Breguet hairspring, micrometric regulator, display winding work, patent recoiling click, patent self-locking setting device, sunk second dial, true dust band and beautifully damaskeened plates.

OPEN FACE AND HUNTING STYLE

Guaranteed for Twenty and Twenty-Five Years or the Term of Your Natural

BY ALL MEANS SELECT THE LIFE GUARANTEE CASE. The Plymouth Life Guarantee Cases are Guaranteed to wear and retain their solid gold appearance for the term of your natural life.

WHAT WE MEAN BY OUR LIFE GUARANTEE IS SIMPLY THIS:

Any watch case warranted and accompanied by our life guarantee can be sent to us at any time should the gold wear off, exposing the inner composition metal, we will, immediately upon receipt, exchange it for a brand new one, free of all charges, return the transportation charges. This is in reality insuring your watch case for the term of your natural lifetime.

EVERY MOVEMENT quoted on this page is guaranteed against defective material and workmanship for a term of five years. Wherever this guarantee is mentioned in the catalog description we send the watch. Understand, this is a sweeping binding guarantee and protects you against defective material and workmanship.

Gentlemen's Solid Gold Ornamented Silver Watches

LATEST DESIGNS

GUARANTEED SOLID SILVER

12-Size, Hunting. No. 4F13869

16-Size, Hu... No. 4F13...

YOUR CHOICE of either one of these gentlemen's two most beautiful new 12-size or 16-size extra thin model, solid gold ornamented, solid silver cases with gold filled centers, crown, bow and stem, as shown in the illustration. By a system of dotted lines we show the solid gold inlaying, the location of the solid silver, we point out the gold filled center, gold filled crown and pendant and solid silver bow. A watch with solid silver sides and a gold filled center complete, in either size, the new 12-size or the new 16-size thin model, fitted with your own selection of movement.

OWN A WATCH DIFFERENT FROM THAT OF ANYONE ELSE. They are both hunting style; we cannot furnish the open face. They are stem wind and stem set; they both have the new up to date antique crown bow and stem; each one has the inside protecting cap; each one is perfectly finished, no detail has been overlooked; each one surely represents a masterpiece in the watch case making line. We fit either one of these cases (be sure to give us the number of case you desire) with either of the following 12-size or 16-size movements:

7-Jeweled Swiss Movement ..... $ 9.25

SOLID GOLD 14-KARAT 12-SIZE OPEN FACE AND HUNTING STYLE WATCHES

GENTLEMEN'S 12-SIZE, SOLID 14-KARAT GOLD WATCHES

in open face or hunting style. Each one of these watches carries our written binding guarantee as to quality. We warrant them to be solid gold through and through of 14-karat quality, and all of them stem wind and set. THE 12-SIZE WATCH IS THE LATEST GENTLEMEN'S WATCH SIZE. They are built in extra thin models, two sizes smaller than the regular 18-size, one size smaller than the 16-size. They fill a long felt want, because extra thin. They are ideal for carrying. Will not bear down or bulge out the pocket. Yet this size for mechanical requirements is perfect.

GUARANTEED FOR 20 AND 25 YEARS AND FOR THE TERM OF YOUR NATURAL LIFE

WHEN YOU SELECT A WATCH, we advise you by all means to select the best. For a very little more money you can buy the Plymouth life guaranteed watch.

WHAT WE MEAN BY OUR LIFE GUARANTEE is simply this: Any watch case warranted and accompanied by our life guarantee can be returned to us at any time should the gold wear off exposing the inner composition metal, and we will immediately upon its receipt exchange it for a brand new one free of all charge and return the transportation charges. This is in reality insuring your watch case for the term of your natural life.

IF YOU WISH TO EXPEND ONLY A SMALL SUM OF MONEY then select the Plymouth twenty-year guaranteed case. We believe this the best value for your money as compared with any other twenty-year gold filled case on the market. YOU WILL OBSERVE THAT WE SHOW AND DESCRIBE THE MOST REPRESENTATIVE MAKERS, JOHN C. DUEBER, THE ILLINOIS WATCH CASE CO., AND THE PLYMOUTH WATCH CASE CO. YOU CAN MAKE NO MISTAKE IN SELECTING ANY ONE OF THESE CASES.

For 21 cents we furnish a beautiful leatherette presentation case to fit any watch. See No. 4F1112 on page 762.

For 90 cents extra we can furnish fancy dial and gilded hands on any watch on this page. For illustration, see page 762.

25 cents will carry any watch to any part of the United States by express.

LADIES' GENUINE DIAMOND SET, 20-YEAR GUARANTEED GOLD FILLED HUNTING STYLE WATCH

The case as illustrated (showing back view with diamond) is guaranteed high grade twenty-year gold filled, stem wind and pendant set, plain polished.

SET WITH A DIAMOND.

This case is set with a genuine diamond, brilliant and scintillating, in a very handsome raised solid gold star setting. The movement that we fit in this watch complete for $8.26, is a good 7-jeweled Swiss lever movement imported from Chaux de Fonds, Switzerland, the home of watch making. It is a good timekeeper, will give good satisfaction, and, considering the price, is a rare bargain.

The Interstate Chronometer will give you the most accurate time and will outlast any other watch. We recommend it.

No. 4F14180 0-SIZE Genuine Diamond, Small 0-Size, Gold Twenty-Year Guaranteed Complete in Leatherette Case.

No. 4F14176 PLYMOUTH. 14-Karat Gold Filled. Full Engraved. Warranted for life.

No. 4F14178 PLYMOUTH. 14-Karat Gold Filled. Warranted for life. Genuine diamond set. Plain polish.

STOP HERE AND CONSIDER. A genuine diamond set gold filled watch for $8.26! The like has never been heard of before. However, we advocate high grade watches, and we advise, considering the beauty and value of this case, that it be fitted with a higher grade movement. We suggest the 15-jeweled Elgin Watch Co. movement quoted at $14.45. Observe the size of this watch; the very latest small 0-size. Not a large, heavy, unsightly old style one, but the very latest model for ladies' use. **Be sure to order by number, and write plainly the movement you desire fitted in the case.**

WE FIT THIS CASE WITH THE FOLLOWING 0-SIZE MOVEMENTS. PRICES QUOTED ARE FOR COMPLETE WATCH, MOVEMENT AND CASE. ALSO LEATHERETTE PRESENTATION BOX.

LADIES' GOLD FILLED HUNTING STYLE WATCHES

EXTRA SMALL SIZE CALLED THE O-SIZE, GUARANTEED FOR 20 YEARS' CONTINUAL WEAR.

WHAT WE MEAN by saying guaranteed for twenty years' continual wear: You can at any time within this period, twenty years, ...this watch and exchange it for a brand new one of same grade ...any piece or part on account of wear, defective material or workmanship expose the inner composition metal to view. A solid gold case for ...money contains a very little more gold than these, our Kingston gold ...cases, but have not the strength and durability. As a protection to ...watch movement, money cannot buy better than these cases. These ...should and will wear like solid gold for twenty years; we know it. ...so sure of it that we back it up with our twenty-year guarantee.

MAKE IT YOUR DUTY to examine closely all the details of the watch you are buying, look carefully at the designs we show and particularly observe the models, see the new antique crown, bow and stem, note the very thin model, examine the beautiful floral and conventionalized designs, the substantial appearance, close fitting lids and the entire general appearance.

SO AS TO HELP YOU MAKE A DECISION, we illustrate these watches in such a manner that you can picture them in your mind's eye.

...illustration shows you ...solid gold sheets are ...these cases. The ...gold are slightly ...from the base metal, ...exactly how our ...gold filled cases are

IF YOU MAKE THE $13.90 SELECTION, this amount of money expended on one of these gold filled case manufactured, watches would give you the best moderate priced competing twenty-year case fitted with a 15-jeweled Elgin or Waltham movement. This watch is one you could well be proud of; its accurate timekeeping and solid gold appearance make it a marvel of value.

THE KINGSTON GOLD FILLED CASE leads them all as the greatest value for the money. We know of no case illustrated in this catalog that effects a better saving. The Kingston cases are manufactured with a view to duplicating a case that resembles solid gold in every way; in fact, even the designs have been copied from solid gold watches that bring on the market $75.00 to $100.00.

FIVE MODELS OF PERFECTION, five of the most beautiful moderate priced ladies' small size watches selected from hundreds of designs as the very best, and a large variety of movements. You are not restricted; $6.98 to $28.75, according to the amount of money you wish to expend on a watch, Elgin or Waltham movement, or if you prefer to select the movement that we advise as the best value for the money, then, according to the amount of money you wish to expend, select the 15-jeweled Elgin or Waltham movement.

Please read carefully the warrant that accompanies each one of these Kingston cases which is placed behind the inside back cap. Together with this warrant we send our own written binding guarantee.

$6.98 AND UP

$8.65 FOR THIS LADIES' GOLD FILLED ALL AMERICAN MADE HUNTING STYLE BEAUTIFULLY ENGRAVED 20-YEAR GUARANTEED 15-JEWELED WATCH.

A WONDERFUL BARGAIN.

Just think of it, a gold filled 15-jeweled Ladies' watch for $8.65, a watch we guarantee to give satisfaction.

THE SIZE is the common sense size, the size that runs accurately and gives no trouble, exactly as illustration shows. Nothing could be more appropriate, more serviceable as a gift for your wife, daughter, sister or sweetheart; really a $20.00 value anywhere. On account of our special arrangement and our small profit system, now offered at $8.65.

THE MOVEMENT has fifeeen imported jewels, is made of solid nickel, stem wind and lever set; has straight line lever escapement, found to be the best escapement after years of experiment, that is manufactured; and important to know, is made in America. The case is gold filled, manufactured by the celebrated Illinois Watch Case Co. of Elgin, Ill. Beautifully polished, beautifully engraved; has antique crown and bow; has all the latest improvements, the perfect example and pride of their factory at the price. You are doubly protected in a purchase of a watch from us. Together with the guarantee of the manufacturer, which is plainly stamped on the inside of the case, we send you our own written binding guarantee against all faulty material and workmanship of the movement for a term of five years, and twenty years on the case. Be sure to order by number.

[illegible]ES' SOLID GOLD AND GOLD FILLED EXTRA SMALL SIZE AMERICAN MADE WATCHES $10.10 AND UP

Manufactured by the Celebrated Dueber-Hampden Watch Company.

THE TRIPLE 0-SIZE called the 400-size, manufactured by the Dueber-Hampden Watch Co., of Canton, Ohio. Gold filled cases are made of gold filled stock, the outer sheet of gold being of such thickness as to give the watch a wearing quality equal to a solid gold case for a period of twenty and twenty-five years. The solid gold cases are made of 14-karat quality gold; they are gold through and through; each piece and particle of their makeup is of 14-karat gold.

WE WISH YOU TO FORM A CORRECT OPINION as to exactly how these watches appear; to be able to help you to decide and so as to give you every possible view of these watches, we have had one photographed in various positions.

THIS IS AN ILLUSTRATION of the guarantee tag that goes out with the Dueber-Hampden Watch Co.'s watches that they themselves send out on each watch and is attached to the Molly Stark movement as well as the Diadem movement.

LADIES' SMALL SIZE CHATELAINE WATCHES

ILLUSTRATIONS SHOW EXACT SIZE

OUR GUARANTEE INSURES YOUR WATCH MOVEMENT FOR A TERM OF FIVE YEARS. Wherever this guarantee is mentioned in the catalog description, we send it with the watch. Understand, this is a sweeping, binding guarantee and protects you against defective material and workmanship. **MONEY RETURNED,** together with transportation charges, if you receive an unsatisfactory watch from us. When your watch arrives, examine it carefully, and if you do not find it in absolutely perfect condition in every way, exactly what you wanted, return it, and as soon as you receive it we will return your money, together with all transportation charges, if you so desire.

A GENUINE DIAMOND SET GOLD FILLED LADIES' SMALL SIZE WATCH FOR $16.25

No. 4F14950 **The case is plain polished, set with a beautiful regular cut genuine glittering diamond in star design.** Manufactured by the celebrated John C. Dueber Watch Case Co., and guaranteed for a term of twenty-five years' continual wear. The movement is manufactured by the Dueber-Hampden Watch Co., their Molly Stark grade. It is jeweled, stem wind and pendant set, an accurate timekeeper, and one that will give splendid satisfaction. The size is most appropriate for a lady to wear, being one size smaller than the regulation 0-size; not heavy, not bulky, nor so small that it will not keep accurate time. **Be sure to order by number.**

Price **$16.25**

$17.25 FOR THIS ELGIN GENUINE DIAMOND SET, SOLID GOLD ORNAMENTED GOLD FILLED LADIES' SMALL SIZE WATCH.

No. 4F14952 **The works are the genuine Elgin make, stem wind and pendant set, an accurate timekeeper and the very latest up to date model.** The case is gold filled, guaranteed for twenty-five years' continual wear, ornamented on both sides in varicolored solid gold, floral design, and set with a brilliant regular cut diamond in raised solid gold star design. The back of the case is embellished with a beautiful solid gold shield in center for monogram instead of the diamond. The case is built on the Bassene style, tight jointed, has the latest up to date antique crown bow and stem. **Order by number.**

BEAD NECKLACES.

We only sell 14-karat gold and 14-karat gold filled bead necklaces. BEWARE OF CHEAPER QUALITIES. Gold filled and solid gold necklaces made of stock less than 14-karat fine will blacken the neck. We also wish to point out the fact that it sometimes happens through the use of certain drugs, such as sulphur, etc.; or when the perspiration contains a large percentage of salt, any necklace except pure solid gold that is 24-karat fine, will discolor the neck. Be sure to order by number.

No. 4F16414 Solid gold, 14-karat, same size bead as illustration shows, plain bright polish. Length, 14 inches. Price.....$11.50

OW TO FIND CORRECT SIZE OF RING YOU WANT

It is very important when you order a finger ring from us that you send us the correct size, and to help you find the correct measurement so that we can send a ring which exactly fit your ring finger, we give you the following information. We give five different methods below, and we would recommend that you use two of the methods described, further recommend that you send us your measurements according to Method No. 1 or No. 2, which we believe to be the best.

HOD No. 1. If you now own a ring which fits the finger on which you purpose to wear the new ring, or if you do not own a ring your- self and can borrow one from a friend or a neighbor which fits your ring finger, you can ascer- tain the size you will need by following these directions. The circles shown herewith numbered from 00 to 13 represent ring measurements. Place the ring you own or have borrowed which fits your finger over the circles until you find the one that just fits inside the ring, and the number of that circle is the size ring you need. If one circle should be slightly smaller and the next one slightly larger than the inside of the ring fits your finger, this would indicate that you want a size between the two. For example: If size 6 is just a little too small and size 7 just a little large, you will want the size between these two, or No. 6½. This is a most satisfactory method of getting your ring size and we recommend that you use it.

Illustration of METHOD No. 1

HOD No. 2. Cut a narrow strip of paper about one-eighth inch wide, as shown in the illustration Fig. 1, wrap this narrow strip of paper around the finger at the joint (illustration Fig. 2 shows correct position) and cut it off with the scissors where the ends of the paper will exactly meet (illustration Fig. 3). Pin this little piece of paper to your order or place it in a little envelope and attach this envelope to your order and say in your letter that you have enclosed the paper in the envelope and attached it to your order.

HOD No. 3. If you own or can borrow a ring which fits you, a flat or plain band ring, that is to say a ring that has no stone in it, lay it on a piece of white paper, and with a pen, or better still, a very sharp lead pencil, draw the inside circle of the ring and send this drawing to us, either pinned to your order or in a separate envelope pinned to your order.

METHOD No. 4. Take a soft piece of thin copper wire, or even a hairpin will serve the purpose, and wind it around the finger at the middle joint, then twist it together, making a complete ring with the wire and enclose this wire in your order, attaching it to the paper to prevent its becoming lost.

METHOD No. 5. If you have time to wait a few days, write us and ask us to send you our ring gauge, and upon receipt of your letter we will at once mail it, together with full instructions, free of charge.

Figure 1

Figure 2

ILLUSTRATION OF METHOD No. 2.

Figure 3

SPECIAL NOTICE. In ascertaining the finger size by using the strip of paper method, which is Method No. 2, or the wire ring method, which is Method No. 4, be sure to remember that very frequently the middle joints of one's fingers are larger than the finger between this point and the knuckles, and therefore you should be sure to use the middle joint of the finger as the place to take the ring measurement. If you will be very careful in taking the measurements by any one of these methods, we will be sure to have your correct ring size and the ring we send you will be sure to fit your finger. It is very easy to get the ring size by any of these methods, and if you will follow our instructions carefully, we guarantee that the ring you order will fit you.

UINE GLITTERING WHITE TOPAZ STONE SET IN SOLID GOLD RING, STUD AND EARRING MOUNTINGS

WE GUARANTEE THEM

white topaz, mined in Europe, the nearest approach diamond yet discovered. This topaz is a genuine stone in facets the same as a diamond; it has no foil to increase its brilliancy. It will wear and cannot be marred even with a hard tempered file. A gem of this sort has been in demand for years. It will wear your natural lifetime. The illustrations show exact size of stone set in mountings. The mountings are the same as used for genuine diamonds. Own a genuine white topaz jewel, and you will have a gem to be proud of. It is the genuine article; genuine stone, not manufactured, but mined, not cast as glass is cast, but cut as a crystal or diamond.

Postage on any one of the articles on this page, 2 cents; plus 10 cents extra for registered mail.

D FILLED AND SOLID SILVER RINGS.

GOLD FILLED RINGS and how they are made. It will be interesting to you and much more satisfactory before making a purchase of a gold filled ring to konw just how they are made. To start with, a piece of solid gold tube 1½ inches in diameter is taken and the hole on the inside is made perfectly smooth, after which ce of hard, fine composition metal is placed on the inside of the tube so as to fit the opening ctly. Some fine gold solder is now placed in the crevice and the whole is inserted in the As soon as the two pieces are heated sufficiently the solder flows into the crevice, after which ved from the furnace and after it is cold the two original pieces are one. One end of this en hammered and drawn out, so as to make it a little smaller, after inserted in what is called the draw plate, which is a long steel a number of holes in it of such shape as the pieces which it is de- to make. These holes are graduated in size, at one end being very and at the other end small. The piece of material to be worked inserted in the large hole first, and with a pair of tongs it is drawn through; this reduces the piece, when it is again hammered ed at the end to make it small enough to be inserted in the next smaller hole and in turn drawn through this.

THE EDGES OF THE HOLES

so as not to scrape but to press the metal. This drawing hardens the metal to such an extent that after drawing it through several times it would break easily. It is then annealed by inserting it in the fire and allowing it to cool gradually. After the piece has been drawn out to the required shape and size, one end is bent around a steel mandrel until it has formed a circle of the size the ring is to be made. It is then cut off at the proper place and both ends are carefully surfaced in order to bring them together and make a perfect joint, and on this joint is placed some fine gold solder and the ring inserted in a furnace sufficiently heated to cause the to flow into the joint. The ring is then polished carefully on a cotton buff with tripoli and rouge, after which it is ready for the market. If mail or postage on rings, extra, 2 cents, plus 10 cents extra if by registered mail.

Unless otherwise stated, the stones used in the various settings on this page are the finest imitations, the same as are generally used in high grade jewelry

GENUINE RECONSTRUCTED RUBIES, set in solid gold diamond mountings; illustrations show exact size of mountings and exact size of stones. The rubies set in these rings are manufactured by chemists. They respond only to the test of rubies, are just as hard, just the same color, just as brilliant and impossible by every test known to detect the difference, and will wear forever. Many of these rubies have been sold as the natural mined ruby; we sell them for what they are, reconstructed or chemically made rubies.

SOLID GOLD WEDDING RINGS, FINEST MADE, GUARANTEED SEAMLE

NOT SOLDERED. PRICE 25 PER CENT CHEAPER THAN SOLD GENERALLY.

We sell the finest quality manufactured in 10, 14, 18 and 22-karat, and guarantee them in every respect, positively the finest and purest gold used, made from one piece. Being piece, there are no discolorations or marring as in other methods of making when the ring is soldered. The true wedding ring should be a continuous circlet without joint or seam. We cannot fill your order for ring unless you let us know the size wanted. See page 805 for how to ascertain the exact size you want. For engraving rings, see prices on page 760. If mail shipment, postage on rings, 2 cents extra, plus 10 cents if by registered mail.

LADIES' FINE SOLID GOLD SET RINGS. ALL RINGS ON THIS PAGE ARE FURNISHED IN SIZES 5

GUARANTEED SOLID GOLD

WHAT DOUBLETS ARE. So there can be no misunderstanding, we wish to say that doublets are not genuine stones, and where we say ruby doublet, or emerald doublet, or sapphire doublet, we do not mean genuine ruby, or genuine sapphire, or genuine emerald. A doublet is a stone made of two pieces, the top piece or face being a layer of genuine transparent stone or garnet fastened by a certain kind of cement that is unaffected by moisture or wear. High grade jewelry solid gold and gold filled sold by the most representative manufacturers are set with these doublets as described above. **We cannot fill your order for ring unless you let us know size of ring wanted.**

GENUINE Diamonds IN SOLID GOLD SETTINGS

IF MAIL SHIPMENT, POSTAGE ON RINGS, 2 CENTS, PLUS 10 CENTS IF BY REGISTERED MAIL.

WITH EVERY DIAMOND WE SEND A PLUSH COVERED AND PLUSH LINED CASE FOR SAME FREE

SEND YOU A WRITTEN BINDING GUARANTEE with every diamond we sell, guaranteeing that its weight is exactly as stated, that it is a genuine diamond, guaranteeing that you can at any time within one year return any diamond you buy from this catalog and exchange it for any other diamond or article of jewelry at the price without sending us any money, or for any other diamond or article of jewelry at the price by sending us the difference in price.

DOUBLY PROTECT YOU, we further agree that you can return any diamond purchased from us within sixty days of purchase date and have your cash purchase price returned in full, or you can at any time within sixty days and within one year after the date of purchase have your full purchase price returned less 10 per cent. This 10 per cent merely defrays the cost of mounting, etc., but we must caution you that we positively will not exchange, refund or allow credit on any diamond purchased from us unless it is in or with the original setting, and is accompanied by our guarantee and refund certificate that we send with every diamond.

EXCEPTIONS where we do not give our refund and exchange certificate with a purchase: This ruling applies to items plainly marked "No Certificate." On most of our diamond mounted jewelry we quote quality and weight. Quality and weight are not given we do not allow refunds or exchange after goods have been worn.

GRADES OF DIAMONDS.

FIRST QUALITY. These stones are perfect in color, proportion, brilliancy and shape. Specially picked with the idea of selecting the best stones obtainable. Best in every way for brilliancy, shape, color and perfection.

SECOND QUALITY. The second quality diamonds are in every particular the same as the first quality, with the exception of a small flaw or slight shading of color. We will send you either one you may desire—a perfect, slightly off color diamond, or a very white diamond with an imperfection. Most of the diamond rings in this, our second quality diamond, and particularly the ones that have a small diamond are as good as our first quality.

THIRD QUALITY. A third quality diamond is one that is brilliant and well cut, but has some imperfection or blemish and is not as good as our second quality diamonds. Our own third quality diamonds are practically perfect in cut and color. The color may be the same as in our first or second quality. Our third quality diamonds however, never have cracks in them or large, unsightly chunks or pieces knocked out. The same quality that we sell for third quality is sold by some monthly payment houses and by small dealers as first quality stones. These people either buy or sell them as first quality because they are unable to judge diamonds, or they are fully aware of the imperfections and are simply misrepresenting the goods.

COMPARE OUR PRICES with what others ask for genuine diamonds. We sell diamonds on the same basis as we sell the commonest household necessity, on the same small percentage of profit. We take advantage of every economy in buying and selling. Do not understand from these reduced prices that diamonds have depreciated in value; on the contrary, the greatest authorities in the diamond trade of New York, London, Antwerp, Paris and Amsterdam tell us that the present diamond prices are far lower than any prices likely to prevail in the future, and there is an immediate tendency toward much higher prices. The supply is limited, the demand constantly increasing and very soon it will be impossible to fill orders at less than double the prices now prevailing. If you contemplate buying a diamond at all, buy it now.

THE ILLUSTRATIONS of unset diamonds below are slightly exaggerated. We show them merely to give you an idea of the comparative sizes according to weight, how the facets of the stone are cut, and their shape.

THE MOUNTINGS of the diamond rings are all hand made solid 14-karat gold, substantial and perfect, according to design. The value you will receive when you purchase a diamond from us, if you consider the color, perfection and the absolute guaranteed weight that we always send, will in every instance mean a saving to you of 25 to 33⅓ per cent.

WE THOROUGHLY UNDERSTAND our position in making the statement above: we prove it to you when we offer with every purchase of a diamond our written binding guarantee and agreement, which makes it possible for you to buy a stone from us and keep it sixty days, so that you may compare it with diamonds owned by friends, or where you like, and if dissatisfied for any reason whatever, return it and have your money returned, together with all transportation charges. See our guarantee and agreement on diamonds, a copy of which is plainly printed on page 761; or, you can return it at any time within a year and have the purchase price of your diamond returned less 10 per cent. An offer of this kind could not possibly be made unless rare diamond values were given.

WE MUST IMPRESS UPON YOU that brilliancy in a diamond is one of its most important features. When you purchase a diamond, particularly observe its brilliancy. A diamond may be perfect in cut and color, that is, free from flaws, and still be an inferior stone on account of its lack of scintillating brilliancy. We are particular on the question of brilliancy in a diamond, irrespective of size in the various qualities, first, second or third grade. Every one we send out will be found to be a rich, sparkling and attractive gem.

$60 FOR YOUR CHOICE OF ANY ONE OF THESE EXQUISITE DIAMOND RINGS.

No. 4F25003 No. 4F25004 No. 4F25007

The mountings are 14-karat solid gold, bright polish, latest in design. The diamonds are special quality, very brilliant, beautifully cut and regular in every point and weigh slightly less than 3-16 of a carat and are guaranteed larger than ⅛ carat; beautifully spread. $20.00 is the regulation accepted retail price anywhere. Our binding agreement accompanies each one. Be sure to order by number. If you do not find them in every way satisfactory, you are at liberty to return them and get your money returned, together with all transportation charges. Be sure to give size of ring wanted. Price, each.....$13.60

$19.50 FOR YOUR CHOICE OF ANY ONE OF THESE FOUR GENUINE DIAMOND RINGS.

No. 4F25015 No. 4F25016 No. 4F25017 No. 4F25018

The mountings are solid 14-karat gold, the very latest styles; the diamond is of special quality, perfectly cut, brilliant and scintillating, weighs ¼ less $\frac{1}{16}$ carat, generally sold as ¼ carat diamond. On account of a large purchase of this particular size, we are able to make this astonishing price. Our written binding guarantee and refund certificate accompanies each one. They are special grade. **$35.00 is what a ring of this type brings anywhere else.** We call them special quality and special grade because they are better than our second quality, really equal to our first. You take no chance in ordering one of them. If you do not find it to your liking for any reason whatsoever, you are at liberty to return it and have your money returned, together with transportation charges. Order by number. Price, each.....$19.50

Illustrations of unset diamonds are meant only to show the relative size. We show the diamond slightly larger than actual size in order to bring out the details. Each diamond is therefore slightly smaller than illustration shows.

No. 4F25560 No. 4F25562 No. 4F25564 No. 4F25566

The stone weighs very nearly ⅜ carat, is larger and considerably heavier than ¼ carat, perfect in cut and brilliancy, special quality, really as good as our first quality but on account of some slight imperfection, so small, that it would require an expert to detect it, we are offering your choice of any one of them at this astonishing price. Four styles, either ladies' or gentlemen's. The settings are solid 14-karat gold, beautifully finished in every detail. **Be sure to order by number, and do not fail to give size of ring wanted.** Price, each....$36.40

FOR YOUR CHOICE OF ANY ONE OF THESE EXQUISITE ⅜-CARAT DIAMOND RINGS.

No. 4F25570 No. 4F25572 No. 4F25574 No. 4F25576

The stone weighs ⅜ carat (⅜ carat is only ⅛ carat less than ½ carat), is perfect in cut and brilliancy, and is very white. Bought especially for this rare bargain offer; really equal to our first quality, the only difference being some slight imperfection that would require a strong magnifying glass to discover; stones generally sold by the unscrupulous merchants as perfect, and free of flaws. We sell them for what they are at this bargain price, however, with the understanding, that you receive with it our wonderful binding refund certificate, which entitles you to return the diamond and have your money returned, together with all transportation charges, if not found in every way satisfactory. The mountings are solid 14-karat gold, good substantial weight, beautifully polished and latest creations. **Be sure to order by number, and do not fail to give size of ring wanted.** Price, each..$43.00

THESE ARE WONDER VALUES. THEY USUALLY BRING DOUBLE THE PRICE WE ASK.

These articles, with the exception of the two nickel fobs, are all gold plated. We warrant them to give you satisfaction for the price. We sell them for what they are. Do not misunderstand us. They are gold plated; not rolled gold plate, not gold filled and not gold stiffened. Other concerns sell similar articles (in fact, some identically the same) as highest grade jewelry and ask 75 cents to $1.50 for them. We guarantee the value and that they will reach you in perfect condition. Be sure to give the catalog number of each article or set you order. If mail shipment, postage extra on any article or set, 2 cents.

FOUNTAIN PENS AND STYLOGRAPHIC PENS, SOMETIMES CALLED INK PENS. ILLUSTRATIONS SHOW EXACT SIZES

We have carefully and thoroughly investigated the mechanism of all the various makes before listing a fountain or stylographic pen and have selected the pens we illustrate as the most perfect artist. Our pens are nonbreakable; the joints are made a little tighter than other makes. The rubber used is the very finest Para rubber, not scraps and fillings of inferior quality. The especially recommend as being the best of their type. The gold points used in our fountain pens are a little heavier, a little longer and a little thicker than are used in competing brands.

THIS ILLUSTRATION shows you the five different parts of our Fountain Pens, simplest constructed, yet most effective fountain pens manufactured. No. 1 shows the gold pen; No. 2 is the simple flowing feed; No. 3 shows the nozzle; No. 4 the barrel and No. 5 the cap. A child can take it apart and put it together again. Postage on fountain pens, 4 cents extra.

OUR STYLOGRAPHIC, OR INK PENCILS, lead the pen world for quality and price. Twenty to 40 per cent saved on the purchase of any pen illustrated on these pages. If you select a pen from us, we actually put in your pocket 50 cents to $2.50, by reason of the cut prices we are offering, according to the price and the pen you select. We positively save you the entire retailer's profit and some of the jobber's besides. Our fountain pens are made in proportion. When a No. 2 pen is named we wish it understood that a No. 2 barrel is used, and when a No. 4 pen is named a No. 4 barrel is used. Many competing concerns use a No. 2 barrel and fit a No. 4 pen.

THIS ILLUSTRATION shows the different parts of Black and Tan and Tan Teddy Stylographic Pens. Note the spiral stylo, the greatest secret on stylographic pens. Only three parts in a stylographic pen, the most effective pen manufactured; nothing to get out of order.

THIS HANDSOME FOUNTAIN PEN PROTECTOR FREE, With every fountain pen illustrated on this page, we send FREE, without cost to you, one of these patent clips. It is adjustable; fits any pen on this page. By its use you cannot lose your fountain pen or drop it from your pocket. Fountain pen illustrations show actual size.

No. 4F33900 Telescopic Full Gold Filled Easy Writing Nonleakable Fountain Pen. Length, 6¾ inches; it telescopes down to 3¾

This illustration shows the exact size of the pen at its fullest length with cap on top. The nozzle and ink barrel are of the finest Para rubber incased by a fine gold filled cover, pattern, bright polished. The pen point is 14-karat solid gold, same size as illustration shows. The simple noncloggable, easy flowing under feed principle, as used only in the best fountain pens manufactured, is used here. The telescopic principle is something brand new and only recently introduced into this country.

This illustration gives you an idea of the fountain pen pulled out to the full length of the sections.

This illustration shows you the fountain pen with the segment telescoped on to rear section.

This illustration shows you the fountain pen fully telescoped with the nonleakable cap screwed over pen point.

These pens are made especially and only for us, are perfect in every detail and one of the most pretentious yet serviceable and practical fountain pens ever offered. Complete, including plush box, detachable patent clip and filler, together with instructions. Price..... **$2.98**

Stylographic Pens.

No. 4F33902 Stylographic Fountain Pen. Made of black vulcanized hard rubber, tapering to a round point, flow regulated by a steel needle. Does not leak or blot. Each packed in a separate box, with glass filler and directions. Price..... **41c**

No. 4F33904 Pickaninny Stylographic Pen. Smallest size pocket ink pencil. Made of genuine black Para rubber, all polished. Has patent spring spiral stylo. A perfect stylographic pen. Entire length when cap covers point, 3¾ inches. Price, each..... **62c**

No. 4F34002 Our Congress Regulation Stylo Pen or Ink Pencil is made of black, hard vulcanized Para rubber, beautiful engine turned barrel, has latest spring principle, patent sleeve, covered air chamber vent. The stylographic pen is the best and most practical pen made. Writes at once, will not blur or drop ink. Price, complete, with detachable spring clip, filler and cleaner, together with full directions..... **98c**

No. 4F34003 Our Black and Tan Stylo Pen, sometimes called ink pencil. Short size, therefore handy size. Writes at once, will not blur or drop ink. Length, when point is covered by the cap, measures 3¾ inches, and holds a full supply of ink. This pen is made of the very finest black and tan hard Para rubber. The stylo needle is solid gold tipped, has the spring principle stylo, the latest improvement. The stylographic pen is the best and most practical pen made for all around work. Writes like a pencil. Price, complete, including detachable patent clip, filler and cleaner, together with full directions..... **69c**

No. 4F34005 Our Tan Teddy Stylographic Pen, sometimes called ink pencil. It writes like a pencil. We have had this pen made with a view to surpassing anything on the market for quality and perfection of make. We can conscientiously recommend this pen; nothing finer manufactured in the United States of its style. This pen with cap over point is 3¾ inches long, made of the very finest hard vulcanized red Para rubber. The stylo or writing point is gold, iridium tipped, has the latest spring stylo principle, nonleakable, tight jointed, perfect in every respect. It will write at once; will not blur or drop ink. Similar pens are sold elsewhere for from $2.00 to $2.50 each. The stylographic pen is the best and most practical pen made for carbon copy work and general writing. If you want an always ready, not leak or drop ink, neat, beautifully built ink pencil, buy this one. Price, complete, with patent detachable clip, filler, cleaner, and full directions, **$1.19**

No. 4F34009 New Patent Stylographic Pen. This pen is not built on the spring spiral principle. It is built on a plunging weight principle, the weight always bringing the stylo needle to its proper place, preventing clogging or dropping ink. Note the illustration very carefully; do not ask us for the manufacturer's name, you will see this pen advertised throughout the country in various catalogs and journals at double this price. On account of the great reduction in the selling price that we make, we are not allowed to use the manufacturer's name. The pen holder, cap and barrel are of fine highly polished genuine Para rubber. Length of pen with cap, 5 inches; genuine platinum tipped writing point adapted for hard usage; can be used for any purpose for which a pen or pencil is used; can be filled with any good black ink. Price, complete, including patent clip, filler, cleaner and full directions..... **$1.06**

No. 4F34007 Indestructible Fountain Pen fitted with solid gold pen, screw nozzle, will give splendid satisfaction, considering the price. Different from other fountain pens, the cap is made of metal, heavily lacquered. The barrel is made of metal and lined with genuine Para rubber, the nozzle is also of genuine Para rubber. The saving in Para rubber brings about the remarkable low price. For a cheap pen that will give excellent satisfaction we recommend this one. Price..... **46c**

No. 4F34012 The Wabash. Plain case, screw nozzle, medium length, fitted with a No. 2 medium solid gold pen; medium pen only furnished. We guarantee this pen to be equal to any sold by others for $1.00 to $1.75. Price, complete, including detachable patent clip, filler and cleaner, together with full directions..... **59c**

Perfection Fountain Pens.

Absolutely perfect. These pens cost more to make than any other pen sold. All this cost goes into the material and the workmanship, and not into ornamentation. The barrels are hand made. This insures perfect proportions. Of the finest grade vulcanized hard Para rubber. The gold pens are solid gold, extra heavy and extra long, under feed, and the construction and interior mechanism of the highest order. The best fountain pen made regardless of price. State whether you want pointed, medium or stub pen.

No. 4F34016 Fitted with No. 3 (as large as other manufacturers' No. 4) solid gold pen. Price, complete, including detachable patent clip and filler, together with full directions..... **$1.02**

No. 4F34018 Fitted with No. 4 (as large as other manufacturers' No. 5) solid gold pen. Price, complete, including detachable patent clip and filler, together with full directions..... **1.25**

No. 4F34020 Fitted with No. 5 (as large as other manufacturers' No. 6) solid gold pen. Price, complete, including detachable patent clip and filler, together with full directions..... **1.50**

No. 4F34022 Fitted with No. 6 solid gold pen. Price, complete, including detachable patent clip and filler, together with full directions..... **1.90**

Nonbreakable Cap.

No. 4F34010 Our New Wabash, with patent nonbreakable cap; something new in the fountain pen line. The cap has a ferrule of rolled gold plate, as illustration shows, which makes it practically nonbreakable. The cap is the weak point on the fountain pen. The case is perfectly plain and has nonleakable screw nozzle medium length and fitted with a No. 2 solid gold pen. Comes only medium pointed, a pen well selected for general work. Price, complete, including detachable patent clip and filler, together with full directions..... **98c**

The Peerless Gold Mounted Fountain Pens.

The barrels of these pens are hand made and of the finest hard rubber, ornamented with two gold bands. Has patent underfeed and is fitted with extra large gold pen. State whether you desire pointed, medium or stub pen.

Excelsior Self Filling Fountain Pen.

is extra large and made of the best quality hard rubber, fitted with No. 2 solid gold pen, with self feed. The simplest self filling pen made. Price, complete, including detachable patent clip and filler, together with full directions .....

The Ready-Fill Fountain Pen. It's Self Filling.

$2.10

The Ready-Fill Fountain Pen combines all the best features of the older pens with all their imperfections eliminated. Its principal merits are these: First, it is self filling, by a simple pressure of the thumb while the pen is dipped in the ink well. Release the thumb and the pen is filled. It is self cleaning, by the filling and emptying of the pen while in the ink all the parts are cleaned without soiling the fingers. It is the simplest constructed pen on the market. It contains fewer parts and is impossible to get out of order.
The sleeve of the Ready-Fill works on a thread, so that when the pen is filled the sleeve can be turned back until it is closed tight, thereby protecting the ink sack without clumsy projections. The feed is the patent split feed; one of the best feeds known in fountain pens. You never need to jar or shake the Ready-Fill to make it write. It is always ready. The ink sack contained in this pen is guaranteed for three years. The gold points used are especially large and are well made of solid 14-karat gold, with iridium points, ground by experts. Illustration shows the No. 2 gold pen with the No. 2 holder.
No. 4F34138 Ready-Fill Self Filling Fountain Pen with No. 2 barrel and No. 2 gold pen. Price.....$1.09
No. 4F34140 Same style as illustrated above, but with No. 4 gold pen and No. 4 barrel. Small illustration to left shows you the point so that you may form a better idea. Price.....$1.98
No. 4F34142 Same style as illustration shows, but with the No. 7 pen and the No. 7 barrel. Small illustration to right shows pen point and end of the barrel. Price.....$3.00

A Self Filling Jewel Fountain Pen for $1.73.

This is the best Self Filling Fountain Pen manufactured, and the one we advise your buying. It is simple; no complicated mechanism; a child can operate it; will not leak or
Illustration shows how the fountain pen is filled. Pull up the sliding portion of the pen and press at the place indicated, this fills the fountain pen; slide back the upper portion of holder and the trick is done.
The outside barrel is made of hard superfine black Para rubber, highly polished and tight jointed. Each holder is fitted with a full size pen of its number. The illustration shows a full size No. 4 fountain pen with No. 4 pen nib. Our fountain pens are made in proportion; we never use a small size barrel and fit a large size pen into it. Be sure to order by number the size of fountain pen wanted.
No. 4F34144 Fitted with a No. 2 pen. Price, complete, including patent detachable clip and full directions.....

$3.74 is a price unheard of before for a five-year guaranteed set of silverware and is made possible by us only because of our immense purchasing power and our one small percentage of profit system. It consists of six plain handle knives, six dinner forks, six spoons, six teaspoons, one sugar spoon, and one butter knife; twenty-six pieces. This set guarantee that this set will actually wear for a term of five years. Silver plated knives—five years. any store would positively bring double what we ask. Silver plating will in time wear off knives, being silver plated over crucible steel, the silver plating will in time wear off knives, edge. This will happen to the very best silver plated knives on the market. Shipping weight, do not include the knives in this five-year guarantee.

No. 5F780 Price for complete set. Beaded pattern, including case. Shipping weight, 40 lbs.
No. 5F785 Same set as No. 5F780, but in the Tipped pattern. Price, each.

$4.38 Buys a Hollow Handle Knife and Fork Set.

No. 5F535 Silver Plated Hollow Handle Knife and Fork Set. The handles of this set are hollow, made of drawn steel and by a patent process welded by electricity to the blade of the knife or fork, making them as strong as the regular steel handle knife and fork, and still very much lighter weight. They are plated with 12 pennyweights of pure silver and are then hand burnished. Never before has a hollow silver plated knife and fork set been sold for so little. Knife, 9¼ inches long; fork, 7½ inches long. Complete in fancy lined case. Shipping weight, 36 ounces.

Price for complete set.....

$1.98 For Our 8-Pennyweight Silver Plated Knife and Fork Set.

ALASKA SILVERLIKE METAL TABLEWARE

LOOKS LIKE SILVER; IN FACT, IS THE NEAREST APPROACH TO SOLID SILVER YET DISCOVERED. A NEW WARE MADE BY A NEW PROCESS. YOU CAN SCOUR IT WITH A BRICK.

GUARANTEED FOR LIFE

CHEAPEST AND BEST FLATWARE MADE. The Alaska Tableware is not plated, but is the metal through and through, and will hold the same color as long as there is any of the goods left. Do not be deceived by anyone who undertakes to sell you any dangerous imitations of this ware that are sold on the market for more money than we offer genuine. The genuine Alaska Tableware can be had only of us.

ARE TAKING HOLD OF THIS NEW DISCOVERY we left nothing undone to thoroughly test the properties of this metal and to test the same in every conceivable way to satisfy ourselves that it was all that it was represented to be. After having made all experiments, and it stood all tests, we made a contract with the factory to make the goods. It has now been about fifteen years since we began to handle this line, and it has not only proved from experiment to be as represented, but with fifteen years of actual service in the hands of many thousands of our customers, who send us the most flattering recommendations in praise of these goods, and with the rapidly increasing sales, we can recommend it most highly.

THE METAL IS VERY DENSE AND TOUGH, is almost as white as genuine silver, takes a beautiful polish and requires much less care than does silver plated ware.

THE FANCY PATTERN and fancy beaded are equal in appearance and artistic finish to any of the best silver plated or solid silver goods on the market. The immense quantities we handle, and the conditions of our contract direct with the factory, put us in a position to furnish this genuine Alaska Tableware at a slight advance over cost to manufacture.

FOR THIS HANDSOME FANCY PATTERN SET OF GENUINE ALASKA METAL TABLEWARE

Complete Dinner Outfit of Twenty-Eight Pieces in Leatherette Case, Cloth Lined.

GUARANTEED FOR LIFE

Twenty-eight pieces, six teaspoons, six forks, six plain handle knives, butter knife, sugar shell, salt and pepper shakers.

The essential features of silverware are embodied in this set. For wear, there are no limitations; it will last your natural lifetime. For economy it is simply this: You will never need another set of silverware as long as you live. For beauty you cannot imagine one more artistic; it is copied from solid silver pattern consisting of a conventionalized floral design. Free of all cost the handsome case as illustrated; it is leatherette, lined; shipping weight, about 6½ pounds.

PLEASE READ ABOUT THE PROCESS OF MANUFACTURING AND EXAMINE THE ILLUSTRATION BELOW SHOWING SECTIONAL VIEW.

BE SURE TO MENTION PATTERN DESIRED.

OPERATION No. 1—The base upon which the silver is filled, called the blank, is one of the most important factors and is the foundation of the article. Just the correct proportions of the various metals are used, producing a metal resembling solid silver in every way except in intrinsic value.

OPERATION No. 2—This high grade blank metal is rolled to the proper thickness.

OPERATION No. 3—Spoon and fork blanks of various kinds are stamped from this blank metal by a great hydraulic press.

OPERATION No. 4—Blanks to be made into a fancy pattern are put through a hydraulic press process. If the article is to be a plain piece the imperfections, scratches, raw edges, etc., are then removed and a high gloss put on by the polisher. When the article has been rolled, shaped, stamped and polished the piece very much resembles solid silver.

OPERATION No. 5—Now the article is in such a state as to be ready for the silver filling. Every stain, every piece or particle of dirt and oil is removed. The blank is then placed in an automatically adjusted device suspended over the pure silver solution. So that a regular solid silver covering will be placed over the article, it is automatically adjusted and timed. As soon as enough silver has covered the article it is automatically lifted out of the silver solution, turned over to an operator who removes rough grains and blemishes. After this it is once merged in the automatic silver filler and another rich covering of silver is placed over

OPERATION No. 6—After the article has been silver filled, that is, the base metal covered by a very heavy coating of solid silver, a coating much thicker than any ware on the market, it is turned over to the finisher and finished by the burnisher. Burnishing toughens the sheet of silver about the blank.

When ordering Silverware be sure to mention pattern wanted.

SILVER FILLED SILVER is better than any other silverware in inner blank, or composition metal, is grade and the nearest approach to yet discovered. You will have no bent and ugly looking silverware on a little rough usage. The tough metal it. The stamping process under hydraulic pressure brings out the patterns and fancy work better.

MOST IMPORTANT OF ALL, you are securing for your money more intrinsic value than is offered by any other line WE GUARANTEE TRIPLE QUALITY TO GIVE YOU FIFTEEN YEARS OF ACTUAL

$5.68 For This Silver Plated 28-Piece Dinner Set.
REDUCED FROM $5.95.

Made under the Buck patented process. The very newest French gray finish in the Pansy pattern. Illustration on side gives you an idea of its artistic beauty. The Buck patented process of silver plating is a process that increases the wearing quality of silver plated tableware by depositing more silver on the parts that receive the greatest amount of wear, such as the under side of the bowl, the lip end of the spoon top, under side of the handle, etc. **The manufacturer made us a most liberal offer, enabling us to offer this twenty-eight piece dinner set at the actual cost to the manufacturer, with but our one small profit added.**

Set consists of twenty-eight pieces, six swedged scimiter 12-pennyweight burnished knives, six regular size teaspoons, six regular size tablespoons, six regular size forks, one sugar shell and one butter knife, one silver plated salt shaker and one silver plated pepper shaker, a complete dinner set for six people.

FREE. With this twenty-eight piece set we send a fine cloth lined leatherette presentation case, for which we absolutely make no charge.

The pattern is the newest out this season. It is a beautiful pansy pattern; the die work is exceptionally fine, every leaf, every flower brought out in the minutest detail. The handles are finished in French gray, which lends a richness that cannot be described.

No. 5F2208 Twenty-eight Piece Complete Dinner Set, Pansy pattern extra silver plated. Shipping weight, 7 pounds. Price..... **$5.68**
No. 5F2210 Twenty-eight Piece Complete Dinner Set, Pansy pattern, triple silver plated. Shipping weight, 7 pounds. Price..... **7.58**

This illustration represents the exact size of the initial. You can have any initial you desire.

$3.98 FOR THIS 28-PIECE GENUINE ALASKA SILVER-LIKE METAL INITIAL TABLEWARE SET.
CUT PRICE.

Six full size dinner forks, six full size dinner knives, six full size tablespoons, six full size teaspoons, one butter knife, one sugar shell, one salt and one pepper shaker, twenty-eight pieces, in a fine case as illustrated, all complete.

The engraving is free. Each piece comes engraved, according to the initial you desire, except the knives. The knives we cannot engrave. State plainly in your order the exact letter, write it plainly and distinctly so that no mistake can be made. To have a set of silverware engraved with a beautiful large letter alone would cost you $2.00 to $3.00. We will give splendid work. The letter is most exquisite, it will please you and costs you nothing.

The case costs you nothing, provided you purchase the entire set, twenty-eight pieces in all. Should you desire any of the pieces separately please order by number as quoted in the table below. We do not sell less than six at any one time. The case that we send absolutely free of charge if you buy this set is cloth lined, and so built that the pieces can be set in racks, making a very beautiful presentation case, and enables you to keep correct account of all the pieces.

Alaska metal looks like silver. Instead, however, it is a secret composition metal made especially for us under our own formula. The purpose of Alaska composition metal is to imitate solid silver at a fraction of the cost of solid silver. Our Alaska metal is the nearest approach to solid silver yet discovered and equals it for wearing qualities and appearance. It is difficult for experts to see the difference between solid silver and this Alaska composition metal. Our set at $3.98 made in sterling silver would cost no less than $60.00 to $75.00

The knives are better than solid silver. You can scour them with a brick. They are not affected by acid to the extent that silverware is or any of the wear and tear that solid silver and silver plated knives are subject to, and they will take a good cutting edge. You can sharpen them as frequently as you like and never injure them. They will not break by dropping them on the floor as steel knives will, nor are they soft nor will they bend out of shape as solid silver knives will. They will not rust. Can be scoured with any polish.

Our Alaska metal composition tableware is not plated tableware but the genuine article. The same metal through and through, but like solid silver, must not be left for any length of time, twelve hours or more, in vinegar or in foods that contain acid or salt, such as butter, etc.

Understand, they are highly efficient, the same as solid silver, but must not be left over night in any acid foods, fats or grease.

The process in the making of this composition metal is known to us only and the manufacturer who follows our formula. It is necessary for us to buy immense quantities to be able to furnish our customers with this wonderful set for the price quoted, $3.98.

W DEPARTURE FOR US. **On account of a great number of inquiries and seemingly great demand for silver plated tableware at a very modest price,** we have had made for us by one of the largest manufacturers in the country the line we here- quote here is simply astonishing, considering the price. The blanks are made of nickel compound, well silver plated and beautifully finished. **with every set or combination** we send, as illustrations show, a very pretty neatly cloth lined cardboard case. **All pieces full regulation length.** For gifts, souvenirs or personal use where a modest sum is to be expended we recommend this line. Why buy aluminum ware or tin spoons when this genuine silver plated line at the same or even less money?

No. 5F4680 Dinner Set, silver plated. Twenty-six pieces: six teaspoons, six forks, six knives, and sugar shell, all regulation in handsome leatherette covered presentation case. Shipping weight, 15 ounces. Price, per set..... **$3.59**

QUADRUPLE SILVER PLATED on genuine highest grade white Britannia metal.

THE TRIMMINGS, such as the lids, spouts, feet and handles, are all made of the same material as the balance of the pieces.

THE FINISH. Note the beautiful hand engraving on every piece. All made to match. Bodies are all satin finish so as to prevent marring and scratching. The trimmings are all bright hand burnished.

OUR LIBERAL OFFER. Order one of these sets, or any one of the pieces, and we will ship your order immediately upon receipt. After you get the shipment, examine it carefully, then compare it with sets offered by local merchants or owned by any of your neighbors or relatives. If ours does not prove the handsomer set or piece for less money, you are at liberty to return it and we will at once return your money with all transportation charges. Shipping weight, 20 pounds.

$4.15 FOR THE VERY NEWEST UP TO DATE VIATICUM CABINET OR SICK CALL OUTFIT.

MADE ESPECIALLY FOR US OF THE HIGHEST GRADE METAL, SOLID SILVER PLATED, AND GUARANTEED TO RETAIN ITS SILVERLIKE APPEARANCE IF PROPERLY USED.

This Viaticum Cabinet or Sick Call Outfit is the official and rubrical household sacramental service, and is recommended and approved of by the highest in the church. Each cabinet contains a combination silver crucifix 13 inches high, holy water fount and candelabrum. The holy water fount, different from all other founts in combination with crucifix and candelabrum, is detachable and attachable, as are also the candle sockets and crucifix. A silver handled holy water sprinkler and glass bottle with screw top for holy water, two fine beeswax candles, positively rubrical and can be blessed, a linen napkin and a linen communion cloth, a supply of fine cotton used by the priest, a silver plated gold lined spoon cup, two beautifully engraved silver plated plates, the entire outfit exactly as illustration shows in each and every detail. The cabinet itself is made of hard polished wood, lined with purple satin, the front doors hung on hinges, well made, and positively will last a lifetime. Shipping weight, about 12 lbs.

No. 5F8180 Price..... **$4.15**

Very similar set to above in appearance, but with a very inferior case and the various pieces not made of genuine Britannia metal. We advise the purchase of the higher priced set.

COMMUNION SERVICE.

No. 5F7438 Individual Communion Service. Highest grade, quadruple silver plated, bright polish, 13½ inches in diameter, absolutely sanitary, thirty-six glasses, each in silver plated protecting rack. Shipping weight, 15 pounds.

Price, **$10.95**

$13.30 FOR THIS HANDSOME QUADRUPLE SILVER PLATED COMMUNION SET OR ALTAR SERVICE.

GUARANTEED FOR 15 YEARS

For this very small amount of money you can make your minister happy. Nothing could be more appropriate, nothing in the way of a present more thankfully received than this very latest high grade Communion Set. The congregation will be edified, the ceremony more inspiring if conducted with the proper service. We are proud of this set, as it represents the best material, workmanship and general design of any on the market. $20.00 to $25.00 would be a conservative price for a set equally as good as this, procured from any other source. We guarantee this set; you are protected if you buy this one. We know its composition, we know the amount of silver used on it, we know that it is hand burnished, we know the best mechanics have worked upon it, therefore can give you our fifteen-year sweeping guarantee that protects you for this period of time. Shipping weight, 16 pounds. Please read the following full description of the various pieces:

No. 5F7420 Complete Set, as illustration shows, consisting of flagon, baptismal bowl (plain), two goblets (plain), and two plates. Price..... **$13.30**
